

TORRE FUND SCHOOL BONDS

MOUNT TABOR TAXPAYERS PLAN TO REDUCE INTEREST.

Special Levy to Pay \$1000, and \$3000 Will be Continued at 4 Per Cent.

The taxpayers of Mount Tabor School District, No. 5, met last night and voted to levy a special tax of 2 mills to pay \$1000 of the \$3000 bonds...

H. B. Adams, chairman of the board, presided, and Clerk Frank Fields read the annual report of the directors...

Receipts of money last year exceeded estimates, and expenditures were less than expected. The balance on hand last year at this time was \$1419.36.

C. H. Thompson then submitted the following resolution, which was unanimously adopted: Resolved, That the thanks of the taxpayers of this district be extended to the citizens who subscribed and took the bonds...

DON'T WASTE THE WATER

Superintendent Dodge Tells How to Prevent Frozen Pipes.

In discussing the waste of water during the cold spell Superintendent Frank T. Dodge, said yesterday:

"The making of distributing water throughout the city at the points where they branch off from the Bull Run conduit on both sides of the river are constantly full of water, and taking all the water off many sections carelessly...

"Rather than take the trouble to shut the water off many sections carelessly allow faucets to run all the time wide open. Few persons realize the fact that, if in one-fourth the places supplied with water, one faucet in each place is allowed to run wide open all the time...

"Frequently when an inspector goes to a house and tells his business, he is asked to 'wait a minute.' The occupant disappears, and returning quickly says, 'certainly, you can inspect the water fixtures.' He does so, and finds no waste, but he had good reason to believe that the water has just been shut off, and that it will be running again the moment he leaves. The only way to stop the waste of water is by the use of meters at all places in the city where water is supplied, but this would cost nearly a quarter of a million dollars...

NEW ATTRACTIONS THIS WEEK

The proprietors of the Fredericksburg have been very fortunate in securing some fine talent this week. Among the attractions, Eddie Erb, the original parodist and dancing comedian, who is original in every respect, composing his own songs and new gags, and is making a great hit. The great Zoyarras, Ed and Fred, who are conceded to be the greatest globe manipulators in existence...

MUST SUE FOR REWARD

PRICE ON HEADS OF WADE AND DALTON TURNED INTO COURT.

Judge Cake Declines Responsibility of Deciding Between Walter King and Mrs. Whitlock.

Judge Cake yesterday ordered the \$500 reward in the Wade and Dalton cases turned over to J. F. Kennedy, Clerk of the State Circuit Court, which means that Edward King, the waiter, and Mrs. Whitlock, both of whom demand the money, must bring suit for it. Judge Cake refused to take jurisdiction of the case, knowing that neither claimant would be satisfied with his decision, and that the case would have to be fought to a finish by the contestants.

H. M. CAKE.

NEW YORK, Jan. 27.—Northwest people registered at New York hotels today as follows: From Portland—Mr. and Mrs. A. Herz, at the Park; Mr. and Mrs. J. Eisenhorn, at the Navarre. From Seattle—J. J. Dolney, at the Cadillac; A. H. Harrison, at the Imperial; G. O. Denny, at the Grand.

MANY PEOPLE TO COME.

Great Rush to the Northwest Expected in the Spring.

Spokane in particular, and Eastern Washington generally, are actively in the field for a share of the tide of immigration expected to come Westward in the Spring, and indications point to home-seekers coming to the Pacific Coast in larger numbers this year than ever before. L. Lewis Clark, a well-known capitalist of Eastern Washington, who is at the Portland for a few days, has been prominent in promoting immigration to the inland Empire country. In speaking of the prospects for immediate development of the Big Bend and Palouse districts, Mr. Clark said:

"The Chamber of Commerce and citizens of Spokane have been working with the railroads to induce home-seekers to come to Eastern Washington, and from reports received we have reason to expect a larger number this Spring than ever before in the history of the state. Railroad men have told me that an average of from 400 to 500 letters are received daily by the Great Northern and Northern Pacific, asking information concerning lands along their respective lines. Clerical forces are maintained to answer inquiries of this nature, and comprehensive literature, containing descriptions, together with crop statistics and such other facts as would be of interest to the home-seeker, is scattered broadcast throughout the land. It is not scattered in a literal interpretation of the word, for great care is taken that it falls into the hands of prospective immigrants. There seems to be no unusual inquiry from any particular part of the country, but information is eagerly sought by farmers and others in the agricultural states from the Dakotas eastward. Figures which have been furnished by conservative railroad men place the expected daily exodus of home-seekers from the East, while the route will be on the transcontinental lines have been running excursions for home-seekers, a differential has been granted in the rates in favor of Spokane, and it is expected that Spokane will be 20 to 30 miles ahead of Seattle and Portland. In the Big Bend country are large tracts of unoccupied farming land, which can be bought at reasonable prices. A few years ago this land was sold for \$20 an acre, but now it is selling at from \$20 to \$40. The cutting up of the large farms will have a tendency toward more scientific farming, and the planting of diversified crops. It is the opinion of those who are in the trade now held by Spokane merchants, and they want more of it. The Chamber of Commerce has appropriated \$3000 to aid in the compilation and distribution of descriptive literature of the country, and is co-operating with the smaller cities in the Palouse district in advertising the resources of the section. Each town is asked to contribute to the Chamber of Commerce fund, and in the expenditure Spokane works hand in hand with the railroads. 'What will Spokane and Eastern Washington do toward Lewis and Clark Centennial? It is rather early to hear much of definite plans at this date, but I have every reason to believe that when the time comes Oregon will not need to worry on that score. The city of Washington will do its share, and do it well. Mr. Clark was formerly connected with the Washington Water Power Company, which is planning to transmit electric power generated at Spokane Falls to the Columbia River mining district of Idaho. The distance from the falls to Warden is about 80 miles, and the electricity will be transmitted over wires. It is expected that 200 horsepower can be delivered at Warden, and the cost of constructing the additional plant and other work preliminary to active operation of the enterprise will be in the neighborhood of \$500,000. Electric light and current is now supplied to Spokane from the two falls, and there is yet untold energy available that has been going to waste while improved methods of handling and transmitting power were being perfected."

PAY MAY SOON GO UP

SCHOOL DIRECTORS REFER QUESTION OF TEACHERS' SALARIES.

Discussion as to the District's Need of Buildings—Forty Thousand Dollars a Small Sum.

The question of increased salaries for school teachers, and of new school buildings for various parts of the city, was brought before the Board of Education at its meeting last night, and referred. The salary matter was turned over to the committee on examination of teachers, consisting of Chairman Beach, Mrs. Sitton and City School Superintendent Rigler. The school-building question was referred in part to a committee and to future meetings.

TO STOP LOAFING OF FIREMEN

Mayor of Ogden Will Find Work for Their Odd Moments.

OGDEN, Utah, Jan. 27.—Mayor William Glassmann, it is stated, is preparing to turn the firemen of Ogden into truck-gardeners as soon as the Spring season opens. The Mayor is represented as being of the opinion that the firemen might as well put in their time to good advantage while they are waiting for alarms. The City of Ogden owns some vacant property near the heart of the town, and part of it is near the fire station. The Mayor is reported as saying that the firemen, instead of spending their time playing checkers and reading novels, must put in the Spring and Summer hoeing and planting, cultivating and harvesting. The crops will be sold and the proceeds will go into the city's treasury. He also proposes that they shall look after the sanitary inspection and be obliged to help out in the clerical work of the different city departments.

STORM IS NEARLY OVER.

Weather Prophet Predicts Warmer Weather for Today.

Everybody and everybody's wife or sweetheart, who could possibly go, were out sleighing yesterday, and some of the makeshift vehicles which were improvised in lieu of the city-built sleds were amusing and mirth-provoking. Forecast Official Beale says the storm will last much longer, and warmer weather is predicted for today. The temperature ranges today from 25 to 30 degrees, and to 25 degrees, and the total precipitation from 5 A. M. to 5 P. M. was but .10 of an inch. Out of a possible nine hours of snow, there was only 4 1/2 minutes when Old Snow was sufficiently out from beneath the fleecy clouds to leave a record on the delicate instrument for that purpose at the Weather Bureau.

COLD WORRIES PRODUCE MEN

Candle Held Under Thermometer to Save the Potatoes.

"Jack Frost is a gentleman," said a good citizen yesterday. "With all his faults we love him still. Talk about your city police, why, they are not in it a minute. Do you think all the authority they have is to keep the sidewalks clear of snow in front of fruit stands and produce markets as Jack Frost has done it? Not on your life. The police are all right, but give me Jack Frost, every time."

COMING ATTRACTIONS.

Tonight at the Marquand Theatre.

"The Four-Leaf Clover," or "Gluck Auf," will be given by Portland school children as a benefit for the Free Bath Fund. The cantata is said to be bright and entertaining musically, and it will be prettily staged and costumed. The story is interesting and affords every opportunity for individual and chorus work. The children have been trained by professional, and a smooth performance is promised.

"The Senator's Wife."

"The Senator's Wife" will be the attraction at the Marquand Thursday night. The Woodmen of the World will entertain the head consul, F. A. Falkenburg, at his Sunday performance. Mr. Baker sees this production, given by a specially engaged company for the occasion. Percy H. Levin has the direction of the play.

Vaudeville at the Baker.

Sunday afternoon will begin a season of high-class vaudeville at the Baker, and, judging by the inquiries for seats which have already been made at the box-office, the theater will be taxed to its capacity at all Sunday performances. Mr. Baker announces the following bill for the opening week of the season: Coleman and Meeks, pistol and rifle shot experts, said to be the very best of their kind; the Pauline Ladies' Quartet, which has been one of the season's successes in San Francisco; Dena Mervin, operatic singer, in
