

## HIDES CRIME BY FIRE

## Unknown Man Murders Chinese Woman.

## THEN STARTS FLAMES IN HOUSE

Mrs. Lin Heung is Found in Blazing Building With Throat Cut From Ear to Ear—Jealousy the Motive.

Actuated by jealousy and rather than her return to her husband in China, an unknown Chinaman murdered Mrs. Lin Heung by cutting her throat nearly from ear to ear, last night, in the house she occupied on Taylor street, second, and then set fire to the house to hide the evidence of his crime. Policemen Byers and Hunter arrested Dr. Lee Po Tel, a Chinese physician, on a charge of being implicated in the woman's death. The prisoner denies having killed the woman, and places the blame on another Chinaman whose name, he says, he does not know.

Mrs. Lin Heung's husband is a contractor for Chinese labor, and he returned to China about four years ago, leaving his wife behind him with instructions to follow him when they had enough money saved up to live in style in China. Dr. Lee Po Tel came to this city 11 months ago, and he fell in love with Mrs. Heung. The first note of trouble came when the woman's husband, Ing Gee Heung, wrote her ordering her to return to China to join him. Dr. Tel refused to allow her to go, and the two had a quarrel. According to the story, Tel told her to wait home last night about 10:30 o'clock and almost fell over another Chinaman who was in the act of leaving the house. "Then I ran and found a policeman to arrest this Chinaman arrested, and when I returned the house was on fire," states Dr. Tel. When the police arrived they found him on the sidewalk in front of the house with both of his hands slightly burned and a brown liquid covering the tip of his fingers.

An alarm of fire was sent out at 10:45 o'clock from box No. 51, and the department promptly responded. The two-story rickety frame structure was just beginning to blaze from the roof when the firemen entered the place, and the police afterward found a large knife with a dull edge stuck in a bureau.

The fire in the house was soon extinguished, and when the coroner arrived a more rigid examination was made of the woman's body, and it was found she had been cut four times on the throat, probably with a razor or sharp knife. Her death wound was a cut six inches long on the center and left side of the throat, the other cuts being smaller. Silver coin amounting to \$25.00 was found in her clothing, also receipts showing that she had recently sent drafts for \$20 to China. Her body was taken to Holman's undertaking parlors, and an inquest will probably be held in two or three days.

Although Detectives Snow, Day and Welner carefully searched the burned house, they could not find the knife with which the murder was committed, and the coroner states that the woman could not possibly have inflicted the wounds herself. A witness has been found who asserts that shortly before the alarm of fire rang he saw a Chinaman run from Mrs. Heung's house around the corner to Third street and then disappear into a Chinese house on Yamhill street. Second, it was rumored around Chinatown last night that Mrs. Heung possessed \$2000, and that she kept this money hidden in her house. The house is now being searched by the police, and will be thoroughly searched today. Mrs. Heung's body when found was covered with a quilt, and was badly burned.

## STRIKES ARE LAWFUL.

Union Men May Refuse to Work With Nonunion Men.

ALBANY, N. Y., April 1.—The question of whether or not members of a labor union have the right to decline to work with nonunion men and to order a strike to have such right respected was determined in the affirmative by the court of appeals today in a decision handed down in the case of the National Protective Association of Steam Fitters and Helpers and Charles Quereau, appellant, against James Cummins and Patrick J. Duffy, as trustees of the Enterprise Association, Implicated with others. The court is divided in its decision, the prevailing opinion being written by Chief Justice Parker and concurred in by Judges Gray, O'Brien and Haight. It is dissented from by Judges Bartlett, Martin and Vann. In his opinion Judge Parker holds:

"It is not the duty of one man to work for another unless he has agreed to, and if he has so agreed to, but for no fixed period, either may a contract whenever he chooses. The one may work or refuse to work at will and the other may hire or discharge at will. Workmen have the right to organize for the purpose of securing higher wages, or better hours of labor or improving their relations with their employers. They have the right to strike, provided the object is not to gratify malice or inflict injury upon others, but to secure better terms of employment for themselves. A peaceful and orderly strike is not in violation of the law. A body of men, acting in concert for the purpose of benefiting themselves, have the right, when they feel it is detrimental to the interests of their organization, to refuse to work. Their reasons may seem unreasonable, but if it seems to be in their interests as members of an organization to refuse longer to work, it is their legal right to do so. Labor organization is endowed with precisely the same legal rights as an individual to threaten to do that which it may lawfully do."

## STRIKE AT BUTTE.

Engineers of Amalgamated Mines Walk Out.

BUTTE, Mont., April 1.—The stationary engineers of the Amalgamated mines struck tonight. Nine properties are tied up and over 300 men thrown out of work. The engineers have been receiving \$4 a day and on March 25 notified the company that unless their demand for an increase of wages of \$1 a day was complied with within 10 days they would go out. March 31 and again today the hoisting engineers were informed by the company that the request for an increase of the wage scale could not be granted. Upon receiving the last refusal, the men decided not to wait for the expiration of the 10 days, but to declare a strike at once.

It transpires that the engineers' union did not authorize the strike, the engineers of the Amalgamated mines acting upon their own initiative in walking out. There is not the semblance of disorder anywhere. The Amalgamated mines produce approximately \$35,000 worth of ore a day.

## TEN THOUSAND MINERS STRIKE.

Due to the Refusal of a General Manager to Sign Agreement.

ALTONA, Pa., April 1.—After mass meetings of the Rochester and Pittsburgh

Coal & Iron Company's miners held at Puxnatunney and Sykesville today, the threatened strike was formally declared. It involves 10,000 miners, and will have the effect of curtailing the employment of nearly as many more railroad men employed by the Buffalo, Rochester & Pittsburgh Railroad Company, whose freight traffic will be nearly paralyzed in consequence of the strike. Pumps and track-layers will be permitted to continue at work to protect the mines. It was decided by vote, however, that if General Manager Robinson should attempt to evict the strikers from their homes, many of which are owned by the company, the pumps and tracklayers will also be called out and the mines allowed to flood. Any attempt to import miners will be resisted. The strikers have assurance of support from the district and National treasuries of the United Mineworkers of America. The strike was ordered, not for an advance in wages, but because General Manager Robinson refused to sign the agreement of the miners and operators at Altoona last week.

Eight Hours to Furnace Workers.

COLUMBUS, O., April 1.—President James McMahon, of the Blast Furnace Workers of America, has sent the local organization an official notice from Youngstown, O., that on and after May 1, 1902, eight hours shall constitute a day.

## ELLENSBURG'S NEW THEATER OPENS

ELLENSBURG, April 1.—The new Ellensburg theater, a photograph of which is herewith reproduced, was opened last evening. Rose Coghlan being the attraction. The theater is the result of the organization 11 months ago of a company to build it. The original capital was \$7000, in shares of \$25 each, and nearly every home in the town being a subscriber. The building, a handsome brick, 90x100 feet, two stories and a cement basement, was first purchased, with the ground, for \$3000, and it was soon found that \$4000 would not make the necessary changes, so the capital was increased to \$12,000. Active work began on the remodeling of the building last October, and last night the curtain went up in one of the prettiest and most elegant theaters in the Northwest. As completed, it contains about 800 seats, equipped with a handsome drop curtain and 1800 yards of scenery. There are 500 electric lights in the building, controlled by the latest switchboard, dimmers, etc. The dressing-rooms, eight in number, are under the stage. The auditorium consists of a parquette, dress circle, balcony and gallery, with an orchestra pit large enough to accommodate 24 musicians. The color scheme of the interior is cream and old rose, and the bindings are very soft and agreeable. The house is heated by steam, 10 radiators being in place. The house is so positioned that the building, and with five outward opening exits the safety is almost absolute.

For the opening performance by Rose Coghlan, the seats sold for \$2.50 each, and all were taken. There was no free list, the net receipts being applied as a benefit fund for the building. Even at this high price there was a great contest for seats, many people buying \$20 worth. The people of Ellensburg take great pride in the new structure, and are ready to back it up with their money.

## FINE STRUCTURE WHICH WAS BUILT BY CITIZENS.

ELLENSBURG, April 1.—The new Ellensburg theater, a photograph of which is herewith reproduced, was opened last evening. Rose Coghlan being the attraction. The theater is the result of the organization 11 months ago of a company to build it. The original capital was \$7000, in shares of \$25 each, and nearly every home in the town being a subscriber. The building, a handsome brick, 90x100 feet, two stories and a cement basement, was first purchased, with the ground, for \$3000, and it was soon found that \$4000 would not make the necessary changes, so the capital was increased to \$12,000. Active work began on the remodeling of the building last October, and last night the curtain went up in one of the prettiest and most elegant theaters in the Northwest. As completed, it contains about 800 seats, equipped with a handsome drop curtain and 1800 yards of scenery. There are 500 electric lights in the building, controlled by the latest switchboard, dimmers, etc. The dressing-rooms, eight in number, are under the stage. The auditorium consists of a parquette, dress circle, balcony and gallery, with an orchestra pit large enough to accommodate 24 musicians. The color scheme of the interior is cream and old rose, and the bindings are very soft and agreeable. The house is heated by steam, 10 radiators being in place. The house is so positioned that the building, and with five outward opening exits the safety is almost absolute.

For the opening performance by Rose Coghlan, the seats sold for \$2.50 each, and all were taken. There was no free list, the net receipts being applied as a benefit fund for the building. Even at this high price there was a great contest for seats, many people buying \$20 worth. The people of Ellensburg take great pride in the new structure, and are ready to back it up with their money.

day's work at the same rate of pay that they are now receiving for 12 hours' work. The notice will affect all the blast furnace workers in America, and three shifts at a furnace instead of two, as at present, will be required.

## Strike of Michigan Miners.

SAGINAW, Mich., April 1.—The strike of the Michigan coal miners ordered several days ago, after a conference between the operators and miners failed to agree on a scale, began today, and 1100 miners are out in this county. Almost the same number of men have quit the mines at Bay City, and in the St. Charles district.

## Hodocarrs' Strike Averted.

CHICAGO, April 1.—At a meeting tonight between representatives of the hodocarrs and the employing plasterers the concessions asked by the men were granted and the threatened strike was averted. Under the new scale the rate of pay is increased from 30 to 35 cents per hour.

## Strike at Niagara.

NIAGARA FALLS, N. Y., April 1.—One thousand men, representing the building trade of this city, struck today for an advance of wages and an eight-hour work day.

## Linemen Want More Pay.

PITTSBURGH, April 1.—The electrical linemen of Pittsburgh and Allegheny struck today for an increase of pay from \$2.50 to \$3 for a nine-hour day. About 500 men are out.

## Southern Pacific's Mexican Mines.

EAGLE PASS, Tex., April 1.—At a meeting of stockholders of the Rio Bravo Coal Company, held here, a new board of directors was elected, consisting of C. H. Markham, W. G. Van Vleet, C. B. Segar, C. W. Dunlap and R. C. Cushman, all of Houston. Messrs. Markham and Van Vleet were respectively elected president and vice-president, and Mr. Segar, secretary. The old board was composed of officials of the Mexican International Railroad. The change means that the mines will be operated by the Southern Pacific Company.

## Only One Bid.

NEW YORK, April 1.—Only one bid was received in this city today for the new Rock Island Athletic Club, which offered the fighters 75 per cent of the gross receipts and a guarantee of \$20,000. The club agreed to hold the contest between May 15 and June 1, and offered to give the contestants the entire proceeds from the picture privileges. After the bid had been received a telegram was sent to San Francisco regarding bids and the matter was postponed.

## Anarchist Plot Against Edward.

ROME, April 1.—The Corriere della Sera asserts that King Edward is to be proposed visit to the Riviera because of the discovery of an anarchist plot against his life. The anarchists proposed to give the appearance of Boer revenge to their operations.

## The Rock Island Withdraws.

DENVER, April 1.—A telegram was received this afternoon at the local office of the Rock Island Railway from H. S. Ray, the Rock Island's Denver general agent, saying that General Passenger Agent Sebastian had given notice of withdrawal from the Western Passenger Association.

## First Automobile Run.

NEW YORK, April 1.—The Automobile Club of America proposed to hold the first run of the season on Saturday next. It was originally planned for Saturday last, but the threatening weather caused a postponement.

## Missionary Society Meeting.

The annual meeting of the Woman's Missionary Society of the Presbyterian Church of Portland will be held this morning at 10 o'clock at the First Presbyterian Church, Twelfth and Alder streets.

## NEGRO BUTLER'S CRIME

## COLD-BLOODED MURDER COMMITTED AT PHILADELPHIA.

Fearing Arrest for Theft, He Killed His Employer and Her Daughter and Wounded Another Child.

PHILADELPHIA, April 1.—Fearing that he would be arrested for theft, William H. Lane, a colored butler, shot and killed his employer, Mrs. Ella J. Furbush, her 12-year-old daughter, Madeline, and probably mortally wounded another child, Eloise, aged 7 years, at their home, 623 North Fifteenth street, shortly before noon today. Lane, who is 25 years of age, escaped from the house and four hours later was captured by Philadelphia detectives while waiting in Camden, N. J., to board a train for Bridgeport, N. J. He was immediately brought to this city, was identified by little Eloise, and confessed his crime.

The murder was one of the most cold-blooded that has been committed in this city for some time. Mrs. Furbush lived

its course. Upon the Sheriff's refusal of the keys, the jail door was forced open with sledgehammers, and the steel cage of Allen's cell was broken in. The negro was carried a square and a half away and allowed to make a statement. Allen declared that he was innocent and prayed that the guilty man be found.

## Run Down by a Train.

TOPEKA, Kan., April 1.—A special to The State Journal from St. Mary's, Kan., says: Three persons were instantly killed and another perhaps fatally injured shortly after 1 o'clock this morning at Bond's Crossing, two miles west of Rossville, by the Union Pacific passenger train No. 5, westbound. The dead: Fred Smith, Edward Smith and Miss Minnie Malney. Mrs. Fred Smith may recover, although she is still unconscious. Mrs. Smith was married last Sunday and Miss Minnie Malney was to have been married next Sunday to Edward Smith, one of the men killed. The young couple had been to St. Mary's to attend a dance and were returning home when the accident occurred. The bodies of the killed were terribly mangled. The engineer did not see the carriage until after the engine had struck it.

## Mob to Be Prosecuted.

NEW YORK, April 1.—Suit has been instituted, says a Philadelphia, N. J., dispatch to the Herald, in the case of David Landy, the aged negro who was maltreated by a mob of citizens at his home in Washington last December. The negro's assailants will be prosecuted by the Afro-American League, New York.

## St. Louis Bribery Cases.

ST. LOUIS, April 1.—Councilman Mysenburgh, convicted of bribery and sentenced to three years in the penitentiary, was today denied a new trial, and his motion for an arrest of judgment was overruled. Defendant filed notice of appeal to the Supreme Court. The court has not passed sentence.

Judge Douglass called the case of John K. Murrell, member of the House of Delegates, who was indicted for bribery in connection with the St. Louis city and county bill. As Murrell did not answer, the case was laid over until the next term of court.

## Kills Negro in Self-Defense.

EVANSVILLE, Ind., April 1.—Proctor Wright, a prominent citizen of Rockport, Ind., today shot and instantly killed Jesse Miles, a negro stevedore, employed on the St. Thomas, plying between this city and Rockport. Miles, who was intoxicated, assaulted Wright. Miles married a sister of one of the negroes lynched at Rockport some months ago for murder. He told his friends he was afraid Wright was the leader of the mob and he intended to kill him. Wright will be exonerated on a plea of self-defense.

## Agree to Reimburse the Bank.

HELENA, Mont., April 1.—A. L. Smith, vice-president of the National Bank of Montana, today confirmed the Washington dispatch stating that the United States Express Company had agreed to reimburse the bank for the full amount of bank notes stolen in the Great Northern train robbery, July 3 last, that remain unrecovered. Mr. Smith said today that the Great Northern Express Company would assume half of the loss.

## Automobiles in War.

NEW YORK, April 1.—American automobiles, motor and bicycles, are said to be the most valuable property of the British army for use in the South African campaign. Several manufacturers in this country have been requested to send specifications and prices of vehicles and motor vehicles in the present campaign against the Boers.

This information came in the shape of a letter to the Automobile Club of America from Captain R. S. Walker, of the Royal Engineers, dated at Pretoria, January 18. It asked the club's assistance in obtaining a list of the latest models of automobiles, steam and gasoline motors and motor bicycles. Captain Walker intimated that his Commander-in-Chief will extend the use of motor vehicles in the present campaign against the Boers.

Captain Walker gave as his reason for his application that he believes American road conditions correspond more closely with those in South Africa than do those in England, and from his knowledge of American motor machines he believes they are better suited to the use of which is designed to put them in the motor vehicles will be used primarily for carrying searchlights in the field, but also are to be put to tests for other military purposes.

## The Wireless Telegraph War.

NEW YORK, April 1.—War between wireless telegraph companies continues at a merry pace, says a Berlin dispatch to the Herald. The German companies of the Braun wireless system, have, it is stated, brought an action against the Sialy-Arc people for an alleged infringement of patent rights. The suit is being parried by a similar complaint in England against the Marconi Company.

Dr. Braun, of Strausburg, claims that both inventors copied his closed circuit oscillation method after he had protected himself with patents. Hitherto the wireless rivals have been content to fight one another by interfering with messages and refusing to receive dispatches sent from stations or ships provided with rival apparatus.

## Jeffries Names His Terms.

LOS ANGELES, April 1.—Joseph Egan this evening set a legend and to New York, on behalf of Champion James Jeffries, stating the conditions under which the Charleston club failing to bring off the fight, would be paid \$25,000, and the other half of the purse, \$25,000, cash in the hands of a stakeholder to be mutually agreed upon. In the event of a draw, the purse would be divided equally between the two fighters.

## Preparations for Coronation.

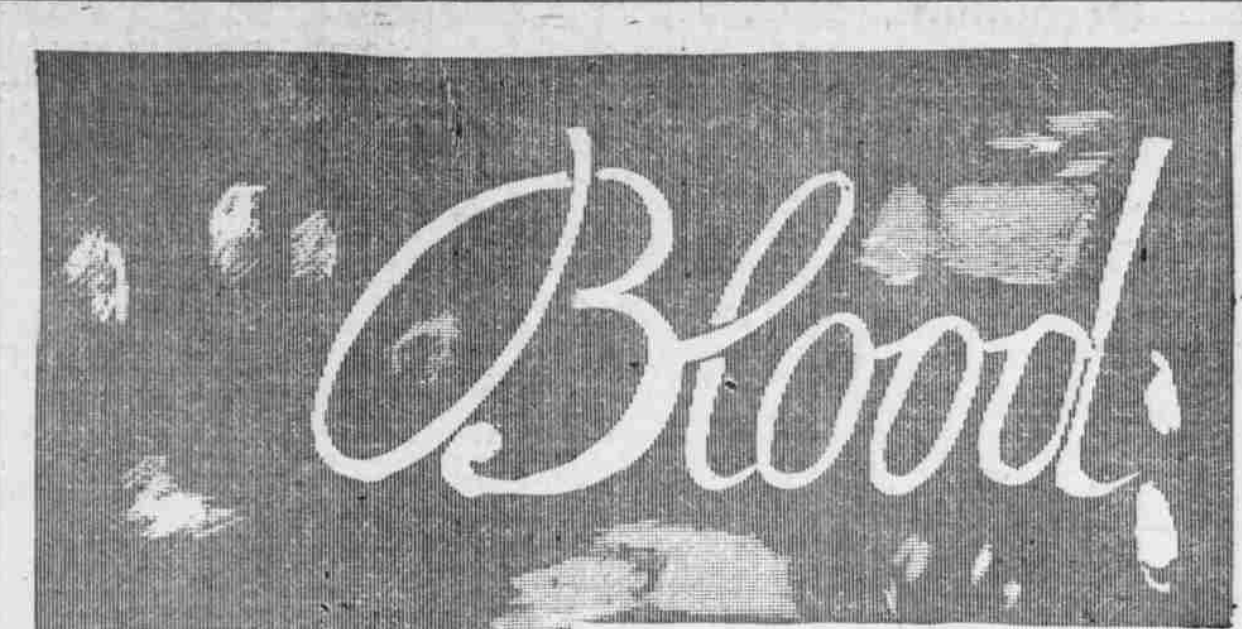

NEW YORK, April 1.—The Duke of Norfolk and the Board of Works officials have taken charge of Westminster Abbey, which, as previously reported, has just been closed to the public. The necessary preparations for the coronation will be begun without delay, according to the London correspondent of the Tribune. Alterations on the most elaborate scale will have to be made in order to provide accommodation for the numerous guests who have been invited to witness the ceremony of June 26.

## Helena Has Not Signed Kelly.

HELENA, Mont., April 1.—Manager Jack Flannery, of the Helena Baseball team, denies that he ever stated that he had signed "Father" Kelly to pitch for Helena. The story that Kelly has signed with Helena, Flannery said, was a week ago, and was sent out from that city. On its publication here Flannery immediately denied that he had even attempted to sign Kelly, and said that the mistake had been made at the other end of the line.

## Inspect the New Overland.

OMAHA, Neb., April 1.—The new Union Pacific Northwest Overland Limited stopped only 10 minutes in Omaha this morning. At the Union station to meet the train were President Burt, General Manager Dickinson, and a number of other Union Pacific and Overland local officials. A party of newspaper men, headed by Alfred Darlow, general advertising agent of the Union Pacific Road, boarded the train in this city and went

Keep your blood clean as you keep your body clean. You don't wait until your body is foul before you cleanse it.

It is a matter of surprise that many people who are so careful to have clean bodies make no effort to keep the blood clean. Every one knows that uncleanness breeds disease; that those who do not keep their bodies in a wholesome condition and who dwell in filthy surroundings are the first to fall when some epidemic of disease sweeps the country. But foul blood is more dangerous to the individual than a foul body. An unclean body is rather a passive than an active hindrance to health. But unclean blood is an active threat against the very life—it makes the body a prepared breeding place for disease.

It is part of Nature's plan for human safety that in many cases where the blood is impure or corrupt she sets a sign on the body in proof of the corrupt current that is flowing through the veins. Scrofula with its disfiguring sores and scars, eczema with its irritation, salt rheum, tetter, erysipelas, boils, pimples and other eruptions are only the outward signs of the impurity of the blood. But often in the earlier or simpler stages of the blood's impurity there are no outward signs of this condition; only dull, languid, sluggish feelings, which are commonly attributed solely to the sluggishness of the liver.

In view of the fact that everybody is liable to impurity of the blood, why should we not treat the blood as we do the body—keep it clean on general principles? We wash and bathe regularly. We don't figure up how long we can go without cleansing the body or put off the bath until we become offensive. We intend to keep our bodies clean, and we wash regularly whether we appear to need it or not.

Such common-sense care of the blood would prevent much disease and suffering. It is a duty we owe to common cleanliness to purify the blood as a principle; to be sure that it is clean and healthful and not clogged and corrupted, a breeding place for disease.

Of all preparations for purifying the blood Dr. Pierce's Golden Medical Discovery easily takes the first place. It eliminates from the blood the elements which clog and corrupt it, and which breed and feed disease. It acts directly on the blood-making glands, increasing their activity, and so increasing the supply of rich, pure blood which is the life of the body.

"In the Fall of 1890 my ankle began to pain me," writes Mrs. C. L. Briggs, of Tunnel City, Monroe Co., Wis. "Not a steady pain, but it grew worse fast and soon became a running sore. It made me very lame. When I sat down had to rest it on a stool, as I could not endure the pain when it was on the floor. The doctor gave me something to heal it, but it would break out worse than ever in a short time. That was the way I suffered for five years. I was so nervous hardly knew what I was doing sometimes. Got so I could not do the work for myself and husband. In the fall of 1898, I commenced to take Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' My ankle soon healed and my nerves grew strong. I have not had any return of the trouble since, and now I often walk over a mile and feel no bad effects. I am very thankful for my recovery. Formerly I was seldom able to ride even."

"My little daughter when seventeen months old became afflicted with scrofula, which affected her eyes," writes Mrs. Agnes L. Duncan, of Mansfield, Sebastian Co., Ark. "She could not bear the light for over a year. We tried to cure her eyes, but nothing did any good. We had our eyes examined, and were advised to take her to an oculist, as her eyelids would have to be 'scraped.' They had become so thick he thought she would never recover her sight. As there was no one else to whom we could apply my heart sank within me. I went to your 'Common Sense Medical Advice,' read your treatment on scrofula, getting the properties of medicine there advised. With five bottles of 'Golden Medical Discovery' I have entirely cured my child."

"Five years ago I was taken with Gripe," writes Mrs. Barbara Wyal, of Pool, Rowan Co., N. C. "which left me in bad health—bad blood, a running ear, pain in my neck and shoulders, and a train of many more evils. I tried to get my blood improved, but everything failed to do any good. I gradually grew weaker, and was tired nearly all the time; I had no hopes of feeling well again. In May, 1901, I was taken very suddenly with severe pain just under my ribs. Could not draw a long breath nor stand, nor ride without suffering. One bottle of Dr. Pierce's Golden Medical Discovery and a bottle of his 'Favorite Prescription' relieved me greatly. I think my liver was the cause of the trouble. Had also female weakness. Have since used five bottles of Dr. Pierce's medicine, and think it is the best in the world. I feel better than in five years before. Have worked this Summer and feel like a new person. Am doing well and feel well now; have gained ten pounds in two months. I thank you for your kindness."

"For three years I have suffered with that dreaded disease, eczema," writes Mrs. J. Koepf, of Mapleton, Oregon. "I was told to try Dr. Pierce's Golden Medical Discovery, which I did, and after I had taken four or five bottles I was permanently cured. It has been a year since I stopped taking your medicine, and it has never appeared since. I think your medicine a wonderful cure, and hope others suffering as I did will take it and be relieved of their suffering."

Dr. Pierce's Golden Medical Discovery cures scrofula, eczema, erysipelas, salt rheum, boils, pimples, sores and other forms of disease which are caused by the impurity of the blood. It not only eradicates the poisons which breed and feed disease, but it increases the flow of rich, pure blood, and gives the body the vigorous vitality which makes people feel as if they were new men and women.

Sometimes a dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It is better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

**A FREE OFFER!** We will send a copy of Dr. Pierce's Common Sense Medical Adviser FREE on receipt of stamps, to pay expense of mailing ONLY. This great medical work contains more than one thousand large pages and over 700 illustrations. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

Address: Dr. R. V. PIERCE, Buffalo, N. Y.

West. The new equipment, which is a part of eight complete trains, whose aggregate cost was \$2,000,000, attracted considerable attention at the depot, and a large number of railroad men and others inspected the train while it waited. The electric lights were turned on and the telephone system tested while the train stood at the station.

## Gould's New Frank Line.

CUMBERLAND, Md., April 1.—It was announced here today that Senator W. A. Clark, of Montana, and George J. Gould have subscribed \$200,000 toward a plan for consolidating the Washington and West Virginia Central Railroads and building a trunk line to the Atlantic seaboard. Richard C. Kerns has been raising subscriptions, and some days ago had secured \$300,000.

## Stratton Completes His Brief.

ST. PAUL, April 1.—Attorney-General Stratton, of Washington, has practically completed his brief in the action begun by the state against the Northern Railway Company in the United States Supreme Court. Mr. Stratton will go to Washington to make his application for leave to file in the Federal Supreme Court.

## Big Fire in Louisville.

LOUISVILLE, Ky., April 1.—The large warehouse of the Pease-Gaubert Company, at Fifth and Portland avenues, were destroyed by fire today. The buildings were filled with paints and oils. The loss is about \$200,000.

## Fighters Go the Limit.

PHILADELPHIA, April 1.—Jack O'Brien and Charles McKeever went the limit in a six-round bout at Industrial Hall tonight. O'Brien had the better of the go and McKeever showed distress in the last round.

## Civic Improvement Fever.

The civic improvement fever has been caught by residents along the Brooklyn branch of the City & Suburban Railway Company. South from Division street on either side of Grand avenue the accumulation of rubbish on the occupied and vacant lots and blocks is being burned. Who started the movement is not known, but the improvement in the

appearance of the district is very marked. At the corner of Grand avenue and Ellisworth street a waiting shelter has been built by Captain Bundy, for the benefit of the public. A good start has been made in Brooklyn, in the way of cleaning up, which if kept up will be a vast benefit.

## Notice to Mariners.

Notice is hereby given of the following changes in the buoyage of this district, which affect the List of Beacons and Buoys, Pacific Coast, 1902: North channel, (Columbia River bar). The whistler, outer buoy ("M. S."), and bar buoy, will be left in their present positions, and will not be moved to the northward and placed in range with Cape Disappointment light, as was intended when notice to mariners of February 7, 1902, was issued from this office.

## Inner buoy, a black and white perpendicular-striped, first-class can, was moved March 20 into 31 feet of water, to mark the turning point in the channel for vessels entering by either the north or south channel, on the following bearings: Cape Disappointment light, 2 1/2 miles; Point Adams light, east (easterly); tower, east southeast 1/4 east (easterly); North Head lighthouse, north by west (northerly).

Clatsop spit buoy, No. 8, a red, first-class nun, was moved March 19 into 45 feet of water, and marks the northern edge of Clatsop spit, which is growing to the northward, on the following bearings: Outer end of Port Columbia wharf, east northeast 1/4 east; Fort Stevens wharf, post light, east southeast 1/4 east; Cape Disappointment lighthouse, north-west 1/2 west (westerly).

Turning buoy, a black and white perpendicular-striped first-class can, was discontinued March 20, as being no longer needed.

Willapa Bay Channel across the bar. Outer buoy, a black and white perpendicular-striped, first-class can, marked "W. B." in white, is reported March 21 as having gone adrift from its position. It will be replaced as early as practicable. By order of the Lighthouse Board.

W. P. DAY, Light-house Inspector.

## New Sash and Door Factory.

The St. Johns Progressive Commercial

Club has received a proposition from an Eastern man to establish a sash and door factory at that place. If a building site be provided. According to the proposal this plant will represent an outlay of about \$20,000. A site on the water front is wanted. The Push Club will try to comply with the conditions.

## A View of Senator Lodge.

Boston Herald. A Washington correspondent who has undertaken to write to a Cleveland newspaper an important account of the more important party members among the Republican United States Senators correctly puts Aldison and Aldrich as the first of these in importance. It may be interesting to readers in this locality to learn the position he assigns the Junior Senators from Massachusetts in this category. We copy it below:

The King's favorite is always detested. The Barons of England, and no doubt they were bloated, forced a constitution upon the monarch and gave their country liberty and a Parliament. Nor would they tolerate the favorites of their Kings, and went to war rather than submit. And so, humanity being changed, Henry Cabot Lodge, of Massachusetts, Roosevelt's right-hand man, is on the steering committee, but he is treated with scant courtesy, and what is said of him is not always to do credit; yet he is "the scholar in politics," the biographer of several notable Americans, and is rich, elegant and honest. But, declares his detractors, he is mediocre and selfish. Exactly so! Two years ago Mr. Hanna was brutal, but to waste's middling. Then he often went to the White House, and men became afraid when he tramped up the long walks and disappeared from view. Mr. Lodge, it is told, goes to the White House daily, and sometimes twice a day. He eats lunch there and comes back to dinner. He rides with the President and walks with him. And so much for Senator Lodge—a favorite who arouses envy unaccompanied with fear.
