MRS. A. H. H. STUART'S ESTATE. It Is Subject to an Inheritance Tax,

Which Is Yet to Be Levied. OLYMPIA, Wash., April 2.-Conforming to the terms of the state inheritance tax law passed at the last Legislative session, the Superior Court of this county recently appointed a board of appraisers to ascertain the value of the estate of the late Mrz. A. H. H. Stuart, the object being primarily to secure to the state the proper per centum. According to the report just filed the total valuation placed on the estate is \$72,710 %, as follows: Personal property, \$45,000 %; real property, \$27,656. The Itemized list of the property is very extensive. Mrs. Stuart was possessed of considerable ready money. She had certificates of deposit representing no less than \$26,643, as follows: With Ladd & Tilton, Portland bankers, \$10.331; in the Olympia National Bank, \$8100; in the Capital National Bank, \$8211. At the time

The appraisers find that her jewelry, all bequeathed, is valued at \$337 %, which appears a small valuation, judging by the number of separate articles that appeared in the published will. The property is known as the Stuart block is valued at \$5.60, which will be generally considered a fair valuation. She held various notes against local people, all of which would appear to be secured, and they will aggregate in face value approximately \$12,600.

There is some question as to just how much the state is entitled to, under the provisions of the inheritance tax law, According to one interpretation about \$3000 would go to the state, but there is a suit testing the law now in the Supreme Co rnton Williams. The county ticket is that may alter this considerably, and the amount finally to be taxed against the estate may be much less.
