Model Saloons for New York.

NEW YORK, April 24.—It was announced at the annual meeting of the City Club, just held, that the committee appointed to inquire into the advisability of organizing a stock company to conduct the operations of a model saloon had reported that another organization is about to establish a similar saloon, and in the committee's opinion it did not seem wise for the club to take any definite steps until the results of the experiment become apparent. The organization referred to is the Social Halls Association, and the model to be followed is that which Earl Gray has been instrumental in establishing in England.

Has All the Comforts of Home.

LONDON, April 24.—The Evening News describes an ingenious collapsible table, especially made for the use of King Edward while attending the theaters. The table and its legs all fold up into small space, and can be carried with a handle like a satchel, without injuring the contents of the tray, which consists of two decanters, three artistically cut-glass tumblers, and several small bottles of selfer. One side of the tray contains recesses for their coffee cups, saucers, silver spoons, cigars and cigarettes, while on the other side are liquor glasses, an ash tray and a match box.

LOW FOR A SITE

Location of '05 Fair to Be Selected.

BIDS ARE NOW CALLED FOR

Executive Committee Gives Until May 3 for Offers.

TERMS AND CONDITIONS NAMED

Meanwhile Directors Will Survey Available Locations in Order That Their Decision May Be Well Grounded.

If you have a site to propose for the great 1905 Centennial and Fair, prepare to offer it now. The executive committee has called for offers, and they must be submitted by May 3. Locations so far suggested include the following:
City Park.
Fulton.
Ladd's field (near Hawthorne Park).
Peninsula.
Abrams & Knox tract (near Portland Flouring Mills).
City View Park.

Now for the site of 1905 Fair. People who have land to offer should get it ready. The executive committee of the exposition will make selection within the next two weeks. Sealed proposals will be received until Saturday, May 3, for a location. Settlement of the long-deferred question of a site will be reached soon thereafter. People who are pulling for one place more than another should therefore come forward and stand up and sing their music.

The executive committee of the Board of Directors yesterday decided to bring the site question to a focus at once. They believed that the sooner they get at it the sooner they will get done with it. No one part of the city was favored over another in the discussion; in fact, the talk did not get down to particular locations. Selection will be made according to advantages of location and number of acres; the terms whereby land may be leased or permanently acquired for the use of the city; facilities for water and rail transportation, and contour, elevation, sightliness, etc. Proposals will be received by Henry E. Reed, secretary of the board of directors. Meanwhile, the members of the executive committee will cast their eyes over the city, visit available sites and receive arguments and information from interested persons. The committee will be glad to be taken in tow by such persons and to be shown whatever they have to offer.

The executive committee resolved to look over the city as much as possible, so as to be able to consider proposals to the best advantage. Several members of the committee have arranged to make an excursion over the city Saturday. By the time the proposals are in, the committee will be familiar with available sites. When the committee has made its selection, it will make its recommendation to the board. A member of the committee was apprehensive yesterday lest the committee would have to go around unguided.

"Don't be afraid," said Paul Wessinger, "there will be plenty of people to look after us."

Mr. Penton suggested that City Engineer Chase be asked to inform the committee whether the City Park is a suitable site. "I am not convinced that it is, but there are many people who are," he said.

The committee decided to act according to the suggestion. "Rival plans should have full and fair opportunity to submit proposals," said W. E. Penton.

"These proposals should be submitted in writing," suggested W. D. Wheelwright, "so that the committee will have something to work with. A number of responsible persons have proposals to make."

"It is first proper to make an investigation of the principal sites available," said Mr. Mallory. "Then we shall be in a better position to choose, because we will know the ground."

I suggest we have 3000 of them. They would be a good advertisement," he added. "The number should be 5000," said Leo Friede. On his suggestion, a committee of two members to take charge of the matter, with power to act, was named. Mr. Devers and Mr. Friede were appointed.

PALMA AT HIS OLD HOME

President-Elect of Cuba Arrives at Bayamo.

HAVANA, April 24.—President-elect Palma arrived at his old home, Bayamo, in Santiago Province, today. He was enthusiastically received along the route from Holguin, from which place he traveled in an old-fashioned Cuban volante. He was accompanied by hundreds of persons on horseback.

At a farewell reception given by the President-elect at Holguin, 1500 school children sang the Cuban hymn. At a banquet the same evening, the President-elect urged the people without distinction of class, to unite in erecting an unbreakable barrier for the protection of the new republic. He said he counted upon the Spaniards in Cuba, whom he characterized as one of the principal factors in the island, to assist in the republic's success. He said the Cubans should unite on economic rather than

political lines, establish the stability of the first Cuban Government and show the world that the Cubans were not like the people of certain South American Republics.

On the way to Bayamo, Senator Palma's party was entertained at the camp of the Cuban company which is constructing the railroad from Santiago de Cuba to Puerto Principe. Upon approaching Bayamo, Senator Palma was met by a number of his old war companions, including Senors Rabal, Lora and Baez, who escorted him to the town.

The President-elect has sent a telegram to the Cuban Senators and Representatives-elect in Havana saying he would accept the American Government, before he assumed office, to pardon all Americans under arrest or waiting trial in Cuba. The Municipal Council of Havana has voted to ask Secretary Root to grant the pardon of the Americans. Senator Palma referred to in his telegram.

Secretary Root's Inspection. HAVANA, April 24.—Secretary Root has inspected the schools, hospitals, utilities and general improvements made in all departments under American intervention. He will probably sail for the United States tomorrow.

THE SUGAR INVESTIGATION

Course to Be Pursued by Republican Members of Senate Committee.

WASHINGTON, April 24.—The Republican members of the committee on relations with Cuba today considered the course to be pursued on the resolution introduced by Senator Teller, directing the Cuban government to investigate and report on the present crop of Cuban sugar held by the sugar trust. No definite determination was reached, but from the exchange of opinions it was made evident that the majority of the Republican members are disposed to accept the first part of the resolution, while none of them will stand with the opposition members in supporting the second part of it.

The portion favorably considered is that directing an inquiry into the present sugar holdings. The other portion directs an investigation of the entire question of reciprocity with Cuba, and it is to this portion of the resolution that special objection is made. Senator Platt, of Connecticut, chairman of the committee, announced that a meeting of the committee would be called for tomorrow to consider the Teller proposition.

Gold Strike in Montana. SAND CREEK, Mont., April 24.—Great excitement prevails at this place over a strike made today in the hills adjoining the town, and scores of prospectors are traversing the adjacent country, taking out claims. The lowest assay of samples by local assayers yielded returns of \$51, and the highest \$28,000. The gold in the ore is said to be so pure as to be almost cut with a knife. In a pan the precious metal is easily discernible to the naked eye. Samples have been sent to Chemist Harty, of Butte, for determination and expert opinion.

Too Early to Take It Up. LONDON, April 24.—A. J. Balfour, the government leader, answering a question in the House of Commons today regarding the growth of trusts in England and whether the government would appoint a committee to inquire into the subject, said the government did not think that the subject at present was ripe for the kind of inquiry suggested.

FLOUR STAYS FREE

New Chinese Treaty Will Make No Change.

LETTER OF SECRETARY HAY

Occasioned by Request of T. B. Wilcox in Interest of Northwest Millers—American Trade Will Be Cared For.

WASHINGTON, April 24.—Senator Mitchell recently addressed a letter to Secretary Hay, inclosing one from Theodore B. Wilcox, of Portland, protesting against the United States consenting to any reciprocity, or other agreement, with China, by which a duty shall be placed on American flour shipped to the Or-

PROPOSALS INVITED FOR 1905 FAIR.

PORTLAND, Oregon, April 24, 1902.—Sealed proposals will be received at the office of the Lewis and Clark Centennial and American Pacific Exposition and Oriental Fair, No. 245 Washington street, Portland, Oregon, until Saturday, May 2, 1902, at 5 P. M., for a site for the Exposition to be held in Portland in 1905, in honor of the 100th anniversary of the arrival of the Lewis and Clark expedition in Oregon. Proposals must be accompanied by plans showing definitely the location and bounds of the lands offered for a site. They must be enclosed in envelopes, sealed, and marked "Proposals for a site for the 1905 Fair," and addressed to the Executive Committee of the Lewis and Clark Centennial and American Pacific Exposition and Oriental Fair, at the address given above. Proposals shall specify:

First—Location and number of acres, and upon what terms, as to lease and title; and what amount of land can be donated to the City of Portland as a site for permanent buildings or park.

Second—Means of transportation and distance from the Postoffice block on Fifth and Morrison streets by the usual lines of travel.

Third—Supply of water for drinking and other necessary purposes, means of irrigation, artificial lakes and waterfalls, and river navigation, if any.

Fourth—Any and all other advantages that exist in connection with the site offered.

Fifth—Give carefully the names of owners of lands mentioned, and how soon possession of site can be had, if desired.

This notice is published in pursuance of an order of the Executive Committee of the Lewis and Clark Centennial and American Pacific Exposition and Oriental Fair, made at a regular meeting held this date, instructing the Secretary of the Exposition Company to invite proposals, through the press, for a site for the 1905 Fair, the same to be submitted within 10 days of April 24, 1902. The Executive Committee reserves the right to reject any and all proposals.

Senators Against the Protest of Senator Foster.

The charges that have been made against Ide have not been indorsed by Senator Foster. His position is that a number of people in Washington do not think Ide is the proper man for the place, and have reasons to present why he should not be confirmed. The Senator insists that these people shall have a hearing before there is any action. The attempt was made some time ago to push the confirmation of Ide, notwithstanding the objections of Foster, but this was defeated, as members of the committee recognize Foster's right to be heard on all such questions.

Senator Turner is a member of the committee on commerce, and he does not intend to play into the hands of Wilson. Although he is of the opposition party, his views in the committee are listened to, and Turner's position is that as long as Foster wants the nomination held up he is entitled to have it done, and he will not urge action either way, as it is a matter entirely outside of his party.

PACIFIC COAST AGAINST IT.

Senators Will Oppose Any Reciprocity Legislation for Cuba.

WASHINGTON, April 24.—So far as can be learned, every Pacific Coast Senator is going to stand firmly against any reciprocity legislation for Cuba.

On April 4, this department directed W. A. Day, Esq., of Washington, in his capacity as special assistant to the Attorney-General, to examine into, as far as practicable, the public charges to the effect that a combination of large meat dealers of the United States had been effected contrary to the provisions of the laws of the United States. This preliminary examination resulted in instructions to Mr. Day and Mr. Betha, United States Attorney at Chicago, on April 7, to prosecute simultaneously in Chicago and the East a more particular examination into the allegations and proofs alleged to exist in support thereof.

"From the reports I am satisfied that sufficient evidence is on hand upon which bills in equity for an injunction can be framed to restrain the combination mentioned from further proceeding under their agreements, which clearly appear to be in restraint of interstate trade. I have, therefore, in compliance with the law, which provides that it shall be the duty of the several District Attorneys of the United States in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain violations of this act," directed the District Attorney at Chicago to prepare a bill for an injunction against the corporation and persons who are parties to the combination mentioned, to be filed in the United States Court for the Northern District of Illinois.

Knockers Deny the Charges.

CHICAGO, April 24.—United States District Attorney Betha refused to make any statement tonight about the action that he will take under Attorney-General Knox's instructions. "I have absolutely nothing to say," he said when the Washington announcement was read to him.

A representative of the packing-houses said that the packers welcomed a full investigation into their relations with each other and the conduct of their business. In their behalf he entered a denial to all charges that they are in combination to control prices or in restraint of trade.

Boycott the Butchers.

BLOOMINGTON, Ill., April 24.—An agreement has been entered into among the 500 employees of the Chicago & Alton shops, in this city, which provides that none of their number will eat meat during the next 30 days.

Snow Storm in New York. SARASOTA LAKE, N. Y., April 24.—A snow and wind storm prevailed here today. The temperature was 40 degrees; yesterday it was 70.

AFTER THE TRUST

Knox on the Trail of the Beef Combine.

IN RESTRAINT OF TRADE

Injunction Case Will Be Filed at Chicago.

RESULT OF INVESTIGATIONS

Government Has Secured Sufficient Evidence to Proceed Against the Combination—Packers Deny the Charges.

The Government will begin proceedings at once against the beef trust. A suit for an injunction will be filed in the Federal District Court at Chicago, declaring that the combination was formed in violation of the laws, and asking that it be enjoined from carrying out its agreements, which are in restraint of interstate trade. Chicago packers say they will welcome a full investigation.

WASHINGTON, April 24.—Attorney-General Knox today made the following statement regarding the so-called beef trust:

"On April 4, this department directed W. A. Day, Esq., of Washington, in his capacity as special assistant to the Attorney-General, to examine into, as far as practicable, the public charges to the effect that a combination of large meat dealers of the United States had been effected contrary to the provisions of the laws of the United States. This preliminary examination resulted in instructions to Mr. Day and Mr. Betha, United States Attorney at Chicago, on April 7, to prosecute simultaneously in Chicago and the East a more particular examination into the allegations and proofs alleged to exist in support thereof.

"From the reports I am satisfied that sufficient evidence is on hand upon which bills in equity for an injunction can be framed to restrain the combination mentioned from further proceeding under their agreements, which clearly appear to be in restraint of interstate trade. I have, therefore, in compliance with the law, which provides that it shall be the duty of the several District Attorneys of the United States in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain violations of this act," directed the District Attorney at Chicago to prepare a bill for an injunction against the corporation and persons who are parties to the combination mentioned, to be filed in the United States Court for the Northern District of Illinois.

Knockers Deny the Charges.

CHICAGO, April 24.—United States District Attorney Betha refused to make any statement tonight about the action that he will take under Attorney-General Knox's instructions. "I have absolutely nothing to say," he said when the Washington announcement was read to him.

A representative of the packing-houses said that the packers welcomed a full investigation into their relations with each other and the conduct of their business. In their behalf he entered a denial to all charges that they are in combination to control prices or in restraint of trade.
