The wheat market in Fortiand remains in a rate of stagnation such as is seidem notice-ble except in midsummer. It is practically norseible to buy any wheat on an export asis, and rather than pay the fastery prices emanded, exporters are holding off awaiting developments. The Eastern markets held steady yesterday, with no change of consequence in prices. The wheat in the Pracific Northwest is pretty well out of first hands, and the few males that have been made for the past week have been mostly on milling account. There is no change in the freight situation, and no spot tonnage was offering yesterday. There seems to be a disposition in certain quarters to bid up on new crop tomage, but as yet nothing has been done this month in excess of 28s 9d, although 29s 3d was bid and refused for a large carrier yesterday. nents. The Eastern markets held steady excess of 258 90, although 208 so was but and refused for a large currier yesterday. Ships in port are receiving fair dispatch, and by the middle of April there will be but few remaining in the river to load. Spot shocks of wheat are not large, but with the amount urchased will be sufficient to meet all tonnage

cago, With the Close Steady. CHICAGO, March 25.-Leaving out crop-damage reports, which traders in wheat refuse to consider seriously, there was little news to help the wheat buils. Cables were indifferent, and closed somewhat lower. May opened is to iso down, at 72 to 71% but recovered on some buying for short accounts. The con-tinued long-selling took off the edge of the advances, and prices fluctuated narrowly. Wheat was stubborn to any loss, however, and was as quick to raily from a dip as to react from a buige. Late in the day May solid to 72%. The close was steady. May a shade under at 72%. Corn was heavy at the opening, on cables, and continued weak mogt of the session. A re-action on covering purchases followed, but the close was weak. May closed <sup>3</sup>/<sub>2</sub> to lower at 55% 55%. the closed say, ic lower, at 42%c.

The leading futures ranged as follows: WHEAT.

CORN.

Poul and Sault Sie Marie stocks forged upward without explanation. Amalgamated Copper was supported in face of the postpone-ment of the Anaconds dividend meeting and closed with a small gain. There was heavy selling of the Wabash debenture B bonds, with a loss of 1% per cent Otherwise bonds were irregular. Total sales, par value, \$2,350,000. United States bonds were all unchanged on the last call.

ern Securities Company are to be reckoned with. The testimony of the principals in the great contest for control of Northwestern railroads, which, taken as it is in a legal contest, is being read with great attention in Wall street and not with altogether reassur-ing affect on entitient. There are a direct

Wall street and not with altogether reassur-ing effect on sentiment. There was a slump of more than serven points in Evansville and Terre Haute. The advance was renewed in Colorade Fuel, and after some heaviness the stock gained 3%, allowing for the dividend off. North American made a further upward dash, and late in the day the Kansas City and Southwestern stocks and the Minneapolis, St.

Stocks at London. LONDON, March 25 .- Closing quotations

BOSTON, March 25.-With the settlement of the labor troubles here, trade in the various industries has returned. The wool market is now on a steady basis, but operations are quiet. The call for Territory wools has been moderate, but lots available on the market are held steady. Purchases of new wools made in Arizona that are coming in cannot be sold at within several, cents per scoured pound of what they cost, and the general feeling among dealers here is that too high prices were paid, and it now locks as though the new Territory wools are firm and command on the scoured basis of 48g50c, while fins, medium Territory is quoted at 44g4bc, with scoused is higher. Medium Territory wools are quotable at 38 to 40c, scoured, with occasional famor lots going higher. Fleece wools are quotable at 38 to 40c, scoured, with occasional famor lots going higher. Heece wools are quotable at ageing on manufacturers' ac-counts. 

counts. The market for good quarter-blood Au-stralians is quoted on the scoured basis of 40@42c.
