

DREW THE LONG BOW

STORIES OF BARBARITIES IN THE PHILIPPINES UNWARRANTED.

Report of Colonel Dickman, Who Investigated Sergeant Riley's Charges—Filipino Cruelty.

WASHINGTON, April 15.—The report of Lieutenant-Colonel Dickman, Twenty-sixth Volunteer Infantry, which was referred to yesterday's Cabinet meeting as part of the initial investigation of the charges of cruelty to the Filipinos, was submitted to Congress two months ago, but received very little attention at the time. The letter was written by Colonel Dickman, from the Presidio at San Francisco, April 24, 1901. He had been directed to investigate Sergeant Riley's charges that the water cure was administered at Igarara, a fact to which he also testified before Congress.

Colonel Dickman then gives a list of atrocities inflicted by the Filipinos upon Americans unfortunate enough to fall into their hands. He tells of ambushes and assassinations of soldiers by the Filipinos, and of burials alive of American soldiers, all of which he offers to prove in detail. He winds up as follows: "The conduct of the American troops in the Philippines has been humane and has been a continued source of surprise to all foreigners and to the natives. Although general order, No. 100 (the repressive order) has not been revised, the provisions against treachery, according to the law and custom of war of all civilized nations, have never been applied, to my knowledge."

MOROS CAUSE TROUBLE.

Datto, Becoming Suspicious, Refuse to Deliver Up Murderers.

WASHINGTON, April 15.—The following cablegram from General Chaffee, dated at Manila yesterday, was made public at the War Department today: "With reference to my telegram of the 23d ult., reporting an attack by Moros during a reconnoissance on the morning of March 15, a soldier of the Twenty-seventh Regiment, United States Infantry, was murdered by Moros in the vicinity of Farang-Farang. March 20, two soldiers of the Twenty-seventh Regiment, United States Infantry, having one gun, were approached with a semblance of friendship by six Moros near Malabang. The rifle was seized, one soldier killed, and the other severely wounded, but he escaped. The murder was without provocation or justification in any way. The murderers are known and a demand has been made for their surrender. Thus far Datto has refused to deliver them. Have been to Malabang and tried to confer with them. Datto failed to come or acknowledge receipt of my request in confidence. An expedition of 1200 men, including Colonel F. D. Baldwin, cavalry and artillery, is being formed, leaving for Lake Lanao about April 27, for the purpose of arresting the murderers and punishing the Moros. Every care is to be taken not to bring on a general war with the Moros about the lake, but it is absolutely important that our authority be respected by the people, and that the sovereignty of the United States be fully acknowledged. Have addressed a letter to this effect to Datto, at the same time informing them of the military disposition of the Government; that the purpose was to punish only those giving offense; that the Government claims the right to explore the country between Ilana and Ilmaras Bays; that my purpose is to do so as soon as possible, and in accomplishment of this object it is necessary to retain the battalion of the Seventeenth two months longer. My hope is at the present time to have a large majority of the Datto will not support those implicated in the murders."

HOLLANDERS OF CHICAGO

Sympathize With Boers in Resolutions at Annual Banquet.

CHICAGO, April 15.—Resolutions declaring sympathy for the Boers, and asking President Roosevelt to break up the 1200 expedition to the Philippines were adopted by the Holland Society of Chicago, during a banquet at Kinsey's tonight. The resolutions urge all possible measures calculated to unite the various political factions of Cuba, so that all elements will work together in the interest of the new government; second, the development of the natural resources of the country with reciprocal tariff relations with the United States; third, the maintenance of the most friendly relations with the United States Government. Mr. Palmisano said that the United States dollar will be the standard in Cuba, but that the currency and other questions are matters that require mature deliberation and need not be legislated upon. He said he is hopeful of securing a substantial reduction of the tariff on sugar, tobacco and other Cuban products. The Cuban Government will act entirely on a reciprocal basis in making reductions on United States products, and whatever action is taken at Washington along this line will be followed to the same extent by the Havana government. He said this subject presents the most difficult problem among those he foresees. In response to a direct query, he said that the Cuban Government will not establish such reciprocal commercial relations with any other government than that of the United States. He said his efforts will be concentrated on restoring his country to its condition as before.

Settlement of Frian Question.

WASHINGTON, April 15.—Archbishop Ireland, of St. Paul, had a conference with Secretary Root today, following the talk he had with the President respecting the Philippine tariff and question. The idea of Archbishop Ireland and Bishop O'Gorman to have this complex question settled directly at Rome, instead of through the archbishop of Manila, who, they pointed out, would be obliged to delay proceedings greatly by frequent reference of every important phase of the negotiations to his superiors in the Vatican. The government here has come to accept the Ireland and O'Gorman plan as the most businesslike proposition, and that is why Governor Taft will stop at Rome on his way back to Manila and endeavor to arrange directly with the archbishop of Manila for the transfer of the lands to the Philippine Government in trust for the Philippine people.

Protest Against Hemp Rebate.

WASHINGTON, April 15.—Not only the British, but the German government has lodged a strong protest with the State Department against the application of that part of the Philippine tariff act recently enacted and just ordered into operation which authorizes the rebate of a portion of the export duties on Philippine products when imported into the United States. The great matter of complaint is hemp, which is imported into England and Germany in vast quantities from Manila. The rebate afforded to American importers will amount, it is alleged, to a difference of three-eighths of a cent a pound in favor of the American ropemaker, a discrimination which will practically destroy the British and German trade, according to the protestants.

British View of Waller Case.

LONDON, April 17.—The Times, in an editorial this morning, in which the analogy between the South African and Philippine wars, as illustrated by the recent trials of the Australian officers and the case of Major Waller of the Marine Corps, is referred to, says it thinks that, considering the difficulties and strain of campaigning in the Philippines, the wonder is rather at the paucity of such cases. The paper says that in one respect the American troops are worse than the British, inasmuch as the former are fighting in a horribly enervating climate.

Sherman Again in Commission.

SAN FRANCISCO, April 15.—After a year of idleness, the Army transport Sherman went again into commission today and sailed for the Philippines. On the Sherman are 416 men of the Second Infantry, under command of Captain Wilson, about 50 recruits and casuals, 100 marines, 47 hospital corps men, and 50 cabin passengers, including Army officers, their wives and relatives, contract surgeons and civilians.

Chinaman Secures an Injunction.

MINNEAPOLIS, April 15.—In the Federal Court today, Judge Lochran granted the petition of Wong Guy, a Chinese restaurant keeper, for an injunction to prohibit pickets of the cooks' union from operating within a "reasonable distance" of the restaurant. One block is mentioned as such distance. Furthermore, the pickets are forbidden to approach the employees of the restaurant. Wong Guy, however, failed to gain his point to have the cooks' union prevented from appealing to purveyors to stop selling supplies to the restaurant.

Demand More Pay.

WATERLOO, Ia., April 15.—The Illinois Central shops at this place were closed today by order of Vice-President Harahan, who says it is a result of the mechanics' refusal to work with nonunion men. Price of Oil Goes Up.

PITTSBURGH, April 15.—The price of oil was today pushed up 5 cents a barrel on the first grades, and 1 cent on the lesser, restoring the list of the three successive cuts made in January last. This advance is credited to the recent purchase by the Standard Oil Company of the immense holdings of the Guffey and Galleys oil interests in the West Virginia field. This deal was made on a basis of 900 barrels a day, and the price was \$1.25 per barrel. The property includes 40,000 acres of producing territory. This purchase makes the total of the Standard's investments in West Virginia between \$15,000,000 and \$20,000,000.
