Marshal Wood, for attempting to pass a ogus check for \$150 in favor of Charles . Wentworth, of Portland, at a local hotel. Blanchard is the man who was ar-rested and held in London, England, inst Summer, on suspicion that he had robbed the Western Lumber Cempany, of Port-land. Nothing was proved against him. He returned to America in the Fall, being subsequently arrested in Portland for turning in a false fire alarm, for which he was sentenced to six months' time in the Multhomah County Jall, from which he escaped several weeks ago, When searched tonight several bogus checks on different Oregon business men were found

in his pockets (Blanchard was picked up on the streets shortly after his arrival in this city last Fall, and was examined as to the statements he had made that he was concerned in the robbery of \$4728 from the Western Lumber Company, but it was seen that he had told a fairy story, to guarantee, as he thought, that he would receive free trans-portation from Great Britain to this coun-He was then sentenced to a short term in jall, on his confession that he had sent in a number of false alarms of fire. The chain of circum-stances, together with the facts have been carefully welded, and it is stated that in bringing the accused before the bar of justice the authorities would be able to present a stronger and more damaging case against the prisoner than in the famous Durrant case. IMPORTANT TIDELAND DECISION.

Many May Have to Give Up a Part of Their Tracts.

OLYMPIA, Wash., Feb. 11.-Should an opinion rendered yesterday by Attorney-General Stratton be upheld by the courts, it will result in much confusion among tideland purchasers in this state. In accordance with the law governing second-class tidelands, all contracts and deeds issued by the state for tidelands in describing such lands contain the following clause: "All tidelands of the second class owned by the State of Washington, situate front of, adjacent to or abutting upon the Government meander line described as follows," etc. It has been the theory of the state, and the purchasers that this clause would include all tidelands below high-water mark. As a matter of fact, in one-half, at least, of the contracts and deeds, it dogs not. The Government meander line skips across intervening inlets, and a large amount of tideland lies be-tween the meander line and upland. The Attorney-General is of the opinion that the state has not disposed of tidelands above the meander line in any of its contracts, and that though the state owns such lands, unless the upland was patented before the state's admission, it has no legal authority to dispose of them. As the law now stands, it is Attorney-General Stratton's opinion that hundreds of purchasers of tidelands own much less land than they suppose. The same is true of oyster lands. Invariably the Government rieander line forms the boundary on one cide of all oyster claims, and in many instances owners of such claims are cultivating lands they do not own above the ictual meander line, but below high-tide **Big Tax Payment of Railroad.**

Too Much Housework wrecks a woman's nervous system. The constant care of young children, added to this, soon

breaks the health of the strongest woman. The haggard faces in thousands of homes tell the story of the over-worked housewife and mother. Excessive work in stores and offices gives the same "dragged-out" "feeling. Deranged menses result from overwork and exposure and falling of the womb, leucorrhoza and all the attendant ailments soon follow. Every little strain centers in the abdomen and gives insufferable pain to the woman who has allowed herself to become run down on account of her exciting duties. Every housewife needs

WINE OF CARDUI

to regulate her menstrual flow, to reinforce her strength and to keep her sensitive female organs in perfect condition. The Wine is doing this for thousands of women today. It cured Mirs. Jones completely and that is why she writes this frank letter :

GLENDRANS, N.Y., FUR. 10, 1901. I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help and I washed last week and was not one bit tired. That shows that Wine of Cardui is doing me good. I am getting fleshier than I ever was before and sleep good and cat heartily. Before I began taking Wine of Cardui I used to have to lie down five or six times every day but now I do not think of lying down through the day. Mrs. ElOHARD JONES.
