

WATER FOR FORT STEVENS

PLANS ARE FOR PIPE LINE OR CONDENSING PLANT.

Problem of Providing an Adequate Supply Again Occupies Attention of Army Officers.

ASTORIA, Or., April 4.—The problem of providing an adequate supply of wholesome water for the post at Fort Stevens is again occupying the attention of Army officials. Several plans are under consideration. All possible information will be forwarded to the department at Washington, where the most feasible plan will be adopted.

When the new barracks buildings were erected, the officers in charge contemplated running a pipe line to connect with the Astoria water works, but the department was opposed to that plan for two reasons. First, it desired, if possible, to have the source of water supply inside the Government reservation; and, second, no sooner had the plan been suggested than the department learned that a water supply has been a most serious handicap to Fort Stevens as a military post, and, while no official indication of the Government's plans can be obtained, it is believed that the department will for the post will be enlarged to several times its present proportions, and be made one of the principal stations on the Coast for both infantry and cavalry.

Thunder Mountain Discovery. BOISE, Idaho, April 4.—An arrival from Thunder Mountain tonight reports the discovery of a large deposit of copper ore. The ore is of the same character as that of the great deposits, the lode is only 25 feet wide where opened. The deposit is located on the east side of the mountain, and will be worked by the company. The distance is 20 miles, and it is found that the water would have a fall of 500 feet. The condensing plant is the suggestion of Captain Goodale, construction of which is being pushed forward very favorably by the department officers.

Patrol of the River. Deputy Fish Commissioner Link C. Burton, of the State of Washington, left here last evening in the launch Eagle to patrol the river. He expects to be away for a short time, and some one broke into it and stole the money. Larson is quite sure who the guilty man is, but is afraid to take any action against him, as he was himself engaged at the time in an illegal occupation.

Log Ratt Cradle in Place. The cradle for the log raft that is to be built at Westport has been anchored in position, and the piles are now being placed in it. It is expected that the raft will be finished and ready to be towed to San Francisco within a month.

Improvements at Logging Camp. The Benson Logging Company is making extensive improvements at its camp at Oak Point, and has completed eight miles of railroad from Oak Point to Midway, where the logs are dumped into the river. The road is a broad gauge one, and the engines are of the latest design.

Maths Wirkkala, the young man who was injured in a Deep River logging camp a few days ago, died in the hospital here last night. A log rolled over him, breaking several of his ribs, one of which penetrated his lungs. He was 25 years of age, married and had two children. The body will be buried Sunday at the Deep River cemetery.

Fishermen's Strike is a Hoax. There is no illegal fishing here, but some reports to the effect that there is a strike, except for a "josh," because a few illegal fishermen near Cathlamet put up their nets when Washington's new Deputy Commissioner was appointed and began patrolling the coast. He will fix the price until next Monday evening.

To be Sold for Taxes. Sheriff Lindville decided this evening to resume the sale of property on the delinquent tax list next Wednesday, and to continue it until all property held by the county for taxes is disposed of.

STAMPS PUT UNDER THE BAN. Government Declares They Imitate the Genuine Too Closely. SPOKANE, Wash., April 4.—A Spokane student attached imitation stamps to his letters and sent them through the mails. As a result, every business college in the United States must quit the use of these stamps, and the student was ordered to quit printing them. The stamps bear the words "imitation postage," but the letters are very small, and the imitation was close enough to carry four letters to their destinations. The student went to the dead letter office, and it is supposed came under the eyes of the Washington officials. This resulted in a sharp letter to Postmaster Hartson, ordering the destruction of all the stamps, and declaring that a further offense would mean vigorous prosecution and a term in the Federal penitentiary. The letter was read in the Blair Business College today. The name of the offending student is withheld. The order will be obeyed.

GOOD WEEK IN TRADE

LABOR DISPUTES ARE THE ONLY DISTURBING ELEMENTS.

Reports of Wheat Crop in the Main Are Favorable—Hog Products Easier.

NEW YORK, April 4.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: Labor controversies continue to be the only serious disturbing element in the industrial world, and while many disagreements have been promptly settled, others have appeared to interrupt production and make manufacturers conservative about new undertakings. Retail distribution of Spring wearing apparel received a check from the inclement weather in many localities, yet merchandise of most staple lines is purchased freely, and collections are satisfactory at nearly all points except the South. Supplies of iron and steel do not seem in any immediate danger of overeating the demand.

Widely divergent views as to the crop outlook resulted in a dull market for cereals, and only small changes in prices. Wheat receipts for the week were 2,078,609 bushels, against 2,375,135 last year, while exports from all ports of the United States amounted to 3,365,070 bushels, compared with 4,527,687 bushels a year ago.

Thawed Dynamite Explodes. EVERETT, Wash., April 4.—Thaw Rollins, while having giant powder for blasting purposes, was thrown 40 feet. His arm was broken. It is reported that the Weyerhaeuser syndicate has purchased Stevens Bros.' saw and shingle mill for \$100,000. The rumor is not substantiated.

Wants Her Job Back. SPOKANE, Wash., April 4.—Mrs. Emma D. Wheatley, former city librarian, has begun suit in court to compel the new librarian, Mrs. Estelle Deffenbaugh, to return the office to her. Mrs. Wheatley claims that Mayor George Rogers appointed her on the board of State Park Commissioners in 1897, and he held the place about three years, acting as treasurer of the board. She resigned on account of personal difficulties with other members. The funeral will be held tomorrow.

Woodman Killed by Tree. DOTY, Wash., April 4.—A woodman named Larry Scoggins was killed by a falling tree. The tree was about 8:30 P. M. The men were engaged in felling timber, and Scoggins was standing near a tree which was being felled. A part of a dead tree struck him. Scoggins had been following this morning and was a stranger here. He had lived at Buckley.

County Buys Corvalla Ferry. CORVALLIS, Or., April 4.—At yesterday's session the County Court completed the purchase of the ferry at Corvalla, which is operated free, under special act of the Legislature. The purchase price of the property is \$3500, and county possession began April 1.

Pooled Mohair Sold. DALLAS, Or., April 4.—The Polk County Mohair Association sold its pool of 35,000 pounds to William Brown, of Salem, for 25 cents, today.

COMMANDER SCHUETZE. Death of the Well-Known Scientist. WASHINGTON, April 4.—Lieutenant-Commander W. H. Schuetze died at a hospital in this city today of a complication of acute stomach and lung troubles. He was appointed from Missouri and graduated at the head of his class at the Naval Academy in 1867. He went on the expedition to the Lena Delta and brought back the bodies of those who died in the famous De Long Arctic expedition. He spoke Russian fluently, and in 1882 was sent again to the far north, at the instance of the State department, to distribute presents among the natives of Northern Siberia, in return for their kindness to the De Long party. He was a man of high attainments, usually well equipped for the scientific branches of the naval service. As an expert in compass work, he brought that instrument to a high state of perfection for the navy. He was the navigator of the Iowa during the Spanish-American War.

Disturbing the Nicaraguans. MANAGUA, April 4.—The Democratic issued yesterday from the national printing office, editorially interpreted the Nicaraguans a protocol presented recently to the Nicaraguan Government as requiring the locating of all custom-houses and the construction and control of all railroads in Nicaragua to be done by the United States, and suggests that a conference between prominent citizens and President Zelaya be held, as possibly it is an unintentional error, which is now disturbing the people of Nicaragua.

WAS FORCED TO KEEP MOVING

THE STORY OF AN IOWA MAN WHO TOOK A FRIEND'S ADVICE.

Matters Were Getting Worse Rapidly, When He Met a Man Who Had Been Through the Same Experience and Knew What to Do.

Advice is cheap, but it is sometimes valuable. The following incident is unusual, because the advice of a friend was not only followed, but it succeeded in relieving the recipient from a disagreeable predicament. Mr. S. M. Jones, of Hampton, Iowa, in telling the story, said: "I don't know what caused it, unless it was the condition of my blood, but about the middle of February, 1901, I contracted rheumatism. The pains across my back were very painful, and kept getting worse all the time. After about a week or 10 days it went from my back to my left hip, and gradually extended down my leg into my foot. Even my toes became stiff and ached."

"I was in such pain that I could neither sit nor lie down for more than a few minutes at a time, and I had to be on the move most of the while, night and day. I came across a friend who told me that he had suffered from the same complaint and had been cured by Dr. Williams' Pink Pills for Pale People. I began taking them right away, and used six boxes in all. They did wonders for me, and now I recommend them to everybody I meet who has anything the matter with him."

"There is a popular idea that rheumatism is caused by exposure to cold, and that some localities are infected with it more than others. Such conditions frequently promote the development of the disease, but from the fact that rheumatism runs in certain families, it is shown to be hereditary, and, consequently, a disease of the blood. Dr. Williams' Pink Pills for Pale People go directly to the seat of the disorder, purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces. They are a positive specific not only for rheumatism, but for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, nervous headache, after-effects of grip, of fever, and of other acute diseases, palpitation of the heart, anemia, pale and sallow complexions and all forms of weakness. At all druggists, or direct from Dr. Williams' Medicine Co., Schenectady, N. Y., fifty cents per box; six boxes for two dollars and a half."

April 23, with these games: Kansas City, at Colorado Springs; St. Joe, at Denver; Milwaukee, at Omaha, and Peoria, at Des Moines.

National League Schedule. NEW YORK, April 4.—The committee in charge of the playing schedule of the National League has met at the Club house at the Fifth-Avenue Hotel late this afternoon and made public their deliberations. The season will open April 17 and close October 4. The schedule consists of 140 games.

RACES AT OAKLAND. Five Favorites Got to the Wire in Front. SAN FRANCISCO, April 4.—Favorites had an inning at Oakland today, five of them getting to the wire in front. Varro, the only one to disappoint, was an odd-on first choice, and he was poorly ridden by Jackson.

DESOLATE BEACH FRONT. Atlantic City's Board Walk Presents a Scene of Ruin. ATLANTIC CITY, N. J., April 4.—The beach front between Illinois and New York avenues today presents a scene of utter ruin and desolation. Of the many hotels which were destroyed by the fire, the police and fire departments are still unable to discover the origin of the fire. At police headquarters today it was stated that, after a careful investigation, the authorities were of the opinion that the fire had started in the rear of the Marlborough Hotel, but whether it originated from the explosion of a gasoline stove or an overheated kitchen range they were unable to say. There is a report that electric wires caused the fire.

The Burlington Hold-Up. ST. LOUIS, April 4.—The following telegram was received today at the headquarters of the Burlington Route in this city from the St. Joseph officials of the system: "Burlington train No. 12, which left St. Joseph at 11:40 P. M., April 3, was stopped at 11:55 P. M. one mile north of the waterworks and just outside of the City of St. Joseph by four masked men, who compelled the engineer and fireman to attempt to cut off the baggage-car. The attempt to uncouple the baggage-car was unsuccessful. The coupon for the baggage-man was ordered to open the door. This was done. The interior of the car was looked over, no valuables of any description were discovered, whereupon the engineer was concluded to try ahead with his train, which had been delayed all told 30 minutes. No passengers were disturbed and no railroad or express property taken. Burlington officials at St. Joseph were immediately notified and were on the ground shortly after, commencing an investigation of the affair."

A Big Fact. No one has ever truly been disappointed in the purchase, sale or use of Hunter Baltimore Rye. It is simply perfect for health and hospitality. For the physical needs of women, when recommended, it is the purest tonical stimulant. ROTHSCHILD BROS., Portland, Ore.

FUNERAL OF OREGON PIONEER OF 1852.

Mrs. Eliza Jane Wrisley.

MEDFORD, Or., April 2.—The funeral of Mrs. Eliza Jane Wrisley, an Oregon pioneer of 1852, who died here yesterday, was held from the Baptist Church today. Interment was in the Jacksonville cemetery.

Mrs. Wrisley was born January 1, 1826, at Canton, Fulton County, Ill., and was married to John B. Wrisley, June 26, 1847. She resided in Illinois, in five months and 14 days, arriving at Yreka, Cal., in the fall of 1852, and remaining there until the week before last. She then moved to Jackson County, locating on a donation claim, opposite Upper Table Rock, 12 miles north of Medford. Mrs. Wrisley is survived by a husband and eight children.

entitled to the victory, having forced the fighting throughout. When the men clumped up for action there was such a disparity in their sizes that the affair looked ridiculous. Walcott's head just reaching Russell's waist line. The men fought for a minute, and it was perfectly evident that the little negro was perfectly able to cope with his big opponent, and rather enjoyed holding up Russell's 225 pounds when they remained the round ended, Walcott dropped Russell with a right to the jaw. In order to land the blow, Walcott had to jump off his feet fully six inches to his feet groggy. Walcott worked like a beaver to finish the fight, but the bell gave Russell a much-needed rest, and he was in fair shape at the beginning of the next round.

He appeared timid during the next four rounds, and kept well covered, but managed to land several hard swings on Walcott's head. Walcott paid little attention to Russell's efforts, and kept slamming away for the latter's ribs with both hands. Walcott tried for a knockout several times, but missed by a narrow margin. In the last round Walcott reached Russell's stomach with a number of hard swings and had the big fellow so weak that, although weighing nearly 300 pounds, he was able to push Russell all over the ring when they came to a clinch.

Charleston's Chances Good. NEW YORK, April 4.—Charleston is now believed to have clear sailing for the Jeffries-Fitzsimmons bout. The American and Journal today publishes a dispatch said to have been received from Los Angeles and signed by J. J. McCarty, which reads: "The money went in, and we have our telegram of April 1, which was final, we withdraw all offers made by the Fitzsimmons contest."

Tracey's Offer from Lavigne. Tom Tracey has received an offer from Billy Lavigne to fight "Young" Gibbs, a colored boxer, in San Francisco the last of April. Tracey has not accepted, and he says he prefers to have the match pulled off in Portland. He is willing to fight any man in the world at 142, barring no one.

Six-Round Draw. MILWAUKEE, Wis., April 4.—Joe Handler, of Newark, N. J., and Kid McPartland, of Buffalo, fought six rounds in a draw before the Milwaukee Boxing Club tonight. Handler was floored in the second round, but was up in his feet immediately and fought aggressively throughout.

TACOMA PLAYERS ENGAGED. Baseball Team Will Have Strong Players. TACOMA, April 4.—Jay A. Andrews, manager of the Tacoma baseball team, arrived today from Chicago and gave out the names of the players signed for the coming season: First base—R. Carter, of last season's Tacoma team; V. G. Drinkwater, of Manchester, N. E.; League; Dennis McCarthy, Geneva, N. Y.; Young Johnson, of San Francisco; George Kneaf, of Birmingham; Wam J. White, of Muskegon, Mich., and M. A. Rhayer, of Everett. Catcher—Charles Swindell, of last season's Spokane team. First base—E. F. Hutchinson, of Los Angeles.

Second base—"Chick" Fisher, of Buffalo. Shortstop—Joseph T. McCarthy. Third base—E. F. Hutchinson, of Los Angeles. Outfielders—W. C. Murdoch, Thomas Letcher and Elmer E. Smith, of Milwaukee. The club will put in a claim for McIntyre, of last season's team, who has been released by Chicago and is reported signed by Butte.

Practice Work of Helena Team. HELENA, Mont., April 4.—At a meeting of the board of trustees of the Helena Baseball Association, this afternoon, at the Helena Hotel, Manager Flannery was directed to leave with his team as soon as possible for Walla Walla, where it will practice until the season opens at Seattle, April 25. Only five members of the Helena team are here now, but the others are expected to arrive before Monday. Manager Flannery expects to leave Tuesday for the West with his team.

TERRIBLE TORTURES AND DEATH

Result from Acute and Chronic Rheumatism

When Neglected in Spring.

Paine's Celery Compound THE GREAT VANQUISHER OF ALL FORMS OF RHEUMATISM. The Marvelous Cure of Mrs. Cook, of Gardner, Kansas. Rheumatism, terrible in its acute, and long-enduring in its chronic form, is one of the most baneful diseases that human being suffer from. It is a disease that will not bear neglect, for if not treated promptly, it will remain till death to harass, torture and make life miserable. Rheumatism is also a constitutional disorder and hereditary. Because of an inactive condition of the kidneys and bowels the blood is not purified, and an acid poison is formed and deposited in the muscles and joints, and this causes the inflammation and intense agonies that thousands are obliged to endure. Too often the effects of rheumatism, for many fatal, especially when the dread disease affects the heart; then death is sudden. Many other serious complications result from this terrible disease, such as pneumonia, pleurisy, meningitis, and diarrhoea, and these often prove rapidly fatal.

Racked and tortured reader, what are you doing to get rid of your danger? Physicians candidly admit their inability to cure the ordinary medicines of the day may give you relief for a few hours or days; they cannot banish the disease from your blood, joints and muscles; they cannot take the swellings from your joints, and they cannot strengthen the stiffened and twisted limbs. You cannot longer afford to experiment; death is the sure result of experiment and neglect. Today your only hope lies in the immediate use of Dr. Paine's wonderful rheumatism banisher—Paine's Celery Compound. This tested and world-famous compound of rheumatism, neuralgia, and other troubles that arise from impure and poisoned blood, is now fully recognized by the medical profession as a positive and unfailing cure. The following important letter, sent by Mrs. Cook, is but one of the many thousands received from prominent and well-known people in every state of the Union, who have been cured by Paine's Celery Compound. Mrs. Cook says: "I was sorely afflicted with rheumatism some time ago, so much so that I was unable to go about the house; I had to be carried. I tried all kinds of medicines and limbers, but to no effect. For months I was helpless, unable to turn myself in bed, and suffering with pain, which was almost unendurable. Finally, by chance, I noticed an advertisement of Paine's Celery Compound, and concluded to try it. After using one bottle it seemed to be helping me, and I continued to use it until I had no more rheumatic pains. Since then I have been free from rheumatism."

DIAMOND DYES color fastness and richness. Easy, Excellent, Economical. Joseph for the West at 11:40 P. M., April 3, was stopped at 11:55 P. M. one mile north of the waterworks and just outside of the City of St. Joseph by four masked men, who compelled the engineer and fireman to attempt to cut off the baggage-car. The attempt to uncouple the baggage-car was unsuccessful. The coupon for the baggage-man was ordered to open the door. This was done. The interior of the car was looked over, no valuables of any description were discovered, whereupon the engineer was concluded to try ahead with his train, which had been delayed all told 30 minutes. No passengers were disturbed and no railroad or express property taken. Burlington officials at St. Joseph were immediately notified and were on the ground shortly after, commencing an investigation of the affair."

Each time the United States Government has officially tested the baking powders the report has shown Dr. Price's Cream Baking Powder to be of superlative leavening strength, free from alum, absolutely pure and wholesome. This is gratifying, for Dr. Price's Cream Baking Powder is depended upon by millions of people to raise their daily bread.

THE ROOT OF YOUR HAIR should look like this, but if you have DANDRUFF THE GERM destroys and withers it like this. "Destroy the cause you remove the effect."

No Dandruff, no Falling Hair, no Baldness, if you KILL THE GERM with NEWBRO'S HERPICIDE For sale by all druggists. Price \$1.

PRICE BAKING POWDER CO., CHICAGO.

Western League Schedule. KANSAS CITY, April 4.—The magnates of the Western Baseball League, after a two days' session, completed the playing schedule tonight. The season will open
