

WILL MAY GET IT

Candidate to Succeed Warden John B. Catron.

ASSURED PROSPECTS ARE GOOD

Hill is Present Receiver of Walla Walla Land Office, and It is Said McBride Was Waiting to See if He Would Be Reappointed.

PULLMAN, Wash., March 19.—It is understood here on the best authority that John M. Hill, present Register of the Walla Walla land office, is an applicant for the wardenship of the penitentiary at Walla Walla, and that he has had assurances that his prospects for the appointment are bright. Mr. Hill, who will be succeeded by J. L. Mohuniro soon, was a resident of Pullman for many years prior to his appointment as Register. It is reported that one reason Governor McBride announced that there would be no immediate change in the wardenship was to await the action of President Roosevelt on the application of Mr. Hill for appointment as Register, and that the Governor is inclined to appoint Mr. Hill to succeed Warden Catron when Hill leaves the land office.

BIG WATER RESERVOIR.

4000 Acres Near Haines Will Draw on It This Season. BAKER CITY, Or., March 19.—A large reservoir which is to supply water for the reclamation of 4000 acres of land in the vicinity of Haines will soon be completed. Construction of the reservoir, which covers about 80 acres, was begun last fall by the Rock Creek and North Powder Irrigation Company, which will supply water to the area. The main canal is almost finished, so that when the irrigation season opens there will be no delay. This enterprise is a local affair entirely. The stock in the project is held by Baker City people. Several more similar irrigation schemes will be carried out in the vicinity of this city during the coming season.

PROJECT IS ASSUMING SHAPE.

Klamath Farmers Evince Great Interest in Irrigation Canal. KLAMATH FALLS, Or., March 19.—An enthusiastic meeting, largely attended by representative ranchers, was held at Merrill Saturday in the interest of the proposed irrigating canal, which is to tap Upper Klamath Lake and distribute the water in the vicinity of Klamath Falls. Plans to promote the enterprise were discussed and another meeting was called for April 10, when it is expected some definite action will be taken. The work of getting the support of ranchers in tangible form and making surveys and estimates is now in hand.

DAMAGE SUIT AGAINST RAILROAD.

Brakeman Wants \$15,000 From Portland, Vancouver & Yakima.

VANCOUVER, Wash., March 19.—Two damage suits were filed in the Superior Court today. C. C. McKay asks for \$15,000 damages from the Portland, Vancouver & Yakima Railroad Company for alleged injuries received while in the company's employ in the capacity of a brakeman, January 18, 1912. The complaint alleges that while engaged in loading logs the apparatus gave way, striking the plaintiff in the side, breaking several ribs and injuring his spine. The suit is alleged to be of such a nature as to cause the plaintiff to become a cripple for life.

\$2500 Asked for Loss of Finger.

J. Goldstein has commenced an action against M. Josefowitz for \$2500 damages for the loss of a portion of a finger, alleged to have been severed as the result of an altercation between the parties March 7, during which, it is alleged, the defendant, Josefowitz, ejected the plaintiff from the door of Goldstein's place, and cut the finger off. Both parties to this action are well-known business men of Vancouver. In a criminal action recently, in which Josefowitz was charged with Goldstein with the crime of simple mayhem, Josefowitz was acquitted by the Justice.

INTEREST IN REPRESENTATIVE.

Both Moody and Williamson Will Try to Carry Baker Saturday.

BAKER CITY, Or., March 19.—All interest in the Republican primaries in this county next Saturday centers in the contest for control of the delegation to the Congressional convention. It is now estimated that the influence that is able to name the delegates to the Congressional convention will also name the delegates to the state convention. It came in the form of a letter to Inspector McLaughlin, of the Brooklyn police. The letter was dated Dagupan, Northern Luzon, Philippine Islands. The letter, which was written in November, was addressed to the Chief of Police of Brooklyn. It was as follows: "In 1886 I left my home in Brooklyn for Australia, where I was held a captive in the interior by bushmen until ten years ago. I then came to these islands and entered the campaign with Macabebe scouts. Prior to Aguinaldo's capture I was severely wounded, and I am afraid am a cripple for life. I am now making my way back to Sydney, Australia, to my wife and child. "I do not know if my dear mother is dead, but would be glad to know her address, that I may pay her debts, or my brother's, which I will do in Sydney by the time you receive this letter. Please address me in care of the United States Consul at Sydney."

Raising Funds for Musical Festival.

CORVALLIS, March 19.—The finance committee has begun a canvass for funds for the May musical festival to be held in Corvallis by the Willamette Valley Choral Union the first week in May. The managers hope to raise enough money to provide an orchestra of over 20 pieces, and to make the festival equally successful with those of former years. One thousand dollars is the estimated sum necessary. The prospect now is that the chorus will number 300 voices. The selection of soloists has not yet been made. A local chorus of over 100 voices is under regular drill by Wallace Nash, president of the union, and is making very satisfactory progress.

BUSEMEN'S CAPTIVE.

Strange Adventures of a Young Man From Brooklyn.

NEW YORK, March 19.—After 12 years' imprisonment among the bushmen in Australia, Thomas Gill, a well-known Brooklyn manufacturer, has been heard from by his family, who had mourned him as dead. Gill left home in 1886, and in 1893 his wife, believing him dead, married again. On August 15, 1886, Joseph J. Gill sailed from New York for Australia, where he had extensive mining interests. The mine was situated about 50 miles from Sydney, and Gill expected to be gone two or three years. He left behind a wife and two children, boys of 7 and 5 years respectively. For two years letters were received regularly. His mining interests were prospering, and he hoped soon to return to the United States, he wrote in his last letter. A period in which no tidings were received from Mr. Gill followed, and then came a letter from the American Consul at Sydney, N. S. W., stating that Joseph Bill, a wealthy mineowner, and four companions had been apprehended and killed by Australian bushmen in Australia, not far from the mines which the Brooklyn man controlled. This was the last heard from Gill until the news of imprisonment, which has just been received. It came in the form of a letter to Inspector McLaughlin, of the Brooklyn police. The letter was dated Dagupan, Northern Luzon, Philippine Islands. The letter, which was written in November, was addressed to the Chief of Police of Brooklyn. It was as follows: "In 1886 I left my home in Brooklyn for Australia, where I was held a captive in the interior by bushmen until ten years ago. I then came to these islands and entered the campaign with Macabebe scouts. Prior to Aguinaldo's capture I was severely wounded, and I am afraid am a cripple for life. Please address me in care of the United States Consul at Sydney."

Life Imprisonment for Debt.

LOUISVILLE, March 19.—Life imprisonment in the penitentiary is the punishment of a member of the bankrupt dry goods firm of E. H. Nugent & Co., unless he can produce \$14,000 which he and his partners do not have in his possession. When the house, which was one of the oldest in the city, failed two years ago, it was charged that before the assignment was made, W. T. Nugent, son of the proprietor had sold a large part of the stock to other houses for \$14,000. This money did not figure in the assignment, but Nugent asserted that it had been spent in payment of his father's debts. He, however, produced no receipts. At the instance of creditors the son was tried in the Federal Court. Judge Evans ruled that he must pay over the money, or go to jail for contempt of court until he did. Attorneys for Nugent got him out on \$8000 bonds pending an appeal. The Circuit Court of Appeals reversed Judge Evans' decision, but the Supreme Court of the United States sustained him. Nugent then made a plea for a new hearing, which is now denied.

WILL CAPTAIN THE 1902 U. OF O. TRACK TEAM.

UNIVERSITY OF OREGON, March 19.—Clyde A. Payne, '04, who will captain the University of Oregon track team this season, is being hailed as the fastest middle-distance man in Northwest intercollegiate circles. He holds the Northwest amateur record of 51.1-5 seconds for the quarter-mile dash, and the Oregon record of 46.4 seconds for the quarter-mile race. His quarter-mile record was made in the Oregon-Multnomah meet at Portland last May, when he defeated Odeh, who had previously established a new 46.4-second record in the Oregon-California track meet at Eugene last May. Payne was second in the 440-yard dash against Squires, the crack Berkeley athlete. Mr. Payne first appeared on the track when he was first in the half-mile at the Salem field meet, in June, 1916. His first work was in the long distance, and the next year he won the mile in the Oregon-Washington meet at Seattle. It is in the quarter mile which Payne does his best work, and in the estimation of Trainer C. A. Redmond, Mr. Payne will this year stand good chance with any 440-yard man on the coast. The mile was sold through which Sanjour, Hayman, Abner, McKinley and M. Prayer & Co., were the principal stockholders. The property was bonded some time ago by the promoters who made the deal. This bond was taken up and the mine turned over to the Eastern company. The sale of the Golden Chest is one of the large deals of the year. The mine has been developed to a great extent, and is a large producer. The values of the ore and the extent of the ore bodies have made it a particularly valuable proposition. Full details of the sale and the intention of the new owners have not yet been made known. Dr. Reddy will return to Spokane shortly, and the other promoters will also return from the East. The mine is said to be in perfect condition to be turned over to the new owners.

Valuable Chinese Relics Seized.

SAN FRANCISCO, March 19.—Ten jade tablets, on which, almost 200 years ago, the Emperor of China had his name engraved, by order of his imperial master, an acknowledgment of the wisdom, power and goodness of Shun Chai, the founder of the Tartar dynasty in China, are locked in the trunk of Canton Appraiser John T. Dare, awaiting authority from Washington to return them to the Emperor of China or his representative. The stones are each in length, and are held together by a cord which is made of silk and newly and intricately embroidered yellow silk. It is believed that they were taken as loot from the imperial apartments in the Forbidden City. Records show that when the recruiting officer as a descendant of the Emperor whose deeds they commemorate, the customs authorities here notified the Secretary of the Department of State, and that the arrangement he has made with the Department of State for the return of the tablets.

No date is set for his return East, all depending on his condition.

Winds Up Lookout Lynching Cases.

ALTURAS, Cal., March 19.—This morning Judge Harrington made an order dismissing the indictments against all the defendants in the Lookout lynching, and they are now released from custody. The reason given by the court for dismissing the indictments is in full on a charge of conspiracy not brought to trial within 60 days after filing of the indictments. This completely ends the Lookout lynching cases, which have been dragging along since last June.

MAN TO INFORM HOMESEEKERS.

Salem Commercial Club Establishes Bureau of Information. SALEM, March 19.—Every overland train brings home-seekers to Salem, sometimes a score or more coming in one day. As a result, the newcomers are strangers from the Middle West, though some business men are among them. The Salem Commercial Club has established a bureau of information, with Secretary N. J. Judah in charge. Judah learns the needs of strangers who call upon him, and directs them where they may find what they want. He keeps the business cards of all real estate dealers, and gives every prospective buyer a card of each agent, so that he may have the best possible opportunity to make an investment before investing his money. A number of real estate agents make a practice of meeting the overland trains so as to be ready to give information to home-seekers.

HOW FORAKER JOINED ARMY

Only Way He Was Over 18 Was by Chalk Marks on His Shoes. WASHINGTON, March 19.—The Senate committee on military affairs was recently considering a number of bills to correct the military record of soldiers and officers who served in the Civil War, and who, upon application for pension, found themselves disqualified by reason of some technicality or omission on the part of department officials years ago. There seemed to be a great deal of sympathy with this class of men, when they are shown to have acted in good faith, and have a good military record behind them. "I know how they feel," said Senator Foraker, "if myself had been debarré if I should apply for a pension. I remember when I presented myself for enlistment I was but 15 years old, and was told that 18 years was the limit at which volunteers were accepted. I wanted to serve in the Army, and yet did not see how I could get around this obstacle. I finally told my troubles to an old Sergeant standing by, and he took me over and convincing himself that I could pass for 18, he said: 'Here, you take this chalk and mark the figures 18 on the soles of your shoes.' When the recruiting officer asks how old you are, you can tell him you are over 18. It was a long stretch of the conscience," added Senator Foraker, "but I yielded, and was duly enlisted as 18 years of age. My military record in the department is not correct, and I might have some difficulty in getting a pension, although I served conscientiously and faithfully through the war."

CHANGE IN WAY SENATE WORKS.

Not in Years Has Calendar Been Kept So Close to Business Precedents. WASHINGTON, March 19.—The Senate, in the past decade, has made some remarkable changes in its manner of transacting business, particularly in its handling of private legislation, and bills to which there is little or no objection. Not in years has the Senate kept its calendar so clear as during the present session. The reason, as explained by one of the older Senators, is that more dependence is now placed in committees, and the recommendation of the committee on pension and claim bills, and legislative bills, is taken as final in almost every instance. Not many years ago, prolonged and contentious heated debates occurred in the Senate over pension bills, bills to remove charges of desertion, or old war claims. Now whatever is necessary takes place in committee, and the Senate concludes that the bills are lacking in merit, they are not reported. It is believed that but very few unimportant bills will be reported to the Senate calendar, for there is a close scrutiny kept by the several chairmen to see that this class of legislation is blocked in its early stages. What is true of pension legislation also applies to the handling of public lands, minor Indian matters, and in fact all sorts of legislation which has a local bearing in some State or Territory, and in which the Senate as a body is not interested.

Ninety-two Degrees Conferred.

CHICAGO, March 19.—Ninety-two degrees and titles have just been conferred by the University of Chicago. These were divided as follows: Doctors of philosophy, 2; masters of arts, philology or science, 2; bachelors of divinity, 6; bachelors of arts, 3; bachelors of philosophy, 25; bachelors of science, 5; associate title, 3. In the conferring of degrees President Harper presented a diploma to his own son, William N. Harper, who took the degree of bachelor of arts. Advocates of athletics in colleges believe their cause has received strong support in the list of those receiving degrees. William N. Harper, the captain of the University Cadet Company, who has been appointed as a Lieutenant in the United States Army, received the degree of bachelor of philosophy. Robert L. Henry, Jr., a member of the Phi Kappa Phi honor man to take a bachelor's degree, being a few months over 18. The MacQuinn brothers, tennis experts, took the Ph. B. degree.

CONSPIRACY IN HAYTI.

Many Citizens Arrested at Port au Prince.

PORT AU PRINCE, Hayti, March 19.—Many citizens charged with conspiring against the Government were arrested and imprisoned today at a number of other places. Among the citizens imprisoned are Judge Bourjoily, of the Supreme Court, and General Desnoches, M. Senegale, a candidate for the Presidency, was refused an asylum in the French Legation. The Right to Boycott.

JEFFERSON CITY, Mo., March 19.—In the Supreme Court, sitting en banc today, an opinion was handed down declaring that courts of equity have no power to enjoin labor organizations from enforcing boycotts on corporations. The opinion, rendered by Judge Sherwood, affirmed the judgment of a lower court, which had refused the application of the Max & Hans Jeans Clothing Company, of St. Louis, for an injunction to restrain Attorney Watson and other officers of a local branch of the United Garment-Workers of America, in that city, from pushing a boycott. The Supreme Court holds that if the labor unions of the state are not permitted to tell the story of their wrongs, or their supposed wrongs, by word of mouth or by pen and print, and to endeavor to get other persons to aid them by all possible means in securing redress of such wrongs, free speech is denied.
