VANCOUVER, Wash., Feb. 12-The report of the Army Board recommending Vancouver Barracks as one of the permanent military posts, and that the post accommodate a full regiment of 12 companice of infantry and two batteries of artillery, will necessitate the erection of new barracks and other extensive changes and Improvements. The present barracks were erected to accommodate a regiment of in fantry in time of peace-about 700 men. Under the new order the capacity of the barracks will necessarily need to be more than doubled.

The decision of the Army Board was very welcome news to the residents of this city and vicinity. The post, aside from its attractiveness to visitors, has always furnished an important source of revenue to Vancouver in that it gives employment to a large number of men in various ca-

#### PROVIDES RELIEF FOR SETTLERS. Price Which Applies to Those Holding Lands in All Reserves.

WASHINGTON, Feb. 8.-Senator Clark. of Montana, has introduced a bill, gen-eral in character, for the relief of settlers who have relinquished to the Govern-ment title to certain lands for which they held patent, and falled to secure patent on other tracts in lieu thereof. The bill provides that such settlers shall be permitted by the General Land Office to recover title to the original tracts re-linquished, or in event adverse claims have been filed in the meantime, that they shall be allowed to complete licu

This bill was suggested by the action of the department in the cases of a large number of settlers who held title to lands in that portion of the Olympic forest re-serve which was opened to settlement by order of the President some time ago. These settlers, believing their lands were still included in the reserve, not know-ing of the Presidential order, relinquished title thereto, and sought to make lieu selections. When their cases were taken up it was found that the original tracts, being no longer in the reserve, did not constitute lieu base, hence the settlers had no right to make lieu selections. Yet these settlers had turned over to the Government their title to the original hold- forearm

ings, under a misapprehension, and by the decision of the department were left without any lands whatever. The Government requires that settlers shall relinquish title to lands in a reserve before they can make selection of other lands in lieu thereof, It is this evil that Senator Clark pro-

poses to cure. His bill provides that where settlers, living on tracts which they believe to be in a reserve, but which unbeknown to them, have been excluded and the settlers are in consequence un-able to perfect a lieu selection, they shall able to perfect a lieu selection, they shall be entitled to recover the original tract relinquished. In some instances of this character, however, the settlers find that their original holding has been claimed by another party, while they are at-tempting to make a lieu selection. In cases of this sort the Clark bill provides that the settlers shall be allowed to per-fect lieu selections. Senator Clark says fect lieu selections. Senator Clark says the practice of forcing the settler to re-linguish title to one tract before he can secure title to another, while safeguard ing the Government, rather takes ad-vantage of the settler, and he proposes that those who act in good faith shall

## DELAY ON NEW CAPITOL

WASHINGTON BUILDING MAY NOT BE COMPLETED BY JANUARY.

In That Event, State Will Have Good Damage Claim-Question as to Who Is Liable.

OLYMPIA, Wash., Feb. 12.-The State Capitol Commission has about come to the onclusion that the Capitol annex canno completed in time for the next session of the Legislature, and it will be fortu-nate, indeed, if the halls of the House and Senate are so far advanced as to allow the members to meet therein in January Up to its last meeting the commission had hope that by properly rushing the work of construction, the building would be completed, but since then that hope has vanished. This fact has led the Governor and other Commissioners to consider the question of what recourse the state has in a monetary way. It is known that the contractor is under a heavy bond to complete the work on time, and for each day he prolongs it after Octoher I he is under a penalty of \$50 a day. But should the Goss Company make a showing in court to the effect that it is ook elsewhere to locate the blame. The supervising architect is also under a heavy bond. The commission fixed the architect's bond at \$50,000 and the security is of the best, being in one of the largest bonding companies in the United States, and here is where the commission may look to get even for the delay. The con-struction company's bond is for \$160,000. and the bondsmen comprise such heavy capitalists as Colonel Griggs and Leonard Hewarth, of Tacoma. Should the blame be finally laid at the door of the Goss Company, it will be apparent that the state has some hopes of getting even in that direction, while should it be proven that Mr. Ritchle did not have the necessary steel plans ready when demanded by the contractor, it will be seen that his bond is large enough to reimburse the state for the delay caused thereby,

All these and other related allegations are denied, and the District Attorney asks that the trial be held here.

Election Officials Suit People. The Marion County Court held a session today to hear objections to the list of judges and clerks of election appointed at the last regular session.
