

NO VOTE FOR A MONTH

SENATE WILL DEBATE THE PHILIPPINE TARIFF BILL

Measure Will Be Held to the Front to the Exclusion of All Other Business.

WASHINGTON, Jan. 19.—The Philippine question will be precipitated on the Senate tomorrow, when the committee on the Philippine question, which has had the House Philippine tariff bill under consideration, expects to report the measure.

There is a general acquiescence of Republican Senators in this program. There are other important measures to be presented at the proper time by Administration Senators, but the present agreement is to pass the Philippine bill first, as being of the most immediate importance.

A long discussion of the bill is expected by the Republicans and promised by the Democrats. The Democratic leaders say they do not expect to be able to defeat the bill and disclaim all intention to delay a vote unnecessarily, but they say frankly that they consider that it affords an opportunity for the presentation of their views on the entire Philippine question, which they cannot afford to let pass.

Senator Lodge will open the discussion with a brief speech Tuesday, in which he will discuss the merits of the bill and also the necessity for early action. It will be followed by the members of the Democratic representation on the committee, who will outline the Democratic position. He, in turn, will be followed by other Democratic members of the Senate on the Democratic side.

It is expected that the bill will be passed by the Senate in the next few days. The prediction is that the bill will be passed in the next few days.

Tomorrow Senator Frye probably will report the ship subsidy bill, but he will not attempt to secure consideration for it for the month. The bill will be reported after the Philippine bill shall have been disposed of.

The report of the committee on inter-continental canals is expected later in the week, but may be delayed. The consideration of that question in the Senate also will wait on the Philippine bill.

Senator Nelson will make renewed effort to secure the passage of his bill for the creation of a Department of Commerce. The opposition to it probably will be continued for the present.

In the early part of the week, probably tomorrow, Senator Cullum will address the Senate on the treaty-making power of the President. The speech is expected to draw a hearing upon the reciprocity treaties. Its delivery at this time is requested by a number of Senators.

If there should be an executive session of the Senate Monday, an effort will be made to have the nomination of Governor Otero, of New Mexico, confirmed.

The calendar of the House of Representatives is still rather meager in important bills, so that there does not promise to be a heavy pressure of business during the week. Monday is a reserve day, but there are few measures likely to be passed by suspension of the rules. The urgent deficiency appropriation bill will occupy most of the time during the first few days of the week. It carries a total of \$100,000,000, which is rather large for a deficiency measure, and it is expected that two days will be occupied by its consideration.

Beyond this there is practically no program for the week, as the bills ready for consideration are not of sufficient importance to attract attention. The only exception is in the case of the Hill bill for the exchangeability of silver and gold. It will be some time before opinion is sufficiently matured on this measure to induce the leaders to set a time for consideration.

Demographic Report in Opposition to the Hill Bill.

WASHINGTON, Jan. 19.—The Democratic members of the House committee on coinage, weights and measures have agreed on a minority report on the bill for the exchangeability of silver and gold, which is rather large for a deficiency measure, and it is expected that two days will be occupied by its consideration.

The report takes the position that the Treasury notes called greenbacks and \$40,253,667 of Treasury notes issued under the Sherman act, will not be taken at less than \$100,000,000 to act as a reserve for the exchangeability of silver and gold.

The following reasons are given: "First—it will require a large increase of the gold reserve of the Treasury, because, as the gold reserve is increased, the reserve should be correspondingly enlarged. It requires \$100,000,000 of gold to act as a reserve for the exchangeability of silver and gold.

"Second—it will create a number of obligations upon the Treasury, which will be met by the sale of Treasury notes, but which will be met by the sale of Treasury notes, but which will be met by the sale of Treasury notes.

"Third—it will facilitate the exportation of gold. As the \$100,000,000 of our currency is known to be in circulation, it is difficult for large exporters of gold to collect sufficient of that currency to present for redemption. But if silver certificates, which form the great bulk of the currency that circulates, can be presented for payment in gold, then it becomes an easy matter to compel the Government to furnish all the gold for exportation. With other nations imposing restrictions upon their exportation of gold, and we facilitating our exportation of the same, we are likely to lose great quantities of that blood of commerce.

"Fourth—it will cause the retirement of the silver dollars and produce either a violent contraction of the currency or the substitution of printed promissory notes. It will convert assets into liabilities, dollars into debts.

"Fifth—Other things remaining as they are, such a measure would cause a fall in prices of all commodities and other prop-

The new service involves further arrangements, however, and they will be settled at the approaching conference in Chicago.

Stone was wrecked by a floating log in Mobile River last night, 50 miles above Mobile, and lies in 15 feet of water in mid-channel. No lives were lost, though the steamer sank in 15 minutes. The Stone carried 25 passengers, a crew of 35 and a large general cargo. Most of the passengers had retired, but the officers gave the alarm quickly, and passengers and crew were transferred to a barge the steamer was towing, which was then cast adrift. The steamer Mary came in sight soon afterward, took the barge in tow and brought the steamer and its passengers and crew to Mobile this morning. The Stone was valued at \$30,000, fully insured. The value of the cargo is not known.

Coquelin's Impressions of the Kaiser. BERLIN, Jan. 19.—Constant Coquelin, the French actor who is now playing here, has made the following comment about Emperor William, by whom he was received yesterday: "Three things about Emperor William astonish me. The first is his easy and almost unconscious use of Parisian French; the second is his intimate knowledge of French dramatic art and his acquaintance with the current theatrical life of Paris, concerning which he is almost as well informed as though he were living daily with the Parisian theatrical man-

agement; and the third is the extreme simplicity and cordiality of his manner."

Succession to Serbia's Throne. VIENNA, Jan. 19.—The Belgrade correspondent of the Neue Freie Presse declares the question of succession to the throne of Serbia to be ripe for solution, as King Alexander, if guaranteed a sufficient pension, is willing to abdicate in favor of Prince Alexis Kara Georgevitch, a descendant from Kara George, the Black George of the Serbians and claimant to the throne of Serbia. In any case, continues the correspondent, Prince Alexis Kara Georgevitch is likely to be proclaimed heir to the throne, as neither Russia nor Serbia object to this course.

Schwab on American Competition. VIENNA, Jan. 19.—The Neue Freie Presse publishes an interview with Charles M. Schwab, president of the United States Steel Corporation, in which he declares that neither Austria, Germany nor France has anything to fear from American steel competition, although, owing to natural conditions, Europe would never be able to produce steel as cheaply as the United States. Mr. Schwab generally was dull, but he was enthusiastic in his praise of the American iron trade.

ENGLISH MARKETS BETTER. Prospects Are Good, Unless Bad News Comes From South Africa. LONDON, Jan. 19.—The feeling on the Stock Exchange at the close of the past week was decidedly happy. Whether or not this was merely the upward end of a financial sewer is hard to say, but unless some unexpected discouraging news arrives from South Africa there is a good prospect for a continued upward movement. Money has been easy, and there is every prospect that the bank rate of discount will be reduced to 3 1/2 per cent during the next fortnight. This reduction is rendered likely in view of the large government loan, which is regarded as inevitable in March or April. It is also probable that there will be a Russian loan in Paris in the Spring, and, notwithstanding the fact that England will endeavor to strengthen the London monetary position as much as possible at that time.

The peace rumors which were circulated as to the Stock Exchange are elsewhere being held in doubt. The latest Boer statements emanating from the Continent indicate that these rumors were circulated largely for the benefit of the Stock Exchange.
