THE OREGONIAN'S HANDBOOK.

The Oregonian's Handbook tells all about Portland, the entire Columbia River watershed and the 1903 World's Fair, commemorative of the Lewis and Clark expedition to Cregon. The book contains over 150 handsome filustrations, and it and it is printed on enameled book paper. It will be mailed to any address in the United States or Canada for 7 cents a copy.

T. CAT THRIVES AT PERMANENT EX-HIBIT.-Mr. Thomas Cat eats rats. He is now a permanent attache of the exhibit now a permanent attache of the exhibit at 246 Washington street. So many rats is he eating that his sides are waxing fat. Holes and crevices which admitted his lean body when he made his debut in the exhibit no longer permit his passage, But he is not so fat as he might be had it not been for a mishap. Last Sunday he caught a big rodent and crawled through a small hole in order to dine in quiet. So far were his sides dis-tended when he had finished his repast not let him out. Thomas was in a terrible fix. He had to starve himself be-fore he could escape. The presence of Mr. Cat among the rodents has scattere dismay amonb them. They are not nearly so light-hearted as they were, and they fice in terror at everybody's approach, Some are flerce fighters, but Thomas has nine lives. The greatest picnic of the rats is on the walls where grain stalks are hung up. As Thomas cannot climb a bare wall he waits until the rats come down. Thomas found his happy home through the agency of an advertisement in The Ore-gonian. The advertisement brought many candidates. Thomas is the choice pick of them all and reigns over his new domin-ions with kingly majesty,

FRAST OF PASSOVER OBSERVED.—The served this week in Jewish circles, is especially a home festival. It is introduced by the reading in the home on the even-ing prior to the festival of a special ritual giving an account of the departure of the children of Israel from Egypt. Among the features of this home celebration is the placing of a cup of wine on the table, about which are seated the members of the family. It is placed there for the prophet, Elijah, whose coming is awaited as the prophet of redemption. This custom probably arose during the days of the persecution of Israel, when Israel's hopes were centered upon the coming of the time when violence would no longer be inflicted upon the Jew by his fellow ma persecution would cease to be. The feast is called the feast of unleavener bread because, during the seven days of the festival, unleavened bread is eaten in remembrance of the bread hurriedly prepared at the time of the exodus of the Jews in the days of the Judean commonwealth. The passover was also observed as a Springtide festival.

WHAT IS CITY PHYSICIAN'S DUTY?-Either the law is wrong, Dr. James Dickson is wrong, or the Health Department neglected its duty. Lillan Veatch, who has recently recovered from an attack of diphtheria, wished to re-enter school and offered the written testimony of D. Walker, M. D., and James Dick-son, M. R. C. S., that there was no longer any danger of contagion. Principal Gregg refused to accept their testimony unless it were indorsed by the City Physician, The doctors were quite indignant that their testimony would not be accepted, but upon referring to the city ordinance found that the indorsement of the City Physi-cian was required. Dr. Dickson states that the Health Department was notified of the case, but that no one came to see

lutely nothing of the case. STOCKTARDS ON PENINSULA.—The bond for 100 acres of land at University Park that was taken a few weeks ago for a union stockyard has been permitted to expire without any attempt to take it up. It is said that since that arrangement was made plans have been so extended that that tract is not large enough, and that another tract is in view a mile or so be-yond St. Johns, where facilities will be yond St. Johns, where facilities will be better and the institution will be entirely removed from the city. It is presumed that the railroad will be extended to that site and that steps will soon be taken to provide the extensive stockyards.

FEDERATED CLUBS' RECEPTION .- During the convention of the State Federation of Clubs, which meets in this city April 24, 25 and 26, a reception will be given on Thursday evening, April 24, at Persons Hall, by the five federated clubs of Portland-the Women's Club Council of Jewish Women, Teachers' Association, Tuesday Afternoon Club and the Kindergarten Association. Members of these clubs are accorded the privilege of in-viting two guests, either gentlemen or ladies. Mrs. Cleveland Rockwell is the chairman of the reception committee.

CHARGED WITH SHORT-WEIGHT BUTTER

SALE.-W. N. Daniels, charged with selling short-weight butter, had a preliminary hearing in the Municipal Court yes terday. His case was postponed until Thursday at 1:30 P. M. A roll of the butter was in Mr. Balley's office yesterday. It was 29 ounces in weight, whereas the wrapper read 32 ounces. Mr. Daniels admits that the butter was short in weight but says he was not aware of the short weight when he sold the butter. EAST MORRISON NEEDS NEW PLANKING

TION.—The excavation for the building to be erected at Third and Morrison has progressed so far as to render it necessary for piers to be built under the north foundation of the Strowbridge building on the south end of the block to prevent it from giving way. Negotiations are in progress in regard to a party wall, but are not yet completed. It was remarked by a large property-owner yesterday that it was a pity that the Failing estate did not own the whole Third-street front, so that a building might be constructed on the whole at once. The old wooden build-ing at Third and Yambill will mar the effect of a fine new building adjoining. Another citizen stated that an attempt to make such an arrangement had been made, but it had been found impracticable, owing to the wide discrepancy of ideas in regard to the value of the property. The old wooden building at Third and Yambili will doubtless remain there for another generation.

WOOD BLOCKS FOR FOURTH STREET. The delivery of treated wood blocks for the new pavement on Fourth street was commenced yesterday between Morrison and Alder, where the old pavement onthe east side of the block has been cleared away. Many curious persons were examining and criticising the blocks and pointing out here one with a knot in it and there one with very wide annular rings, and making all sorts of guesses as to how long the carbolineum avenarius would preserve the wood in a sound condition. The laying of these blocks will be watched with much interest by many, probably by none with more deep interest than those who have to pay for them. The comple tion of the new pavement on Fourth street ought to be made the occasion of

some kind of celebration. CHARGED WITH STEALING METAL.-TWO rothers, Elmer Wood and C. C. Wood, were arrested by Detectives Kerrigan and Snow yesterday in their scow at St. Johns, charged with the larceny of brass finishings, iron and tools from the Linnton smelter works and an East Side woodworker's shop. Two sacks of the al-leged stolen articles were found in the scow, and taken with the prisoners to the police station. The detectives have been searching for the thieves for about six weeks, and it was only by the merest accident they were located in the scow at St. Johns. In the course of their search the detectives discovered that the thieves took the articles from the smelter works and brought them to St. Johns in a boat, DAIRY AND FOOD COMMISSIONERS TO MRET.—The executive committee of the National Association of State Dairy and Food Commissioners will meet at Colum-bus, O., May 15. TRAGEDY SET TO MUSIC.

Mrs. Dierke Will Give "Isolde's Death" at the Symphony Concert.

A leading feature of the symphony programme at the Marquam Monday night, April 28, will be the four numbers for plane by Beatrice Barlow Dierke. The Wagner-Liszt number, "Tsoide's Death," from "Pristan and Isolde," is one of the most impassioned and highly dramatic compositions that has ever been removed. compositions that has ever been rendered on the piano. Mrs. Dierke in this shows herself the possessor of unquestioned temperament, as well as extraordinary techparament, as well as extraordinary tech-nique. In a scene of great beauty and pathos the faithful Isolde, transfigured with grief, sings her last farewell to her lover, and expires on his dead body. For pure tragedy it is almost unequaled in the whole range of opera. The sais of seats will open to subscribers Thursday morn-ing at 10 o'clock; to the general public Saturday morning.

NO OBJECTION TO THEIR USE BY THE T. P. A.

But Civic Improvement Association Is Eternally Opposed to Stretching Banners in the Streets.

It transpires that the Travelers' Pro tective Association does not desire to fly canners across the streets of Portland on next June. Flage and similar decorations are what the traveling men wish to dis-play, and the Civic Improvement Association has no objection. It will not be nec essary to obtain the permission of the Council for this proceeding. Speaking of this matter last evening, Thomas Mc-Cusker, chairman of the street committee of the Civic Improvement Association.

me that they intended to fight the Civic Improvement Association in the stand it had taken against banners being allowed across the streets, and asked me to meet them at the City Hall and watch them 'do us up,' or words to that effect. I replied that I would not be present, as we had already filed a remonstrance with the Council, which we thought would be effective. He said, 'You are not drifting back into mossbackism, are you?' and I replied that we were just crawling out. but found it somewhat difficult owing to having to contend with so many people who were against us for purely selfish reasons. He said that he approved our position against political banners, etc., but an exception should be made in their favor. I replied that we must be consist-ent, and could make no exceptions, when he assured me that they would knock us

Other members of the T. P. A. have boldly asserted that they would put up their banners whether the Council grant-

"Now, I am loth to believe that there few voice the sentiment of the T. P. A., as they are law-abiding citizens, and as they are law-abiding citizens, and would not consent to any violation of law, notwithstanding the hot-air utterances of some of them. Then, again, it is one thing to say they will do a thing, and quite another to carry it out. Some of the members to whom I was speaking said that their association should not be judged by a few inconsistent and inconsiderate men, and this is the view I take of it, and our association simply ignores their utterances.

"Had the T. P. A. committee taken the trouble to have a talk with us, and ex-plained that the banners were merely flags for decorating purposes, instead of ranting around the street telling what they intended to do with us, this matter would have been settled without any feel-Association comes in for a certain amoun of unjust criticism from those who do not know the facts. So far, only one member of the committee has had the courtesy to explain that they sent East and had their banners made long before we filed our remonstrance with the Coun-cil, and that they consisted of flags and banners that cost them several hundred dollars, and that they were not an adver-tising device. I immediately told him that we had no objection whatever if that was the case, and that we would give our consent to place them; and further, that our association would be only too glad to assist in giving welcome to the visiting T. P. A., both as citizens and as

"I want it fully understood that we have not receded one lota from the posttion we have taken about advertising banners, and neither do we care what party or association applies for permison to fly them; we will fight it to the

"While I am on the subject, I desire to say that a number of our best people, in-cluding many business firms, have voluntarily commended our work, and have signified their desire to lend us every as-sistance in their power, even going so far as to ask if they should sign a remon-strance and present it to the Council, pro-testing against the ordinance which was introduced lately, to permit the placing of stone bicycle racks on the sidewalks, saying that they are a much greater nul sance than the former ones. They also ask us to have all the unsightly signs, billboards and other advertising devices

removed, so that Portland will have the appearance of a civilized city. We do not ask anything unreasonable, "We do not ask anything unreasonable, nothing that any self-respecting person cannot sanction. We merely ask that the law be obeyed. No loyal citizen can object to this; an anarchist might. I do not know of another city where the law is so disregarded as here. It is a common saying that no other city in the United States, the size of Portland, has such disreputable streets and poor side-walks. Nowhere else has selfish interest so flagrantly abused the public, and no more tolerant people ever existed. But the worm has turned, and the public demands a change and our association mere-ly represents the public."

AMUSEMENTS.

factory to a good house.

Mr. Frawley played the part of John Hinds, the Sergeant, who rose from the ranks, in his usual easy style, and made his customary hit with his admirers. Wal-lace Shaw did a fine plece of work with the character of Bob Huton, the sharper, for whom Hinds proves too much. Ben Howard was a handsome Lieutenant Piey-dell and the remainder of the cost was dell, and the remainder of the cast was up to the standard. The play was elaborately mounted. Tonight the company will close its engagement with "Lord and Lady Algy," an English society comedy by A. C. Carton, in which Mr. Frawley assumes the part of "Lord Algy," a character in which he is seen at his best. The company is happily cast,

All new songs and music have been written by Williams and Walker, who have in their support a chorus of 25 well-trained voices. The ensemble is perfect and beautiful and the costumes elegant. Bert Williams is one of the most successful song writers of the present time. He has written more coon songs than any writer in this country, being a thorough musician. He composes all his own music. Some of the most popular of the compositions are: "You Ain't So own music. Some of the most popular of the compositions are: "You Ain't So Warm," "Why Don't You Get a Lady of Your Own," "The Medicine Man," "Ghost of a Coon" and "Goo-Goo Eyes." He has written some new and very catchy somes and music for the "Sone of Ham" this season. The sale of seats opened yester-day morning.

"Hazel Kirke" at the Baker. "Hazel Kirks," the ever-popular drama, which is now in rehearsal at the Baker Theater, will be given an elaborate production, and none of those who have the company have any doubt that the

history of the city. The play is one which is little known to the present generation of play-goers, as it is loved and admired by those whose memories still linger in the past. It has made the reputation of more than one great actor, and will give every member of the company an excellent opportunity.

"From Sire to Son." "From Sire to Son," a drama which is full of heart-bound interest, will be presented at Cordray's next Sunday. The story of this play is a very interesting one, and tells of the efforts of a villain to murder a married couple and assume guardianonip over their daughter, who has never seen her folke, thereby gaining con-trol of the fortune she would inherit. He shoots both, the woman dies, but the man is not very seriously injured, though the wound is in such a place as to par-alyze his vocal cords, and the poor man is in danger of going through the world dumb. His voice comes back to him, and he starts out in quest of his daughter, and also to find his wife's slayer. He traces the villain to Venice and finds him posing as the father of his daughter. Armitage, the name of the man who is wounded, is about to have the murderer arrested when the latter turns the tables on him by having him arrested as a lunatic. In his rage Armitage denounce the villain as the murderer of his wife and tells the girl be is her own father. The villain escapes with the girl and confesses to her that he is not her father and asks her to marry him. Upon her refusal he threatens to jump over the precipies, but is frustrated by the arrival of Armitage and officers on the scene who take him off to jail, and the father and daughter are reunited. A great deal of sparkling humor is introduced in "From Sire to Son," and it is an interesting play.

NEW STEAM ROAD ROLLER

rial of the Buffalo Pitts Steam Road Roller, the Board of Public Works at yesterday's session, ac-cepted this machine, and with its purchase a new era in the build-ing of good streets has begun. Yester-day and the day before, Mr. Chase, the City Superintendent, together with the City's technical experts, witnessed the performance of the steam roller, and all were greatly surprised and highly pleased at the perfect manner in which the roller performed its difficult task. Being fitted with double cylinders placed side by side on top of the boiler, there is never the least delay in starting, as there can be no dead center. He steaming quali-ties, the experts declared, were perfect, the total coal consumption during the two days' run did not exceed 800 pounds, the roller being in operation for 16 hours. A very gratifying feature of the roller is its noiselessness, horses paying hardly any attention to it while it is at work. The roller will be moved over to the West Side today and be in operation near Twenty-third and Northrup streets.

IMPURE BAKING POWDER

The New York Board of Health Finds It Contains Alum and Rock, Declares It Dangerous to Health and Dump It Into the River.

The New York papers report that the Health Department of that city has seized as dangerous to health nearly two tons of chesp mixtures sold for baking powder, and dumped them into the offal scow, to be destroyed. More of the powder was found in a Sixth-avenue department store, The report of the analysis of the Health Department stated that it was "an alum baking powder," containing alum and pulverized rock,

The different health authorities seem to have different ways of repressing the sale of bad baking powders. In England they have prosecuted the grocers under the general law and broken up the traffic. In Missouri the sale of alum baking powder is actually prohibited by law. New York they seize the unwholes stuff and cast it into the river, without any discussion. The latter way is certain-

The alum baking powders are usually offered at a low price, ten to twenty cents a pound, or with some prize, as a tempation to the housewife. Consumers can protect themselves by buying only high-grade baking powder of established name and reputation. Do not be tempted by the grocer to take some-thing else, as "just as good" or "our own brand," for the trials show that the greer himself is often deceived by unscrup-ilous makers and is selling an alum pow-

der without knowing it.

There are several good powders on the market; let the housekeeper insist on having what she knows is right, and not be induced to risk the life of the family for an imaginary saving of a few cents,

Eye service is generally poor service, unprofitable to the pocket-book and, worse still, detrimental to sight. The Portland Optical Institute does not claim to do cheap work. It does good work at reasonable charges and guarantees scientific and permanent restoration of impaired vision. Eyes examined free when glasses are ordered or are not needed.
