HARMONY PREVAILS

Cpaning of the Indiana Republican Convention.

ORGANIZATION NOW PERMANENT

Speeches Delivered by the Two Senators A Forecast of the Platform to Be Adopted Today.

INDIANAPOLIS, April 23,-Much oratory and enthusiaem marked the opening of the Republican state convention, in Tom-

linson Hall, this afternoon. The convention was called to order bortly after 2 o'clock by State Chairman J. P. Goodrich. The committee on per-manent organization recommended that Senator Beveridge be made permanent chairman, and it was ordered accordingly by the convention. Senator Beverldge de-livered an eloquent address in which he outlined the principles upon which the Republicans of Indiana will enter upon the coming campaign, and although the committee on resolutions has not yet re-ported, it is understood that planks in the platform will not vary widely from the general statements made by Senator Boveridge this afternoon. The Senator declined to say that he was the mouthoce of the Administration or President observelt, but would not deny that what had said had already been approved he had said had already been approved at Washington. The Senator was enthu-siastically received when he appeared on the platform, and when he commenced the delivery of his address. There were frequent outbursts of applause throughout the delivery of the speech. During the two hours required for the speech not a delegate left his seat. There was a great outburst of cheers as

There was a great outburst of cheers as the speaker concluded, and then came loud calls for "Fairbanks." Senator Beveridge called for the senior Senator, and as Mr. Fairbanks appeared on the platform, he was greeted with loud and long-continued

was greeted with joud and long-continued cheers.

Senator Fairbanks began his speech by declaring that the Republican party had been as conspicuous in its ability to rule as the Democratic party had been in its inability to govern the country. The strongest orators in proclaiming the virtues of Republican rule, he said, were speaking today upon the farms throughout the Regulable from the mines the out the Republic, from the mines, the factories, and from all the great avenues of human endeavor. Then, after giving figures showing the wonderful strides in the Nation's foreign commerce, he said: "In the National Administration we are progressing successfully today under the leadership of one who succeeded to the Presidency under tragic circumstances. a loyal Republican, a statesman of matchiess ability—Theodore Roosevelt. And our state administration is so good and so successful as to challenge. Demogratic criticessful as to challenge Democratic criti-cism. Our achievements in commerce have never been so great as they are today. All activities of the American peo-ple in commerce, in the way of intelli-gence and philanthropy were never so active as today. Great as has been our commercial achievements; as much splen-dor as we have carned and won in the way of commerce, we have given to the country, and that is why we will continue an uplifting force throughout the unnum-

bered years before us."

Frederick Landis, of Wabash, brought forth loud cheers by his assertion that he believed "In the party of Mark Hanna, who had never lost a fight, and never would lose one." The outburst of applause that met the name of Mr. Hanna was fully as generous as any that had been given furing the day.

The convention adjourned until 5 o'clock Thursday morning.

It has been decided that there will be no allusion to the ship subsidy bill, and the Chinese exclusion act will also be ignored, although he would be pleased to have the convention indorse the stand taken by him in Congress.

Senator Beveridge said this morning that he had no candidate for any of the positions to be filled, and was not trying to force a candidate for any position up

CUBAN BILL IN SENATE. The House Measure Will Be Entirely

WASHINGTON, April 22.-There was a great deal of activity among the Repub-lican Senators today over the Cuban reciprocity bill. Benator Platt, of Connecti cut, chairman of the committee on rela-tions with Cuba, to whom the bill was referred, said tonight there would be no early meeting of the committee, as time was required to give the subject full attention. The present plan is to secure a condition to prevent a majority of the Re-publicans acting with the Democrats, either in committee or in the Senate. The first fight will be to prevent action on the Teller resolution for an investigation of Cuban sugar conditions, and a bellef was expressed tonight that this object would be accomplished. Whether a Republican majority can be held for the main propo majority can be need for the main propo-aition depends somewhat, it is said, on the proposition itself, when formulated. It developed during the day that the House bill would have to be entirely re-cast. Senator Spooner, who recently wrote a report on the treaty-making power, de-clared that under the House bill nothing could be done further than that to negotiate a treaty, which must be ratified by a two-thirds vote of the Senats before it became effective. The House bill, he says, authorizes" the President to enter int negotiations" with the Cuban Governs The word "authorizes" could only mean "requests," for the President always has power. The bill several times refers "agreement," he says, which, in the nature of things, must be a treaty, as tha

is the only method of procedure.

A suggested way to meet the condition is for the Senate to take the House bill and strike out all after the clause and provide that when the Cubar Government shall provide for the admission of the products of the United States to Cuba at a rate of 20 per cent below that levied on goods from other countries, then the President shall proclaim that the products of Cuba shall be admitted

IN GOVERNMENT NAVY-YARD: One New Battle-Ship or Craiser Must Be Built There.

WASHINGTON, April 2.—The House committee on naval affairs today amended the provision of the Naval appropriation bill so that one of the new battle-ships or armored cruisers must be built in Government navy-yards. At the meeting yesterday a provision was adopted giving the Secretary of the Navy discretionary authority to build any or all of the new ships in Government yards. But the friends of the navy-yard proposition were not satisfied with this, maintaining that as the Navy Depart-ment officially is opposed to building in Government yards, the discretionary authority would not be exercised. As a result, the provision was amended today so that the Secretary's authority re-mains on to building all the ships in Government yards, but the additional provision is made that one battle-ship or one armored cruiser shall be built in such navy-yard as the Secretary may designate. An appropriation of \$175,000 is made to fit up the yard for shipbuilding purposes, and arrangement is made for a test of the merits of Government construction by keeping detailed accounts of labor and material, leaves of absence, etc., so that the items of cost may be compared with those of construction in

private shipyards.

The vote directing the building of the ship in a Government yard was:

WASHINGTON, April 23.—Secretary of
State Hay, for the United States, and
Minister Concha, for Colombia, today
signed a treaty providing for the transfer to the United States of the rights
incident to the construction of the proposed Panama Canal. This treaty is
similar to the protocol recently signed,
the terms of which have been published.

The following authorized statement
concerning the propositions of Colombia. concerning the propositions of Colombia, as they stand amended, was made pub-

"The United States is granted exclusive right to construct, operate and protect a canal, as well as all ratironds, protect a canal, as well as all railroads, telegraph and telephone lines and aux-iliary works within the zone. The zone is six miles wide and includes the Islands of Flaminco, Naos and Perico, in Panama Bay. It is to be under the joint judicial control of the United States and Colmbla.

"Colombia gives unqualified consent to the sale and transfer of the Panama Canal Company's rights to the United States and exempts the latter country from all taxes, etc. She grants to the United States a lease of the canal strip in perpetuity. For convenience it is di-vided into periods of 100 years, renew-able at the option of the United States. Colombia asks for a lump payment of \$7,000,000 after the exchange of ratifications, to be considered as 'on account.' For 14 years, Colombia waives all com-pensation for the canal rights. This period will more than cover the time of construction. At the end of the 14-year period, the annual compensation which the United States shall pay thereafter shall be determined by a board of five commissioners. The fact that Colombia has assumed no compensation for the first 14 years and the United States has advanced \$1,000,000 'on account,' will both be taken into consideration in fixing the annual rental thereafter."

At 2 o'clock the bill was laid aside. The Philippine bill then was taken up, and Rawlins resumed his speech begun yesterday. Rawlins discussed at great length the testimony presented to the committee on Philippines, and the report made by the officials to the War Department. He presented many cases of torture of Philippines, of the burning of towns, and of the incarceration of Filipinos. All this he said, was cone to carry to the Filipinos the benign administration of the American Government. War, he said, was to be waged reientlessly and the articles of war were to be cast to the winds. The war to be waged was not to be a war of humanity, but a war without mercy.
