

AN AUXILIARY NAVY

Hanna's Speech on the Ship Subsidy Bill.

SENATORS CONGRATULATE HIM

Debate on the Measure Providing for the Protection of the President of the United States.

WASHINGTON, March 6.—A notable speech was made in the Senate today by Hanna on the pending shipping bill, which he discussed from the point of an American business man. His arguments were carefully prepared, he was always forceful and earnest, and at times became eloquent. He commanded the undivided attention of the Senate and of the galleries, and when he closed he received the congratulations of many of his colleagues.

Early in the session Frye, in charge of the pending shipping bill, obtained an agreement that the Senate should vote on the measure and all pending amendments to the bill, on Monday, March 17, that time being entirely satisfactory to those opposed to the bill.

Before consideration of the shipping bill was resumed, an extended debate occurred on the measure providing for the protection of the President of the United States. Bacon took the ground that in its present shape the bill was an invasion of the jurisdiction of the states, and that it ought to be amended radically. Patterson, while he agreed to the general proposition of the bill, urged that it ought not to pass in its present form. No action on the bill was taken.

At the conclusion of the routine business consideration was begun of the bill providing for the protection of the President of the United States. Pending discussion of the bill, Frye, in charge of the shipping bill, asked unanimous consent that a final vote upon that bill and all amendments be taken on Monday, March 17, at 3 P. M. Without comment, the Senate agreed to the request.

Bacon, a member of the judiciary committee, then discussed the bill for the protection of the President. It was, he thought, a very grave question, and he did not believe the measure ought to be passed without amendment. In view of the recent calamity which had befallen another person, and an attempt at assassination was not punishable with death in any state, as the pending bill provided.

Bacon, continuing, said that the bill involved the right and propriety of the Federal Government to enforce a law within a state different from any law on the statute-books of the state. So far as the architect was concerned, the death penalty was not a deterrent against the crime of assassination, as the anarchist was willing to sacrifice his own life.

Hear interrupted to say that the pending bill was proper because the assassination or attempted assassination of the President was an interruption of the Government, and it was the duty of the Government that such interruption should not occur.

Bacon urged that the bill, at least ought to be amended in order that the crime should be shown that the crime was against the President, "because of his official position or for the purpose of depriving the Government or impeding the execution of its Constitutional powers."

Bacon said the bill was practically an enlargement of the law of treason, and proposed to be made a crime of something that under the Constitution was not treason. Patterson suggested that a most embarrassing situation would have arisen had the assassination of President McKinley, for instance, occurred in the State of Iowa, where capital punishment is not permissible. It would have resulted, he believed, in the state being disgraced by the failure to execute the murderer.

Hanna then addressed the Senate, his remarks being principally in answer to Clay's speech of yesterday. He said that when Clay quoted from Frye's remarks that all there was in the question which required explanation was embraced in the one question of labor, he was correct. "I stand by that proposition, but I go further. The one in the ground is worth about 25 cents a ton. After it was touched by the hand of man it was labor. Ninety-five per cent of the cost of a ship built in American shipyards, or in any shipyard, is purely labor. The cost of the construction of a ship in the United States is against that in either England, Germany or France simply measures the difference of wages and the efficiency of American labor."

20—"G" Varnish Stain. A perfect natural wood stain.

PHILADELPHIA, March 6.—The snowfall which began in the state yesterday morning ceased during the night, and today the weather is bright and clear. Reports from the mountainous region show as much as two feet of snowfall in some districts. Trolley and steam railway traffic is much impeded, and in some localities abandoned altogether.

Colliers Suspend Operations.

PHILADELPHIA, March 6.—The snowfall which began in the state yesterday morning ceased during the night, and today the weather is bright and clear. Reports from the mountainous region show as much as two feet of snowfall in some districts. Trolley and steam railway traffic is much impeded, and in some localities abandoned altogether.

Passenger Train Snowbound.

ALTOONA, Pa., March 6.—The city, passenger and Logan Valley electric railroads are still tied up, snow covering the tracks to such a depth that it is necessary to use picks and shovels to remove it. A passenger train on the Altoona division of the Pennsylvania Railroad was caught in a snowdrift near Martinsburg last night and held 12 hours. The passengers were through snow three feet deep to reach the village, where they found shelter. The train was dug out today.

Prizes for School Pupils

John Burroughs Society Offers Them for Knowledge of Native Birds. The following letter has just been sent to the State Superintendent of Public Instruction, county superintendents and principals of the elementary schools of the State of Oregon, by the John Burroughs Society:

"The John Burroughs Society, of Portland, has, through the generosity of Mrs. Rosa F. Burrell, of this city, two prizes to award for knowledge of the native birds of Oregon. These prizes are to be given to the pupil of the highest grade in the elementary schools of the state.

"The first prize is \$20, the second \$5, which are to be awarded to those who can name the most birds by sight and song, and who write a sufficiently excellent composition on the subject. The relative markings for the two examinations will be, upon a scale of 100, 80 per cent for the first and 40 per cent for the composition test. That is, actual knowledge of the birds will count for more than excellence in composition.

"The pupils who graduate in the class graduating in February as well as to the class graduating in June. The compositions must be in the hands of the secretary of the John Burroughs Society, 246 First Street, Portland, Or., not later than May 1. The field examinations will be given the last week in May and the first week in June of each year. All who send compositions to the secretary will be entered in the contest for a field examination, and the address of each writer should be enclosed with the composition.

"Pupils who kill birds, or collect eggs or nests, even for the purpose of study, are excluded from the competition. A prize of \$25 is also offered for the teacher whose pupils have the highest average in the contest for the Burrell prize. Very truly yours, CLARENCE H. GILBERT, President. WILLIAM F. McKIBBEN, Secretary."

Shot and Killed by His Wife.

BILLINGS, Mont., March 6.—Charles H. Orcutt was shot and killed by his wife at an early hour this morning. In this city, Mrs. Orcutt, who is under arrest, is charged with the murder of her husband. She was arrested at 12:30 o'clock this morning, intoxicated, and threatened to kill her. Picking up a short-handled ax, she inflicted many wounds on the woman, at the same time declaring that she would chop her head off. Mrs. Orcutt says that she then drew a revolver and fired three times. Two shots took effect in the breast, and she struck the man's right wrist. She had carried the revolver owing to previous threats of her husband against her life.

Caught in the Act.

BRAZIL, Ind., March 6.—Albert Decker, of the firm of Decker & Son, furniture-dealers and funeral directors of this city, has carried out a unique plan which caught one of his trusted clerks, who is said to have daily applied for several dollars. Mr. Decker directed a camera in line with the money drawer and attached to the slide a string which passed through into a hole in the wall. He procured the clerk and when he discovered the clerk taking money from the drawer he pulled the slide by means of the string and photographed the clerk with his hands full of coins. The clerk was arrested.

Fatal Stabbing Affray.

WINSTON, Mont., March 6.—A fatal stabbing affray occurred at the East Pacific mines in which Foreman Tights almost instantly killed Paul Koch. An altercation occurred between the two men and they came to blows. The miners present separated the two, when Tights seized a breadknife and slashed Koch across the face. He then plunged the knife into Koch's breast, who fell to the floor and expired.

Extended to Foreign Markets.

NEW YORK, March 6.—At the annual meeting of the American Radiator Company, Joseph Bond, Clarence M. Woolley and H. H. Edgers, the directors whose terms expired, were re-elected. James B. Dill was elected a director in place of H. H. Edgers.

Fatal Prize-Fight.

CHICAGO, March 6.—Samuel Uphouser, known in pugilistic circles as the "Blight-on-Slasher," is dying at his home, 817 West Twenty-second street as the result of a knock-out blow he received in a fight at Bricklayers' Hall Saturday night. The police are searching for his opponent in the battle, but can only learn that he is known as "Young Choyank," and no one knows where he can be found.

Warren Partially Disabled.

SAN FRANCISCO, March 6.—Private stationer Honolulu states that the transport Warren, which left this port 11 days ago, was partially disabled, and is undergoing repairs at Honolulu. Five days out from San Francisco the Warren encountered a heavy storm, in which her tail shaft was broken.

Women Cannot Learn Chinese.

NEW YORK, March 6.—That women are incapable of mastering the Chinese language was a statement made by Herbert A. Giles, professor of Chinese at Columbia University, England, in an address at Columbia. It was his first lecture in this country, and also the first to be given by the new Dean Luang Department of Chinese at Columbia, for the establishment of which an unknown person gave \$300,000. More than half the audience was composed of women, and this proved rather embarrassing, as some of Professor Giles' remarks were not exactly complimentary. He said, for example, that the Chinese symbol for treachery was woman.

No More Trading in Egg Futures.

NEW YORK, March 6.—Consternation has been caused among the bears on the Merchants' Exchange by the promulgation of a rule abolishing trading in egg futures. Such a trade has been carried on since the establishment of the exchange. A bear raid which knocked 8 cents off the prices recently is said to have caused the rule to be promulgated. A numerous signed petition of protest has been sent to the executive committee.

Hurl Delivery Bill in the House.

WASHINGTON, March 6.—The House devoted another day to debate on the bill to classify the rural free delivery service and to place the carriers under contract. Little interest was manifested in the discussion. A vote is expected tomorrow. Boutell (Rep. Ill.) made a speech in support of the measure. The other speakers were: Williams (Dem. Ill.) and Spight (Dem. Miss.), in favor of the bill, and Klutz (Dem. N. C.), Graf (Rep. Ill.), Candler (Dem. Miss.), Pearce (Rep. Md.), Livingston (Dem. Ga.), Tirrell (Rep. Mass.), Latimer (Dem. S. C.), Irwin (Rep. Ky.), and Thayer (Dem. Mass.) against it. At 5 o'clock the House adjourned.

Yanderbilt Seeks Tax Reduction.

NEW YORK, March 6.—George W. Vanderbilt has appeared before Commissioner Gillespie, of the Department of Taxation and Assessments, and obtained a reduction of his personal assessment from \$2,000,000, which was fixed by the last board, to \$1,000,000. In applying for this reduction, Mr. Vanderbilt introduced something of an innovation. Instead of pleading non-residence, he told Commissioner Gillespie that while he was worth all that the assessment called for, his wealth principally is in real estate and in securities, which were either non-taxable or else are taxed by the state. Without particularizing, he indicated that most of his holdings were trust companies and kindred corporations, over which the local authorities have no control.

Manila Markets Dull.

MANILA, March 6.—A court-martial has been ordered to try Major Liffleton T. Waller and Lieutenant John H. Day, of the Marine Corps, March 17 next, on the charge of executing natives of Samar without trial. Some of the circumstances in the case are peculiarly atrocious. One native was tied to a tree and publicly shot in the thigh. The next day he was shot in the arms. The third day he was shot in the body, and the fourth day the native was killed. Friends of the two officers attribute their actions to loss of mind, due to privations which they suffered in Samar.

Not Reported at Washington.

WASHINGTON, March 6.—Acting Secretary Darling, of the Navy Department, received a cable message today from Rear-Admiral Rodgers, commanding the Asiatic station, saying that the battalion of marines which made the hazardous march across Samar arrived at Cavite the last, and are now quartered in the marine barracks. No mention is made in the message of court-martial proceedings against Major Waller or Lieutenant Day for alleged brutal treatment of natives during the march, nor is any reference made to trouble of any kind.

Philippine Health Report.

WASHINGTON, March 6.—Surgeon-General Sternberg today received the health report of the military division of the Philippines for the month ended January 31. The percentage of sick was 4.16, and the total sick 234. There were 23 deaths during the month, a decrease of 15 compared with the previous month.

Manila Markets Dull.

MANILA, March 6.—The flour and lumber market at Manila is dull at present, according to a citizen who wrote from there February 6. His name is withheld at his own request for business reasons. He says: "I find Manila is not a good flour market. The Government buys on the coast for the soldiers, and the commercial or domestic demand is not large. There is a large stock of Oregon pine in Manila, and it will be perhaps three months or longer before this is used. The Government will soon begin building a fine military hospital at Manila. This will take a large quantity of lumber. When the specifications are ready the Quartermaster here will send them to the Quartermaster-General in Washington, who will probably send them to the Quartermaster in Seattle, with instructions to invite bids on the lumber. It is barely possible that bids will be asked for in Manila at all. The match committee has written to Senator Mitchell to use influence toward getting an equal show for this city in the competition for the lumber contracts."

Woodard's Hanging Postponed.

CASPER, Wyo., March 6.—Charles Woodard, convicted of the murder of Sheriff Rice, was sentenced to be hanged on March 23, will be granted a longer time in which to prepare for the gallows. Judge Bramel denied the motion of Woodard for a new trial, and the case will be taken to the Supreme Court. A stay of sentence being granted for that purpose. As considerable time will be required by the Supreme Court to review the case, Woodard cannot be executed before May or June.

Capture of Desperadoes.

EL PASO, Tex., March 6.—George Musgrove, said to be leader of a band of southwestern desperadoes, and a brother of the noted "Black Jack," who was hanged at Clayton, N. M., a year ago, has been captured near Alamo, N. M., by Postoffice Inspector C. L. Duran, of Denver, aided by the Sheriff's men. Musgrove is wanted in New Mexico for murder, postoffice-robbery and trainrobbery.

Practice Game of Football.

Weather permitting, the Portland Association Football Club will play another practice game at the Bishop Scott Academy grounds tomorrow afternoon at 3 o'clock. The match committee desires all members to be on hand, ready to play.

Ailing Women in Springtime Need

the Strengthening and Nourishing Virtues of

PAIN'S CELERY COMPOUND

A Case Where the Great Medicine Bestowed Vigor and Health After Months of Weakness and Suffering.

Observing and intelligent women who have used Paine's Celery Compound have noted well the fact that as a Spring medicine it quickly regulates the bowels, clears the whites of the eyes of that common jaundiced look, and gives a bloom of health to the face that it never possessed before. Another important proof of the invigorating power of Paine's Celery Compound, is its effect on the pulse, which becomes firm and regular. Weak, exhausted, nervous, irritable and worried women find that Paine's Celery Compound counteracts the exhausting strain of work and worry by its strong inducement to the delicate tissues to take more nourishment. It induces the nerves and brain to feed themselves more liberally, and it enriches the blood and regulates the flow.

Mrs. Nellie Morrie Taylor, Solon, O., sends the following testimonial letter for the benefit of weak and run-down women: "Some years ago I had a severe attack of the grippe, which left my head and spine in a very bad shape. Sometimes I thought I should lose my mind, and was so nervous. I could not sleep more than two hours a night. After a year with the doctor I had run down so I weighed only 115 pounds. I then began on Paine's Celery Compound, and that great medicine cured me and built me up to 150 pounds. I would not be alive today had it not been for the Compound. It cures all nerve troubles."

Dye Cotton goods with Diamond Dye cotton colors. Will not crock or smut.

the place of William H. Hill, resigned. The annual report showed net profits from operation for the fiscal year ended January 31, 1902, of \$417,814, which compares with \$317,967 the previous year. The company has extended its operations to the foreign markets, the report stated, and it now has large factories in France and Germany.

MANILA MARKETS DULL. The flour and lumber market at Manila is dull at present, according to a citizen who wrote from there February 6. His name is withheld at his own request for business reasons. He says: "I find Manila is not a good flour market. The Government buys on the coast for the soldiers, and the commercial or domestic demand is not large.

There is a large stock of Oregon pine in Manila, and it will be perhaps three months or longer before this is used. The Government will soon begin building a fine military hospital at Manila.
