

DOGS BY THE ACRE

Successful Opening of Third Annual Show.

ALL BREEDS ARE REPRESENTED

Judge Mansell Begins Judging and Announces Prize-Winners of the Hundreds of How-Wows at the Exposition Building.

Throughout a greater part of the evening. The judging ring, which is about 40 feet square, is located in the center of the show hall, and during the hours of judgment the masters led their favorites round and round before the watchful eye of the Judge. No awards were made in the smooth-coated St. Bernard classes. Judge Mansell decided that the two dogs entered in those classes were rough-coated St. Bernards. Most likely the St. Bernards will be judged again, but Mr. Mansell had not announced his decision last evening. Judging begins again at 10 o'clock this morning.

One of the interesting features of the show bitches was the lottery of the puppy. Each evening every lady is given a ticket on a pup. The lucky lady last evening was Miss Semele Groat, who won a fine Scotch collie presented by C. D. Nairn, of Ballou.

List of Awards. Mastiffs, limit dogs—First, Bummer, mascot Second Oregon Volunteers, U. S. A., owned by T. T. Nelson, Pendleton, Or. Open dogs (under 55 pounds)—First, Laddie W., owned by Charles H. Carter, Pendleton; second, Bright, owned by J. A. Taylor, Portland; third, Dan Burns, owned by J. V. Burke, Portland; reserve, White-

In the evening a crowd came out, and the dogs were in a respective attitude—each prepared to convince all comers that he or she was the one dog in all the 28 that was entitled to the highest number of prizes. The collection is comprehensive. On entering one naturally turns to the left, and goes down an aisle that is flanked on one side by hunting dogs of various breeds and appearance, and on the other by a long row of deep-throated, leather-lunged St. Bernards, Great Danes, Newfoundlands and mastiffs, the J. Pierpont Morgans of the canine world. Then perhaps something going on in the judging pen attracts his attention, and he starts off at a tangent, but is attracted by a mother pointer with a family of baby pointers which proves that she has been doing her best to heed the Scriptural injunction. There are four or five sets of puppies in the show, and one pen contains some tiny rat terrier youngsters about as big as mice. Over on the west side is a row of bull terriers, clipper built and in the pink of condition, while near by is a string of pens filled with bulldogs with extensive fronts and lower jaws and a generally malignant appearance which is quite belied by their meek and lowly demeanor. A large number of nervous fox terriers of assorted patterns occupies the north side of the enclosure, yapping and bawling, and endeavoring in every way known to the dog mind to spread the conviction that they are the whole show. Freak dogs and toy dogs abound. There are Bedlington terriers, which are a sort of variation of the Scotch terriers, Japanese poodles, cocker spaniels, Pomeranian or spitz, of the color of the driven snow and with tempers that brook no familiarity, Boston terriers, which are pocket editions of bulldogs, and a bewildering array of other sorts and kinds. Of course the hunting dogs are in the majority, and there is a splendid lot of them. Handsome Irish, English and Gordon setters occupy one aisle all to themselves, and pointers, mottled, liver colored and white, and black and white seem to be almost everywhere. Nearly every dog was visited yesterday by some of the home folks, who smuggled dainties into them in spite of the warning that the attendant would feed and exercise, and whispered words of encouragement and good cheer into his ears. The dachshunds, dogs which require 10 minutes to pass a given point, were particularly favored in this respect, and listened attentively to the "Lebe wohns" and "Bleib ruhig" which were spoken into their ears by sympathetic mistresses. Altogether the show is the most attractive that has yet been given. The

Mr. Jones.

Mr. Mansell began the work of judging at 2:30 P. M., continuing all afternoon and

throughout a greater part of the evening. The judging ring, which is about 40 feet square, is located in the center of the show hall, and during the hours of judgment the masters led their favorites round and round before the watchful eye of the Judge. No awards were made in the smooth-coated St. Bernard classes. Judge Mansell decided that the two dogs entered in those classes were rough-coated St. Bernards. Most likely the St. Bernards will be judged again, but Mr. Mansell had not announced his decision last evening. Judging begins again at 10 o'clock this morning.

MEIER & FRANK CO. || MEIER & FRANK CO. RICH COOS COUNTY. Its Resources Are a Mine of Wealth Awaiting Development. Bandon, Or., April 12.—(To the Editor)—Allow one who loves Oregon and is always interested in its development and well-being to say a few things about this splendid corner of the state. There are five towns in Coos County, Marshfield being the largest and most important. Coquille City, the county seat, is in the center of the county. Myrtle Point is the principal agricultural town, and is destined to be an outfitting town for numerous mines. Empire is the old county seat. It has a beautiful site. Bandon, at the mouth of the Coquille River, is a seaport of some importance, and with abundant transportation facilities and an improvement of the bar, would be second to no place in this state south of the Columbia River. There is a world of fine timber and coal in this county. There is some gold, and there are other precious metals. There is also a large area of the finest dairy country that the sun ever shown upon. Apples and other fruits grow to perfection, especially in the region about and above Myrtle Point. Bandon supplies the Pacific Coast with broom handles and match wood. It has a fine woolen mill and a salmon cannery. Dairying and potato-raising are carried on along South Slough, North Slough, the Coos River and other inlets to Coos Bay, along the Coquille River and in the Dairy Valley country south of Bandon. Thousands of acres of the finest dairy land along the Coquille River are yet unclaimed, and the hills, which would produce prodigious crops of clover, potatoes and fruit, are left untouched. The Coquille River is navigable for light-draft vessels as far up as Coquille City, and limitless deposits of good coal lie undeveloped along this river because of lack of transportation facilities. Butter produced here is of the highest quality. It finds a market in San Francisco, in short-weight rolls, at a lower price than the same quality of butter found in Portland. All adequate transportation is with "the city," as San Francisco is called here. Myrtle wood is burnt up to be got rid of. A man is now at Myrtle Point buying myrtle stumps at \$1 each. The wood is to be shipped to New York, to be made into gun-sticks. Thousands of calves are driven to California every year, thousands of beef cattle are driven to Roseburg, and cattle, hogs and sheep are shipped at every trip of the steamer to San Francisco. I write this thinking these facts may be of interest to the many strangers com-

OLDS, WORTMAN & KING Housefurnishing Time is Here Right now is the time to furnish up with new rugs, and whether you want one or many, you owe it to yourselves to see our Splendid Line of Oriental Rugs Far the largest and finest in Portland.
