

BATTLE OVER RECIPROCITY

WILL BE FOUGHT OUT ON THE FLOOR OF THE HOUSE

Ultimate Passage of the Payne Bill Is Regarded as a Foregone Conclusion

WASHINGTON, April 6.—The great battle over Cuban reciprocity, which has been the subject of struggle among the Republicans, both in caucus and in the committee on ways and means, will be fought on the floor of the House this week. The Payne bill, providing for a 20 per cent. reduction on the products of Cuba after the negotiation of a reciprocity treaty and the enactment of our immigration laws by the Senate, is being regarded as a foregone conclusion, but the situation is a complicated one, owing to the division among the Democrats...

On the other hand, up to the present time a large majority of the Democrats favor the greatest possible freedom of trade with Cuba and would vote for a deeper cut than the ways and means bill proposes. Others, like Newlands of Nevada, are in favor of the immediate annexation of Cuba. The leadership of the Louisiana members will oppose strenuously any tariff concessions whatever. It is hinted that the attitude of the Democrats in the Senate, who have fixed on a program of opposition there, may result, before the vote shall be taken, in more unity of action on the part of the Democrats in the House. Some of the Republican opponents of the bill will speak against it, but the leaders of the Republican opposition show a strong disinclination to give the Democrats any ground on the ground that there is no hope of defeating the bill and that their speeches would become Democratic campaign material in the coming Congressional campaign.

The bill will be brought up Tuesday as a revenue bill, which is privileged under the rules, but no special order will be brought in to give it priority. In this way, the possibility of a defeat of the bill through a combination of the Republican recalcitrants and the Democrats will be avoided. The general details will be allowed to exhaust itself. The leaders on both sides estimate that not more than three days will be consumed in general debate. The real fight will come subsequent to when the bill is ready for amendment under the five minute rule. It will be then that the Democrats will seek to offer amendments having for their purpose the opening of a new tariff question. While some of these amendments might command some Republican votes if they should actually come to a vote, the bill is ruled in order in the House as they were in committee, and the only method by which they can be reached would be by overruling the decision of the chair. It is certain that the bill will pass, any Republicans will go to this length. So the Republican leaders feel assured that none of these propositions will come to an actual vote. The only amendments which will be heard to increase or decrease the amount of the concession, and the leaders feel reasonably safe in the belief that the caucus decision of 20 per cent. reduction will stand. It is their hope that on the final vote the bill will be passed by Republican vote.

The Chinese Exclusion bill, which will come to a final vote tomorrow, will command practically every vote in the House. The only question is as to how far the majority will be increased by the insertion of provisions to make it more in line with the more drastic substitute which has been offered by the minority.

THE WEEK IN THE SENATE

Exclusion Bill Will Be Disposed of Early—Debate on Philippine Bill

WASHINGTON, April 6.—The expectation of the friends of the Chinese exclusion is that the bill will be reported to the Senate by the committee by the middle of the present week, if not before. The Philippine government bill will be taken up immediately after the Chinese exclusion bill. This bill probably will occupy attention for a considerably longer time than any measure since the Philippine tariff bill was passed, and the Democratic members of the committee in the Philippine bill are being industriously engaged in preparing for the debate. They do not profess to be able to defeat the measure, but say they will make strenuous efforts to secure amendments. They object to features of the bill, and will charge that its primary purpose is to permit the granting of franchises. They will take exception to the unequal treatment of the administration of the affairs of the archipelago without making any provision looking to any form of self-government for the Philippine people. Other points of controversy will be the disposition of the friar lands and of the public lands. Strangely enough, in view of recent controversies, the currency provision for the present at least, seems to be the one feature on which there is harmony among all of the factions.

FOREIGN MONEY MARKETS

Stagnation in All Departments of the Berlin Bourse

BERLIN, April 6.—The phenomenal success of the Russian loan, which has influenced the Bourse, and all departments during the last week exhibited stagnation bordering on lethargy. The unfavorable situation in the money market, the slow growth and in Westphalia numerous further discharges of operatives have been announced for April 15. The conviction also gains ground that the improvement in the money market will not result in a revival. The attempts to buy Canadian Pacific shares failed. The shares of the North German Lloyd Steamship Company and the Hamburg-American Steamship Packet Company weakened during the week. The increases in the capital of these companies being unpopular. The money market is easy.

London Stock Exchange

LONDON, April 6.—As was expected, the turn of the year's first quarter brought somewhat easier money, and operators were busy selling £5,000,000 to the Bank. The Stock Exchange has not improved since the Easter holidays. The chief feature last week was a sharp rise in American railroad shares, but the operations of the market were not improved since the Easter holidays. OXFORD DONS APPROVE

RHODES' EDUCATIONAL PLAN MEETS WITH THEIR SUPPORT

American Students Can Do Well on the Allowance—Emperor William's Views

LONDON, April 7.—The Daily Mail this morning gives the opinions of some distinguished Oxford dons concerning the Rhodes scholarships. Mr. Moberly, canon of Christ Church College, speaks in eloquent terms of the plan. It would, he said, bring picked men of the best type of Americans rather than the wealthy Americans who had come to Oxford mainly for social advantages. Mr. Skane, bursar of Christ Church College, said if the yearly allowance of £300 were merely for the semester, it will enable the scholar to live comfortably, but if it was intended to include also vacation expenses the balance left for the university would render it inadvisable that these countries, and as giving more substance to the grouping of the Teutonic powers.

German Opinion of American Dishes

BERLIN, April 6.—General von Trotha, Emperor William's Adjutant, asked at a dinner party what he really thought of Prince Henry's visit to the United States. "I have been to entertainments at the principal courts of Europe, and I have never seen such luxury and good taste as at the series of banquets and receptions in America. Nowhere is there such an exquisite cuisine." Referring to American dishes, the General said that he had served almost back duck, because it was served almost back, but Prince Henry ordered it at the farewell luncheon on board the Deutschland to please his American guests. The German, however, produced the fact that the duck was done, which the Americans did not like, but which the Prince's party on this occasion did like. All the royal party, however, produced the fact that the duck was done, which the Americans did not like, but which the Prince's party on this occasion did like.

RHODES' VISION OF THE FUTURE

Emperor William's Opinion of the Benefactor

BERLIN, April 6.—The bequest shows the wide range of Cecil Rhodes' mind and his vision of the future, said Emperor William to Dr. von Lueanau, the chief of His Majesty's Civil Cabinet, who alluded to the will of Mr. Rhodes during an audience with the Emperor yesterday morning. "It was pointed out to His Majesty that, while the bequest shows directions as to the selection of the beneficiaries of the Rhodes scholarships in other countries, the selection of the beneficiaries of the 15 scholarships that were set aside for Germany had been left to the discretion of Emperor William. The bequests of Mr. Rhodes are regarded at court as constituting an enduring impulse to good feeling between Germany, Great Britain and the United States and the colonies of these countries, and as giving more substance to the grouping of the Teutonic powers."

HOW REPUBLICAN NOMINEES ARE DISTRIBUTED

ADEQUATE REPRESENTATION FROM ALL PARTS OF THE STATE

Republican nominations on the state and Congressional tickets were disposed with fine regard for the geographical claims of every part of the state. Eastern Oregon gets two nominations—both most important—and the extreme southern district, bordering closely on Southeastern Oregon, has the Treasurer. Portland has only the Superintendent of Public Instruction, but both United States Senators come from here, so there is no cause for complaint. Albany has the State Printer, and one Judge on the Supreme bench is from Linn County. No other county has been given more than one place. The defeat of Governor Deer leaves Marion County without a representative on the ticket, but, inasmuch as many of the appointive state officers and employees are chosen from there, doubtless there will be no occasion for criticism.

"It will give the scholars," said Dr. McGraw, "time to assimilate the wisdom of Mr. Rhodes in arranging that the gradual operation of the plan spread over three years. The officer was met by the negro, who opened fire with a Winchester, wounding the Sheriff, and immediately fired upon the deputy, Will Cassaway, who was some 80 yards away, mortally wounding him. As soon as possible every man in town who could procure a gun was in the neighborhood, but owing to the location none dared to venture within the open space. Dynamite was procured and the house in which the negro was holed was fired upon, but to no effect.

Barnum & Bailey's circus will be reformed, and will return to America. Negotiations are already under way for the necessary steamship transportation for the two big amusement enterprises.

Prize of Hoisting Students

ST. PETERSBURG, March 28.—There is little doubt that many St. Petersburg students will share the fate of their Muscovite comrades—exile to Siberia or imprisonment. The Russian police reports say that another St. Petersburg student has received a three months' sentence for connection with the recent riot. NEW YORK'S DRY SUNDAY

SUSPENSION OF THE LIQUOR TRAFFIC IN THE METROPOLIS

Expeditors Resorted to by Persons Seeking Spirituous Refreshment—The Day's Arrests

NEW YORK, April 6.—The police and the liquor men gave Greater New York a "dry" Sunday today. Though there were degrees of dryness so to speak, in different sections of the metropolis, the day has not equal in the suspension of the liquor traffic since 18 years ago, when Superintendent Thomas P. Byrnes closed the saloons one memorable Sunday. Persons seeking spirituous refreshment then were compelled to resort to the city outside the Byrnes' sphere of influence. His task, however, is said to have been easier than that which confronted the police today, for the man who had money to buy a sandwich and a drink had no difficulty in satisfying his thirst. Few liquor dealers had the temerity to keep open and serve drinks alone, and of those who did, a majority were invited to the nearest police station, there to remain until bondsmen appeared. Unquestionably the driest part of New York today was the section where last Sunday the "second platoon" of police made so many arrests. This is known as the West Thirty-seventh police precinct. Only the alleged violator of the excise laws was found today by the lynx-eyed officers. Only two or three saloons were open to their doors and the proprietors say that the law was closely observed.
