# TEAM BEGINS PRACTICE

VIGNEUX STARTS BASEBALL PLAY-ERS AT INDOOR WORK.

Right Fielder Weed Arrives-First Game May Be Played With Monograms Sunday,

Right Fielder Fred Weed, of the Port-land baseball team, arrived from San Francisco yesterday morning, and is ready for the season's work. Weed is in first-class condition, and is glad to return to Portland. He has been playing ball in California during the Winter, and will need but little training to get in condi-tion. Max Muller, the old reliable left fielder, will arrive from San Francisco this morning, and Hupp, the new third baseman; Pitcher Witbeck and Fielder Van Buren are due tomorrow. This will com-plete the list of 11 men, and hard practice will be in order until the opening of

The baseball management has the use of the big Y. M. C. A. gymnasium and swim-ming tank, where practice will be carried on during the stormy weather. The men will work about four hours each day in the gymnasium, and as soon as the grounds become sufficiently dry, part of the work will be carried on out of doors. Yesterday afternoon Vigneux, Anderson, Delsel, Engle, Weed, Lewis and Joe Ma-

haffey were industriously at work in their temporary training quarters, and a good-sized group of spectators was also present. Manaer Vigneux says that a game may be arranged with the Monograms next

#### BENCH SHOW ENTRIES ROLL IN. Large Number of Dogs Enrolled-List Closes Today.

The biggest day yet" is the report of W. Peaslee, secretary of the Portland Kennel Club, in speaking of the entries for the coming bench show. The entries cease tonight at 10 o'clock, and a general rush is expected today.

J. S. Seed has bought a pair of pointer dogs of F. E. Marcon, of Windsor, Ontario, that are said to be as fine a pair of pointers as were ever seen in Oregon. They were shipped today, and will be on hand for the show. W. B. Fechhelmer who has just purchased two fine fox ter-riers from the Norfolk Kennels, in Toronto, sent them to Seattle last night He will bring them back for the Port

W. E. Martin, of McMinnville, has also made arrangements to bring down a string of fine dogs. The members of the Kennel Club are

working with interest and enthusiasm to make their coming event a success, and prospects are good for an entry list great-er than that of last year's show.

Frank. MEMPHIS, April 8.-The Tenness Derby, at a mile and an eighth, valued at about \$600, was won today by George C. Bennett's Hanover coll. Abe Frank, by a neck from Lou Wood in 1874. Buccluth finished third, a length away. The weather was bright and clear, the track was fast and about 15,000 people were present. Only four starters faced the flag, Ed Austir and H. L. Coleman declining the issue Abe Frank was held at the prohibitive odds of 1 to 6. Lou Woods, with Nash Turner in the saddle, was second choice at 6 to 1, while Buccluth sold at 8 and 10 It was the general opinion that the Ben nett horse was a little short in his work and it is claimed a large commission was sent to Chicago after the race on his chances for the American Derby.

"Mr. Mayor and You, My Hosts, and My Fellow American Citizens: I should be indeed but a poor American myself if I were not deeply touched and gratified by the way you have greeted me today, in this, your beautiful city, and of course I feel at home here. I think that any American who is worth his salt has the right to feel at home in every part of the United States.

"Around this table I see many men who ook part in the great war. The war in which the younger among us here took part was a very little one, because it did not have to be any bigger. But it had one thoroughly good effect; it put the cap on the structure that has been building while we were almost unconscious of it, and it taught us how thoroughly one we were. When we got through that war it did not make a bit of difference to us whether it was an Admiral who came from Vermont or a Lieutenant who came from Alabama, if the man had done his duty in such shape as to make us each feel an even more generous thrill of pride in our common nationality. The debt that we owed him had little to do with the sec-

tion from which he came.
"And now a special word to you of Charleston and of South Carolina, Just 12 years ago, when I first went to Wash-ington to take part in Governmental work, I was immediately thrown into singularly close contact and intimacy with a South Carolinian. It was my good fortune to work with him for three years, and for the nine years since, and for as long as I shall continue to be in public life, it will be to me ever a spur to try to do decent duty for the Republic, because I have been thrown intimately in contact with as fearless and as high-minded a public servant as this country has ever had, my old friend, your ex-Governor-Hugh

"And from what I have known of you and of your representatives, it was in no sense a surprise, but it was a keen pleasure to be greeted with the hearty and generous hospitality, the more than hearty and generous hospitality, which you have

nown me today.
"And, gentlemen, I was very glad that and, gentemen, I was very giad that in arranging for your exposition you not only took in the Southern States, but that you specially included the islands lying south of the United States, those islands with which the events of the last few years have made it evident we are bound n the future to have closer relations. Closer relations for our advantage can only be secured by making it for their ivantage also. And, above all, that hich I have said applies to the greatest advantage also, and richest of those islands, the island with which we have been brought into the most peculiar intimacy and relation-ship—the Island of Cuba—and I ask that in our trade relations with Cuba we give her a marked and substantial advantage, not merely because it will redound to our interest to do so, although that also is true, but I ask it especially because events have so shaped themselves that it is our duty, as a great and mighty Nation, to help Cuba, and I hope to see us do our

"I shall not try to make you any speech tonight, because for your sins you will have to listen to me make one tomorrow shall merely thank you again with al my heart and say to you that I want you to appreciate that I mean every word I say, and mean it deeply, when I tell you I have been touched, more than pleased and stirred by the warmth and heartines with which you have made me feel today that I am one of you.'

The President was followed by Governo McSweeney, who prefaced his prepared speech by a few words, in which he assured the President that he was as safe from bodily harm in South Carolina as he was in Washington. It was midnight when the party broke up, and as the Pres ident left the room he was cheered to the echo, not only by those who had attended the banquet, but by the large numbers who had patiently waited in the hotel parlors and outside to catch a glimpse of Upon arriving at his hotel he imme diately retired.

Mrs. Roosevelt Entertained. Mrs. Roosevelt was the guest of honor onight at the most notable reception that has been given in this city in 40 years. It was held at the St. John's Hotel, which, as the old "Mills House," as it is still called by Charleston people of the old regime, was in antebellum days the scene of many notable social gatherings. Mrs. Roosevelt is the first President's wife for whom a reception has ever been held here. President and Mrs. Cleveland visited Charleston February 28, 1888, but Mrs. Cleveland was only here for a few hours. Presidents Washington, Monroe and Polk were unattended by their wives when they

visited the city. Tonight the ballroom was exquisitely decorated, and was in keeping with the splendid tollettes of the 500 brilliantly gowned women who came to do honor to the President's wife. Mrs. Roosevelt and the ladies of her party occupied a dais and received the guests. The reception began at 8 o'clock, and lasted until after mid-

IRREGULARITIES SHOWN BY OFFI-CIAL INVESTIGATIONS.

Numerous Instances of Extravagance and Great Negligence-Secretary Root Answers House's Inquiry.

WASHINGTON, April 8. - Secretary Root today sent an answer to the House resolution of March 15, calling upon him for all facts that have come to his knowledge as to the conduct of the transport service between San Francisco and the Service between san Francisco and the Philippine Islands. The answer includes the reports of Inspector-General Chamber-lain and Lieutenant-Colonel Maus. The reports of the various officers cover sev-eral hundred pages. Major-General S. B. M. Young, in transmitting the report of Lieutenant-Colonel Chamberlain, submits an analysis of the report, showing no adequate supervision to any feature of the fitting out of transports for a long time after the service was inaugurated, and later the efforts to reform the system. General Young specifies the lack of se-curing competitive bids. He says: "In the case of the Hancock (before the

Secretary Root includes in his letter a

copy of an instruction sent out by Gen-eral Corbin, at his direction, to the com-manding General, Department of California, ordering a thorough investigation into all that relates to the transport service on the Pacific Coast, beginning with its organization, up to the present time. ing about paints, being employed to super-vise painting, in a business where the painting bill of a single firm in two years and two months amounted to \$343,074." In other respects, it is stated, the report plies for general use (such as the fitting up of cabins) were purchased without due regard to the protection of the Government's interests.

On that branch of the investigation covering cost of articles, etc., General Young, summing up the Chamberlain report, says that in one case where the bill was \$106,318, the work is pronounced "generally unsatisfactory; charges ex-cessive and material inferior," Prices paid for material were often strikingly in excess of the then current market prices for the same articles of like quality, and supplies were purchased in the open market without advertising. It is further stated in General Young's summary that "preference seems to have been shown special firms to the point of ordering from them articles out of their line of business these firms at the same time charging exorbitant prices, to the extent, in a few of 100 per cent in excess of ruling market rates.

Upon the facts developed by the investi. gation, General Young remarks that un-der the pressure of necessity of moving large bodies of troops at short notice, lack of methods and forms to safeguard the Government were accepted. Lieutenan Chamberiain specifies in detail the features summarized by General Young. He refers to the report of the "Bates board" that much of the work done on the Logan was defective, also that the amount spenion the Hancock, \$87,016, was excessive and was for luxurious fittings. Long de scriptions are given of furnishings, of inferior quality placed on various trans-

In his conclusions, Colonel Chamberlain says most of the abuses were unavoidable and that there had been gradual improve-ment. He says that there are but three firms in San Francisco equipped for ex ensive repair work, and that they had an understanding among themselves by which there has been no real competition. In interior fittings for transports, he says, there has been at times extravagance and in some cases great negligence. In purchasing supplies, preference has been shown in the distribution of patronage and extensive purchases have been made etition. Colonel Chamber lain says that one of the most notable abuses has been the use of great quantities of high-priced disinfectants. The trans-port Thomas, he says, on five trips, used \$9295 worth. He says there also has been an excessive use of high-priced patent cleaning and polishing material, the Thomas using \$3243 worth in five trips. He adds that this abuse has been reme-died. The loss of Government property, such as furniture, linen, bedding, table ware, etc., by imperfect accounting, is also set forth. He states that the transport Meade was purchased when 27 years old for \$400,000, and she has since received \$580,000 in repairs.

In a report dated August 20, 1901, Colonel Oscar F. Long. General Superintendent of Army Transport Service at San Francisco. replied to Colonel Chamberlain's inspec-tion report. He pointed out the magnitude of the service suddenly brought into existence, and the systematizing of affairs as fast as possible. He says the service has survived the period when it was most subject to criticism and attack, and that mistrust has given way to confidence since its methods and means have acquired the sanction of success. The report says it is not admitted that preference was shown to particular firms; as to high prices paid for disinfectants, the prices are declared to have been the same as those charged merchant ships. Other alleged irregular ities occurred during an emergency war

The numerous other reports enclose from Colonels Maus and Sanger, and from a great number of subordinate officers, give the most minute details of transport service, in some cases irregularities being shown and criticism expressed. All of the reports seem to agree that the abuses were the result of lack of method on the part of the subordinates. There is no charge affecting officials' integrity.

The withholding of certain reports from the Senate military committee subjected the Secretary to criticism by the minority members at yesterday's meeting. It ap-pears that the Secretary held that, according to the exact language of the Senate resolution, the reports were not called for. The Senate committee asked for reports of officers named relative to the trans-

penditure approximating if not amounting, terday by General Jacob H. Smith, who to \$500,000, the matter of indicating needed repairs was put into the hands of officials unknown to transport regulations under the matter of the command of the comma more he killed and burned the better by the honorable Secretary of War to pleased he would be, that it was no time insure more sanitary arrangements on to take prisoners, and that he was to General Young also specifies the case of Waller asked General Smith to define the age limit for killed and he replied: "Everything over 10." #### PHILIPPINE GOVERNMENT BILL. Measure Perfected by the House Committee.

WASHINGTON, April 8.—The House bill establishing civil government in the Phil-ippines was finally perfected today by the Republican members of the insular committee, and in its complete form was reed by Chairman Cooper. There is ittle doubt it will be reported to the House by the full committee, probably tosorrow, and in the form Mr. Cooper introduced it today. The House bill is unlike that of the Senate in that it provides a complete form

of civil government for the islands, to go into effect when the war terminates, the provision being as follows: "Whenever the existing insurrection in the Philippines shall have ceased and a ondition of general and complete peace shall have been established therein.

the facts shall be certified to, the President shall instruct the commission to call a general election for the choice of dele ites to a popular assembly of the people of the Philippine Islands to be known as the Philippine Assembly."
It is further provided that all the executive power then shall be vested in two houses—the Philippine Commission the Philippine Assembly. Provi made for taking the census within 30 days

after the promulgation of peace. There-after the islands are to be divided into election districts and the regular machinery for electing a Legislature is provided. Section 12 of the bill provides that all residents of the Philppines shall have the same protection from the United States in their relations to foreign governments as is accorded to citizens of the United

For the purchase of the friar lands the bill makes provision for the issuance of insular bonds at 5 per cent, interest pay-able in gold, the total amount not being specified. The regulation of franchises, timber lands, mineral lands, etc., is pro-vided for. The system of coinage differs specified. from that in the Senate bill, as it makes gold the standard, with Philippine token money of silver maintained at a parity with gold. The peso is to be of silver. It will equal our silver dollar in size, and be worth half as much.

#### TAYABAS GOVERNOR'S REPORT. secret Correspondence Sent to Senate Committee.

WASHINGTON, April 8.—Secretary Root today transmitted to the Senate commit-tee on Philippines a copy of the report of the Civil Governor of Tayabas, which is said to have been the principal basis of Lieutenant-General Miles' statement in his letter to the President, that the war in the Philippines had been conducted with marked severity." The report is said to contain severe reflections on the conduct of military affairs in the Province of Tayabas. It is accompanied by a statement from Governor Taft, explaining why he had not felt at liberty to tell the committee about the Tayabas Islands while he was giving his testimony about Philippine affairs. The Secretary also furnished the committee other correspond- SCOTT & BOWNE, Chemisse, 409 Fearl St., N. Y.

# SMOTHER A COUGH.

Press your hand hard enough over your mouth and you can smother a cough but you can't cure it that way The outside is the wrong end to work on.

Scott's Emulsion thoroughly cures coughs because it strikes at the root of the trouble. The throat and lungs need a regular system of education to cure an old cough.

The point of value about Scott's Emulsion and coughs is that, while Scott's Emulsion does soothe the raw throat and lungs, it also nourishes and heals the inflamed areas.

It replaces inflamed tissue with healthy tissue-the only real cure for an old cough.

Thousands Have Kidney Trouble and Never Suspect It.

Gertrude Warner Scott Cured by the Great Kidney Remedy, Swamp-Root.

DR. KILMER & CO., Binghamton, N. Y.: Gentlemen: In the Summer of 1888 I was taken violently ill. My trouble began with pain in my stomach and back, so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the county, and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had cancer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weighed 60 pounds. One day my brother saw in a paper your advertisement of Swamp-Root, the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me for the better, so they obtained more, and I continued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 145 pounds, and am keeping house for my bushand and brother on a farm. Swamp-Root event was directly bad husband and brother, on a farm. Swamp-Root cured me after the doctors had falled to do me a particle of good.

Gentlemen: I may interest you to know that I have used your remedy for pleurisy
pains and strains and have been relieved of much suffering.

I am in the hay and cool business, and some time ago I was engaged in handling
heavy bales of hay and I strained myself internally, creating pleurisy in my right side,
which produced great pain and suffering. One application of Halpruner's Wonderful
Pain Remover relieved me at once and cured me in less than one day. I heartity
recommend it to people suffering from pains and strains. GEO. S. REDDING,
