Downing, Hopkins & Co. COMMERCIAL AND FINANCIAL NEWS York was a moderate buyer in the after York was a moderate buyer in the aftermoon. In the street, these shares were firm, except Union Pacific, which broke. The day's feature was again Louisville & Nashville. Five hun-dred shares changed hands at 119%, then the prices trooped to 313%, and hung around 118 most of the day. In the street, the price bounded to 119%, closing at 119%. Arbitragers still avoided dealing in the shares. Copper sold at £53% per ton, and Rio Tintos were % up, at 44%. The sleady weakening in the butter market, slift the attendant pliing up of stocks, has at ast resulted in a further decline, and yester-ay the price was cut to 2214c per pound. and when Louisville & Nashville ran off to 1%, under last night there was a prompt rally else-where in the market. This see-saw was more where in the market. This see-saw was more or less comspicuous all day, especially at pe-riods when Louisville & Nashville was par-ticularly active. The market for that stock continued very feverish on an enormous volume of dealings, but the fluctuations were by no means so wild as yesterday. There were indi-cations that the money powers back of the movement were disposed to handle it more tenderly out of consideration for the effect upon the rest of the market. The stock touched 122% at the top, and closed with a net gain of 1%. As for Southern Rallway, it fell back to a position uniform with a number of other WHEAT AND STOCK BROKERS day the price was cut to 25%c per pound. This was about the only change of consequence in the produce markets yesterday. The firmness in potatoes continues, and best stock sold up to \$1 45 per cental. The California steamer ar-riving Thursday evening brought a big consign-ment of truit and produce, and in some lines prices were a little lower. The asparagus was of fine quality, and sold at Te and Sc per pound. Pean were slightly lower. Some of the buying of the day was based on the prospect that the bank statement tomorrow will show an improved condition by the clear-ing-house institutions. The loss to the Sub-treasury is \$1,450,000, which is over \$1,000,000 less than the payments to that institution for the gold exported. The receipts on balabes from the interior have exceeded the loss to the Subtreasury by a small margin. The experim-tion is general that the banks will show a con-traction of loans, as loans in the stock market bave heen called during the week. These laws been shifted partly to the trust companies, and The local wheat market was fairly steady yesterday at 63:966 bid, and about is more asked. Tiring of waiting for a further reduc-tion in freights, two experiers well provided with whent, yesterday, charitered ships for April-May loading at 24s 3d and 25s. As the wheat for these ships was purchased weeks ago, the transaction has no special bearing on the present situation, except that it supplies an foreign loans have gone to supply the week's demand.
