THE MORNING OREGONIAN, THURSDAY, DECEMBER 19, 1901.

with any person, or so alter his mode of carry-ing on his business, such person shall be deemed guilty of a misdemeanor. This and other statutes were invoked in the Longshore case, and of that the Supreme Court heid, "In one instance the men guilt under an order from the executive and the

CHBC.

system.

this case:

liance-is false.

order from the executive committee, and the other in pursuance to a resolution of the er in pursuance to a resolution of the on. No untimidation is specifically alleged, shown, unless it can be inferred that by a neal to quit the members of the union would duet themselves to the charge of insub-lation to the order."

here intimidation is charged, but enmity of the Walters' Alliance and kindred orders compliance of their dictates; but, if I am compliance of their dictates; but, if I am wrong in this view, the statute furnishes a speedy and adequate remedy. In the Longshore case, the court seems to have recognized the fact that the company was subjected to much annoyance and vicious harassment, and seems to have recognized that it had been ill-treated perhaps justifiably, perhaps unjustifiably. S-with this case, the defendants may have vic Must this case, the originality may have vo-lated the provisions of the law, even of the criminal law. My opinion upon that subject is not invoked. It does not appear, however, that an effort has been made to secure the aid of the authorities, although in the matter of

the authorities, although in the matter of blocking up of the sidewalk in front of his premises, if there is a violation of the city ordinances, an application to the police should furnish a sufficient remedy. As to the economic question involved, I am without cpinion, nor is it urged by either side that the court can regulate or judge of that. Countless instances of destruction of business by the force of competition, within legal har-riters, at once occur to the mind, and this is the basis of the dogma of one school of econ-omists that all competition is vicious. But the law calls this damnum absque injuria (a loss without an injury). Undoubiedly, in some jurisdictions this plain-

Undoubtedly, in some jurisdictions this plain-tiff would be afforded the remedy he seeks herein, but a careful examination of this case fails in, out a careful examination of this case tails to disclose any single act which was not pre-sented to the Supreme Court in the Longshore case, and there the court, after full consider-ation, declined to exercise the remedy. But much less in this case can I say the plaintiff is in any danger of suffering a destruction or trreparable injury in the conduct of his business as for a moment would justify the application of the remedy sought, the mere averaged of that conclusion adding nothing to the force of the facts stated

The court cited an English case where discharged two men on the de-of a union. The men sued the mand of a union. union for damages, and on appeal it was decided that the union committed no unlawful act in causing the men's dis-The case was otherwise discussed very fully.

BANNERS DO NO HARM.

Restaurant Men Say They Are of Little Effect on Trade.

Inent Portland restaurant keepers. when asked yesterday as to what action they would take in regard to the dissolv-ing of the injunction, said generally that they dld not consider any action necce-sary. They thought that the matter would soon regulate itself; that the novelty of the sandwich man carrrying the banner had now worn off, and that no one would pay any attention to such freaks.

"You will notice," said one restaurant roprietor, "that when the banner was carried in front of a restaurant on Morrin street a few weeks ago, so many ople stopped to gaze that haif the width of the street was blocked . This after-noon, when the banner was being paraded at the same place, no one noticed it. The passing throng moved on. The novelty had worn off, and no one noticed the ban ner. Of course, some members of trades unions will guit eating at the blacklisted restaurants, but when they do they will go to some other restaurants and their

the old plan, as quite a number of road districts now run into the city limits. Yesterday, at the meeting of the County Commissioners, several road petitions were looked over. It was decided several months ago not to do anything in the way of road work unless it is very urgent, and

Road Supervisors were at that time so This rule is still in force, as instructed. the road fund is in a low condition. Commissioner Mack, in speaking upon the subject, said: "The trouble is we ex-

pended so much money the first half of the year. We should make haste slowly."

TO REGISTER VOTERS.

County Clerk Swetland Prepares for Work, Which Begins January.

County Clerk Swetland is engaged in getting out supplies for the registration department of his office. The registration of voters begins in January, and continues until May. A registration book is required for each election precinct, of which there are now 70, and various blanks and affidavit forms are also necessary. Voters must register for each general

election, and consequently all the registered in 1990 must come forward again. Young men who have just become again. of age, and new residents, all must reg-ister. Precinct maps must be prepared in order that the cierks may be able to register each elector in the precinct in which he resides.

REWARD FOR HIGHWAYMAN.

How to Capture Fulton Marauder

Discussed by Commissioners. At the meeting of the County Comm sioners yesterday the question of offering a special reward for the arrest and conviction of the Fulton highwayman was discussed, but no action was taken. The County Commissioners some time published a standing reward of \$25 for the arrest and conviction of any person or persons guilty of the crime of robbery or burgiary. The Commissioners were un-certain of the advisability of offering a separate reward to meet this particular

case or just what course is best to pursue e matter The Sheriff is charged with the duty of running down criminal offenders outside of the city limits, but the Sheriff's deputies, slihough they have made several trips in the direction where the man has been operating, have failed to catch sight of him or to obtain any clew.

Estate of Amanda L. Cole

David Cole was appointed administrator of the estate of his wife, Amanda L. Cole deceased, valued at \$5000. He and Wintfred L. Holgate, a daughter, are the heirs

PORTLAND, Dec. 17 .- (To the Editor.) Now that the people of Portland are at last united and practically all of our citi-zens have taken stock in our coming great Exposition, and are standing shoulder to

shoulder for the improvement and upbuild-ing of our city and state would it be not only the part of wisdom, but a duty as well, for those who are to be directors of the corporation to make a financial success of the undertaking? It would not only give our city a good

name for business ability, but would be an act of simple justice to the thousands of stockholders. Now, I believe the location will have more to do with the suc-cess of the Exposition than any other thing before us for consideration.

While I have no fault to find with the enterprising citizens and property-owners, either of Sellwood or University Park, for pushing their respective locations, I think that most of our people and business men realize that they are both too far away

from the center of the city. It will take nearly half an hour to reach Sellwood by a street-car line, and from 45 minutes to an hour to reach University Park; so that from one to two hours will be consumed in going and returning from either place. This will prevent business men and others who can ordinarily spare

from one to three hours in the aftern from going to the Exposition, unless on, unless they give up at least a half a day or a whole day for that purpose. Attending expositions is exhausting, even under most favorable conditions, and

if an intending visitor is compelled to hold on to a strap in a crowded car from a half an hour to an hour, both in going and coming home, he will certainly not feel inalined to go many times. We should have 100,000 inhabitants of

Fortland by 1906 who would be Exposi-tion-goers. If these people, through incon-venience or exhaustion attend only three or four times each, it will mean, so far as our own population is concerned, 300,000 or 400,000 admissions; on the contrary, in it is conveniently located and they at-tend 29 or 30 times each, it will result in 2,000,000 or 3,000,000 entrance fees. And the ame rule will hold good for visitors as

well. If a site could be procured closer in where a street-car from the distributing centers of Third and Morrison, or First and Washington, could reach the Expo-sition in 10 or 15 minutes, I firmly believe we would have 10 times as many admin sions. Many could walk over two bridges instead of one, and those who would use the cars could reach the dis ributing centers so quickly they would not mind the discomfort of paying for tributing

holding on to a strap. Then carriages, automobiles and other vehicles could more quickly take care of our citizens and vieitors. The street-cars would do a bet-ter business with fewer cars, conductors and motormen, as then hauling would be shorter, and be able to furnish a quick-

While I appreciate the fact that many have thought that it should be located on the river, where it could be reached by boats as well as cars, we have no suitable location on the river nearer than those named, and when one takes a boat in nearly every instance he will be obliged to use the car to and from the same.

to use the car to and from the same. Then our river, as well as the Columbia, our mountains, the Willamette Valley, Eastern Oregon, Eastern Washington, Pa-cific Ocean and Puget Sound are all great component parts of the exposition of na-ture which we most want to show to strangers, and, after all, will be our greatest attraction

greatest attraction. There are four locations which have been

suggested that could be reached within from 10 to 15 minutes, First, Ladd's field, on the Base Line road; second, the Irv-ington racetrack grounds; third, the City

one of the largest mining operators in that section, and his visit to this city is on usiness in connection with his properties there.

State Senator C. W. Fulton, of Astoria is in the city on legal business. Senator Fulton has cause for elation in that the recent election in Astoria was the first for several years to result in a clean-cut Republican victory.

N. A. Leach, a wheat-buyer of Ione, is at the Perkins. The farmers of Morrow County, he said, have about disposed of all their 1901 crop at prices Fanging from 45 to 49 cents. The crop prospects for next year are excellent.

Lewis A. Hall, who with Mrs. Hall is at the Portland, has the controlling interest in the projected railroad to run from Welser, Idaho, into the Seven Devils country, tapping a productive mineral belt in which are several valuable mines.

W. J. Cook, of Astoria, who is at the Imperial, was elected Police Commissi er at the last election by a majority of H ballots. Mr. Cook was formerly a mem-ber of the Council, and is largely interested in the coal deposits near Necarney Mountai

A. Beck, a well-known old-time husiness man of this city, who has been con-fined to his house for the past four months, was able to get out on the streets yesterday for the first time. He received the congratulations of a large number of

his friends on his recovery. C. W. Carter, son of the late T. J. Carter, and a native son of Portland, for 18 years a resident of Seattle, is now in this city for the first time in nine years. He discovers that there have been changer here as well as in his hustling Sound

His grandfather, Thomas Carter, city. was a ploneer of 1847 A. J. West, a prominent lumberman of

Aberdeen, Wash., is in the city. He says a marine railway in lieu of a drydock is to be constructed at Aberdeen shortly, at a cost of \$30,000. From what he has learned of the marine railway at Victoria. B. C., he considers it just as effective as the floating dock, and it is at the same time much cheaper to construct, John Adair, of Astoria, who, together

with his brother, owns a large water frontage on the west side of Young's Bay, is in the city. Negotiations for the sale of the property have been in progress for some time, and it was reported that A. B. Hammond was to acquire the site for sawmill purposes. Before leaving for New York, however, Mr. Hamnd denied the rumor.

Albert "ozier, of this city, president of the National Editorial Association, has just returned from a trip to Spokane and just returned from a trip to sponted by Idaho. In Spokane he was interviewed by Idano. In Spokane ne was interviewed by the Spokesman-Review to the extent of haif a column, on the Lewis and Clark Centennial, Mr. Tozier is about to leave for New Kork City on an important min-ing deal. He expects to devote a large able, "for they were pumping the water out of the other wells for use at the farm; and it would have been unfair part of his time while gone to exploitation of the great '05 Fair.

Thinks There Is a Conspiracy.

CHICAGO, Dec. 18 .- After preparing to leave her friends and don the garb of ; nun at the St. Augustine Seminary in this city, Miss Frances Ross was today removed to the Detention Hospital, to be Park, and lands back of the same; four, | examined tomorrow as to her eanity. She

held by the County Commissioners last Saturday, at which time Mr. D. M. Watson submitted to them my report on

the comparative analysis of the water

from the wells at the County Poor Farm. After the reading of my report Judge Cake is quoted as saying: "That is not

what we wanted. We told you to have the expert take two samples from the

upper wells and two samples from the lower wells and submit reports. Here are only two samples referred to; fur-

thermore, the report is not complete, and is of no use." To this last statement I take exception.

At the request of D. M. Watson I per-sonally took two samples of water from the wells. One of these consisted of

water from the two lower wells, which were supposed to catch the drainage from

the cemetery and the farm buildings

The other sample was taken from one of the upper wells, the only one avail-

to all concerned to have taken samples
