CLACKAMAS ANTI - REPUBLICANS NAME A TICKET.

Democrats Are Largest Contingent, but Fail to Get Their Share of Offices.

OREGON CITY, April 8.—The largest county convention ever held in Clackamas County assembled today. It was composed of Democrats, Populists and Repub-licans and represented every recalcitrant element in the county. A full county ticket was nominated and will be known as the Citizens' ticket. This is the outcome of a movement to fuse all elements dissatisfied with Republican rule and Senator Brownell.

The ticket nominated today is not considered an exceptionally strong one. The Democrats were the leaders in the fusion evement and have the largest following, out they did not receive a majority of the offices, and tonight many expressions of dissatisfaction are heard. The head of the ticket, George W. Grace, is a business man of Oregon City, who was elected Sheriff six years ago in the Populist landslide. He is a good man, but has had no experience in Legislative matters and it is believed that there is no reasonable doubt of State Senator Brownell's re-election. Elmer Dixon, who was nominated for County Judge, was twice elected County Clerk as a Populist, and is at present a deputy in the Clerk's office. County Clerk E. H. Cooper was renominated. He is a Populist, as is also County Treasurer A, Luelling, who re-ceived a renomination. Representative Gilbert L. Hedges, who

two years ago defeated Charles Toole for election to the State Legislature, was a candidate for the nomination of State Senator against Mr. Grace. He received 108 votes and Grace got 157. Hedges was then given a place on the Representative ticket, which was nominated by acciamation. The other two Legislative candidates, O. W. Eastham and Charles F. Clark, are Republicans. The nomince for Sheriff, J. E. Jack, is at present a deputy in the office of Sheriff Cooke, L. E. Grazier, the nominee for Recorder, is a

The committee on platform, Harvey Starkweather, H. E. Cross, R. Ogden, W. W. Jesse, H. McGugin, J. S. Birdsall, John Barry, J. E. Hedges and J. F. Clark, made their report, which was adopted. The platform is voluminous and severely condemns the Republican party of Clackamas County. The following inations were made: State Senator-George W. Grace, of Ore-

HEARINGS TO BE GRANTED. For Establishing Non-Mineral Character of Lands.

WASHINGTON, April 2.—A large num-ber of miners who are interested in the mineral properties along the Entiat River in Chelan County, Wash, have received encouragement from the General Land Office that hearings may be granted toward establishing the non-mineral char-acter of lands to be thrown open.

In a letter to Senator Foster, the Com issioner of the General Land Office says "Parties having mining claims on the land selected by the railroad company, or knowing the land to be mineral in character, should file protests in the local Land Office, whereupon, if the allegation are sufficient, a hearing will be ordered at which they may appear and submit testimony if they so desire. In view of the fact that the lands desired withdrawn cover a large area, it would be im-practicable to have them examined by a special agent of this office. Such an examination would of necessity be extremely superficial and the report made thereon would consequently be of but little value. It is thought that the parties interested can furnish much better evidence so far as specific details are concerned."

Government Takes Steps to Prevent Shipment of War Materials.

SAN FRANCISCO, April 8.—The Custom House authorities have been notified to be on the alert to discover the shipment of arms from this country to the insurgents in China. Collector Stratton has received a letter from O. A. Spaulding, acting Sec retary of the Treasury, stating that in the protocol signed on September 7, 1901, the importation of arms and ammunition is prohibited. The letter states:
"It is reported that insurrectionary

movements are now flagrant in the south-ern provinces of China, and that the insurgents are receiving supplies of arms and warlike materials from abroad. The department directs that you do whatever may be practicable and proper under existing laws in the way of restricting the exportation of arms and warlike materials to China for use against a nation with which the United States is at peace, and to the injury of foreigners (including citizens of the United States) found in China, "Should the fact that consignments of arms and hostile materials have been shipped from United States ports to China be ascertained by you or your offi-cers you will please report such facts without delay to this department,"

dissatisfaction was heard on account of the election of W. W. Percival as chairman of the Polk County Republican Committee," Mr. Hayter, of the Observer, a Dallas paper, says that the statement is not warranted by the facts. It is true, and Mr. Hayter knows that it is true; but for some cause he is peculiarly sensi tive on this point. Let this suffice for the present on that

question. I cannot go farther and will not attempt to prove this point, unless I am driven to it, which would involve the every-day life of Mr. Percival. But there is dissatisfaction, and it is serious for all the ticket. I hope to drop this disagree-able subject after this communication, but let me say to the three or four men in Dallas that perpetrated this election on the party in this county: Having committed a grave error, do not blame the cor-respondent of a newspaper for giving the fact as to their perfidy, or, may be, ignorance. How and why this election was effected will make spicy reading if should become necessary to

Every Claim Proved By a Cure.

Every claim made for Dr. Pierce's Golden Medical Discovery is proved not by one cure, but by cures almost innumerable. The proof, if gathered together, would fill volumes and convince the most skeptical that the fame of "Golden Medical Discovery" rests on a solid foundation of actual merit. A few specimen proofs are all the space allows.

HAD SPOTS ON THE FACE.

"When I commenced taking your 'Golden Medical Discovery,' I felt so weak and bad could hardly drag sround," writes Mrs. Emma West, of Windy, Wirt Co., W. Va. "Face seemed to be covered with brown spots, but before I had taken one bottle of your medicine the spots were all gone, and I began to feel like a new person. Took four bottles and have felt well ever since. My husband has also taken the 'Golden Medical Discovery,' for stomach trouble, and it did him more good than anything he ever tried."

FEELS NEW ALL OVER,

"For five years I was troubled with liver complaint," Hampshire (Box 36). "Had no appetite from 1897 to 1900; vomited every night; could not sleep. My weight went down from two hundred and forty to one hundred and seventy pounds. I doctored with home doctors, but got no relief. Wrote to Dr. Pierce and at once received an answer, saying my trouble was indigestion, also liver complaint. He advised me what course to pursue and what medicines to take. I commenced their use June 13th, 1900. Have taken thirteen bottles of Dr. Pierce's Golden Medical Discovery and seven vials of his 'Pleasant Pellets,' and have increased in weight from one hundred and seventy to two hundred and ten pounds. When I commenced Dr. Pierce's medicine, had not done a day's work for a year. Since last November up to the present time (November 18th, 1901,) I have worked hard, and I owe it all to Dr. Pierce's medicines. Am well hearty; eat three good meals a day. Dr. Pierce's Golden Medical Discovery makes a man feel new all over; it cures diseases of the stomach, puts the liver in action and makes pure, rich blood."

IN SPRING AND FALL.

"For twenty years I suffered terrible pain in my back and lower part of my bowels," writes Mrs. Charles Kauffman, of Boonsboro, Md. "I doctored with leading physicians in Maryland and Virginia, and only received temporary relief. About two years ago I noticed among the testimonials printed in one of your medical books a statement of a case similar to my own. Concluded at once to write to you, and through your kind advice and 'Golden Medical Discovery' and 'Pleasant Pelleta,' am much improved. Can do as much work as when I was twenty years old. My husband and I take from two to three bottles of the 'Discovery' and 'Pellets' every spring and fall, and can speak very highly regarding the benefit received."

"WAS A TOTAL WREOK,"

"I was a total wreck-could not sleep or eat," writes Mr. J. O. Beers, of Berryman, Crawford Co., Mo. "For two years I tried medicine from doctors but received very little benefit. I lost flesh and strength, was not able to do a good day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep and my appetite was won-derfully improved. I have taken-five bottles and am still improving."

NEW BLOOD AND NEW LIFE.

"I have recommended Dr. Pierce's Golden Medical Discovery to many friends," writes Miss Bertha Ebeler, of 1415 Benton Street, St. Louis, Mo., "and they all think it will do just what is claimed for it. It is the best thing for nervousness and for a weak, run-down condition that anybody would want. I was very nervous and weak last summer. I took five bottles of Dr. Pierce's Golden Medical Discovery and it just made me feel like a new person. It gives a person new life and new blood. I can work all day long without feeling the least bit tired. In fact, I feel like a new person. My mother was also cured by it of a very bad state of the stomach about three years ago."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose; therefore, accept no substitute for "Golden Medical Discovery."
