A RAILROAD TO BOHEMIA.

Means the Shipment of Much Ore to

Proposed Smelter at Portland.

I. H. Bingham, of this city, who is in-terested extensively in the Bohemia quartz mines, has just returned from there, af-

ter spending several days among the camps. He predicts lively times in that

portion of Lane County on the completion

of the railroad from Cottage Grove. Right-of-way men are now within six

miles of Champion Basin, the propos

terminus, he said, and as soon as the various deals are closed he expects grad-ing to begin. Some little delay is antici-

pated in getting through a portion of the forest reserve, and an attempt is being

made to have three townships restored

to the public on account of their value

The Musick, Star and Helena mines, Mr.

Bingham says, are to be tapped by a series of long tunnels from Champion

Helena is to be 2500 feet long and through

this ore is to be run for shipment to the proposed smelter at Portland. The build-

ing of this 37 miles of railroad from Cot-tage Grove to the mines will therefore

hasten the erection of a smelter, as the ore from the Helena mine is now hauled by wagon to Cottage Grove and shipped

in carload lots to Omaha, going through

A large amount of base ore that can

not be treated by the stamps exists in the Bohemia district, Mr. Bingham says, and a smelter will be needed at Portland to

The proposed railroad from Cottage

Grove will pass through a well-settled

country for the first 30 miles, and, after that, through heavy timber, which will be thus rendered available for market.

A light, uniform grade has been found by the surveyors up Row River, Frank

Brass and Champion Creeks. A new tele-

phone line is to be in operation between Cottage Grove and Champion Basin by De-

The senson has thus far been very mild in that vicinity, no snow having yet fallen

near the mines, and the stage road is in very fair condition. Provisions for the Winter have already been hauled into

camp. The 10-stamp mill on the Helena mine will be worked day and night, all

# IS BOYCOTT LEGAL?

Waiters' Alliance Case Presented to Judge Sears.

**HOW FAR MAY PERSUASION GO?** 

One Side Says Parade of Banners Be fore a Place is Illegal-Other Says Not. If No Violence Is Employed.

In arguing the motion to discove the in-junction in the suit of A. J. Hall, pro-prictor of the Palace Restaurant, against the Waiters' Alliance, M. F. Pike and others, Henry E. McGinn, attorney for the defense, yesterday contended that the injunction is too freely used. He asserted that where the men are doing no act of violence, the present tendency of the courts is to refuse to lesue any injunction. The case was assigned to Judge Sears for

The preliminary injunction order, which was issued by Judge Frazer, restrains the Waiters' Alliance from distributing cir-culars, interfering with Hall's employes and customers, and parading in front of the restaurant with a banner. Mr. Mc-Ginn argued that there had to be actual violence to entitle persons to an injunction. He read decisions bearing upon the question. He said: "In a case in 124th California reports, similar to this, it was alleged that the defendants conspired together to prevent workmen from remain-ing with the plaintiff, and caused circulars to be distributed which injured his busiions. This case was decided by the Su-reme Court in 18th, which held that the complaint must fail." The attorney laid particular stress on the case of Sherry vs. Perry, tried in Massachusetts, where it was held that banners could be carried in front of a place boycotted. He read the decision of Chief Justice Field, who offered a dissenting opinion. The attorney also read the opinion of Chief Justice Holmes in the same case, as follows:

If it be true that workingmen may combine, with a view, smong other things, to getting as much as they can for their labor, just as capital may combine with a view of getting captair may combine with a view of getting the greatest possible return, it must be true that when combined they have the same lif-city that combined capital has to support their interests by argument, persuasion, and the be-stowal or refusal of those advantages which they otherwise lawfully control. I can remem-ber when many people thought that, apart from violence or breach of contract strikes were violence or breach of contract, strikes were wicked, as organized refusals to work. I sup-pose that intelligent economists and ose that intelligent economists and legislars have given up that notion today. I feel oretry condicant that they equally will aluminon the idea that an organized refusal by of social intercourse with a man who shall enter their antagonist's employ is wrong, if it is disassociated from any threat of violence, and is made for the sole object of prevailing. If possible, in a contest with their employer about the The fact that the immediate object of the act by which the benefit to them selves is to be gained is to injure their antag-emist does not necessarily make it unlawful, any more than when a great house lowers the price of certain goods for the purpose and with the effect of driving a smaller antagonlat from Indeed, the question seems to have been settled as long ago as 1842 by the good sense of Chief Justice Shaw.

Mr. McGinn said:

"I understand that during the recent troubles in San Francisco the amining titles to real estate: to manufacture all kinds of abstract books, blanks, etc.; to insure titles to real estate. Mr. McGinn also read the decision of the Oregon Supreme Court in the case of

Longshore Printing Company vs. Howell, in which the court held: A court of equity will not hesitate to issue an injunction for the protection of property rights against irreparable damage by wrong-doers; yet it is always a delicate step to take, and the court ought to be fully satisfied that

some right is about to be destroyed or irrep-arably and lastingly injured, and that the dan-Allegations by plaintiff that the members of a certain trades union conspired to compel him to submit to the union's dictation upon pain of

being boycotted in Susiness; that the union's executive committee entered his premises without license and ordered his employes to strike, and that subsequently the union ordered another strike, both which orders were obeyed:

"The three that the hard field its final report, and calling upon any one to show cause, if any there be, why the report should not be approved and the receiver discharged. Receiver Nixon suggested to the court the propriety of havhat the defendant induced the City Council to reject plaintiff's bid for city printing, threach his bid was the lowest made, and other acts not necessary to here set out, do not show such a continual and malicious persecution of plaintiff or interference with his business as to justify the issuing of an injunction.

Henry, St. Rayner, counsel for Hall, took up the entire afternoon presenting his side of the case. He read from a great many authorities and endeavored to show that a number of the decisions relied upon by Mr. McGinn were cases in which injunctions had been issued. The attorney arged that injunction is the only remedy, where the acts and injury are continuous, as an adequate remedy could not be given in an action at law. He said the courts have decided against the carrying of ban-ners, the posting of placards, or pickets, ners, the posting of pincards or pickets, earth and shockingly injured. He charges intercepting employes and trying to persuade them to quit their employment. He gence of the company, and sues to re-referred to a decision where the court had enjoined placards, which merely requested lasters to keep away from a certain place, and the banners and placards in this case were very much worse. One of them, counsel said, reads: "This house has been declared unfair by the Walters' Alliance

please do not patronize this place, but go rick, Davis vs. Davis, December 6; Holto a union restaurant."

Mr. St. Rayner gave the inscription on the banner, which was even stronger than this, and said the object was to coerce

Trial as follows: Klipatrick vs. Rapatrick vs. Davis vs. Davis, December 6; Holton vs. Thompson, December 11; Wells vs. Davis vs. Davis, December 12; Wells vs. Davis vs. Davis, December 13; Wells vs. Davis vs. Davis, December 14; Wells vs. Davis vs. Davis, December 14; Wells vs. Davis vs. Davis, December 14; Wells vs. Davis vs. Thompson, December 14; Wells vs. Davis vs. Thompson, December 14; Wells vs. Davis vs. Lindsley Bros., January 12. this, and said the object was to coerce Hall and injure his business, and he was entitled to an injunction. The courts can prevent the circulation of a libel. The act displaying banners and devices as means of threats or intimidation was un-lawful, and hurtful to plaintiff. Counset said it was illegal at common law and by statute, namely sections 1893, 1748 and 1897. (These are criminal statutes.)

Section 1850 was read, as fellows: If any person shall by force, threats or in-timidation, prevent or endeavor to prevent any person employed by another from continuing r performing his work, or from accepting any new work or employment, or if any person shall circulate any false written or printed matter, or to be concerned in the circulation of any such matter or induce others not to buy from or sell to, or have dealings with any nal ideas as Jimmie Montague, and also person, for the purpose or with the intent to prevent such person from employing any person, or to force or compel him to employ or discharge from his employment any one, or to falter his made of carrying on his business, or to limit or increase the number of his employment and affects as Jimmie Montague, and also a great many that Jimmie would not be guilty of. Jack Symonds arrived here on the Indrapura from a seven months' tour after his mede of carrying on his business, or the found many funny things to limit or increase the number of his employment. ployes or the rate of wages or time of service. he is exploiting some of them here. he statute provides a remedy?

also been secured by The Fredericksburg inscription, "Republique Francaise"
Mr. St. Rayner answered that it did, but for the week. Her statuary impersonathe reverse side is a shield, with held that it also furnished ground for an injunction. He said: "It is the extraordinary thing a court of equity will restrain—that is, where a criminal act is

injuring a person's business." As a reason for not desiring to invoke the aid of the criminal law, counsel quoted Judge Story, in a case when he said: "He will immediately give ball, will not be tried for a month, and will return to the

man's door and continue the process.' The Longshore-Howell decision, it was urged, does not apply to the present The Longshore case related to past acts, things that had all been done, and the courts will not issue an injunction as to acts that are past.

The other Oregon statutes quoted by the attorney are as follows: If any person shall willfully and wrongfully

commit any act which grossly injures the per-aon or property of another, etc.

If any person, either verbally or by any
written or printed communication, shall threattion, are other interesting articles.

en any injury to the person or property of an Mr. St. Rayner went over a great deal

will have to travel long distances to vote. In the country precincts there were about 2000 votes cast at the last election, of

which about 1400 were Republican votes,

An easy way out of the dilemma would be to increase the number of road super-

visors to 26, and there appears to be no

other solution of the problem.

But 25 road supervisors are not re-

quired. The wages of a road supervisor are \$2.50 per day for every day he works, and every road supervisor manages to get

in all of the working days in the year,

and 26 would probably be able to do this

just as well as 11. This would increase the

expense for road supervisors very consid-

erably, or about \$11,625, and the super-visors would have a very easy time.

County Commissioner Showers, speaking on the subject, said: "It is bad every way you take it. We are up against a

brick wall, but we are trying to figure it out." It is understood that the present

plan is to map out 13 election precincts

in the county, and increase the number of road supervisors accordingly. A well-known attorney said: "A matter of con-

contence won't justify setting aside a

law; it must be against public policy, or

cedure to adopt in the matter of the elec-tion of road supervisors under the new law, which provides that "each road district shall be wholly within one election precinct." There are at present but ill road supervisors, and this would make After nearly half a century a soldier of France in the Algerian campaign of the late '50s, who has been a resident of only II voting places throughout the county outside of the city limits, as the Australian ballot law provides that there Portland since 1879, has been rewarded for distinguished service and exception-al bravery in defending a wounded comshall be only one polling place in each election precinct. Formerly there have been 28 polling places and election prerade against a horde of savage Arabs, thereby saving the man's life. The deed of valor was performed in cincis in the body of the county, and, if there are only II next June, many voters

1857, when the French were engaged in subduing the Kabily country, and but re-cently M. Scheydecker, the recipient of the honor, has had conferred upon him the Medaille Coloniale by the French Government. The decoration carries with it a pension if Mr. Scheydecker lived in France, but he long ago renounced his allegiance to the tri-color, and is now a citizen of the United States, and prefers to stay here and forfelt the pension. In the year 1857 France sent 40,000 men into the Kabily country, which lies along the Atlas Mountains, to conquer the no-

M. Scheydecker, owner of the medal

madic Arabs and add the country to the French colonial possessions in Africa. Scheydecker, then a young man, who had already proven himself a good soldier was with the Zonaves, in which he had enlisted in 1849. With a comrade he was terday for the Lawyers' Title Company; noorporators, H. H. Northup, Alexander on an outpost in advance of the main body. The country was under cultivation, and each little garden was surrounded by Bernstein, Charles H. Carey, Benjamin I. Cohen, W. L. Boise, Earl C. Bronaugh, Cecil H. Bauer, Miller Murdock, George a bamboo hedge, which furnished an ex-cellent screen for the Arabs.

One of their sharpshooters potted Scheydecker's companion in the knee. there suddenly appeared from their ing places a score of Arabs, armed with spears and rifles, intent upon killing the wounded man. Scheydecker defended the Chester V. Dolph, Richard Nixon, E. E. Hull, Joseph W. Schnabel, Charles J. Schnabel, A. L. Venzle and Martin L. helpless soldier valiantly, receiving spear thrusts and several bullet wounds, which fortunately were not sufficiently serious to disable him. The Captain of the conpany to which the men belonged sent a squad of soldiers to the rescue, and they succeeded in beating the assaulting party off and carrying the wounded men back

To this day Mr. Scheydecker bears marks of wounds received in the fray. In 1858 his term of enlistment expired, and he returned to Paris, and thence to his native Alsace, where he was engaged as a landscape architect until the out-break of the France-German War. He served until the close of hostilities. When Bismarck wrested Alsace and Lorraine from France, Scheydecker left his home the Portland Savings Bank, was taken up yesterday in the State Circuit Court, and a hearing upon it was set for Tues-day, January 14, 1902. The receiver was

and went to Paris, rather than live under German rule. In 1878 Oregon was represented at the World's Fair, held in Paris, by a comprehensive exhibit of the resources of the state. Mr. Scheydecker was attracted by the amazing array of products, made in-quiries as to the country, and in February, 1879, came to Portland, and has lived here continuously ever since. The French Government, through its successive Ministers of War, has endeavored to confer upon all soldiers of the Algerian campaigns, who deserve the honor, the sionial medal. Mr. Scheydecker's restdence was but recently learned by authorities, which probably accounts for

the retarded reward. The medal is suspended from a tri-color

BONDED FOR \$100,000.

The Club Journal for November is brimful of bright and timely thoughts for Magnolia Group of Mines Taken Over for Pittsburg Capitalists.

The Magnolia group of gold mines in the Granite District in Eastern Oregon has been bonded for \$100,000 by L. Y. Kendy, of this city, who is acting for Pittsburg capitalists. The group includes nine claims, and is in the center of a district that has a large number of profitable prop-

one-half miles from Granite, and have been worked for some time. The expert who examined the property reported that there was ore in sight worth \$26,000. The who examined the property reported that there was one in sight worth \$250,000. The core is partly free milling, a certain percentage requiring extraction by the concentrating process. The mine is already

equipped with a 10-stamp mill, concentrators and other machinery, and active operations will be begun within 60 days.

Mr. Keady has also purchased the New York group, in the Red Boy District, from J. C. Martin and W. W. Riordan, for \$500. These mines were also purchased for Pittsburg investors. Mr. Keady predicts considerable activity in Eastern Oregon mining districts during the coming LIQUOR SOLD TO BOYS

Hand and Saloons Will Have to Be More Careful.

several drinks of whisky obtained from saloon on Union avenue, south of Russell street, a few days ago, is at the home of his parents, 743 East Ninth street, North, He is the son of Henry Fisher, who is absent from the city. The little fellow was seen yesterday. He has entirely recovered from the effects of his spree. The boy said there were four in the party-his brother, Raymond, Harold Stark and Dicky Follett-and that they had no dif-ficulty in obtaining the liquor. Carl bought it in a bottle. Dicky Follett, one of the party, lives a short distance from the home of the Fisher boy. Just at present he is taking an enforced vacation from school, having been suspended for truancy. He was seen yesterday at his playhouse, which he has just finished. He does not appear to be a bad boy. In speaking of the affair he said that the Stark boy said that whisky was like candy, and they concluded that they would try some. Dicky said that he did not get any of the whisky, but that Carl and Harold took the bottle and helped themselves. Dicky said they got the whisky in a saloon on Union avenue, and that the bartender very promptly gave

overed the condition of the Fisher boy and sent him to the police station, said yesterday the Chief of Police had issued strict orders to all the patrolmen that no ilquor shall be sold to any one under 20 years of age, even if provided with an order from the parents. There will, he sald, be no exception made. At most of the saloons, especially in the outskirts, children with orders from their parents have been sold liquor. The order was is-sued after the Fisher boy came near dying, and is being generally obeyed. The and want it strictly enforced.

TO WIDEN MILWAUKIE ROAD. Property-Owners Offer 10-Foot Strips

From Milwaukie to County Line. Richard Scott has offered to donate trip off his land for the widening of Mil vaukle road from Milwaukle to the Multnomah County line. The owners of property on the other side of the road are willing that the road should be widened, and will give a strip on that side will make 10 feet on each side, and make an 80-foot roadway. If the boulevard commission finds it cannot get through the golf links to Milwaukie, they may swing the route of the boulevard around toward the eastward and make connec tion with the Milwaukie road at the Clackamas County line.

The golf people, it is stated, have now secured the Lambert tract. The boulevard ommissioners are still hopeful that they tended through their ground to Milwaukie,

To Celebrate Starting of Woolen Mill The Sellwood Sub-Board of Trade will roceed with arrangements for celebrating the starting up of the Portland woolen mill. It had been the intention to have the affair take place in the factory building, but unless a bridge can be built ss Crystal Springs Creek, it may have to be held in the public hall at Sellwood.

often," remarked the Judge.
Then Jaller Roberts said: "This man is no good for anything, except getting drunk. We would not trust him to sweet out a room. All he cares for in life is a place to sleep, two meals a day, and

cases similar to this in the near future We will have an ordinance framed to make such men as this one go to work.

FOOD FACTS.

How Properly to Feed the Body. Physicians nowadays realize how necessary it is that the food contain the right elements that the body requires to rebuild itself, and replace the loss that occurs each day from activity and en-

If one lifts an arm that means th expenditure of a small amount of energy, and the burning up, so to speak, of cer tain deposits from the food. This means a certain loss, and this loss must be made up each day from food. If the food does not contain the things required, na-ture hoists a flag of distress; aches, alis. sickness of some sort sets in, meaning that there is something lacking in the

The reason physicians so generally advise the use of Grape-Nuts Breakfast Food is that they know from what it is made and what it contains. The medi-cal journals in various parts of the world have given the analysis. The famous London Lancet went so far as to make a very careful analysis by its own chemist. Its remarks are worth repeating.

"The preparatory process undoubtedly converts the food constituents into much more digestible condition than it the raw cereals. This is evident from the remarkable solubility of the preparation, no less than one-half of it being solubi in water. The soluble portion contains chiefly dextrin and no starch. According to our analysis the following is the proportion:

olsture ineral matter Fat 15.00 per cent Soluble Carbohydrates 15.00 per cent Soluble Carbohydrates 15.00 per cent Unaltered carbohydrates 15.97 per cent Unaltered carbohydrates 15.97 per cent Unaltered carbohydrates 15.97 per cent Unaltered carbohydrates 15.00 per cent Soluble Carbohydrates "The features worthy of note in this analysis are the excellent proportion of proteids and mineral matter, and soluble

"The mineral matter is rich phosphoric acid. Our analysis shows that it is a nu-tritive of high order, since it contains the constituents of a complete food in the right proportions, and in an easily assim-Notice the carbohydrate total is about

75 per cent. These produce energy and warmth. The phosphoric acid in the min-

eral matter comes, as do all of the other ingredients, from the field grain, not one particle being introduced as a drug. Physicians know that the soft matter in the brain and nerve centers throughout the body are made from the ments of albumen acted upon by phosphate of potash. Albumen is a very mon article in almost every food, phosphate of potash does not exist in all oods, nor is it found in easily digestible orm always. However, in Grape-Nuts form always. these elements exist, and are presented to the body in an easily digestible form, and explain the reason why users feel the

WEATHER CONDITIONS. Moderately heavy rains have fallen during the last 24 hours in the North Pacific States and in Northern California, Nevada and Utah. The conditions continue unsettled on the Pacific Coast, and the rains in this district

will continue another 24 hours.

The Willamette River at Portland is rising, and at dusk Monday had reached a stage of 6.8 feet. At Eugene there has been a rise of 5.0 feet during the last 24 hours, and at 8 A. M. Monday the gauge reading was 11.4 feet. It is probable that enough rain has already fallen to cause the river at Portland. to rise two or three feet more, make the stage about 0.5 feet by Wednesday or Thursday.

WEATHER FORECASTS. Forecasts made at Portland for the 28 hours rding at midnight Tuesday, December 3: Portland and vicinity-Occasional rain, with

n east portion; southerly winds. Washington-Occasional rain; winds mostly and colder in south portion; south to west
