Paine's Celery Compound

Cases and Will Assuredly Banish Your Trouble.

While we would not play the part of alarmists, and seek to frighten people by declaring that a large majority of them are already vicilms of kidney diseases, and liable to be hurried into untimely graves by them, still the very noticeable increase of kidney diseases in recent years, and their virulent power, is a subject that is constantly engaging the attention of the ablest medical investigators.

Have you pain in the small of the back, of dull, dragging nature, but often acute and severe? Is the urine in a disordered state, sometimes pale in color and very copious, at other times high colored and scanty, with brick sediment or with settling of mucus, offensive, and foul smelling? Have you a general feeling of lassitude and weakness? Do you recognize the-fact that you are unable to perform the same amount of mental or physical work that you got through with months ago?

Any one of the symptoms mentioned point unmistakably to deadly kidney disease in some form. Do not delay until it is too late. If you value life begin, this very day with Paine's Celery Compound; it is your only hope of success and safety. By the use of this wonderful remedy, tens of thousands are now enjoying perfect health who once were victims of treacherous kidney diseases. Read W. J. BRYAN. It was not until I used Paine's Celery Compound that I found relief. I had no strength, energy, or ambition, and was nervous and irritable, I was all run down and lost about 40 pounds, I felt that the end was near, when a friend uggested Paine's Celery Compound, and I have this great medicine to thank for my restoration to health."

According to this theory, Jones must have walked through the ashes of the alley. Among Jones' clothing was found a pair of shoes the soles and heels of which were thickly coated with ashes. A Queer Production.

New York Times. About as queer a production as we have seen for a long while is one printed by the Richmond (Va.) Times, under the cap-tion, "A Flattering Request." It is ad-
