In the first seven rounds Attell made Yanger look like a fourth-rate fighter. Try as he might, Yanger could not land an effective blow. Attell slipped or blocked his punches, all the time land-ing a shower of left jabs on Yanger's face. These blows maddened Yanger and he became wild in his delivery, several times going to the floor from the sheer force of his endeavors to land. Yanger began to reach Attell's wind in the eighth round, and from there on to the 15th round he made gains that placed him on a par with his adversary. At-tell gashed Yanger's face in the 13th round, the blood flowing profusely. In the 15th, Attell brought Yanger to the canvas with a left flush to the jaw, but Yanger came up full of pluck, and in the 16th round tried to put Attell away in short order. In this round and the three succeeding ones he had everything his own way. He weakened Attell with heavy punches and banged him all over the ring. In the 18th he put Attell to the floor for the count five times, and the bell found Attell on his knees and almost out. In the 19th, Yanger rushed Attell to the ropes in a neutral corne and uppercut him with right and left swings. Attell seemed on the point of collapsing, but to the surprise of the spectators he suddenly regained his lost vitality. He met Yanger in the center of the ring, backed him into a corner and belabored him with a shower of blows, almost knocking him over the

At this point the police interfered and Referee Siler gave the dectaion to Yanger. Attell begged to be allowed to continue the battle, but it is probable his last effort was a dying one, and that Yanger would have finished him in the next round. The men fought at 122 pounds, the featherweight limit, and was announced before the men went into ring that this batle would decide the real featherweight championship of world. It was also announced that Yae uld be matched with Terry Mc-Govern some time in June.
