Employers Show a Disposition to Make Concessions on the General Wage Scale-Shaffer's Candidacy.

PATERSON, N. J., April 24.—The operators of slik dye houses made no gen-eral attempt to resume business this morning, and no disorder occurred in any of the strike districts. Many of the striking helpers appeared in the vicinity of the shops which they quitted to en-force their demand for higher pay, but they made no demonstration. The police reserves assembled at 6 o'clock and were placed in positions to be quickly available

for any service that might be required.

At the works of the Wiedemann Silk
Dyeing & Finishing Company it was
stated that 40 men were at work, and
that some of them had resumed their places despite threats that they would be killed if they did so.

It was announced at the meeting of

strikers at Riverside that the Gautschy Dyeing Company had signed the scale. Thirty men from that shop were on strike Thirty men from that shop were on strike and it was unanimously voted to per-mit them to return to work. Favor-able reports concerning several, other shops were received, but in a number of instances the strikers' committee failed to meet the owners. There was a re-newa! today of the suggestion that militin be asked for to protect the property of the firms whose men have struck, and some of the dye house operators called on Mayor Hinchcliffe to discuss the matter. The Mayor did not favor the idea, taking the ground that the police were fully capable of handling the situa-tion. The operators fear trouble if they attempt to start their plants, and are doubtful about the ability of the police to protect them.

The opinion was expressed this after noon that there would be an early set-tlement of the strike. The operators of the dyeing plants have refused to consider the demands of the men for 20 cents an hour for learners and a five-year contract, but have shown a disposition to make concessions on the general wage scale. It was thought that if the employers agreed to advance wages the strikers would recede from their extreme position and accept a compromise.

AMALGAMATED ASSOCIATION, Shaffer's Fate Depends on Adoption

of Wage Scale Report.

WHEELING, W. Va., April 24.—The Amalgamated Association convention transacted only minor business of little mportance today, and this will remain the situation until the several important committees now meeting daily have completed their reports. These reports are expected

to reach the convention Friday.

Interest tonight centers in the report of the wage scale committee, and predictions are freely made that both majority and minority reports will be sub-mitted to the convention. Although the personnel of the committee is largely of Shaffer's friends, it leaks out that a strong minority of the wage committee is fighting indorsement of Shaffer's action in signing scales in advance of the convention. It is conceded that the scales are as advantageous to the members of the association as any ever secured in the past, but the objectors are making their fight on constitutional grounds and reply that while the scales in themselves may be satisfactory to every one conelection of another than Shaffer can be accounted practically a surety. Shaffer's downfall means probably the elec-tion of Assistant Secretary Tighe to the Presidency. In fact, he is the only man to has been thought of as an opponent

PANACEA FOR LABOR TROUBLES. Bishop Potter's Address on Responsi-

bilities of Citizenship.

NEW HAVEN, Conn., April 24.-Bishop Henry C. Potter, of New York, in his second address of the series on the responsibilities of citizenship at Yale, disis not any particular method or plan, but greater confidence between employer and employe: between capitalist and laborer. and a disregard of any caste distinction.

"Almost the worst enemy of human society is the spirit of caste, and the tragic element in the constitution of our modern society is that under forms of government that profess long ago to have removed and abandoned it, it still rears its head in forms more mischlevous than any it has ever assumed; for while we may be patient with the caste spirit when it survives as a product of earlier ages of tribal distinction or feudal tradition or distinguished ancestry or social culture, it becomes, when we see it, as too often we see it today, the mere incarnation of material possessions held in huge bulk and adroit association, then, I say, it becomes a menace alike to the right of the weak and the freedom of the poor; a caste of capitalists separated by practically inseparable barriers from a caste of laborers means social anarchy and industrial

Northern Pacific Machinists' Strike. BRAINERD, Minn., April 24.-The strike of the Northern Pacific machinists has assumed definite form. The railroad company has refused their demands. The machinists were offered an opportunity to return to work today, but the offer was refused. The apprentices today joined the strikers, and the iron molders and blacksmiths are apparently ready to strike, Vice-President Wilson, of the National Union, it is said, will issue an order making the strike general. The rallroad denies the right of one class of employes to dictate as to who shall be given certain kinds of work. At a mass meeting of citi-zens held tonight, Mayor Halstead was authorized to appoint a committee of five the Natal Government for an expression to see what could be done toward an arbitration of the differences.

Garment-Workers' Hours.

NEW YORK, April M.-Ralph M. The trouble dated from last Winter, when the Federation succeeded in averting a atrike. The garment-workers were working 51/2 hours a day, and they asked an eight-hour day. Negotiations have been eight-hour day. Negotiations have been in progress since then, and the matter has finally been compromised by the granting of a Saturday half-holiday the year around. GENERAL SMITH'S ORDERS. Filipino Boys Take Up a Soldier's

Rifle at an Early Age. WASHINGTON, April 25. - Attorney-General Corbin has received a letter from Henry C. McCook, of Philadelphia, in regard to the reported orders of General Smith to destroy all Filipinos found in

arms 10 years of age and upward.
"Sergeant Brown, honorably discharged after full service from Company G, Second Regiment, in which my son, Firs Lieutenant Paul McCook, is an officer, says Mr. McCook, "visited me this week. His company was stationed in Tayabas Province, and he said he had never seen the water cure practiced, or any other methods of torture. I asked him what was the physical standing of a youth of 10 years in the Philippines. He answered that a 10-year-old lad would about rate with a 15-year-old boy here. He further informed me that boys of that age and up to 12 could bear arms, greatly to the dis-advantage of their opponents; that he had seen youths of that age and two or three years older among the insurrectos and ladrones captured, and he further said that sometimes there would be a consider-able proportion of such boys in the hostile ranks, as represented by those who sur-

rendered and those taken prisoners.
"Of course, it is most shocking to our ideas of what is allowable, even under the extremest exigencies of warfare, to think of children of 10 or 12 years of age as being subject to the severities administered to their seniors. Yet it occurred to me that the above facts, it they be stated, may put a somewhat different color upon the reputed order of General Smith."

Gertrude Warner Scott Cured by the Great Kidney Remedy, Swamp-Root.

DR. KILMER & CO., Binghamton, N. T.:

Gentlemen: In the Summer of 1823 I was taken violently ill. My trouble began with pain in my stomach and back, so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the county, and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had cancer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weighed 60 pounds. One day my brother saw in a paper your advertisement of Swamp-Root, the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me for the better, so they obtained more, and I continued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 148 pounds, and am keeping house for my husband and brother, on a farm. FDFF DAINATHIS

A PERFECTLY FAULTLESS COMPLEXION GUARANTEED

A Sure Cure for Pimples, Frackles, Blackheads, Moth, Oiliness and all Diseases and Troubles of the Complexion

The crowning glory of the face is a failtless, clear, beautiful complexion, with its radian glow, its youthful tings, and its fine, smooth texture.

But the question is, can such a complexion be attained?

In this wonderfully progressive age of art, literature and science; of the steam engine, the mighty cannon, the electric motor, the wireless telegraph and the ponderous fabric-making machines; what is there that is impossible?

By a careful study of the nature and texture of the skin, and a thorough research in the realms of chemistry and compounding of ingredients, a remedy has been at last perfected that will accomplish these results.

WHAT FACE BLEACH IS. Face Bleach is not a cosmette to cover up, but it absolutely removes once and forever all the discolorations and blemishesto which the complexion is subject. I can positively guarantee every woman it will do all I claim. Its action on the skin cannot fall to remove every defect, as it draws out the impurities and discolorations which have accumulated in the underskin, and gradually and imperceptibly scales of, conformably to nature (in the form of an exceedingly fine dandruff), a slight surface of the outer diseased or deed cuticle, removing the dead cells of the skin which clog the pores, allowing the impurities which are thrown off by the blood, to escape, leaving the under skin—beautiful, youthful-looking and delicately tinted by nature—clear, smooth and perfect; it tones up the nerves and glands of the skin, restoring them to a healthy action, making them do their proper functions in throwing off the impurities, which have collected in these glands.

This action of Face Bleach harmounizes with the laws of nature and hygiene, the two factors which we must adhere to and follow, if we wish to improve permanently our personal appearance. Face Bleach, if used according to the new special directions which accompany each bottle, will not make the skin noticeably rough at all, and so one will know you are using it, nor will it cause any disagreeable sensation after application.

Many have endeavored to imitate the action of Face Bleach, but they all fall in that they employ Acids or Chiorides of Sodium or Potassium, which instead of drawing out the impurities and discolorations, as my Face Bleach does, drives them back into the system, only to re-appear soon again it a worse form.

THOUSANDS BENEFITED. Thousands of patrons, who were supposed and water This remedy is Mme. A. Ruppert's Face Bleach.

and discolorations, as my Face Bleach does, drives them back into the system, only to re-appear soon again in a worse form.

THOUSANDS BENEFITED. Thousands of patrons, who were annoyed and vexed with most miserable complexions, have been delighted with the grand improvement MADAME RUPPERTS FACE BLEACH has produced in their skins. Many complexions covered with pimples, freckles and eczematous eruptions (itching, burning and annoying) have been changed to bright, beautiful skins, and the improvements made in their looks were simply marvelous. There is scarcely a defect to which the complexion is heir which will not succumb to this wonderful remedy. Premature writakes and lines those inroads of beauty—are quickly effaced, and those muddy, disfiguring, sallow, jaundiced skins are quickly transformed into clear, wholesome once by its use. Flabby skins—which also mark the rwages of time—become firm and smooth after a few applications. Skin troubles which have baffled the most skilful physicians have been removed and dured promptly, and many have expressed, personally and by letter, their heartight and profoundest thanks for this wonderful Face Bleach.

If your skin contains any impurities, you should procure MADAME RUPPERT'S FACE BLEACH at once and clear your complexion; for, if the impurities romain too long in the skin, they injure the net work and icare scars, pits and enlarged pores, and if the net work of the skin is injured, these disfiguring blemishes cannot be entirely eradicated, and the longer those impurities remain in the skin the worse the complexion becomes; hence, it is most important that you attend to this matter as soon as possible.

In most cases the effects of Face Bleach are much improved when accompanied by the use of her Egyptian Balm, according to the new special directions, and at a moderate cost, we will give complimentary a trial jur of the Egyptian Balm with every order for a bottle of Face Bleach.
