Another Storm in Nebraska and Almost Equal to the Great Bliszard-In Other States.

PHILADELPHIA, Dec. 18. - Advices from all sections of the eastern half of Pennsylvania, over which area Saturday night's storm raged furiously, are to the effect that the waters covering the flooded districts are receding, and that railroad and telegraphic communication are slowly being restored. From Towarda tonight comes the announcement of three deaths caused by the flood near that town, and the additional statement that two others will die from exposure. The damage to property and the pecuniary loss from en-forced suspension of many industries will reach many hundreds of thousands of dol-lars. Dozens of coal mines are flooded, along with hundreds of industrial concerns, thus throwing idle thousands of men. It is estimated that more than 40,000 persons have been rendered idle. The rail-

way system is gradually becoming better. Tales of narrow escapes from drowning come from all the flooded districts, hun dreds of families in little hamlets have been deprived of their homes for the time being by swollen streams, and the cold weather that has set in adds much to the

Another Storm and the Worst Since the Great Blizzard of 1888.

OMAHA, Dec. 16 .- Another storm struck Northern and Western Nebraska this afternoon, and in some parts of the state is the worst experienced since the great blizzard of 1888. The most serious reports come from along the line of the Fremont, Elkhorn & Missouri Valley Rathroad. which traverses the length of the state along the northern border. From along the line of that road, and as far west as Casper, Wyo., come reports of a heavy fall of snow, accompanied by a blinding wind. Several trains are tied up in the western part of the state.
At Lyons, 25 miles north of this city,

John Gunderson was frozen to death. In this city, the weather began to mod-erate last night and continued mild until noon today, when the temperature began to fell again, and tonight it is 19 degrees

Bids Fair to Become a Blizzard. LINCOLN, Neb., Dec. 16.-A storm of great severity that is sweeping over Southastern Nebraska tonight bids fair to become a blizzard before morning. Some snow is falling. This is the fourth day of intense cold. Reports from the range country indicate no heavy losses among stock on the ranches, but, owing to he number frozen to death en route, shipping will be abandoned until the weather moderates. T. F. Garnett, living near Trum-bull, was frozen to death while looking after his cattle.

## IN WYOMING. Storm Has Increased to a Blizzard-

Railronds Still Open. CHEYENNE, Wyo., Dec. 16.-The storm that set in last Tuesday night has inereased to a blizzard and at many points in the state business is almost entirely spended. The rallroads are keeping their

lines open with snuch difficulty.
Reports received from the ranges in Southern Wyoming tell of the demoralization of the sheep business, flocks being scattered in all directions and the herders dead and missing. Many conflicting re-ports of the loss of life are being received, but certain it is that no one could live long out of doors in such a storm as is now raging throughout the state, and when It is expected that bodies of dead berders will be found at numerous points of the Red Desert country, where a number of flock tenders are now reported missing. Reports from the ranges say that the present storm is the worst that ever visited this section of the country, and that if es for another 24 hours the losses

In Atlanta two deaths attributed to the cold, both of the vicgave permission Sunday for coal and wood yards to open and serve the suffering public. The temperature at 4 o'clock this morning was 9 above zero, the coldest recorded for December since 1882. Freezing temperatures were reported this morn-ing in Northern Florida, as far south as Jacksonvile, and from 6 to 16 deg, below freezing in Southern Alabama, Georgia and Louisiana.

The Florida orange belt is believed to have escaped damage, as a temperature of 40 was reported from mid-Florida and 64

Sudden Drop in Temperature Avert-

ed a Record-Breaking Flood. PITTSBURG, Dec. 16 .- The crest of the lood and the lowest point touched this Winter by the mercury were both regis-tered at 8 A. M., when the Smithfield-Street bridge marks showed 25 feet 8 inches of water in the Monongahela River, and the Government thermometer indi cated 5 degrees above zero. The rivers are now falling and the temperature is steadily rising. Only the sudden drop in the temperature averted one of the great-est floods in the history of Pittsburg. As it was the lowest parts of the Point district and Duquesneway and lowlands along the Monongahela River, south side, were submerged. An Allegheny the river front was entirely under water. The cel-lars in many houses were flooded and

people were compelled to move. For the rivermen and dwellers along the river banks of Pittsburg and Allegheny it was the most fearful night experienced in many years. Similar conditions have been practically unknown to this generation. Hundreds of men toiled all night with the gigantic coal tows tied up to the land-ings on both sides of all three rivers, in the face of a bitterly cold wind. Drenched at times with the splashed foam, their clothes froze on them immediately, and the suffering was great.

Communication Being Restored. SCRANTON, Pa., Dec. 16.—Communication with the outside world is being gradually opened. At 1:40 P. Deiaware, Lackawanna & Western got its road clear from Binghamton to New York at daybrenk with the exception of the stretch at Delaware Water Gap, where the Delaware River had flooded the tracks to the depth of five feet. POTTSVILLE, Pa., Dec. 16.-The flood which visited the Schuylkill Valley yesterday has receded and is now below the danger mark. Orwigsburg, Minersville, Middleport and St. Clair have been cut off because of destruction of the roadled. Nearly every colliery in the district was forced to suspend work because of the flood, and all the mules in the Pine Hill, Duncott and Bast colleries at Ashland were drowned.

Joseph Curry, a Philadelphia & Reading railroad brakeman, alighted from the Buf-falo express on the Reading tracks yesterday, and has not been seen since. It is feared he fell into the Schuylkill River and was drowned.

Many houses in that locality were surrounded with water, and it was necessary to use boats to carry food and fuel to many residents who were unable to leave their homes. The damage, however, will be very slight. It is expected that the water will recede during the next 48 hours, and that the fucforles will be able to resume operations,

Co., the Chamber of Commerce and other institutions that make it a business to disseminate information. At this time the particular inquiry is about land-Government land, state land, land that can be nomesteaded, land that can be taken up under timber or desert land laws, mineral land, any kind of land so long as i is land and is in Oregon. The New Year's edition will aim to answer all these ons, for it will contain the intest obtainable data about land and its lova-

It always has been the purpose of The Oregonian to have every county in Oregon represented in its annual numbers, but for some reason or other it was not sle to get the write-ups to hand in time. Storms would delay the mails, or some accident would contribute to keep out one or two counties. This time all the counties are in, and it will make no difference what part of Oregon the intending settler in the East would like to know about, he will have the information before him. Lakewise Southern Washington will be fully represented; also Idaho. The general Idaho article is by M. S. Parker, editor of the Caldwell Chronicle, while E. H. Libby, of Lewiston, handles the rich Lewiston region, Other features of the New Year's number will be: 'The Willamette Valley," by S. M. Yoran, of Eugene.

Regarding Drs. Copeland and Montgomery's Ability to Cure... Take Nothing on Faith --- Investigate for Yourself and Be Convinced.

To convince the public that we are working real cures upon real people, only one kind of evidence can be accepted, and that is testimony which comes from patients who may be interviewed, who are honest, who are grateful, who are sincere, who are anxious to help their fellow men. Such testimony has been appearing regularly in these columns for the past 10 years. It is enduring proof that Doctors Copeland and Mont- a perfect and radical cure." gomery are really curing - not

merely improving and benefiting nione, but curing disease. Rend in such cures a part of the record of their wonderful skill. They can cure disease. They are doing it every day. They are making the sick well. They are curing the cough that racks the chest with distress. They are soothing those cramping. shooting pains of body and limb. They are driving out polsons from the blood. They are stopping that nervous fear and trembling. They are restoring the sense of hearing to ears that have long been dead to

a town on the Caribbean coast called Nombre de Dios, brings news that Co-

lombian Government troops, to the num-ber of 76, who left Colon a fortnight ago for Viento Frieto, had an engagement

with the Liberal forces at Nombre de Dios last Friday. The Liberals numbered

250 men, chiefly recruits from along the

coast. They were badly armed, the ma-jority carrying nothing but machetes. They were well intrenched, however, at

Nombre de Dios. A bloody engagement ensued, in which the casualties on both

sides amounted to 18 men killed and 40

wounded. The government troops succeeded in carrying the intrenchments and driv-

ing the Liberals out of the town back on
