

VOL. XLI .- NO. 12,818.

PORTLAND, OREGON, FRIDAY, JANUARY 10, 1902.

PRICE FIVE CENTS.

You don't know what you miss

Did you ever stop to consider how much pleasure there is stored up in your plane then count the number of times in a month it is used, aside from the tedious practice of a child? Perhaps you or your wife or your daughter "play a little," but the difference between playing a little and playing everything you wish is con-siderable. It is worth thinking about, The Pianola supplies the deficiency. It even makes no difference if you do not know one note from another,

THE AEOLIAN COMPANY

M. B. WELLS, Sole Northwest Agent, Acolinn Hall, 353-355 Washington St.

OUTBREAK OF CHEYENNES A BIG GOLD NUGGET. Trouble Brewing on the Lame Deer | Eighty-two Ounce Lump Melted at

Reservation.

MILES CITY, Mont., Jan. 9 .- Fort Keogh today received a telegram from get that weighed \$2.18 ounces, troy weight Forsyth, asking that soldiers be immediately dispatched to the Lame Deer agency. Word had arrived from the agency that trouble was brewing and that an outbreak of the Cheyennes was imminent, if it had not already occurred. Lieutenant Chappost, stated that the reques or troops had been communicated to de jurtment headquarters, and that the solwere making preparations for immediate departure upon receipt of orders. Beatty, a prominent citizen of Ash-nd, near the Lame Deer agency, said the disturbance originated by an Indian named White being sent for by the agent in charge. The redskin refused to obey the summons, and an Indian posse was dishad been asssayed. patched to bring him in. White opened fire upon the appearance of the posse, killing one of the Indian policemen. The warring red then turned on his own wife and daughter, killing them both, and finally shooting himself, dying instantly,

Burlington Already at Work.

BUTTE, Mont., Jan. 9.-A special to the diner from Billings says the Burlington Railway Company has received seven cars of steel ralls to be used in the construc-tion of a branch line from Billings to Grent Falls. Active work on the new road will commence in a few days. Bur-lington bridge men are now in Billings, and will make a trip of inspection over the proposed route with a view to conthe proposed route a struction of bridges.

Garment Workers' Dispute Settled. NEW YORK, Jan. 9.-The labor troubles between the clothing manufacturers and the garment-workers, involving 40,000 men in 10 cities, has been settled through the committee recently appointed by the National Civic Federation. The men obtain an 8½-hour day.

Helena Assay Office. HELENA, Mont., Jan. S .- A gold nug. was melted at the United States Assay Office today. It was the largest piece of virgin gold ever received at the local assay office of the Government, and proba-bly one of the largest nuggets ever found in the world. Its exact value had not been estimated at a late hour this afternoon, but the experts at the assay office said it would be about \$1400. The nugget was brought to the assay office by Thomas Raymond, who informed Assayer B. H. passed. Tatem that he had taken it out of the diggings in Alder Guich. An effort was nade by a local bank to buy it for exhibition purposes, but an agreement could not be reached as to terms, since its intrinsic value could not be known until it

Philanthropist Asphyxiated. PHILADELPHIA, Jan. 9.-Charles Caleb Cresson, head of a wholesale drug store in this city and a noted philanthro-pist, was found dead today in his home

at Germantown, having been asphygiated by gas escaping from a heater in his room. Mr. Cresson was 86 years old. For many years he was head of a wholesale drug store in this city, and was a noted philanthropist.

Bonus for a Starch Plant.

DES MOINES, Ia., Jan. 9.-President W F. Piel, of the National Starch Work Company, of New York, today announced that the Des Moines plant, recently de-stroyed by fire, will be rebuilt and en-larged on condition that the city lay a water main to it and remit taxes for 10 He was assured by Mayor Harten vears. bower this would be done.

Dr. Poole Dead.

PEKIN, Jan. 8.-Dr. Poole, who was attached to the American Legation here as surgeon, is dead, of typhoid feyer.

All who heard the debate today know that many votes were won by Hepburn in

his final speech. His masterly reply to Cannon swept the House toward him and the Nicaragua bill. Men who wavered vesterday came back into line, and voted for Nicaragua. Yesterday the Panama and opposition-to-any-canal men felt deeldedly buoyant, and counted upon such an indorsement of the Morris proposition as to make a similar proposition safe in the Senate. Tonight doubt is expressed about their ability to amend in any material way the House bill, or to secure

delay by again referring the subject to a The debate will be longer in the Senate and time will be afforded for the oppo-

sition to resort to every expedient for the Panama concern to make new and alluring offers, but tonight the heart is out of the opposition, and the men who have waited so many years for the beginning of a canal see success ahead.

The Oregon and Washington Represen tatives stood solidly by Hepburn in voting down all amendments to the canal bill save those proposed by the committee, and in supporting the bill as it finally

"We have had too much delay, too many examinations, too much money expended on side issues, and in my judgment it is time to get to work. We might build the canal a little cheaper by holding off, but 1 would rather pay a little more and have a canal built now," said

Representative Tongue. Representative Moody said his constit uents would view with suspicion any attempt to amend the bill after the rec ommendation of the commission. Should it be determined later that the Panama

route is desirable, the passage of the House bill will be the most effectual way to bring out the lowest and best offer for the Panama plant and route.

Root and the Philippine Tariff.

Secretary Root's position, favoring reductions on Cuban products and maintaining the full Dingley rates on Philippine products coming into the United States. is explained only on the ground that he regards the Philippine tariff bill as a

temporary measure. Secretary Root per haps does not understand that it will be very hard to amend this "temporary" measure, because he is not familiar with legislative matters. It is stated by a close friend that he does not excuse the

which sometimes prints exclusive news, publishes the following dispatch today

from Hamburg: "Nicaragua is making extensive war preparations. She has purchased the German warship Armenius, is negotiating for the purchase of two other warships and has bought cannon, rifles and ammu nition amounting to the value of 1,500,000 marks, through the Nicaraguan Minister at Berlin, Senor Rocha. A certain Ham-burg bank lent the money for the pur-chase referred to. The object of these preparations is that Nicaragua, Honduras and Salvador intend to attack Guatemala and Costa Rica and compel them to join the proposed Central American union Rocha is reported to have tried to induce the Prussian War Ministry to supply Nicaragua with arms, which the

Ministry refused to do." Inquiries here fail to confirm the statements contained in the dispatch of the Kleines Journal.

FUNSTON ON SICK LEAVE.

The General May Not Return to the Philippines.

SAN FRANCISCO, Jan. 9 .- The transports Kilpatrick and Warren arrived from Manila within an hour of each other this afternoon. The former vessel brought about 700 term-expired men, while the lat-

ter carried almost as many more. Among the Warren's passengers are Brigadier-Generals Hughes and Funston General Funston comus home on sick leave. While his condition has much improved since leaving Manila, he has no attrely recovered. On arrival here Gen-val Funston immediately went to Oakeral land to greet his family. He stated that he would remain here about two weeks, and then visit his old home and friends in Kansas for a few days, after which h would go to Washington on important business, the nature of which he would not divulge. General Funston said his leave of absence was for two months. He thought that he would have to have it extended, and it was possible that he would

oot return at all. "The situation in the Philippines," said General Funston, "is about the same as it was a few months ago. The desultory fighting is still going on, but not as flercely as in former days."

It is very probable that another opera-tion for appendicitis will be performed on General Funston while he is in this city.

Southern Sugar Growers Protest. NEW ORLEANS, Jan, 9.-A large meeting of cane sugar growers today unanimously adopted a protest to Congress against the proposed concession to the producers of cane sugar in the Island of Cubs

eaontan.

Company and European,

A Clash With Hepburn

Cannon at this point clashed sharply

with Hepburn, who is in charge of the bill. He criticised the Iowan for with-

holding his speech from the Record and

Hepburn characterized Cannon's criti-

over to him by a page. Cannon declared

forward as he was "flip of tongue"

for the isthmian canal, but whether the

passed. If confidence existed in the Presi-

Nicaragua, according to the informatio

would be a better legislator.

He

The test came on the first vote, when the advocates of an alternative route polled of it would cause the claim that it gave 102 against 170 votes. At each succeedthe President full power not only t ing vote their strength dwindled until Cannon (Rep. Ill.), under whose leader-Nicaragua and Costa Rica, but the Mari time Canal Company and European ship the fight was carried on, was unable American and Nicaraguan specula to get the aye and no vote on a motion to recommit. All other amendments failed, and the bill was passed exactly how much, he could not tell. It might be \$5,000,000 or \$10,000 or \$25,000,-000. He denounced what he termed the undue haste of those who want to build this canal, "between as it came from the committee. None of the votes, except that on the final passage of the bill, was a record vote. now and sunrise tomorrow." The debate which preceded the taking of the final vote was made memorable objected to the authorization the bill contained to negotiate contracts for by a clash between Hepburn, the author of the bill, and Cannon, chairman of the appropriations committee. On several whole work. Cannon said he w for the Morris amendment and if it failed, he would move to recommit the bill with previous occasions they have measured swords over canal legislation. Two years ago a similar bill was passed by a vota amendments he had suggested. Cannon's remarks were given close attention. The building of this canal, he said, was a business proposition and of 224 to 36.

Terms of the Bill.

standpoint. Gentlemen talked about thi The bill as passed today authorizes the President to secure from the states of 400 years, and used that as an argum Costa Rica and Nicaragua, in behalf of the United States, control of such a porwhy members of Congress should fall over each other to vote for the pending bill. tion of the territory belonging to said Personally he had favored a states as may be desirable and nece years, but because he had not been unwillon which to excavate, construct and proing to proceed without information and tect a canal suitable to the wants of modagainst fixed treaty laws, he had been ern navigation and commerce and appro-priate such a sum as may be necessary to called hard names ecure the control of the said territory

Section 2 authorizes the President, af-ter securing control of the needed territory, to direct the Secretary of War to onstruct such a canal from the Caribbean Sea, at a point near Greytown, in Nicaragua, by way of Lake Nicaragua, to a point on the Pacific Ocean near Brito, and also to construct proper harbors at the termini of said canal and to make necessary provisions for the defense of the canal and harbors.

to give Cannon the speech and Sections 3 and 4 authorize the President to make such surveys as may be neces-sary and to employ such persons in conthat in his recollection a member present ing a great measure to undertake a work that would last for centuries had never structing the canal as may to him seem wise, and directs that in the construction of the canal the River San Juan and Lake pursued such a course. He declared it when Hepburn made some quick reply he Nicaragua shall be used as far as they are available observed, amid laughter, that if the gen-

Section 5 authorizes the President to guarantee to the states of Costa Rica and Nicaragua the use of the canal and harbors upon terms to be agreed upon for vessels owned by citizens thereof.

. The last section makes a present ap-propriation of \$10,000,000 to carry on this work and authorizes the Secretary of War to enter proper contracts for ma-terial and work as may be deemed necessary therefor, such work and material to be paid for as appropriations may be made from time to time. The section fixes the aggregate cost at \$180,000,000, to be drawn from the Treasury on warrants of the President. In anticipation of a vote on the bill

there was a large attendance

of filling a bobtail quorum from that Commissioner McCraken was Banfield was finally located at his office, and a minute later the joyous news was received that he was speeding to the eeting on the wings of the wind. With his arrival the quorum was made up, and the secretary began to read the minutes of a long and, as far as the record was oncerned, uneventful series of meetings, Then the report of Superintendent Kelly, of the dredge Portland, conveyed the in formation that that dredge had in the onth of December excavated 1970 lineal feet of channel to a width of 160 feet and depth of from three to five feet, making
