Germany Orders a Small Vessel to Venezuela.

ONE OR TWO MORE TO GO

Official Note Stating That Negotiations Continue—Ambassador White Terms German-American War Talk Sensational Nonsense.

BERLIN, Dec. 30.—The small German cruiser Gazelle was ordered today to sail immediately from Kiel to Venezuelan waters. The government intends to send one or two other small warships to reinforce the present German squadron in the Caribbean Sea.

"We hope that this opinion," says the Berliner Neueste Nachrichten, "which grew out of the Spanish War, and which we consider to be wholly erroneous, will soon give place to more correct conceptions of Germany's aims."

"The Lokai Anzeiger says: 'The task for our diplomacy is to make German interests prevail against Venezuela. At the same time losing touch with the American Government. The authorities at Washington have up to the present time shown such an intelligent comprehension of the situation and friendly disposition towards Germany's wishes that no grounds for apprehension exist at this point.'

CARACAS, Dec. 30.—It can be said upon excellent authority that Germany's contemplated demonstration against certain Venezuelan ports will be postponed until the termination of the present revolution against President Castro.

Comment of London Papers.

LONDON, Dec. 30.—Most of the morning papers comment upon the gravity of the German-Venezuelan dispute. They are generally agreed that Germany is not anxious to provoke complications, and will be careful not to ruffle American susceptibilities.

England Would Be With America.

LONDON, Dec. 30.—Commenting on the London Times' statement from Washington that persons of considerable importance in official circles there profess to believe that war between the United States and Germany is inevitable, the St. James' Gazette, though it does not believe that such a dispute will be allowed to occur over a dispute in regard to the debts of Venezuela to Germany, says if it does there can be no doubt that English sym-

pathies will be with America. At the same time the St. James' Gazette expresses the hope that the United States will not allow such states as Venezuela to gain the impression that they can reckon on the protection of the Monroe Doctrine if they choose to repudiate their obligations to Europe.

HERRERA DEPARTS AT TONOSI.

Alban Renounces the Gravity of the Situation and Is Not Idle. COLON, Colombia, Dec. 30.—General Herrera's expedition departed at Tonosi December 24, from the Liberal steamer Ibsys, Darien and Gaitan, and sailing vessels. Herrera is the general who capitulated at Panama last year. He is considered to be one of the best, if not the best, Generals the revolutionists possess. He is a clever and able man, who has sacrificed everything for the sake of the revolution. Herrera is said to be surrounded by first-class men. Generals Porras and Lorenzo are doubtless aware of Herrera's arrival in this vicinity, and will do their utmost to join forces with him. In view of Herrera's movement the government has requested that reinforcements be sent from Barranquilla. In the meantime, recognizing the grav-

WELL-KNOWN UNDERWRITER.

MR. GUSTAVE ROSENBLATT

APPOINTED RESIDENT GENERAL AGENT OF THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK.

Mr. Gustave Rosenblatt has been appointed resident general agent for Oregon of the above company, which is the oldest, largest and best-known life insurance company in the world.

The company does a large business in this state, and the collection of premiums will be attended to by Mr. Rosenblatt. He has been connected with this company for over twenty-three years, having first gone into the business when a boy, with the late Philip C. Schuyler, in 1878, and succeeded Mr. Schuyler upon his death in October, 1885.

Mr. Rosenblatt ranks among the first in insurance and commands considerable prestige, due to his familiarity with the business, and the respect and confidence of the insuring public.

He was born in this city and was educated in the public schools of Portland. Mr. Rosenblatt is also general agent for The Liverpool & London & Globe Fire Insurance Company, and the Thames & Mersey Marine Insurance Company, Ltd. Both of these companies do a large business in this state.

Mr. C. H. Waterman will be connected with the Mutual Life Insurance Company as state manager, to which position he was promoted in 1901. He will appoint agents and look after the company's business in the field. Mr. Waterman has been in the life insurance business some years, and has been very successful in placing large lines of insurance.

The offices of the above companies will be in rooms 220, 221, 222 and 223, Sherlock building, Third and Oak streets.

ity of the situation, the government officials are taking active measures to meet the steamer Darien, which is expected to arrive at Panama on Saturday to transport troops, but the crew, including the engineer, refused to take part in military operations, and Governor Alban was compelled to obtain another crew from shore. The tug lifted Panama for Boyaca yesterday. It is bound for points along the coast, where it will take on board troops intended to reinforce General Castro. Everything seems to point to Herrera making a final desperate effort.

Since the withdrawal of the troops along the railroad line, the Liberal forces have been seen at night times in the vicinity of Cutbra and Emerador. They are supposed to be some of Domingo Diaz followers. The government yesterday garrisoned Los Chispa with 150 men, and Matchin with 30 men, with the view of intercepting communication with the interior in the direction of the enemy.

It is reported that the revolutionists are still at Panama. The French cruiser D'Estrea has arrived here.

Minister Portela has started for home with his family. The legation is left in charge of Secretary Alberto Blancas, as charge d'affaires, ad interim.

ENGLAND WANTS FAVOR

COMMENT ON TAKING UP OF THE ALASKA BOUNDARY QUESTION.

Thinks United States Should Prove Reasonable, Since It Got Isthmian Treaty Without Equivalent.

LONDON, Dec. 30.—Commenting upon the statement from Reuter's Washington correspondent concerning the probability that Secretary Hay and Lord Almonstorf, British Ambassador at Washington, are arranging a commission in which the United States, Great Britain and Canada will be represented, for the settlement of the Alaska boundary and other outstanding differences between the countries in question, the Daily Mail thinks that, having secured the isthmian canal treaty without an equivalent, the United States should not prove reasonable. "Although it can hardly be hoped," says

intimated that they would be glad to have that balance turned over to them. The allegation is that they have not claimed sufficient indemnity to reimburse them for actual expenses and proper claims, and that they have a right to regard the 400,000,000 taels as properly divisible on the basis of actual expenditures and losses. It is not at all probable that this point will be pressed, however, because the officials here are confident that after we have defrayed our own claims and expenditures there will be little or no balance remaining of our allotment.

TO STUDY AMERICAN WAYS

Commission of Englishmen Will Come Over in August.

NEW YORK, Dec. 30.—The plan suggested by Alfred Moseley, the Englishman who made a large fortune in the South African diamond fields, to send Englishmen to America to study commercial methods there, was endorsed by a recent meeting presided over by Lord Reay, chairman of the London School Board, which included Sir James Mackenzie, chief inspector of training colleges, Sidney Webb and Dr. W. Garnett, chairman and secretary, respectively, of the technical education board of the London County Council, says the London correspondent of the Journal and the American.

As a result, the first batch of pupils will leave here in August next for a four months' stay in the United States. It will consist of a commission of two or three members of Parliament, the heads of some of the largest business houses, a few labor leaders, and representatives of the leading scientific societies.

Mr. Moseley says that the American boy is brighter than the English boy, and consequently becomes a brighter man. Hence he believes that there must be something in the American educational system which is lacking in the English system, and this is one of the things that the commission is to try to discover. They will study American methods of commerce and industry.

Work of Frenchman Now Here. NEW YORK, Dec. 30.—In recognition of the importance of his mission here as a representative of the French government, studying American industrial methods of organization, M. Lazare Weiller has been invited to be the guest of the Chamber of Commerce here for the next few days. Since his arrival he has been busy engaged in the work which called him here, and having investigated in some degree the steel, copper and coal industries, has come to the conclusion that he is seriously looking into the possibilities of shipping American coal to France. Already a few cargoes have gone there as ballast, under exceptional freight conditions. M. Weiller seeks to let a trade can be established between the coal ports of the United States and the south of France. He said:

"I had a long, long talk with Charles M. Schwab before he sailed for Europe. He is a wonderful man, a Napoleon of steel. He gave me every advantage, and placed me in a position that will enable me to visit and closely examine works in Pittsburgh, Bethlehem, South Chicago, Homestead and other places. I expect to gain much information from the trip. Just as I have already gleaned much about the administrative system of the United States Steel Corporation from Mr. Schwab."

PREDICTS ANOTHER WAR.

American Says China Is Openly Violating the Protocol.

NEW YORK, Dec. 30.—Charles F. Gammon, superintendent of colporters for the American Bible Society in Northern China, writes to the society concerning the present situation in the Chinese Empire as follows: "While at Shanghai I observed that the Chinese Government was openly violating the provisions of the protocol. The great empire would shake off European domination. Thousands of boatloads of small arms and ammunition were passing weekly up the Yangtze River and the arsenals were being enlarged and worked day and night. Cargoes of explosives were being received, and the Dowager Empress had issued instructions to all officials to re-arm the army, and also to inform her as to the fighting strength of each division, and the time required to concentrate the forces at a given point.

"There were and are many other unpromising features which weighed heavily upon the minds of those interested. I must believe that the end is not yet, and that within 10 years, and possibly within five, a war will ensue the like of which the world has never known. For centuries China has been making repeated attempts to expel the foreigner, each time profiting by past experience, each time with more power and success, each time better equipped and better planned.

"She is now preparing a navy before, buying vast quantities of superior weapons and reorganizing her armies on a correct basis. Therefore the next attempt will be signified in force and terrible in execution. It will result in a universal upheaval and the final dismemberment of this empire—a terrible cost."

The Zionist Congress. BASEL, Switzerland, Dec. 30.—The Zionist congress has arrived at a provisional decision, by which the Colonial Bank is to keep a certain sum available for the acquisition of concessions. It has been decided to establish a branch bank in Palestine, with a capital not to exceed 400,000 francs, to be confined for the present to a strictly banking business, and not to be directly connected with the work of colonization.

Want American Indemnity Balance. WASHINGTON, Dec. 30.—Under a mistaken impression that there will be a large portion remaining of the \$3,000,000 indemnity fund to be paid by China to the United States after paying up legitimate claims and the army and naval expenses of the Chinese campaign, some of the powers party to the Peking protocol have

intimated that they would be glad to have that balance turned over to them. The allegation is that they have not claimed sufficient indemnity to reimburse them for actual expenses and proper claims, and that they have a right to regard the 400,000,000 taels as properly divisible on the basis of actual expenditures and losses.
