WAR WILL BE AVERTED

NEGOTIATIONS RENEWED BE-TWEEN ARGENTINA AND CHILE.

Papers Putting an End to the Present State of Affairs Will Be Signed at Santingo.

BUENOS AYRES, via Galveston, Dec 24 .- Senor Alcorta, Argentine Minister of Foreign Affairs, has sent a telegraphic communication to Florencio L. Dominguez, the Minister of Argentina to Great Britain, in which he informs the latter of the renewal of conciliatory negotia tions between Argentina and Chile. This step was taken in order that Senor Dominguez may officially inform the arbitration commission and other persons in-terested in the matter of the developments in the situation.

Documents putting an end to the pres-ent state of affairs will probably be signed by representatives of both Arand Chile at Santiago de Chile On the request of the Chilean Administration, the Argentine Government has telegraphed to Senor Portela Minister of Argentina to Chile, to enter upon negotiations again with Senor Yan-ez, the Chilean Minister of Foreign Affairs, and they have authorized their repatives to sign the documents term inating the present situation.

LORD'S ENCOURAGING REPORT, Argentina Will Not Press Her De

mands Upon Chile. WASHINGTON, Dec. 24.—Encouraging news has reached the State Department from Buenos Ayres, and the officials have renewed confidence that there will be a peaceful settlement of the serious dis-pute between Chile and Argentina. Mr. Lord, United States Minister at Buenos genune Government has concluded not to press the demands upon Chile which threatened to lead to hostilities, but instead has decided to allow the issue to go before the boundary commission which has for several years been engaged in the delimitation of the boundary. Moreover, Mr. Lord reports that while the Ar-Ayres, has reported by cable that the Arover, Mr. Lord reports that while the Argentine Minister to Chile has arrived in Buenos Ayres, the Argentine Legation at Santiago de Chile has not been closed, and consequently diplomatic relations between the two countries have not been broken, as was supposed from the report from our Minister to Chile.

menting upon the London reports to the effect that the boundary commis-sion could not deal with the pending issue, being limited in functions by the treaty which created it to the definition of the boundary, it is pointed out that, admitting the existence of this limitation, there is still no good reason why, Chile being willing, the necessary additional authorization may not be given the com-mission by mutual consent of the parties. The only doubtful question remaining is as to Chile's willingness to follow the lead of Argentina in giving additional authorization to the boundary commis-This doubt is rather a serious one, for several days have elapsed since Argentina made the proposition and Chile has not yet signified that the proposition is acceptable. On the contrary, while not specifically declining, intima-tions have reached the authorities here that Chile did not look with favor upon the latest move of Argentina, but re-garded it as an interruption of the negotiations which had been satisfactorily proceeding up to that time. If this proves to be preliminary to Chile's reof Argentina's latest move, ther the crisis will become more acute than

This utter-ance of the German statesman, which is doubtless authentic, has just been published for the first time by the Hamburger Nachrichten, Bismarck's household organ. Nevertheless, the Cologne Volks Zeitung admits that "the Impudence of the United States is successfully brilliant, and that Europe is already accustoming itself to the idea of the tutelage of the United States in South America." The Cologne Volks Zeitung concludes by saying: "Must Germany really ask Washington's permission to collect 3,000,000 marks from Venezuela? Must we pocket all sorts of warnings and concealed threats?"

PORT OF SPAIN, Island of Trinidae Sunday, Dec. 15.-The Venezuelan Govbeen carrying on a campaign of a violen nature against Germany, and especially against the Disconte Bank, of Berlin, which in 1856 made a loan to Venezuela of \$10,000,000. Since General Castro selzed the executive power, nothing has beer paid, and the Disconte Bank, having become tired of waiting, is now demanding payment through the intervention of the German Legation.

FRANCE AND VENEZUELA. Another Attempt to Renew Diplomatic Relations.

Sunday, Dec. 15.-Venezuela, having falled last year in her attempt to renew diplomatic relations with France, even after the good offices of the United States had been invoked to assist in the negotiations, has at last got the Spanish Government to instruct the Spanish Ambassador in Paris to plead her cause. The Ambassador, Marquis Leon y Castillo, has laid the proposals of Venezuela before the French Government, and they will shortly be taken into consideration. The shortly be taken into consideration. The basis of the proposals are as follows: Arrangement of the French claims arising out of the revolutions of 1892, 1898, 1899, 1999 and 1901, within a period which shall

The French Government intends, if its onditions are not accepted soon, to impose prohibitive import duties on Vene-zuelan cocoa, 74 per cent of the crop of which is consumed by this country. If this measure were to be put into effect, it would ruin Venezuela, which would not know where to place cocos. The Car-acas Chamber of Commerce, realizing the danger, has written to the Chambers of Commerce at Havre, Bordeaux and Mar-scilles to the effect that it is endeavoring to induce the Government of Vene

zuela to listen to reason in order that an arrangement may be arrived at. Senor Cecilio Castro, who has been already charged with diplomatic and finan-cial missions in France, which were far from successful, will leave Caracas December 28 in order to submit the mem-orandum revised by President Castro. The correspondent learns on good authority that the French Government is de-termined not to be lenient, having five years ago accepted a protocol signed by General Peitri, the authorized representative of Venezuela, which was afterwards refused by the Government of Venezuela. It is considered at the French Foreign Office that Senor Castro's voy age will be useless, unless he takes with him a document, signed by President Castro, which would become a protocol and would have to be accepted by the Vene-zuelan Congress before the French Government ratified it.

Spread of the Insurrection.

NEW YORK, Dec. 24.—The revolution against the Castro government, which has broken out in Venezuela, is a serious affair, according to the Fort De France, Martinique, correspondent of the Herald. The first leaders to rise against the President were Generals Luciano Mendoza and Cedeno. General Mendoza is Presi-dent of the State of Arazua, and General Cedeno is Director of Customs at Puerto Cabello. General Mendoza is now march ing upon La Victoria, an important point in the vicinity of Caracas. CITY OF MEXICO, Dec. 24.-Though the Pan-American Conference, as a whole, will undoubtedly fall back in the matter of arbitration upon The Hague conven tion, it is learned that a number of South American nations will join among themselves to sign a separate convention of compulsory arbitration. Some of the naions that will sign the compulsory plan will not refuse to sign the milder arrange-ment to be formulated by the congress, but the others, like Argentina are so bent on compulsory arbitration that it is claimed they will decline to sign anything less radical.

Nowhere is the Chilean-Argentine dis-pute followed with greater interest than in Mexico just now. Articles setting forth both sides of the dispute, and supposed to be inspired by the representatives of the nations at the Pan-American Confer. ence, daily appear in the press. If war were to break out, the conference would almost certainly dissolve, as there is littie question that the Argentine delegates and those who sympathize with them would withdraw.

THE ASPHALT SUIT.

Latest Decision Is in Favor of the Warner-Quinlan Syndicate.

WASHINGTON, Dec. 24.-The asphall suit, which has been pending for a long time before the Venezuelan courts, has advanced another step toward the end. Some time ago the case was taken before the court of last resort, the Su-preme Court of Venezuela at Caracas, to determine the question of title to the asphalt lakes as between the New York & Bermudese Company and the Warner-Quinlan syndicate. While this suit was pending the Warner-Quinlan side went before one of the inferior tribunals at Carupano and lodged a motion to be placed in possession of the asphalt takes, pending the issue of the pending suit at Caracas. The local tribunal found for Warner-Quinlan people and an appeal was taken to the Court of First Instance, at Cumano. This court has now decided in favor of the Warner-Quinlan syndicate, granting a decree authorizing them to take possession. The Bermudese Com-pany, however, is in actual possession of the lakes, with a strong force of laborers not without military training, and led by capable men, including, it is understood, some of the cadets who recently were expelled from the United States Military Academy for hazing, and it is understood they will not surrender the lakes unless the Supreme Court at Caracas renders a decision adverse to them,
