BASKET-BALL LEAGUE REVERSES DECISION ON DISPUTED GAME.

Portland Academy Takes a Hand and Requires the Young Ladies to Pull Out of the Association.

The mighty squabble in the Giris' Interscholastic Basket-Ball League did not end with the award of the game to the Portland Academy team. Yesterday afternoon the girls met, at the call of the president, Miss Bessie Jones, in the of-fice of the principal of the Portland High School, to reconsider the matter. Although the academy girls had been duly otified of the meeting, and had, so it is said, signified their intention of being nt, at 4 o'clock no representatives that institution appeared at the High School.

The six members of the league present-three from the High School and three from the St. Mary's Academy-agreed to reconsider the action taken at the meet-ing held Tuesday. Several rules and interpretations covering the case were read, and so was the sworn statement of the referce. It was moved and seconded, and usly carried, that the decision regarding the protest made at the last meeting of the league be set aside on the ground that it was illegal, according rules found in Spalding's basket-ule book of 1961-62. The rules referred to are:

regard to interpretation of rules.

Rule 16, Sec. 2. Duties of Timekeepers.—He hall note when the game starts, and shall low his whistle at the expiration of 20 minter' actual playing time in each half. On page 63 of the rule book, under in-

tation of rules, is found one that fits this case: -Two teams play a game in a local league. Timekeeper has no whistle. At end of time in second half timekeeper calls time, but is not heard, and before referee can blow his

whintle team "A" makes a basket. Does bas-Answer-Yes. Timekeeper chould have had a whistle. Players are not supposed to pay any attention to anything but a whistle. Rule 7, Sec. 5. The referee shall be judge of the ball, shall decide when ball is in play, to

hom it belongs and when a goal is scored.

After the matter of disposing of this rotest was finished, the absence of the Portland Academy team was explained. The president read a letter from them ncing their withdrawal from the . It seems that the faculty of the cademy has taken the matter in its hands and sent the following letter to the captain of the team:

December 19, 1991.-Miss Marguerite Labbe Captain of the Portland Academy Hasket-Ball Team: It is our wish that you officially and immediately withdraw your team from any further participation in the contest for the A-Wright trouby.

S. Wright troophy.
Because of prosent conditions, we think it best that the Portland Academy team withdraw from the Girls Interscholastic Basket-Ball League. You will therefore tender the resignation of the Portland Academy at the first meeting of the league.

J. R. WILSON, S. R. JOHNSON,

Acting upon this notice, Miss Labbe sent in the resignation to the league: To the Members of the Girls' Interscholast To the Members of the Girls Interscholastic Basket-Ball League: We hereby announce to you the withdrawal of the Portland Academy Basket-Ball Association from the Girls' Inter-scholastic Basket-Ball League. Our reason for doing so you will find in the accompanying request of the principals of the Portland Acad-emy. We wish it to be distinctly understood ciny, we cheerfully comply with this request, that we cheerfully comply with this request, that we realize that in so doing we forfelt the two remaining games, and that we relinquish all claims to the Wright trophy.

call your attention to by-law No. 9 of the league, which reads: Thirty-three and one-third per cent of the t proceeds shall go to each of the contest-

games played are in the hands of the treasurer

of the league, no division having as yet been made. We leave it to you to make whatever disposition you please of this money. M. LABBE, Captain, E. STRONG, Business Mgr., H. H. HERDMAN, Jr.,

ket-Bull Association

After much discussion, the resignation was accepted, the members realizing that further investigation and attempts to have the team remain in the league would be useless, considering the stand the faculty has taken in the premises. The reading of that part of the letter relating to money matters created guite a little merriment. Although the young ladles greatpleased with the money, they took such action as was probably expected of them, and ordered the money for the games played up to date to be divided equally ng the three schools. There is one t, however, that has not been settled. At the close of the last game the academy girls got away with the league ball, which was to go to the team winning the trophy. In a letter the Port-land Academy stated that they would forfelt the games and relinquish all claim to the trophy, but no mention was made

The faculty of the Portland Academy gave no reason for demanding the resignation of the team from the league in its letter, and the cause is somewhat of mystery. When seen last evening, one of the faculty would make no statement, simply saying that it was a private mutter that they did not wish to make

The game which was to be played tomorrow between the Portland Academy and St. Mary's Academy teams was called off, and the High School team was substituted in the place of the Portland Academy team. Tonight the St. Mary's players are to be guests the High School team at a banquet at

COME BACK, PROF. MARS.

Your Presence Much Needed to Re-

store Confidence. Several of the French residents in Portland, and incidentally nearly all the French ship captains in the harbor, would very much like to see Professor A. M. Mars, artist, teacher, and legal adviser, who boarded at 66 North Seventh street, and who left this city December 12, after \$55 had been paid to him by four or five French ship captains, to start proceedings against sallor boarding-house keepers with whom they had a feud concerning sallors who had desert-The whereabouts of the \$835 is about as much of a mystery as Mars' present Lawyer James Gleason represents the belligerent ship captains, and he saw District Attorney Chamberlain to find out what action could be taken in the matter. Mr. Chamberlain said that, if a request for a warrant was made, he would issue it, but has not since heard from Mr. Gleason. ter refused to discuss the case for publi-

Mars is about 40 years old, has fascinating address, is good looking, is a good photographer, and also poses as a teacher of French. He is believed to have had a career at San Jose and San Francisco, Cal., and Seattle, About three weeks ago he arrived in this city from Seattle, and in making inquiries around the Terminal depot for a suitable French boarding-house, he was recom-mended to Alfred Vermere's house, 66 North Seventh street, and won his new friends' hearts by paying his board in

Vermere is a well-known French cook here, and when Mars asked to be taken to Lawyer William Foley, whom he said he knew in San Francisco, Vermere found out that Mr. Foley was sick at St. Vincent's hospital. Mr. Foley received Mars cordially, and knowing that Frenchen like to meet each other, he intro-

NOW HIGH SCHOOL GETS IT | the administrative head of the hospital. Mars spoke excellent French and English, and told how he came to Oregon to write a book on the diversified product of this state. He also spoke of the inter-est felt in the French community as to the success of the Lewis and Clark Centennial. Mars was treated as a wel-come guest, and he took several excelent photographs of pupils in Catholiducational institutions in this city. It so happened at this time that mos

of the captains of French ships then in of the captains of French ships then in the harbor got into a wordy war with the proprietors of a sailor boarding-house in Whitechapel, because several of their sailors had been induced to leave their ships, and they applied to a leading Catholic clergyman to find them a person they could trust who scales English and they could trust, who spoke English and French, to start a legal campaign against the boarding-house bosses. Here was an opportunity for an enterprising man like Mars. He was introduced as the relike Mars. He was introduced as the re-quired article, and so much confidence had the captains in their newly-found countryman that soon afterward they found the sinews of war in the shape of a pool amounting to \$835, which he said he would place in a well-known bank, to pay the expenses of the forthcoming legal battle. That night the captains breathed easier. breathed easier.

The captains waited for legal develop-ments, but none came. Inquiries about Mars were made at his boarding-house last Sunday, and the French captain who called was astonished to learn that Mars had left the place and had taken his baggage with him, two days previously. Lawyers were then consulted to learn of the whereabouts of Mars and the \$835.

but without success.

Mars lived very quietly while in this city. He dressed well, but wore no jewelry, and his habits were of the best, as became a gentleman from France. Once, an acquaintance asked him, in St. Vincent's Hospital: "M'sleu Mars, is it true that you are a French Count?" "I'm no account. I'm simply Mr.

Mars," said the person addressed, laugh-ing heartly. He also said that he was a correspondent for a French newspaper called L'Echo de Paris, and that he was writing articles for the Encyclopaedia He also showed a book he had written on the rose fete at San Jose, Cal., and another book in which he compared France with California, as to the fruitraising industry.
C. H. Labbe, the French Consul, said he had met Mars, but had had no bustness dealings with him.

Baring the Feet at Worship. Athenneum.

In India Hindus and Mussulmans alike wear both sandals and shoes, (slippers,) and the latter boots also. The sandal (the word is Persian) was evidently the original covering for the feet over all South-ern and Eastern Asia, while the shoe was probably introduced into India by the Probably introduced into India by the Persians, Afghans, and Monjools, to-gether with the "rip-tilted" (Hittite and Etruscan) boot. Both are usually made in India of leather, but never of pigskins; and while the shoes are always colored red or yellow, the boots are generally brightly parti-colored; both, among the upper classes, being also richly embroidered in gold and silver and variegated silk thread, and with bangles, bugles, and seed pearls, after the manner of the ancient Persian boots represented on Greek vases. But, of however rare and costly elaboration, the invariable rule is to remove them after entering a private house, just when stepping on to the mat or carpet on which the visitor takes his seat. They must be cast off-the right boot or shoe first-before the worshipper enters a temple or mosque, and it is still regarded as an absolute pro-fanation to attempt to enter either fully shod. But the domestic habit arose our shod. But the domestic habit arose out of its obvious propriety, and the religious ritual of "the Shoes of the Faithful," now and for centuries past observed throughout Islam, can be demonstrated to have been dictated by, if indeed it be not derived directly from, the universal social etiquette of the universal social etiquette of the

To Stop Rate-Cutting. CHICAGO, Dec. 19.-Presidents and executive officers met today to put a stop to the indiscriminate rate-cutting that has been going on west o fthe Missouri River, It was deemed inadvisable to take any concerted action that might be construed as a violation of the anti-trust law, so road pledges itself individually to maintain tariff rates after Janroad uary 1. Shippers have been notified that no more cut-rate contracts will be made. All the old contracts, it is believed, will be disposed of by January 1.

OTTO KLEEMAN SUES RUDOLPH KISSLING FOR \$25.

Question at Issue Is Whether Charge May Be Legally Made for Preliminary Plans.

It was architects' day in Justice Vree-land's court on the East Side yesterday. The plaintiff was an architect, and all out one of the witnesses were architects. The great question of what are reasonable architects' charges, and if at a cer-tain stage of proceedings he may charge at all, was thoroughly threshed out. The case was one wherein Otto Klee-man, architect, sued Rudolph Kisaling, baker, for \$55 for drawing preliminary

RCHITECTS' DAYIN COURT | tifled that he went to Mr. Kleeman's of-fice and looked at plans there, but found nothing to sult him. Mr. Kleeman said he would get up some plans and furnish them. The regular rate for all the work would be 5 per cent, but he would let defendant off at 3½ per cent. Mr. Kissling continued:

"I received the penell sketches from Mr Gleeman. I recognize parts of these kiceman. I recognize parts of these plans in court as the same ones, but do not recognize the yellow parts. Two days after I received the plans I tele-phoned Mr. Kleeman that I would re-turn his plans, as I had found something I liked better. I kept his sketches 10 days. There was no agreement on ac-count of the sketches. Mr. Kleeman did not tell me that he would not charge for them. I was to pay him 3% per cent for the entire job if I accepted his plans. I told him that if his sketch suited I would make a contract. Otherwise would return it. The sketch was not suitable, because it was too long for the lot. I engaged Mr. Breithaupt at his offer of 21/2 per cent for the entire job."

plans for two houses to be built on the East Side, and to cost about \$2500. Mr. Kleeman was recalled and said that the preliminary plans had not been kleeman testified that Kissing called on changed, and that there was no express

ASHLAND, Or., Dec. 19.-D. B.

Grant, who has just been elected

NEWLY ELECTED MAYOR OF ASHLAND.

D. B. GRANT.

Mayor of Ashland, is a native of Ohio and 46 years of age. He came West from his native state 17 years ago, and for five years was a commercial traveler, with headquarters at Portland. About 12 years ago he engaged in business at Genessee, Idaho, where he was prominently identified for 10 years and was twice elected Mayor of that city. In September, 1900, he removed to Ashland, built a nice home and purchased a hardware Ashland has been a prohibition

town for a year past, but Mr. Grant was elected upon the Citizens ticket, which declared in favor of the license system for the control of the liquor traffic. Two Councilmen of his ticket were elected, but two Councilmen were also elected upon the Independent or Prohibition ticket. Two holdover Republican Councilmen were elected last year, when prohibition carried the day. What stand they will take, now that the people have declared for high license, cannot be learned at

this time. Whether Ashland will be a "dry" or "wet" town the coming year will not be known until the first meeting of the new Council, which will be held

in his baker's cart to show him the kind of houses he wanted. The architect told the baker that the regular charge for drawing the place and superintending the work would be 5 per cent of the total cost, but that he would let him off at 3½ per cent. Kleeman prepared preilminary plans and left them with Mr. Kis: ling, who returned them after ten days, and telephoned that he had secured the services of another architect at a lower rate. Mr. Kleeman wrote the baker two but never received any answer. It was customary, Mr. Kleeman said, for architects to charge 1 per cent on estimated coast for or reclinary clear to a settlement of the coast for or reclinary clear to the settlement of the coast for or reclinary clear the coast for or reclinary clear the coast for reclinary clears. chitects to charge 1 per cent on esti-mated cost for preliminary plans, where

Mr. Kleeman exhibited the preliminary

farther work was not done by the same

the express companies by having the chitect's books brought from his office, so as to see what charges had been made against other men, but the court thought it unnecessary, and then S. W. Marks, the well-known bill collector, volunteered a few words of wisdom sandwiched with as much professional dignity as could be before the Supreme Court. Mr. Kleeman testified that the making

of the preliminary plans had spoiled the best part of two days for him, and that the work was reasonably worth \$25. E. M. Lazarus, architect, testified that under the scale adopted by the American Association of Architects, and the United States Government, the usual charges for preliminary sketches were 1 per cent on structures costing \$19,000 or over; on smaller sums, a higher rate. A reasonable onpensation for the two days' work on Mr. Kleeman's sketches, on witness cale would be \$25 to \$50. It was cutomary to pay for preliminary sketches where they were not used. These sketches of Mr. Kleeman's were scale drawings, went further than preliminary

R. Martin, Jr., architect, said that a casonable compensation for Kleeman's

sketches would be \$5-they were studies, and nearly working drawings.

William Franklin, Emil Schacht and Joseph Jacobberger, all architects, testi-fied that Mr. Kleeman's charges for making the preliminary sketches were low enough. In such matters they tried to follow the scale of the American Architects' Association, although none of them were members of that organization, which and only three members in the state. Berthold Breithaupt testified that he

was a draughteman, and while not a pro-fessional architect, he made plans, speci-fications, contracts, etc. His charges for oreliminary sketches depend on the agree. York Times says reticence is shown by

him last March, and outlined what kind | agreement that he was not to charge of houses he wanted, and took him around | for them.

The trial consumed the entire afternoo and the court took the matter unde advisement.

A decision is expected today, W. J. Makelim conducted the defense and R. A. Leiter was attorney for plaintiff.

WILL BE SETTLED PEACEABLY Negotiations Between Chile and the Argentine Republic.

BUENOS AYRES, Dec. 19 .- Senor Con cha Subercaseaux, the Chilean Minister here, has reiterated to a friend his as-surance that the dispute between Chile and Argentina will be settled peaceably. The Argentine Government is sending to Senor Portela, the Minister of Argentina plans he had made, and said that a reas-onable charge for the work would be \$25. Counsel for the defendant tried to show that the two sketches were of only one here from Santiago says Senor Porteia that the two sketches were of only one house, and an incipient wrangle, nipped in the bud by the court, was started over technicalities and conversations and dickers that occurred and did not occur.

"If you were an architect you would not ask so many questions," said Mr. Kleeman to defendant's attorney. The latter was about to make business for dispatch adds that the belief prevails at the express companies by having the Santiago that a definite result will be

Bees Not Using Their Stings. Spectator.

There are a number of honeymaking bees which apparently do not use their stings, or in which the stings are atrophied and too blunt to hurt. Some are very small, so diminutive that they are called mosquito-bees. They gather quantities of honey, of which Bates, in one of the forests on the Amazon, took two quarts from one of the nests. In Jamaica, where some of these amiable bees are also found, they are called "angelitos," a name given them by the original Spanish settlers in honor of their good temper. Some Australian dwarf bees-also "angelitos" so far as human beings are concerned-do not their stings, perhaps because they not sharp enough to hurt, but deal with their enemies something after the manner of the Quaker on board ship who refused to use a gun, but threw the Frenchman overboard. An enemy is held down by several of the bees, who gradually put him on the rack by pulling his limbs tight and keeping them so, for as long at Pleasant Home, the following preamble as an hour, by which time the prisoner "dies a natural death." Bumblebees are popularly supposed not to sting. The males have no stings, but the females have, at any rate in the common bum-There are so many sizes in a bumblebee's nest, large females, small females, and males, that it is a safe speculation not to take the risk, though burnblebees are very easy-going creatures and only sting when pressed or hurt.

BIG EAST SIDE BUILDING

FOUR-STORY STRUCTURE IS GOING UP FOR STUDEBAKER BROS.

ost Will Be \$30,000-Site Is at East Second and Morrison Streets-Decring Warehouse.

Preliminary work on the erection of a building for Studebaker Bros., on East Second, between East Morrison and Belmont streets, to cost about \$30,000, is now under way. It will be practically a four-story structure, 100x200 feet, and will stand alongside the Second-street side-track of the O. R. & N. Rallway. It will e one of the most elaborate and larges buildings of the sort on the Pacific Coast The front, which will face East Morrison street, will have an attractive finish, with large plate-glass windows. For the office in the front part a space about 30x50 feet has been reserved, which will be handsomely celled and finished. At the en trances in the front of the building there will be recesses which will be floored with tiling. There will be a large elevator for lifting vehicles to the uppe floors, and also a stairway.

At present the ground on, which the big structure will be erected is occupied by a large building. The wagons and buggies are now being removed prepara-tory to demolishing the structure and clearing away the place for the foundation. The structure will rest on concrete footings well sunk in the ground, which is the favorite method employed for foundations in the low district. Heavy timbers are being delivered.

Contractors have submitted bids, but it is understood that no contracts have yet been let, and that the structure may be put up by day's work. The intention is to push construction as rapidly as possi-ble while the season is slack. It is also stated that the building occupied at present has been leased by another firm and will not remain vacant,

The outlook for a considerable building movement in this district is considered encouraging. The Deering Plow Company has secured a half block on East Yambill street, and, it is announced, will put up warehouse in the Spring.

TO FINISH SCHOOLHOUSE. Last Work Will Be Done on Gresh-

am's New Building. GRESHAM, Or., Dec. 19.-The finishing touches will be given Greaham's new schoolhouse this week, if the weather permits. Although school has been in seasion for two months there has still been some details to finish, among which were a cement coating to the foundation and some work on the heater and ventilator Contractor Brown will attend to the ce-ment work, while W. H. Moore, who is in charge of the heater, has been here the past week, completing his job. Arrangements are being made to grade and therwise beautify the grounds and to put a new fence around the block. A serious drawback is the scarcity of water for use in the school, as several wells which have been dug have been filled up again because the water is unfit for use. It is necessary to carry water about two blocks for all purposes. Just why the school wells do not yield good water is not known, as all the other wells here are

Bob White's Increase. A small flock of Bob White quail was turned loose in the timber near the Beaver Creek schoolhouse last March. were brought from Ohio by C. E. Fritz, who saw that they were protected from hunters during the Summer and Fall, and he says they have made a substantial increase during the season. The lot comprised six hens and five cocks, and was divided into two separate colonies, about a mile apart. They are thriving, and seem to be perfectly at home in the fir timber where they were first liberated.

The Tie Industry. Tie-hauling has been resumed to Fairview, the teams now coming down the Base Line as far as Terry since the grade at Baker's Hill has been cut down. Londing of cars continues at Troutdale, and will be kept up at that place until the yard is empty, when operations will begin at Fairview, at which place there are now

about 150,000 ties awaiting shipment Notes of Eastern Multnomah. A. H. Bell's new store building at Rockwood was finished on Saturday last, at a at of nearly \$2000, Shattuck Bros,' new store at this place

BUILD SHIPS AT NAVY-YARD.

G. A. R. Post Passes Resolutions on Construction of the Navy. At the last meeting of M. A. Ross Post, No. 29, G. A. R., department of Oregon. resolutions were adopted:

Whereas, It is the duty of every member of the Grand Army of the Republic to aid com-rades in every manner possible; and, Whereas, The building of our naval vessels in the Government navy-yards by the Govern ment employes will largely increase the sources of employment for all veterans by reason of the preference that is given them in the employment of mechanics and laborers at all naval yards; therefore be it Resolved. That Representatives in Con-

gress are requested to use all the means in their power to have a law enacted directing the construction of a naval vessel at each of the Government naval yards having the nec-essary facilities to perform the work; and be Resolved. That a copy of these resolutions be sent to the various G. A. R. posts, re-questing co-operation with us in securing the

MASONIC ELECTION AND REUNION. Washington Lodge Holds an Interesting Meeting.

At a meeting of Washington Lodge, No. 46, A. F. & A. M., held Wednesday night in Masonic Hall in the Burkhard building on East Burnside street, the an nual election of officers was held, folowed by a general reunion of the mem. bers. First the following officers were elected for the ensuing year: Worshipful master, Harry Richmond; senior warden W. G. Sellingbarger; junior warden, Charles R. Frazier; treasurer, R. B. McClung; secretary, J. A. Newell.

There was a large attendance. Many of the old members who had not been present for a long time were there. A anquet was spread in the banquet hall which was partaken of with speeches, and the best of (ceiling prevailed.

TO WIDEN HAWTHORNE AVENUE. An Effort Is Being Made to Make It

Uniformly Seventy Feet. An effort is being made to widen Haw-thorne avenue to 70 feet between East Twelfth and East Twenty-first streets, so as to correspond to the remainder of that street. Hawthorne avenue was widened several years ago as far out as East Twelfth to 70 feet, each side giving five feet. From East Twenty-first it has also been widened, and the fences set back, but between East Twelfth and East Twenty-first it is still a narrow street.

The object sought is to get the avenua well improved through to Mount Tabor, but the first steps will be to make the width uniform. Prospects are good that it can be accomplished. Some very hand-some residences have been put up on the were improved, as contemplated, it

TO THE MAN WHO THINKS.

OOK yourself squarely in the face and see if you are not half ashamed to be without Ivory Soap in your house. Worse than this, your wife is without it. It is bad enough for a man, though a man often doesn't care how his comfort is mis-spelled. But a woman misses all these little helps to housekeeping. And Ivory Soap is one; its great potency makes it actually cheaper than yellow soap for general work. It floats.

ways on the East Side.

INSPECTOR HURLBURT HOME. He Has Been Where a Slice of Bacon Was a Great Luxury.

Thomas M. Huriburt, Government Inspector of Surveys, is at home from Idaho and will remain through the holidays, during which time he will make his report his last work. Mr. Hurlburt said that on some of his expeditions in the interior there were times when his party could get no meat for weeks but trout. They caught the finest trout in the world in the streams they crossed and camped on, but they would get so thed of trout that a plece of bacon was considered a haxury. Mr. Hurburt has been Government in-spector for several years, and mas traversed New Mexico, Arizona, Colorado, Idaho and other territory until he knows the country like a book.

COMPLETING BROOKLYN RAILWAY. Track Is Being Ballasted Between

East Harrison and Milwaukle. The work of completing the Brookly branch of the City & Suburban Rallway was resumed yesterday. A considerable force of men started to ballast the track. which is finished between the intersec-tion of Grand avenue and East Harrison Milwankie streets. Two electric gravel cars were put in sorvice hauling gravel from the North Mount Tabor pit. The heaviest part of the work is finished. The bridge over Stephens' Slough is repaired, and the iron extended over Near Milwaukie some more track will to be laid before reaching

street, but this will not take much time. New Street Signs Wanted.

New street signs are wanted all over the East Side, so that a stranger can find his way through this portion of the city, is found that nearly all tin signs are badly worn and blurred by exposure that they cannot be read. H. H.' Newhall chairman of the street committee of the Push Club, will address a communication to the City Council, asking that steps be taken to replace the street signs where o litered and put up others where needed, City Engineer Chase says that first-class signs for the entire city will cost not less than \$1000. He thinks that better signs than tin should be used.

Kindergarten Exercises.

The kindergarten class of Miss Mattie Webb will observe the Christmas seaso with appropriate exercises this morning at 10 o'clock in the primary room of the Second Baptist Church, East Seventh and Ankeny streets. A programme of songs and recitations will be given by the chlidren. There will also be a Christmas fre loaded with the articles made by the dren. Parents and friends are invited.

Enst Side Notes.

Mrs. M. J. Armstrong died at her home in Montavilla on December 18. She was 57 years old. The funeral will be held today, and the interment will be in Gresbum cemetery.

Mrs. Henry Ingram, who had been un-conscious at the Good Samaritan Hospita;

since last Sunday evening, was reported more rational yesterday. She was able to talk at times. Her condition warrants the belief that she will recover.

Wise Bros., dentists. Both phones. The

The German Police. Independent.

A stranger in Germany soon makes the acquaintance of the police, little as he may desire it. A German Socialist once said "It takes half of all the Germans to control the other half," and one who sees Germany's immense army, her cloud of officials, great and small, and her omnis clent policemen, is inclined to believe that

would be one of the most popular high- the Socialist was right. You have been in Germany a week, more or less, when the policeman calls. At first you cannot believe that he is really after you, and then your mind runs back guiltily over your past. He takes out his little bookone of a small library of little books which he carries in his blouze-and mquires your age, your nationality, and how long you intend to stay. You tearn subsequently that a record of every per-son in the empire is carefully kept, with full details as to his occupation, ma-terial wealth and social standing. If you move into a new house, you must notify the police; if you move out, you must notify the police; if you hire a servant girl, you must purchase a yellow blank and report the fact, the girl also making a report. When she leaves you must send in a green blank stating why she is dismissed, where she is going, and so on. If you fall in any one of these multitudinous requirements of the government—and I have mentioned only a few of them-there is a fine to pay, each fine gradu-ated to the enernity of the offense. There are offenses graded as low as 2 cents.

> Suit Agginst Great Northern Railway VICTORIA, B. C., Dec. 12.—An interim njunction has been issued here enjoining the Great Northern Rallway from using a section of the Victoria, Vancouver & Eastern Railway in the boundary country of British Columbia, used by the Great Northern to get around a section of the State of Washington, through which it was next to impossible to build,

WHAT SHALL WE HAVE FOR DES-SERT This question arises in the family every day. Let us minered it today. Try Jell-O. a deflectors and healthful descent. Frepared in two minutes. No boiling in baking; simply add boffing water and set to cool. Flavors: Lemon. Orange. Haspberry and Strauberry. Get a puckage at your grocer's today 10c.

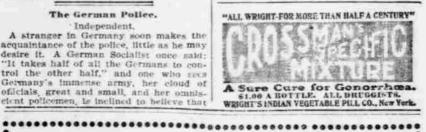

Do you know the most luxurious bath in the world?

Have you used Pears' Soap?

Sold all over the world.

ANOTHER WONDER OF SCIENCE, Biology Has Proved That Dandruff

Is Caused by a Germ. Science is daing wonders these days in medicing as well as in mechanics. Since Adam delved, the human race has been troubled with dandruff, for which no hair preparation has heretotore proved a suc-cessful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itch-ing scalp, falling hair and finally bald-ness. Without dandruff hair must grow luxuriantly. Herpicide at all druggists. It is the only destroyer of dandruff.

SPECIALISTS FOR MEN DR.TALCOTT & CO. STRICTLY RELIABLE

Largest Practice on the Pacific Coast By far the most frequent cause of nervous

A DAMAGED PROSTATE GLAND. A DANAGED PROSTATE GLAND.

The Procentse Gland (se-called neck of bladder) is a structure very rich in nerves. When the terminations of these nerves are kept in a constant state of excitement by chronic inflammatory processes, it appears very clear that by transmission of this irritation to other nerves the patient may be subject to nerveus phenomena of the most varied character. Prematureness, etc., are not weaknesses, but symptoms of this tridian mattion. We have prepared a colored chart, which we will send free an application, by which any one interested can readily understand why, if he has been treated for a weakness, he has not been cured. We particularly solicit this class of cases, and can promise a speedy cure without stomach drugging.
