#### COMMERCIAL AND FINANCIAL NEWS

Another drop in sugar was the most important feature in the local market situation ready reasonable figures, with the end not yet in sight. The decline does not seem to be harming anyone in this market to any appreciable extent, as neither wholesaler nor retailers have very much confidence in a speedy return of higher prices and are holding stocks down to very moderate proportions. There were no other changes in grocaries yesterday, and most of the dealers reported a good trade. Potatoes continue steady, and some dealers have received orders for shipping into Arisona, a field from which they have previously been shut out by the shipping into Ariaona, a field from which they have previously been shut out by the competition of Colorado potatoes. Shipments by the next steamer will be quite moderate, and a further improvement in the San Francisco market is expected to follow. The egg market, after the decided weakness of Tuesday and Wednesday, and steaded up a little yesterday, but it conts was an extreme figure and they were retailing all over the disure and they were retailing all over the city at 15 cents per dosen. In round tots, sales were made at 13c, and 185c, and several hundred cases were shipped out of the city at 13% cents net. Positry market is still firm for good chickens, but only fairly steady in other lines.

| Exchanges | Balances | Portland | \$554.778 | \$119,927 | Seattle | \$52,652 | \$3,905 | Tacoma | 153,459 | \$3,805 | Spekane | 319,272 | 48,574

#### PORTLAND MARKETS.

Grain, Flour, Etc. There was a fractional gain in the wheat markets in the East yesterday, but in the local market, matters were at a standstill. Buyers were quoting about 65½ cents for Walla. Walla, with a very limited amount of business possible, at about half a cent to a cent above this figure. Enough ships have missed their cancelling dates within the past month to leave the exporters in this city in a very independent position regarding wheat, and when the exporters cannot pick it up at about export value, they stay out of the mar ket. The milling demand is fairly good, but as the Oriental flour trade will not readily stand the recent advances made necessary by the advance in wheat, this trade is of smaller oportions than it was a few weeks ago, sceipts of wheat have been quite large with-the past few days, but it is nearly all on old account, the greater part of it coming out of Snake River, where it was held up first by low water, and afterwards by los in the river. Freights remain steady but inactive, with 25 shillings bid, and 26s 3d asked. No transactions are reported, nor is there is to be any until there is some improvement in the foreign market. NEW YORK STOCK MARKET.

Remarkable Exhibit of Strength in Stocks Not Often Heard From.

NEW YORK, March 6.—Today's stock market made a remarkable exhibit of strength in spots. Several of the customary market leaders were included in the unward movement. The strength of the market, nevertheless, failed to carry conviction as to the genuineness of the demand which lifted prices to a higher level. As the advance gained headway, various outstanding short interests were put under pressure, and bought rather urgently to cover short contracts. The demand was, so far, unquestionably genuine. Otherwise, there was the appearance of manipulation. This was parily due to the character of the stocks which are often not heard of for weeks at a time on the exchange. Nor was there any tangible news today to account for their strength, either affecting them individually or the general situation. In fact, the conditions which have made the basis of the best argument early in the week continued in force today. The great show storm, with the new obstruction to traffic, threatened larcads upon future showings of earnings. The engagements of gold for export Saturday were increased today to associations, on account of threatened action by the Government, continued to be heard. These would all have induced selling of stocks in the speculative temper which prevailed earlier in the week. They were ignored today. A very strong sentimental effect was produced by the persistent show of strength in Chicago & Northwestern, and the character of the burling, which lifted it, and which had every appearance of genuine investment demand. It was this this movement when had every appearance of genuine investment demand. It was this this movement when had every appearance of genuine investment demand. It was this this movement which are inclined to rest today, although the second preferred was advanced here points. Outside of these conspicuous examples. Northwestern itself tooked, which was the provide movement in other bigh-grade closely-held stocks, such as Pullman, Ocner

"Crop Killer" Appears at Chicago, but Ras Little Influence.

CHICAGO, March 6.—The "crop killer" was the most important factor again in wheat to-day, but his mutterings were not very influen-tial. Continued reports of had conditions came from Kansas, Oklahoma, Texas and Incame from Kansas, Oklahoma, Texas and Indiana. Reports from the last named states were especially gloomy. Statistical papers stated that crop conditions were fair, notwithstanding the damage reports. Cables were somewhat improved and Northwestern receipis were small. Duliness in trade, however, kept May prices hovering closely around 70%c, the greater part of the day. May opened unchanged at 70%c, sold as high as 70%c and closed barely firm, ise up, at 70%c.

Corn ruled slightly bearish, after the somewhat steady opening. Cables were slightly improved and early offerings were light. May prices sagged to 61%c and closed easy ise lower, at 61% 661%c.

ic lower, at 61% p81%c. Outs were dull. May closed steady, unhanged, at 44%c. The leading futures ranged as follows: WHEAT. May Opening Highest Lowest Closing May 80 76% 80 76% 80 76% 80 76% 80 76% 80 76% 76% 76% 76% 76% 76% CORN. OATS. MESS PORK.

Chamber of Commerce

iron, after the tremendous February rush. Others, however, have booked some large orders. Of course, it is probable that this year's consumption will be considerably larger than that of 1900 and 1901, but the fact remains that there is still a reserve in eight larger than the majority of the trade suspect. As for the scarcity of structural material, the point is made that it is more apparent than real. Formerly the bridge and structural shops drew upon many mills for their supply, and by distributing their orders were able to arrange for simultaneous deliveries of the different sizes. Since the consolidation, it has not been quite so readily stranged, and it has often happened that work could not be completed because 10 per cent, or less, of the matter, in the shape of particular sizes or sections, was not ready for delivery.

No further importations of any consequence are reported, either in pig iron, billets or finished material.
