In Multnomah County, outside of Portland, there are 58 school districts, in each of which there is a school, and 104 teach-ers employed. The reports show that at the close of the last school month there were 2000 pupils belonging to the schools in these districts.

The number of teachers in the various schools differs greatly, running from one

Superintendent Robinson yesterday visit-ed the new district, on the Base Line road, four miles from Fairvlew, known as Rockwtod. The taxpayers there have fitted up the lower part of a hall for school purposes, and have furnished it in good style to accommodate the children until a school building can be provided, and an excellent school is in operation there. A summary of the last monthly report of the teachers shows an enrollment of 2536 pupils outside of the city. Of this number 2591 are now in attendance.
