COMMERCIAL AND FINANCIAL

The weather yesterday furencen was too fine to admit of very heavy produce receipts, and the wagon receipts of potatoes were the smallest they have been for a long time. A continuation of fair weather for farm work would probably result in much higher prices, as the stock has been kept pretty closely shipped up, and thus far the San Francisco market has taken up all of the offerings at good prices. Testerday buyers were quoting \$1.25 for best Eurbanks, but intimated that another day or two of fine weather would increase the price a few cents. While there was no open cut in the price of butter yesterday, more of it was sold at less than 25c than was sold at the top quotation. Lower prices seem almost certain, as stocks are accumulating quite rapidly. The market supposed to be met, and with the crops market is still very soft, and sales are market is still very soft, and sales are to start the season. made as low as 13c, with very few selling above that figure, although some dealers are still holding out for 13%c and 15c in single-case

PORTLAND MARKETS.

Grain, Flour, Etc. The wheat market in the East is still settling to a lower level of prices, and the close yesterday was pretty well down to the lowest figure of the season. In the local market, the same lifelessness that has characterized the narket for the past month is still in evidence. It is impossible for exporters to buy wheat on an export basis, as their demands are not suffi-ciently pressing to warrant the payment of more than export values, they are for the pres-ent out of the market. One factor which tends to make matters easy in this port is the dull flour trade in the Orient. From present indi-cations, the shipments for the remainder of the the will show a sharp failing off compared those for the season to date. This will somewhat larger supplies for export than had been figured on, but as yet these supplies

assured of a good condition, after the massured to start the season.

To account for any such total of sales as those recorded in the principal active stocks today, allowance must be made for the sale and re-sale many times of identical holdings. The general reaction at the end of the day also points to the tentative character of the specialiation. There was very active realising among the specialites recently advanced, conspicuously Sugar and Colorado Fuel. Neither was there lacking the wide advances in obscure specialics which have recently characterized the market.

The shipping demanc proved, and shorts covered, sending May up to advance. The shipping demanc proved, and shorts covered, sending May up to advance the crowd turned sellers again. The Ohio state wheat crop report indicated a condition of 74, against 62 on March I. Com was slow, and exerted little influence on wheat, but the wheat bears sold aggressively on all the hard spots, and succeeded in getting May down to Toke. Some of the later selling was supposed to be for the elevators that bought early. May closed only easy, ic lower, at 70%.

"WEAKNESS" "WEAKNESS"

If other physicians have treated you for so-called "weakness." you were helped only temporarily, if at all, and the reason is very apparent when the cause of loss of power in man is understood. "Weakness" isn't a weakness at all, but is merely a symptom of chronic inflammation in the prostate gland, brought on by early dissipation or some contracted disorder. Our system of local treatment removes this inflammation, and is the only treatment that has ever or ever can permanently restore strength and Portland Office, 2501/ Alder Street
