Washington Marshal Will Get Collectorship.

HOPKINS WILL GO IN. TOO

President Wants to Settle Appoint ment Squabble Soon-Jesse Frye Will Be United States Attorney.

WASHINGTON, Feb. 26.-One of the first things considered by the President today was the pending Washington appointments. Mr. Roosevelt expressed a desire to dispose of the cases finally and make the nominations without further unnecessary delay. It is now believed that Hopkins will be nominated as Marshal, and that Ide will be transferred to

the Collectorship, within a few days. The next case to be taken up is that of Jesse Frye, Senator Foster's candidate for United States Attorney to succeed Wilson R. Gay, who cannot remain in the service, owing to his unsatisfactory record. There is little reason to doubt that Frye will receive this appointment.

STATE GETS MUCH LAND

Important Ruling of Hermann for

OLYMPIA, Feb. 26.-State Land Commissioner Callvert states that he has secured a ruling from Commissioner Her-mann that will enable the state to secure several townships of land as indemnity several townships of land as indemnity school lands that would otherwise have been ultimately thrown open to general entry. The state is entitled to about 800,000 acres of lands to indemnify it for osses through entry before survey, or through natural causes, of school sections throughout the state. The state is also permitted to advance the cost of survey of townships for the purpose of com-pleting the various other land grants from the general government, and the amount thus advanced is returned by the Government when the survey by the state has been accepted. The state has caused to be surveyed more lands than are necessary to fill the grants, and desires to file on the overplus as indemnity school lands. An attempt of this charac-ter under a previous state administra-tion was denied, but Commissioner Callvert, while in Washington, D. C., re-cently presented the matter very fully to the General Land Office, with the result that one selection list as indemnity lands has already been accepted, and several more will go through. He states, nowever, that it will not be possible for the state to secure all the indemnity lands it should have, as there will not be enough Government lands of the character described to fill out the list.

While in Washington, Commissioner Callvert, with the aid of Congressman Jones, arranged for the payment of the first claim of the state against the Government for the survey of the townships referred to heretofore. The surveys cover a period of several years, but this is the first move made to secure reimbursement for the state for such moneys advanced. The amount due from the Government is

Another matter taken up was the rights of claimants who have located mineral ledges on school lands. The assurance was had from Commissioner Hermann that unless the school sections in controversy were well known, before the ac-ceptance of the survey of the townships wherein they are located, to contain valuable mineral deposits, the right of the state to claim such sections could not be disturbed. This will affect a number of contests now pending, and some also martial, found guilty of seiling clothing, likely to be filed. Among the latter is and sentenced to hard labor for one year an important one in Pierce County, at Alcatraz, besides being dishonorably where the Olympic Mining Company has expended, it is said, \$50,000 to \$100,000 in developing coal deposits. It is said in the State Land Office that the coal deposits were discovered comparatively recently, while the township was surveyed before the admission of the state to the Union. It is probable that if the mining company does not soon inaugurate a contest, the state will bring a suit in eject-ment to gain full possession of the section in question.

PROFESSOR C. W. DURRETTE DIES Former Portland Educator Expires in Olympia.

OLYMPIA, Wash., Feb. 25.-Professor 2. W. Durette, principal of the High School, died here today, uged 43 years. Professor Durette came here from Port-land about a year ago. He is survived

(Professor Durette was well known in Portland. He was a candidate for School Superintendent at the last election, but was defeated by Superintendent Robinson. He was formerly principal of the Mount Tabor schools, district No. 5. He was principal of the Woodstock School for two years, when he was elected principal of the Mount Tabor schools. In the lat-ter position he served only a year and a half, when he resigned to accept a place in the High School of Olympia.

While principal of the Mount Tabor School he introduced a number of new methods, among which was a savings bank for the benefit of the children. He paid the pupils a per cent on their decosits. At the close of his service the bank also closed, and was not resumed. At Woodstock he aroused the pride of sor Durette was also a well-known teach- board to serve as County Physician for ers' institute worker.)

Mrs. S. A. Clark.

OREGON CITY, Feb. 26,-Mrs. S. A. Clark died yesterday at Clackamas, aged 85 years. She had resided there since 1874. and left three children—C. F. Clark, of Clackamas; I. O. Clark, of Harmony, and Mrs. Gilbert Houser, of Los Angeles, Cal. Mrs. Gilbert Houser, of Los Angeles, Cal.
The funeral will be held at 10 o'clock tomorrow morning from the church at Har.

time a homestead claim was canceled mony, and the interment will be in the this Fall on the ground that the tract oregon City cemetery.

OUTPUT OF WASHINGTON MINES. Inspector Owens' Report for the

Year Just Closed. TACOMA, Wash., Feb. 26.-State Inspector of Coal Mines C. F. Owens has just filed his report for the year 1901. It shows that the amount of coal mined during the | six years. year was 2,504,190 short tons, an increase of 86,156 tons over the output of the previous year. The amount of coke produced was 49.197 tons, an increase of 13,275 tons over the output of 1900. Mr. Owens states that but for the use of oil as fuel to a considerable extent in California, the in-crease of the output over 1900 would undoubtedly have been greater. The local demand for coke and coal, it is stated, is rapidly increasing, however, and a greater increase in the output can be expected this year. In improvements and development work the report states that nearly all the coal mines in the state have exall the coal mines in the state have extended their workings and increased their capacity for the present year's output. The total number of men employed in the

installed during the past year. In places where mine dust is created the aprink-ling system has been adopted. As far as the present inspector is competent to judge, the coal mines of the state were never better ventilated or in as safe con-lition as they are at the present time.

STREET MAY BE PAVED AFTER ALL Baker City Property-Owners No

Longer Against Improvement. BAKER CITY, Or., Feb. M.-The prop tion to pave Front street, one of th main streets of the city, from Auburn avenue to Central street, has been re-vived, and the prospect is fair for the paving to be done this season. It seems that a number of property-owners signed the first remonstrance through a misunderstanding. They were of the opinion that the price demanded for paving the streets, with wood blocks, as proposed in the city ordinance, was too high and signed the remonstrance mainly to secure a reduction in the price. Under the law, a remonstrance signed by a majority of the property of the matthe property-owners disposes of the mat-ter, so far as the Council is concerned, for a period of six months, when another proposition may be made. On learning that they had tied the hands of the Council many of the property-owners ex-pressed a desire to withdraw their objection. Another petition has been pre-pared, asking the Council to go ahead with the paving on Front street, and it is understood that a majority of the property-owners are now in favor of the

Greater Demand for Lumber. The demand for lumber from this part of the state continues to increase and the millmen are preparing to meet the demand, and supply it if possible. The Oregon Lumber Company has over 3,000,-000 feet of logs on hands, and Stoddard have shout 2,000,000. Most of this lumber will go to Colorado and Kan-

OFFICERS DECLARED OUT AGAIN. Pendleton Council Elects Marshal

and Recorder-Fight Not Ended. PENDLETON, Or., Peb. 25.-Joe Blakley and John McCourt were appointed at the Council meeting tonight to take the of Marshal Heathman and Recorder Beam. This is another move in the Council fight which has been on since January 19, when a tie vote was cast for ousting Heathman and Beam. Mayor Halley cast his vote against Heathman and Beam, and declared William Lane and Lawrence Frazier elected. Heathman and Beam filed an injunction against the Mayor, the four Councilmen and the offi-cers appointed. Judge Ellis recently sustained the injunction against the latter, but dissolved that against the Mayor and the Councilmen. Tonight was the first meeting since the Judge rendered his decision, and the vote was the same as be-fore—four for and four against. A suit will be filed against the new officers when they are sworn in. They filed bonds to night before leaving the hall.

INDICTED FOR RIOT.

Grand Jury Files Bill Against Miners Who Made Alleged Scabs Move On. BAKER CITY, Feb. 26 .- The grand jury 13 miners who were arrested the first of this month and bound over to await the action of the Circuit Court on the charge of riot. The indictment charges the men with riot. They were allowed to go on their own recognizance. The men are all at work at the Columbia mine and it is doubtful, in view of the fact that they have all repented of their folly, if the case is ever pressed against them. The offense of the men consisted of ordering two men regarded as "scabs" to move.

VANCOUVER BARRACKS, Feb. 26. Captain W. P. Richardson, Eighth In-fantry, in addition to his other duties, has been appointed acting aid-de-camp to

the commanding General.

Dr. Harry L. Glichrist has been relieved from temporary duty at Fort Fiagler, and returned to Vancouver Bar-

Paul C. Kelly, Eighth Battery, Field Artillery, was tried by a general court-martial, found guilty of seiling clothing, discharged.

Ernest N. Hill, of Fort Sheridan, and Carl R. Thompson, of Fort Casey, have been ordered to Vancouver Barracks to be examined for detail or acting hospital

steward. Orders have been issued from Department Headquarters that prisoners undergoing sentence of general court-martial will not be paroled, as was formerly done.

Held for Issuing Worthless Checks. CORVALLIS, Feb. 26.-Charles Thomas, aged about 30, and a native of Manitoba, is in the county jall, on a charge of ut-tering fraudulent checks. Four checks, of \$10 each, signed by him and drawn on banks in Portland and Corvalits, were cashed for Thomas by local saloon men. Investigation showed that he had no account with either of the banks on which the checks were drawn. He fled, but was captured by the officers, and at his preliminary trial yesterday afternoon, walved examination, and in default of \$500 was committed to jall.

D. J. Yergain is in the Benton County jail, committed in default of \$500 bonds from Lincoln County for criminal assault. He is about 55 years of age. The other party to the reset in a grid of 12 or other party to the case is a girl of 13 or 14 years.

County Board of Education. VANCOUVER BARRACKS, Feb. 26 .-The County Commissioners today ap-pointed the following persons to act as a County Board of Education; C, W. Shumway, superintendent of the Vancouver schools; P. Hough, principal Van-couver High School; Donald McMaster and Edson M. Rowley. This board will have full authority in the matter of the selection and purchase of text-books for the community to a considerable extent in the schools of the county.

Death List Now Numbers Six. WALLACE, Idaho, Feb. 26.-The death list of the fire at Mace, Idaho, now num-bers six. D. McCallum dled at midnight, as a result of burns, and John Bowhay this afternoon. The rest of the patients are considered to be in no immediate this afternoon.

Bond Issue Voted Down. HOFFMAN, Wash., Feb. 28.-On the nestion of issuing bonds in the sum of \$15,000 for public improvements by the city, the voters yesterday refused to indorse the proposition. The city has reached its limit of indebtedness,

MAKES CREAMERY CERTAIN

DAIRY MEETING AT DAYTON AROUSES GREAT INTEREST.

Prominent Speakers Tell Why the Business Pays Better Than Any Other Agricultural Pursuit.

DAYTON, Or., Feb. 26.-The dairy meeting held here yesterday afternoo n and evening was a complete success. The meeting had been well advertised as a creamery meeting and the attendance and interest manifested makes certain the hment of a creamery in Dayton in the near future. Dr. J. S. Courtney, the Mayor of the called the meeting to order, and

a few well-chosen words he stated the purpose of the meeting, and welcomed those in attendance from a distance. Practical Dairying. Dr. James Withycombe, of the Oregon Agricultural College, discussed "Prac-tical Dairying," saying in part:

was selected as permanent chairman In

der per acre, and is the king of crops for ensilage purposes. Sweet corn was not considered satisfactory, a Yellow Dent va. riety known as Pride of the North being recommended as giving best results. Mr. Weeks thinks a great deal of the vetch, both as a crop for green feed and for sliage purposes. He stated he had changed from a feed of good hay and han the change of green yetches only and had bran to one of green vetches only and had increased the flow of milk. A general discussion followed the presentation of Mr. Week's topic, involving construction of siles, value of different breeds, best kind of farm separator, feeding of separator skim milk, etc.

Co-operation in Dairying. Professor F. L. Kent, of Corvallis, di cussed "Co-operation in Dairying." took the ground that any creamery cheese factory was co-operative in a measure for it furnished a central place where the raw material of a given callty might be transformed into a fin-ished product. The chief advantages of such an arrangement were held to lessening of labor in handling the milk; greater profit as a result of the produc-tion of an article that would sell at the highest prices; a stimulus to greater ef-fort by the comparing of methods and monthly returns.

Interest of Railroad. cal Dairying," eaving in part:

H. E. Lounsbury, traveling freight agent
"Agricultural wealth depends on the fer- of the Southern Pacific Company, ad-

OUTGOING STATE LIBRARIAN OF WASHINGTON AND HIS PROBABLE SUCCESSOR.

JOSEPH GABEL.

OLYMPIA, Wash., Feb. 26.-Governor McBride this afternoon called for the resignation of State Librarian I. P. Callison, and it was at once tendered, to take effect at the Governor's pleasure. Mr. Callison's successor will, in all likelihood, be Joseph A. Gabel, of Chehalis, chairman of the Lewis County Republican Com-Governor McBride goes to Chehalis tomorrow to visit the Reform School, and while there he will investigate the claims of Gabel and Lewis County's other candidate for Librarian, Thomas H. Dunckly, editor of the Centralia News-Examiner. Mr. Gabel has the indorsement of the county Republican organization, and of Senator Welty, and it is generally understood he will get the appointment.

..............

tility of the soil. By dairying you can dressed the meeting on "The Southern have your lands richer 100 years from Pacific Company's Interest in the Dairy now than at present. This cannot be done with grain farming. You can keep "Every effort is being made by the a cow to every four acres, derive an in-come of \$45 to \$65 per cow, and raise tering the Northwest to increase the are producing at present. In Jefferson end in view, low rates have been estable county, Wisconsin, 15 years ago the average wheat yield was 12 to 14 busheis per acre. Since the introduction of modern dairy methods in that county the here among us it is essential that our per acre. Dairying gives the maximum return for the food consumed and the la-

diet of rolled wheat and water stating that a pound of gain was produced from this pounds of wheat. At the present price of pork, this gives a return of nearly 75 cents per bushel for the wheat consumed.

Why Dairying Pays. Dairy and Food Commissioner J. W. Bailey discussed "Advantages of Dairying in the Willamette Valley," in part

"With all the advantages offered here the question is often asked, "Will dairy-ing pay?" The answer is, "Yes," and for many reasons. In the first place, it is a cash proposition. There is no credit with the cow. You feed her today and tomorrow she pays you back in cash. The dairyman does not have to tell his hired man he will pay him when he selis his wheat or when he sells a bunch of lambs or harvests his fruit, for he has the cash every week or every month. The dairyman does not have to run a bill at the grocery or any where else, for his business is on a cash basis, and he can pay as he goes. Again, the dairy bush pay as he goes. Again, the dairy susiness is a continuous business; it brings in cash every week in the year. The fruit man, the wheat man, the lamb man, or the beef man gets his money in large sums and at irregular intervals. This tends to extravagance in expenditure. When people have lots of money they spend it freely, and when the source is cut off they feel it sorely. A Washington County' creamery patron recently ton County' creamery patron recently showed me his creamery check for last month, and it amounted to \$191 06 for button County ter fat sold from 27 cows, and this does not represent his total income from his dairy, as he has the skim milk, in addition with which to raise calves and pigs. "Now, when we speak of dairying we do not mean the getting together of a few scrub cows and making a lot of buter that will rival snow in its whiteness and lard in its flavor. The up-to-date

dairyman will learn to test his cows and keep only those that will return a profit, Not many years ago we had practically no butter market in this state, but today there is a demand for our dairy products. and at a price that ought to be satisfac-tory to the producer, and I am of the opinion that the demand will increase faster than the supply."

Feeding the Dairy Cow.

George W. Weeks, the best-known dairyman in Marion County, discussed "Feeding the Dairy Cow." He stated that he found pasturing too expensive and practiced soiling. An area eight feet square will produce a daily feed for a mines is 4526.

There were 27 fatal and 882 non-fatal accidents during the year, against 22 of the former and 78 of the latter during the previous year. In the mines that throw off dangerous gases, powerful ventilating fans are used, several of which have been previous fans are used, several of which have been gases.

President Dismisses Noyes.

WASHINGTON, Feb. 22.—President cow. There are 320 such areas in an acre, which comes pretty close to the come in regard to making the assessments of the three counties as nearly uniform true conditions, it require nearly five acres to furnish the Summer feed and the other Eastern Oregon Assessors will produce from nine to 20 tons of green fod-sessment.

more wheat on the same area than you ulation of the Pacific Slope, and with this average yield has increased to 22 bushels home people should be up to date and enterprising in their agricultural, horti-cultural and business affairs.

or expended."

"It is quite true that our farm lands or wery fertile and productive, but if perimental work in feeding hogs on a our own people are behind the times, how can we reasonably expect farmers and others coming from Eastern States, where the latest methods of diversifying and cultivating crops are practiced, to be believe what we tell them about the ad-vantages to be found here?

"As an instance of recent success in the

establishment of a creamery I will cite the one at Independence, Or. It was started the first of last year, and during its first month's operation paid out \$561 00 to 51 patrons. The highest amount paid during any one month was \$1238, in October, to 59 patrons. During January, 1982, it paid out \$1617 35 to @ patrons. Con. sidering the conditions existing in a new locality where the people are not as a rule prepared to supply milk regularly to a creamery, this is indeed a very good showing for the first year. The world is our market, but for some time to come the dairy products of Western Oregon will be sold in the Pacific Northwest and Alaska, where the population is increasing more rapidly than the production of

butter, eggs and cheese." Steps to Get Creamery.

At the close of the afternoon session a committee was appointed to solicit subscriptions of stock for a creamery plant and canvass the surrounding country to determine if there was a sufficient milk supply in sight to warrant the building of a creamery. The committee consisted of B. Gabriel, Fred Wirfs, W. G. Perkins, D. T. De Teire, S. E. Goodrich, Charles Beach and T. P. Caughlin. The session were enlivened to no smal extent by the music furnished by a maie quartet, consisting of Messrs. R. L. Har. ris, W. G. Perkins, G. E. Bertram and

Mine Likely to Change Hands. BAKER CITY, Feb. 26.-Unless all signs fall, the deal for the Bainley-Elkorn mine will soon be closed and F. P. Hayes will come into possession of the property. Mr. Hayes successfully carried on the deal by which he and others pur-chased the famous Bonanza mine from Albert Geiser and relatives. Recently, he has been paying 50 cents on the dollar for a lot of old claims against the Baisley-Elkhorn. If he secures the mine, he pro-poses to expend \$150,000 in opening up and developing it.

BAKER CITY, Feb. 28.—Assessor George W. Jett, of Baker County, has invited the Assessors of Umatilia and Union Counties to meet with him in this city at an early

\$1,050,000 PAID OUT IN OREGON IN YEAR JUST CLOSED.

Statements Will Be Used in Comput ing State Tax Under New Law-Interesting Comparisons,

SALEM, Feb. 26.—The total expendi-tures of the several counties of the state for the year 1901, exclusive of roadbuilding, was \$1,049,580 St. This is shown by a statement issued today by Secretary of State Dunbar. The figures are taken from the reports of the several County Clerks filed with the Secretary of State as required by the act of the last Legislature. The average expenses of the cor ties for 1901 and the four succeeding years will be taken as the basis for the apportionment of state taxes after the period named has expired. Secretary of State Dunbar has prepared

tables showing the population of each county according to the last census, the assessed valuation of property, the total area, and the percentages of state taxes that would be paid on the basis of last year's expenditures. As this last matter is the chief purpose of the new law, the effect it will have upon the apportionment of state taxes is of greatest interest. Under the laws in force prior to 1901, each county tried to keep its assessed valua-tions down, in order to escape as much as possible of the burden of state taxes. In order to avoid and correct this evil, the Legislature fixed an arbitrary percentage of state taxes which each county must pay for five years, after which the proportion each county shall pay will be determined by ascertaining the average of the expenses of each county for a period of five years. Each county will then pay state taxes in the proportion that its expenses bears to the total expenses of all the countles.

So far as this one year's returns are concerned, the new basis will be material ly different from that now in force, but as the average expenses for five years is to be the basis the final result cannot yet be determined even approximately. Under the present law, Multnomah County is paying 31.23 per cent of the state taxes. Upon the basis of expenditures for 1901, that county would pay but 24.18 per cent. During the next four years, however, Multnomah's expenditures may increase to such an extent as to raise her proper tion of the state taxes. Clackamas Coun ty, under the present system, pays 3.35 per cent of the state taxes, but her expenditures last year, if continued for four years at the same comparative rate, would require that county to pay 6.62 per cent of the state taxes. On the other hand, Linn and Marion Counties, which have kept their expenses down, are in a fair way to experience a reduction in their state tax burden. It is possible that Marion, Linn and other countles which have been running on a strictly economical programme may find that their expenses will be higher during the next four years, thus ruleing their general average.

In the following table is shown the rank the various counties take in the matter of population, assessed valuation and exditures. Thus, for example, it will be opulation and valuation, but drops to fourth place on the amount of expenditures. Clackamas County, on the other hand, is third in population, seventh in valuation, but rises to second place when it comes to spending money. Umatilia County ranks third on county expenses, but is sixth in population and fifth in valuation. Multnomah and Curry Counties are the only ones maintaining the same rank in all particulars, Douglas and Benton Counties are quite uniform. Douglase is ninth in population, eighth in valuation and eighth in expenses. Benton keeps the same proportion. It is fifth in population, third in valuation and drops down to loth in expenditures. The counties rank as follows:

CURED FREE

Kidney Disease, Make a Test of Your Urine and Satisfy Yourseil.

Mrs. George Haight, of 361 Columbus Ave., New York City, Who Is 78 Years Old, Says Se Was Cured of Serious Kidney and Bladder Disease,

WARNER'S SAFE CURE

Is the Only Cure for All Forms of Kidney Disease. A Trial Bottle Will Be Sent Absolutely Free to Any Reader

of The Oregonian. TEST YOUR KIDNEYS-Put some morning urine in a glass or bottle; let it stand for twenty-four hours. If then it is milky or cloudy, or contains a reddish brickdust sediment, or if particles or germs float about in it, your kidneys are diseased. This is the supreme moment when you should begin to take Warner's Safe Cure to arrest all these unnatural conditions, for they are the unmistakable cymptoms of kidney disease. If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send us a sample of your urine, and our doctors will analyze it and send you a report with

positive cure for all forms of kidney, liver, bladder and blood diseases; uric acid poison, rheumatic gout, diabetes, pain in the back, scalding and painful passage of urine, frequent desire to urinate, painful periods, bearing down and so-called fre-

Kidneys Cured at 78 Years of Age

Mrs. George Halght, of St. Columbus avenue, New York, who is 78 years old, says Warner's Safe Cure cured her of serious kidney and bladder diseases and has kept her in robust health.

WARNER'S SAFE CURE is purely vegetable, and contains no harmful drugs; it does not constipate; it is now put up in two regular sizes, and is sold by all druggists, or direct, at 50 CENTS and 10.00 A BOTTLE—less than 1 cent a dose,

Refuse substitutes. There is none "just as good as" Warner's. Insist on the genuine Warner's Safe Cure, which always cures. Substitutes contain harmful drugs and do the patient more harm than good.

TRIAL BOTTLE FREE

To convince every sufferer from diseases of the kidney, liver, bladder and blood that Warner's Safe Cure will cure them, a trial bottle will be sent absolutely free to any one who will write Warner Safe Cure Co., Rochester, N. Y., and mention having seen this liberal offer in The Oresonian. Our doctor will send medical booklet, containing symptoms and treatment of each disease, and many convincing testimonials, free, to any one who will write.

building at this city. Estimates are be ing secured on a site, for the use of the department. There is considerable confi-dence in the appropriation being retained in the bill when it passes the House Flooded Mine Drained.

NANAIMO, B. C., Feb. 26.-The Extension mine of the Wellington Colliery Com-pany, which was flooded to put out the has been drained. Three of the 17 victims who perished last September have been recovered. The level where the remaining bodies lie will not be cleared of water for a day or two.

plans for the campaign discussed.

Albany People Elated.

ALBANY, Or., Feb. 26.—Albany people are greatly elated over the passage through the Senate of the bill carrying an appropriation of \$150,000 for a public.

A. E. Auringer, Braidwood, Ill., says: "After suffering untold agony for over twelve years from both forms of piles, and trying all sorts of pile remedies without relief, I am completely cured by Pyramid Pile Cure." Sold by all druggists, 56 cents a box. Book, "Piles, Causes and Cure," and the proposed of the piles of the passage of the passage of the piles of the passage of the p

Men, Young and Old, Read This

This is the oldest Private Medical Dispensary in the City of Portland, the first Medical Dispensary ever started in the city. Dr. Kessier, the old reliable specialist, has been manager of this institution for 20 years, during which time thousands of cases have been cured, and no person was ever refused treatment. The St. Louis Dispensary has thousands of dollars in money and property, and able financially to make its word good. good. Since Dr. Kessler started the St.

Since Dr. Kessler started the St.
Louis Dispensary, over 20 years ago,
hundreds of Laveling doctors have
come to Pordand, advertised their
sure-cure ability in the papers, got
what money they could from confiding patients, then left town. Dr.
Kessler is the only advertising specialist who can give references to all
classes. You may ask bankers, merchants, and all kinds of business
men. They will tell you that Dr.
Kessler is O. K. Lots of people coming from the country deposit their money with him. No other specialist on
the Coast can give such reference as this old doctor.

GOOD DOCTORS.

Many doctors in country towns send patients to Dr. Kessler, because they know he is prepared to treat all kinds of private and chronic diseases. PRIVATE Diseases. This doctor guarantees to cure any case of Syphillis, Gonorrhea, Gleet, Stricture cured, no difference how long standing. Spermatorrhea, Loss of Manhood or Night Emissions, cured permanently. The habit of Self-Abuse effectually cured in a short time.

YOUNG MEN Your errors and follies of youth can be remedied, and this old doctor will give you wholesome advice and cure you—make you perfectly strong and healthy. You will be amazed at his success in curing Spermatorrhea, Seminal Losses, Nightly Emissions, and other effects.

KIDNEY AND URINARY COMPLAINTS.

Painful, difficult, too frequent, milky or bloody urine, unnatural discharges, carefully treated and permanently cured. Piles, Rheumatism and Neuragia treated by our new remedies, and cures guaranteed.

Paients treated in any part of the country by his home system. Write full particulars, enclose ten lo stamps, and we will answer you promptly. Hundreds treated at home who are unable to come to the city. READ THIS Take a clear bottle at beddime, and urinate in the bottle, set aside and look at it in the morning. If it is cloudy or has a cloudy settling in it, you have some kidney or bladder disease, and should be attended to before you get an incurable disease, as hundreds die every year from Bright's disease of the kidneys.
