This section of the statute would prob-ably reach Edward King, who testified that Wade and Dalton loaded the guns in his room in his presence, and that he knew they were going out to do a holdup job. King did not notify the authorities of the fact, and his only excuse was that he was afraid of Wade. Martin, who was also mixed up in the affair, denied on the witness-stand that he knew any-thing about Wade and Dalton going out to hold up people; so the case against Diartin is not so strong.

The law allows two days after conviction before the passing of sentence, or until the usual motion for a new trial has been disposed of. #### THE JURY KEPT TOGETHER.

#### Judge Will Not Allow Them to Separate in Important Case.

In the case of Thomas J. Brown and B. W. Maddox vs. the Oregon King Mining Company, now on trial in the Federal Court, counsel for the plaintiffs yesterday presented testimony to establish their contention that locations made on the disputed mine prior to January 31, 1839, wernot valid and in accordance with law,

Among the wlinesses examined on behalf of plaintiff yesterday were: T. J. Brown, B. F. Wilhoit, Anna Brown, F. Berning, T. Hennegan, James Ward and Mits Sadie Warren. The evidence brought out for the plaintiff was in substance that Brown, one of the plaintiffs, discov ered and imperfectly located the mine in 1897; that Wilson, under whom the defendants claim title, made an invalid lo-cation in 1898, and that Brown revisited the mine and located it according to law in January 1899.

In January 1889. Despite the protest of W. T. West, of Tillamook, Judge Bellinger issued an or-der that the jury be kept together, and the members are being cared for at the Portland Hotel. When Attorney John M. Gearin, for the plaintiffs, made a motion that the jury be kept together, Mr. West protested, on the ground that such a sug-gestion was a reflection on the integrity of the jurors. Judge Bellinger told the

He said that no addition to the Brooklyn Schoolhouse should be considered that did not include an assembly-hall, and the plan showed how the addition could be built to in-clude one. Mr. Nelson said that there was no use to ask for this addition, for his experience had been that to ask was to invite refusal. He said that the only way to get the addition to the school-house would be for 300 taxpayers from that end of the district to attend the next general school meeting and vote a tax sufficient to get it. In this the meeting coincided. The matter will be taken again at the next meeting of the

Removal of Sister Germain

BAKER CITY, Dec. 11.-(To the Editor.) -In The Oregonian of the 7th inst. there appeared an article referring to the hospital controversy in Baker City in which there was an attempt to show that Father Desmarals was the prime mover in this matter and had caused the removal of Sister Germain. It is well known in Baker City, however, that Sister Germain was removed at the request of a great majority of the medical profession here who were dissatisfied with her manage-

ment of the hospital, and that their dis-satisfaction existed long before Father Desmarais ever resided in Baker City. Under the new management, a new staff has been organized and the hospital ex-pects and will get the patronage of all of the physicians in the city, which it never had under the former management.

TWO ARRESTS IN OMAHA.

W. H. Woods and Mrs. True Johnson Caught With \$3000 in Jewels.

OMAHA, Neb., Dec. 11.-W. H. Woods and Mrs. True Johnson, both colored, were arrested here today, charged with being implicated in stealing diamonds and jewelry valued at \$10,000 from Albert F. Lowenthal, in the Portland Hotel, November 17. The jeweiry was traced by a local pawnhroker, who had received a printed circular descriptive of the stolen property, to Woods and his companion, and they were found in the eastern part of the city. When arrested there was found in their possession \$3000 worth of diamonds and jeweiry, raliway transportation to Portland, and a check for \$300, which had been given by the pawnbroker in exchange for a diamond brooch.

The woman denies all knowledge where the jewelry came from, and W refuses to talk. Last Monday the John-

son woman called at the office of a Doug-las-street pawnbroker with a brooch, on which the broker made a loan of \$200, for which amount he gave his check. The woman gave her address and left his of The fice. He then examined the brooch and found it to be identical with the first article named in a printed circular be

had received describing the jewelry stoler from Lowenthal. He immediately notified the police and two detectives were detailed to call at the address given by the woman, but found no one there. They made a second call with more success, They found both Woods and the woman
