COMMERCIAL AND FINANCIAL NEWS

Business yesterday was brisk in all jobbing departments. Although the full tide of Christmas Irade keeps up to the usual high mark, merchants report a slacker demand in a few lines, due to the near approach of the holidays. Wheat, in striking contrast with last week, shows little trading activity. Groceries rule cally in obtaining accommodations at the presented of the commodation of the carrying over of loans until Mondon, which is the contrast with last week, shows little trading activity. PORTLAND MARKETS. Grain, Flour, Etc.

Wheat prices just about held their own yes-terday. In the East, the cereal scored a small advance, but distance absorbed the gain before it reached the Northwest. Quotations were largely nominal, owing to the estrangement etween buyers and sellers. Many growers are disposed to hold for an even 50c in the country, a figure which exporters are at present both to approach. The top price yesterday in the Portland market was quoted at 60c for Walla Walla, and some dealers got under that figure. Exporters seem content to wait a while. They axporters seem content to wait a while. They have plenty of the cereal for immediate purposes, and desire their tardy ships to come to port rather than to buy more grain. Preights are not so peremptory as they were a few days ago. The spot ship Fulwood is reported to be easing away from its first demands and to be offering under 39s. The two ships which a rived yesterday were very welcome. Outs and barley remain steady, the latter strong. Ship-ments of grain Eastward are made in large quantities. Receipts of wheat continue heavy. NEW YORK STOCK MARKET.

Ensier Call Money Rate Gave Impetus to Business.

NEW YORK, Dec. 12.—Stocks scored quite a otable recovery in today's market. The marnotable recovery in today's market. The market was very irregular during the early part of the day, and distinctly weak in spots. This was due to the uneasiness coming over from provinces. The New York cables were also de-

lost from 1984 points.

The preliminary figures of the week's movements of cash promised a loss of upward of \$6,000,000 for the banks, but the easier tone of the money market helped to a more hopeful sentiment over the future. In the late strength of the market, gains of 162 points were established among the local tractions, trunk lime, coalers, both hard and soft, Southwesterns and a number of medialities. General Electric rose points. Aunilgamated Copper fluctuated reversibily on the announcement of the open aut in the price of raw copper. The stock rose to OSE at one time, and was near that point several times. The low price was 60%, and it closed only it higher, at a net decline of 1%. Bonds were irregular and only moderately Bonds were irregular and only moderately active. Total saids, par value, \$2.505,000. United States bonds were all unchanged on the

Chicago Grain and Provisions.

CHICAGO, Dec. 13.—Wheat crept back slowly into the Ses today. The absence of Liverpool cables and the heavy fall of snow and rain throughout the country kept the telont guess-ing. London was rather weak, and, though the Winter wheat belt got a good sonking, the approach of bilizards was much feared. Other conditions early were bearish. The cash armond was slow, receipts were liberal, and idearances mail. St. Louis reported a good Continental inquiry, but in general the early trade was of the selling kind. May opened unchanged to be up, at 79150709c, but scon sold down to 79c. At this price shorts covered freely, and some of the professionals began to acquire lines of long wheat again. The weather report frightened present holders, and trade toward the close became brisk. Prices railled well, and May advancd to Solic, closing strong, fee higher, at Solic.

Under the treatment pursued before irrigations were established six weeks was deemed the duration of an acute contracted disorder. If it proceeded beyond six weeks it was considered to have gone past five years, covering over 6500 cases, we can show that 30 per cent of our patients have recovered in 14 days or less It is, therefore, equally proper to hold that a case not entirely cured within two weeks must be considered a chronic one, and some complication has arisen for which the patient should see a specialist. We invite free consultation on this subject, and offer an experience of over 20 years; in fact, we can positively assert that we have never failed to cure in a single instance.
