FRUIT WAS SOLD IN LONDO!

Variety Was the Newtowns-Spitzer bergs Returned \$1 50 Per Box Net -Orchard Located in Rogue River Valley.

CORVALLIS, Or., Jan. 10.-Two dollar and a quarter net per box is the price Oiwell Bros., of Central Point, Jackson County, received for a carload of Oregon Newtowns sold in the London market a day or two before Christmas, Another car, sold a few days later, when the market was a little off, brought \$1 75 net. More of the same apples are now in Lon-oon, and returns are expected at any

Regent John D. Olwell was in Corvallis this week to attend the meeting o the Board of Regents of the Agricultural College. The Olwell Bros. have an orchard at Central Point of 160 acres. They had \$12,000 worth of apples aboard the cars and on the way to market at one time this Fali. The orchard is 13 years old, and the late crop is the fourth. aggregate this season was 35 cars, against 55 cars last year, but the better prices of this year made the output about as

profitable as formerly.

The Giwell Spitzenbergs brought \$1.50 net. They were mostly marketed in New York and Chicago. The buyer came to the orchard in August, and contracted for all the Spitzenbergs before the apples had matured. He remained there and paid apot cash for each car as it was shipped. The former price realized for Spitzenbergs was about \$1 per, hox. The former price of the Newtowns, now selling in London at prices that net \$2 25 and \$1 75, was \$1 65 to \$1 10 per box. The Ben Davis variety in the Olwell orchard brought at the orchard this year, \$1 10 to brought at the orchard this year \$1 10 to \$1.20 per box. They were mostly sold in New Orleans, which is not particular about the grade of apples it consumes. Last year the Olwell Ben Davis apples

went at & cents per box.

At the Olwell orchard at picking time 79 men were employed. At packing time, which began after the picking and ex-tended nearly to the holidays, 30 men and 16 girls were kept at work.

The codlin moth has practically been run out of the Central Point district by the spray pump. Formerly 50 per cent or more of the crop was destroyed by the worms, but by diligent spraying the per cent of loss on this account is reduced to less than 5. In the Olwell orchard the spray pumps are operated by gasoline en-

Olwell believes that much of the Mr. Olwell believes that much of the same success in growing apples in the Central Point district can be attained in the Willamette Valley. All that is necessary, be thinks, in order to make large orchards successful in the Willam-ette Valley is to be careful in the selection of soil and location, and then take good care of the orchard.

Farmers' Institutes.

The points in Eastern and Southeastern Oregon at which Regent Keady's resolu-tion, adopted at the meeting of the Board tion, adopted at the meeting of the Board of Regents of the Agricultural College, provides for the holding of farmers' institutes by the Agricultural College are as follows: Princeville and Rossiand, Crook-County; Silver Lake, Summer Lake, Paisly and Lakeview, Lake County; Bly, Boanza and Klamath Falls, Klamath County. The resolution also provides for institutes at such intermediate points as nstitutes at such intermediate points as the director of the experiment station may deem advisable. Back Salary Case Compromised. NORTH YAKIMA, Can. 10.-In the suit of the county officers, who held office in the years 1899 and 1806, for back pay alleged to be due them through the increase in the population of the county, a compromise was reached today between them and the Board of County Commissioners by which \$1100 will be paid to them. The Board of Commissioners raised the salaries seven months after the census was taken in 1800. The officers contended that they should have raised them at the beginning of the terms in 1859, beof the county officers, who held office sus had not been taken or the classifi-cation of the county raised. The compromise was that the increase would date from the time the census was taken. Postoffice receipts at the North Yakima office for the year just closed amount to over \$12,000, which is an increase of 30 per cent over the previous year,

PLEAFOR CONDEMNED MEN

PETITIONS FOR MERCY FOR MUR-DERERS WADE AND DALTON.

Governor Geer Receiving All Sorts of Requests for Clemency-Argument of a Portland Citizen.

SALEM, Or., Jan. 10.-Governor Geer is receiving all sorts of pleas for the com-mutation of the sentences of Wade and Dalton, who are sentenced to be hanged at Portland on January 31 for the mur-der of J. B. Morrow. Today a minister called upon the Governor and made an eloquent plea for executive elemency in this case. A letter was also received from a resident of Portland, whose name is not made public, arguing at length in favor of commuting the sentence to life imprisonment. In making this plea the writer says he does not wish to be un-derstood as in any way underestimating prisonment. or falling to comprehend the enormity of the crime Wade and Dalton committed. He says they did not commit premeditated murder, and were not actuated by malice. They regarded the holding-up process as a sort of outing, a bit of sport, and did not intend murder. The letter also says: "Wade and Dalton have forfelted their rights as members of the community, and the community has a right to protect it-self from the wrongs they might commit in the future, but their execution is not necessary to this end. Security is ob-tained by incarceration in the penitentiary for life. As to the taking of life itself, let that remain in the hands of the Almighty. Men cannot confer nor restore that, and are not justified in tak-

ing it. The death penalty will be abol-ished when we get a little further along in our moral evolution."

The tone of the letter is principally that of an argument against capital punish-ment, and does not undertake to contend that Wade and Dalton were not guilty of murder under the law. Petition for Pardon.

Governor Geer has received a petition for the pardon of James W. Hill, who was convicted in Union County last June of horse stealing. Seven of the trial ju-rors signed the petition. The petition comes to the Governor in two parts, and the wording of the two papers is such as to attract attention. The longer petition, signed by a larger number of persons, alleges that the petitioners "have recently learned from reliable sources that there is considerable doubt as to the ownership and identity of the mare" stolen, and that they have "reasonable" doubt as to that they have reasonable doubt as to the guilt of Hill. The petition signed by the jurors states that the signers have learned that there is "some" doubt as to Hill's guilt, and "considerable" doubt as to the identity of the mare, and that they have considerable doubt of his guilt, but the word "reasonable," which is always used in instructing a jury at a trial, does not appear. No statement is made con-cerning the nature of any new evidence that has been discovered

MARION COUNTY TAX LEVY. It Will Be 20 Mills This Year, a Reduction Over 1900.

SALEM, Or., Jan. 10.—The Marion County tax levy this year is 3½ mills less than it was in 1901. The total for all purposes for which the county levies is 20 mills, while last year it was 23.5 mills, counting the road tax at its labor equiva-lent. The levies for the two years, by

ttems, are as follows: State and county... State school Indigent soldiers ... Road tax But for the heavy increase in state taxes, there would be a still further reduction. The amount to be raised in Marion County this year for state purposes is \$56,756; last year it was but \$47,000, in round numbers. To more than offset this increase, the county has been run so economically that it is necessary to raise but \$54,000 this year for county pur-

tion was used to pay off outstanding county warrants.

The levy in the City of Salem is 10 mills and the school-district levy, yet to be made, will be about 7 mills, making the total burden of property in the City of Salem about 37 mills. Last year the total taxes, including road taxes, amounted to 41.5 mills. Last year the road tax was not levied by the County Court, but prop-erty-owners paid in cash or labor, as they preferred. The rate was the same, and the burden to the property-owners not

poses, as against \$80,000 last year. Of the

materially lighter. The several amounts to be raised this year under the county levy are as follows:

County tax 54,000 00
State school tax 41,600 00
Indigent soldiers 830 00
Road tax 12,481 00

The total to be raised for the same purposes this year will be \$162,280. An Oregon Ploneer of 1852.

Brings Smiles to Women

Thousands of women are heroically suffering in silence while even relatives never guess the real truth about their condition. It is a living death to an ambitious woman to see her beauty fade and realize that slowly and surely, day by day, she is nearer an untimely grave, to know that the pangs of suffering are not only blighting her beauty but exhausting her physical strength and nervous and mental vitality. No hope comes from the doctor because he cannot cure—little sympathy from friends because they do not understand, but Wine of Cardui has brought a smile—the seal of health—to thousands of such faces. The Wine regulates the menstrual flow and strengthens the womanly organs. The relief from it comes quickly and naturally. A delightful feeling of security from the tension of pain tells the patient health is returning. Mrs. Turner suffered five years and no doctor could cure her. WINE OF CARDUI

brought a speedy cure. You may be cured as well as she if you will secure a \$1.00 bottle of Wine of Cardui from your druggist. Do not buy a substitute. It was Wine of Cardui which cured Mrs. Turner.

Durant, I. T., January 12, 1901.

I feel so proud that my wife is a well woman that I want to tell it to the world. Her menses were so irregular that she was in misery ell the time. Two prominent physicians treated her for nearly five years and after the doctors failed to do her any good she commenced to use patent medicines. At last she began using Wine of Cardul, which seemed to help her from the first bottle. After using seven bottles she is a sound and well woman. Her weight was 90 pounds when she began your treatment, to-day she weighs 130 pounds. She does her own housework—something she has not done for five years before I write you this testimonial unsolicited, because I want to let suffering humanity know what a great remedy Wine of Cardul is. You are at liberty to use my name. JACK TURNER, Stockman.
