

GREAT TALE OF WOE

McCormell's Report on Grand Ronde Indian School

BUILDINGS ARE GOING TO RACK

Representation That Unless the Indians are Dealt With Differently, in a Few Years They Will Be Absolute Paupers.

Our old friend "Bill" McCormell, who has been running amuck among the Indian agencies, has now hit on the Grand Ronde school. The statistic some of the same facts on that agency he made on so many others, but was unable, it seems, to make the desired impression upon the Interior Department.

WASHINGTON, April 29.—Ex-Governor McCormell, of Idaho, who has several times appeared before the Senate Indian committee to offer testimony as to conditions prevailing at the several Indian schools, brought forward some rather severe allegations regarding the Grand Ronde school. When on the stand recently he said: "Matters grew worse at that school. The Indians became addicted to the use of intoxicating liquors to such an extent that it became dangerous for the farmers and others living between the reservation and the nearest town, Willamina, to leave their families at home and go away, for fear of being molested. The women of the community took the subject up and wrote a letter to Mrs. McKinley, the wife of the President. She called her husband's attention to it, and he in turn called it to the attention of the Secretary, who wired me at Klamath Agency to go in there and investigate the matter."

"I accordingly went, and upon my arrival found that Dr. Kershaw, acting Indian agent, superintendent of the school and practicing physician, owned a building in the adjacent town which he rented for a saloon, the proprietor of which sold liquors which had caused the trouble. I found that he owned a store in the same town which was run under the name of the Grand Ronde, which sold goods to the Indians on the reservation, taking mortgages on their crops and other chattels, receiving their grain at the threshing machine in payment of their debts, and so on. He had rendered false vouchers in the open market purchase of flour." He then testified to laying these charges before the Secretary, and adding that he assumed they were disregarded, as Mr. Kershaw was not disturbed. McCormell then read a copy of a report made to the Department relative to this school, in which he said:

As to Buildings.

"I beg leave to report concerning the Grand Ronde school as follows: It consists of two school buildings, the girls' dormitory, which is in connection with it the kitchen and dining-room for all the students, and the boys' dormitory, which is a two-story structure, the boys and the industrial teacher occupying the second story, and the kitchen and dining-room for a play room in the winter months. There has never been any provision made for water otherwise than two wells, from which water is drawn by windlasses and buckets similar to the kind which is used in the laundry and the dishwater from the kitchen are thrown out upon the ground to find their way to the creek. The closets are an abomination. Many of the girls are required to sleep two in a single bed; there are no fire-escapes in fact, but few if any of the schools in the service. The building is in a state of decay. There is not a bathtub for either boys or girls. There are Catholic sisters employed there as teachers, and they seem to be exerting themselves to try to keep clean linen for the use of the girls. The boys have two or three galvanized wash pans or basins in which they wash faces and hands—placing these basins on the porch without any sense of decency of any kind to put them on. The soap they use is on the window sill, and as this silt is sloping, as may be surmised, the soap is more often on the floor than on the window sill."

Will Become Paupers.

"Unless these Indians are dealt with differently in a few years they will be absolute paupers, and will have to be either the state or general government. Their buildings and fences are going to rack without any effort being made to repair them; everything they raise is being absorbed by the store which I have called attention to, and in a few years more their lands will be old and many of them dead and their wagons and farm implements worn out, and they will have no money to replace them."

"I could secure almost innumerable affidavits concerning Mr. Kershaw's drunkenness, but I presume those indicated are sufficient. Some of the boys are drunk on the reservation and an Indian was killed. I am credibly informed that he was almost beaten to a pulp. Mr. Kershaw was the physician who attended the coroner's inquest, and the verdict was that he died of heart failure. In my judgment there should be an agent in charge of a superintendent at Grand Ronde—a man of business capacity and executive ability—one who has the force of character to require these Indians to change their ways and make them wiser."

Shortly before McCormell left the service last July he forwarded another report to the Secretary of the Interior showing up conditions at Grand Ronde, and covering practically the ground of his previous reports. In this report he volunteered to undertake to have Kershaw punished according to statute for improperly using the funds of the reservation, but to that report the Secretary made no reply, and in fact took no recognition. This fact was called to the attention of the investigating committee.

YAMHILL CONVENTION THURSDAY.

Republicans Sure to Win, and Nominations Are Much Desired.

MINNIVILLE, Or., April 29.—The County Republican convention, to be held here Thursday, promises to be a lively one, for a nomination is almost equivalent to an election. The party was never so well united, and will put up a strong fight for both county seats. Last year, after while Yamhill was for Governor Geer's

renomination, now that the battle is over and W. J. Furnish has been chosen the standard-bearer, it proposes to see that he receives the full party vote, and, if hard work can accomplish anything, more than that. For State Senator only three names are mentioned thus far—John Crawford, of Dayton; W. W. Newberg, of Newberg; and W. A. Howe, of Carlton. The County Judge appears to be the most sought office. Candidates are R. P. Bird, the present incumbent, D. V. Kingery, of this city; W. W. Winslow, of Newberg, and F. M. York, of Carlton. The County Clerkship is also a much-desired plum. Among the most prominent aspirants are C. E. Lafollet, of Sheridan; George W. Jones, of McMinnville; Samuel Loughlin, of North Yamhill; George N. Cone and Arthur E. Lambert, of this city. Thomas Coulson, of Dayton, is expected to be the strongest man in the race for Sheriff; in fact, he is about the only man mentioned. For Commissioner, John Reedmond, of this city; W. W. Newberg, of Bellevue, and A. M. Wood, of Whitesboro, are mentioned. County Recorder H. L. Hoskins is likely to be renominated. John Ewerden and Joseph Yocum, present incumbents, are out for Assessor. The Democrats will hold their convention Friday. There is no enthusiasm in their ranks, and in most instances it will be a case of the office seeking the man.

LATE SPRING RETARDS MINING.

Many Eastern Oregon Properties Anxious to Get Machinery In. SUMPTER, Or., April 29.—Late Spring is retarding the early development of the Eastern Oregon gold fields. Roads are still in very bad shape, but a few warm days will make wonderful improvements. The new movement of the old Monumental mine started an initial load this week, but failed to penetrate further than Granite. A large quantity of piping and other material for opening the mine is awaiting transportation. A prospect and other sinking apparatus will be installed as soon as the underground workings can be sufficiently developed to determine upon a plan of work. Wherever the elevated properties have run short of supplies, owing to mishap during the winter of miscalculation in laying in stores, packing or toboggan work has been resorted to or suspended. The former is adopted as a temporary expedient. More than usual impatience marks the waiting of those ready to begin new work on the change from winter to spring. Several investors have been anxious for some time, that they might make more minute examinations. Others, who have acquired properties, are more anxious to get their equipment in.

TO BUY CORNUCOPIA MINE.

Ex-Secretary of War Alger at the Head of a Syndicate. BAKER CITY, Or., April 29.—There has been a well-defined rumor in circulation here for several days past that prominent Eastern capitalists were about to buy the Cornucopia mine, owned by John E. Kearns, of New York, who was recently discharged from bankruptcy. Today it is stated that General Russell A. Alger, ex-Secretary of War, is at the head of the syndicate that is about to buy the mine. Last Fall the mine was bonded for \$1,000,000, but the deal failed because of pending litigation. In connection with the purchase of the mine is a proposition to build a road from here to Cornucopia to facilitate transportation of the ore. General Alger is said to be interested in the railroad proposition also.

New Hoist at Golden Wizard.

SUMPTER, Or., April 29.—On the Golden Wizard property, in the Deer Creek district, a new hoist, capable of sinking to a depth of 300 feet, has been installed. It is proposed to cut the ledge at a depth of 200 feet. From that point it is the purpose to drift either way and continue deeper development. The property has been opened up by about 500 feet of surface tunnels, which expose a large vein of good values. It will be but a short time until the ledge is cut at depth, when its permanency will be determined. Manager McPhee expects to have ore enough mined out by the end of the summer to justify the erection of a treating plant, when he will also be ready to put in a larger and better hoist.

Republicans Organize Club.

OREGON CITY, Or., April 29.—Mayor Grant B. Dimick and Representative A. E. Dresser, with a number of other prominent citizens, organized a Republican club. Nearly 50 voters joined the organization. The Republicans of Wilsonville are confident that the precinct will go for the whole Republican ticket by a good majority.

Oregon Mining Stock Exchange.

Table with columns: Today's quotations were: Bid, Asked. Includes entries for Alaska M. & N., Broune Monarch, Copperopolis, etc.

SPOKANE, April 29.—Closing quotations for mining stocks today were:

Table with columns: Bid, Asked. Includes entries for Amer. Boy, Black Mt., Butte & Bonanza, etc.

SAN FRANCISCO, April 29.—Official closing quotations for mining stocks:

Table with columns: Bid, Asked. Includes entries for Alta, Alpha, Belcher, etc.

NEW YORK, April 29.—Mining stocks today closed as follows:

Table with columns: Bid, Asked. Includes entries for Adams Con., Breese, Brunswick Con., etc.

BOSTON, April 29.—Closing quotations:

Table with columns: Bid, Asked. Includes entries for Adventure, Amalgamated, etc.

HELD FOR BANK ROBBERY

BROWNSVILLE JUSTICE PLACES TWO MEN UNDER BONDS

Unable to Forfeit Bail and Will Be Taken to County Jail—No New Clues in Case.

BROWNSVILLE, Or., April 29.—W. O. Troer and Thomas Vennam, the two young men arrested yesterday on the charge of being implicated in the midday robbery of the Brownsville Bank, when about \$700 was secured, were given an examination before Justice of the Peace Barger, today, and placed under \$2000 bonds each to appear for trial at the June term of the Circuit Court. In default of bail they were committed to the County Jail, and will be taken to Albany tomorrow morning for safe keeping. The excitement over the robbery has somewhat subsided, although the matter is still the subject of much conversation. There have been no new developments in the past 24 hours. As stated in these dispatches yesterday, Troer and Thomas Vennam were both raised here, and both belong to good families. They were defended by Russell Wyatt, of Albany. The prosecution was conducted by Prosecuting Attorney J. N. Hart.

WOODMEN TO RALLY.

Grand Demonstration at The Dalles Planned for Thursday.

THE DALLES, Or., April 29.—The Woodmen of the World are preparing for a great demonstration in this city May 1. All the camps of that order, as well as the ladies' auxiliaries, the number 150 miles around are coming. The business men of the city are dressing the town up in holiday attire. Nearly every firm has dedicated a window, and a generous rivalry is being displayed in artistic effects, the scenes usually representing Woodmen in the forest primeval. A special train is coming from Portland, and it is expected to arrive here at 10 o'clock. It will attend from that city. Many of the chief officers of the Woodmen of the World and their ladies' auxiliaries are coming from various parts of the state.

Call for Bids on Ballots.

SALEM, April 29.—County Clerk Hall today called for bids for furnishing Marion County with ballots for the June election. It is being prepared for the number of ballots required is not as great as formerly, the county only being required to furnish ballots equal to double the number of votes cast at the last general election. In Marion County, where the vote is less than 500, the county will have 15,000 each of the genuine and sample ballots printed. Two years ago the county had 25,000 ballots of each description printed and delivered for \$5, as the result of close competition. In 1901 the county paid \$700 for the printing of 60,000 ballots. The total registration to date in this county is only 4519, as against 600 for the year 1900, and at that time all the electors were not registered. There are over 200 voters in the county who are not registered, and the address is not compiled with the law. In a number of the rural precincts, less than 50 per cent of the voters have registered.

Chamberlain at Medford.

MEDFORD, Or., April 29.—George E. Chamberlain, Democratic nominee for Governor, and W. A. Wann and H. Blackman, Democratic nominees for Superintendent of Public Instruction and State Treasurer, respectively, were met at the depot on the arrival of the south-bound train today by a committee consisting of Mayor W. Jewell, D. H. Miller, County Clerk, and J. C. Zinsmeister, State and County Representatives; G. L. Schermerhorn, joint committeeman, and a large crowd. A procession was immediately formed, headed by the High School Band, which escorted the candidates to the Opera-House, where he was greeted by a large audience. Chamberlain was introduced by Mayor Jewell, and spoke at length upon the issues of the day. He was followed by Messrs. Wann and Blackman. After the meeting, the committee drove the party to the address of the first campaign gun fired by either party in this section.

Road to North Head.

Route Laid Out From Ilwaco—Long Beach Improvements.

ILWACO, Wash., April 29.—County Surveyor Rixen, together with the Ilwaco street and building committee, has blazed the route for the new North Head road. The survey was started today. The county will be obliged to build one mile at a probable cost of \$2000. The Government will build one-half mile to connect with the military road. Filling in With Sand. The run of fish in Baker's Bay the last few days is considered good. Fishermen contend that sand island is still filling in on the north and east, and that the channel is shifting. There are now several trap locations on the island side high and dry at low water, and considered of little value. Railroad Improvements. The Ilwaco Railway & Navigation Company has an extra crew of 20 men employed in improving the roadbed. Three thousand new ties will be placed and other minor improvements will be made to the line. Everything will be in good condition for the summer season.

Destructive Sea Lion Killed.

Baker's Bay fishermen on Saturday and Sunday declared war on a large sea lion which had run through several traps and destroyed many of the traps. The animal finally shot. It measured 13 feet from head to tail. More Boat Service. There is talk of another boat service between Ilwaco and Astoria, and to make the round trip each day and to lie over at Ilwaco, thereby enabling the peninsula people to visit Astoria and return the same day. The boat will touch intermediate points.

Contracts for New Houses.

Contracts have been awarded for the erection of several fine summer dwellings near the Breakers Hotel, above Trogas. Two are now building, and the Summer will soon become a thriving Summer village. To Entertain A. O. U. W. Visitors. Ilwaco Lodge No. 28, A. O. U. W., will make an effort to secure a visit from the supreme officers and party in June, and has practically completed arrangements for their entertainment. Ilwaco lodge claims 150 members in good standing and regular in attendance. Should the supreme officers find it to their advantage to visit the beach and Summer resort in June the organization here will run a special train to Long Beach for their accommodation. A lodge committee here will confer with the Portland committee at an early date.

PAYING VENTURE FOR STATE.

Clearing of Land for Its Use, by Congress, at Albany, N. Y. SALEM, April 29.—Superintendent J. D. Lee, of the State Penitentiary, reports that the experiment recently undertaken by that institution for the clearing of land belonging to private parties, under a contract granting a five years' lease of the premises so cleared, has proven a success. In addition to accomplishing the clearing of the land, the state gets the wood, employment is furnished convicts, who otherwise might be idle, and the state acquires without any expense additional acreage for agricultural purposes.

Petitions for Geer for Senator.

OREGON CITY, Or., April 29.—A petition is being extensively circulated in Clatsop County for the nomination of Governor T. T. Geer for United States Senator. It first originated in the outside precincts, and received many signatures. Today the petition was circulated in Oregon City, and received between 100 and 125 signatures. Payment on State Taxes. SALEM, April 29.—Yamhill County today paid, on behalf of its state and agricultural fund, taxes for the year 1901, as follows: State, \$17,467.25; agricultural, \$488.75.

WHICH PRODUCED GOOD CROPS. IT IS THE PURPOSE OF THE PRISON MANAGEMENT TO GROW OATS ON THE LAND NEXT YEAR.

In connection with its dairy department, the prison at Albany has had an excellent crop of corn in the principal foodstuff used. Superintendent Lee says the yield from 30 acres of corn equals in value the price of the same amount of land. The prison dairy herd numbers 10 cows, but Superintendent Lee expects in another year to increase the herd to 20 head, with the additions to the flock in the past two seasons.

DID NOT KNOW OREGON LAW.

Divorced Woman Wants Marriage in Portland Annulled.

SAN FRANCISCO, April 29.—Lillian Ellinghouse has sued Alfred Ellinghouse, the well-known theatrical manager, to have their marriage annulled. She wishes to resume her former name and to be recognized as a divorced person. She was married to Ellinghouse on January 20, 1901, at Portland, Or., by Rev. George C. Cressey. On November 7, 1901, she had been divorced from Louis J. Siebel in the State of California. She is now a divorced person cannot marry within six months from the date of the decree of divorce, and so, she says, her marriage to Ellinghouse is void. She states that she never saw Ellinghouse until she married him. The law of California prohibits a divorced person from marrying again until a year elapses after the entry of the divorce decree, and Siebel had to go outside of this state to get married to Ellinghouse.

WASHINGTON FISH LICENSES.

Rush Is Now on and Number Will Equal That of Last Year.

ASTORIA, Or., April 29.—Deputy Fish Commissioner Link Burton, of the State of Washington, who was here today, stated that the fishermen on the north side of the river are getting the number rapidly, and he expected that the number would equal that of last year. He will start out to patrol the river about the middle of May, at the same time all the fishermen who have had an opportunity to procure licenses. Some of the seining-grounds which were in operation last week have been closed down on account of the run of salmon becoming very light. Shad are said to be plentiful, and some large catches have been made.

Call for Bids on Ballots.

SALEM, April 29.—County Clerk Hall today called for bids for furnishing Marion County with ballots for the June election. It is being prepared for the number of ballots required is not as great as formerly, the county only being required to furnish ballots equal to double the number of votes cast at the last general election. MARCH AND APRIL

are the two most trying months of the spring season, especially for those with weak lungs, or of low vitality. The sudden changes of weather, the cold harsh winds, the damp atmosphere are all allied against the physically weak. These facts are enforced by the number of those who just manage to struggle along until spring and then fail, having no strength left to resist the attacks of disease. All persons who are weak physically, feel the need of some medicine to carry them through the spring months. The question is, what medicine will give the most strength and most lasting results? There are medicines which stimulate sufficiently to enable the user to just struggle through the trying season. But their use gives no real, permanent gain of strength. Look at the question in this light: Imagine a cripple at the foot of a steep hill which in his weakness he feels powerless to climb without assistance. A kind hearted farmer comes driving by and gives him a lift over the hill. When the cripple gets down from the wagon he is still just as much a cripple as ever, and just as weak, but he has been helped for the time being over a hard place in the road. Suppose now instead of giving him temporary help, by carrying him, some one had come along and said "You are too weak to climb that hill, but I know what will help you," and then had given him some potent draught which made him strong and well, able to climb the hill for himself and go trudging on light-hearted. There is no need to ask which would have been the permanent benefactor.

Dr. Pierce's Golden Medical Discovery differs from other medicines in this: It cures the diseases that weaken and gives permanent strength. It does not just carry a man over the rough place and put him down as weak as before to stagger on his journey. It enables him to carry himself, to climb the hill by his own effort and to go on his way sound in body and strong in muscle.

"Last spring I was taken with severe pains in my chest, and was so weak I could hardly walk about the house," says Mrs. G. E. Kerr, of Fort Dodge, Webster Co., Iowa. "I tried several physicians and they told me I had consumption, but that I might 'brush it up' and perhaps live a good many years. I heard of Dr. Pierce's Golden Medical Discovery and thought I would try some of it. Before I had taken the first bottle I was very much better; I took five bottles of it and have not yet had any return of the trouble. I have also taken Dr. Pierce's Favorite Prescription and 'Pleasant Pellets' with good results."

Those who take medicine in the spring of the year to purify the blood, often do not realize that the blood is made from digested food and that when the stomach is diseased or "weak," no permanent good can be accomplished by any attempt to make the blood pure. If a stream is polluted or poisoned at its source the attempt to purify the water cannot be permanently carried out unless the cause of impurity is removed from the source of the stream. So with the blood. It is made from food perfectly digested. When digestion is imperfect, undigested particles of food are constantly carried into the blood, polluting it and poisoning it.

Dr. Pierce's Golden Medical Discovery purifies the blood by going to the source of the stream, where the blood is produced. It heals diseases of the stomach and other organs of digestion and nutrition and enables the perfect digestion and assimilation of food. It eliminates from the blood the waste substances which clog and corrupt it and so builds up the body with sound flesh and solid muscle. By this means "Golden Medical Discovery" gives lasting health and strength.

"I would say in regard to your medicines that I have been greatly benefited by them," writes Mr. J. S. Bell, of Leando, Van Buren Co., Iowa. "I was at one time as I thought almost at death's door. I was confined to my house and part of the time to my bed. I had taken gallons of medicine but they only fed the disease; but I must say that 'Golden Medical Discovery' has cured me, and to-day I am stouter than I have been for twenty years. I am now forty-three years old."

"Have taken in all twenty-nine bottles of 'Golden Medical Discovery,' besides two or three dozen vials of Dr. Pierce's Pleasant Pellets, but now I take no medicine."

Sick people, especially those who suffer from disease in chronic form are invited to consult Dr. Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

The offer of free consultation by letter made by Dr. Pierce, is not to be confused with offers of "free medical advice" made by irresponsible persons, who having neither medical education or experience are barred both legally and professionally from the practice of medicine.

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

GOOD--FOR NOTHING.

It is not often that a good thing is offered for nothing. Dr. Pierce's Common Sense Medical Adviser is an exception. This good and great medical work, containing over a thousand large pages, is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send twenty-one one-cent stamps for the book in paper covers, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. PIERCE, Buffalo, N. Y.

KILLED BY FALLING TREE

WOMAN IN A BUGGY CAUGHT ON COUNTY ROAD.

time to be sent to Alcatraz, to which he was sentenced for one year by a general court-martial at Fort Walla Walla. He was found guilty of theft and being absent without leave. Second Lieutenant John W. C. Abbott, Artillery Corps, has been granted a month's leave. A general court-martial found J. J. Murphy, Twenty-sixth Battery, guilty of stealing a bicycle, and Matthew B. Ahern, various convictions against his name, he was sentenced to two years at hard labor at Alcatraz Island. Ferdinand Perth, Company I, Twenty-seventh Infantry, was found guilty of desertion, and sentenced to one year at hard labor at Alcatraz Island. Captain V. K. Hart, Quartermaster of the Second Infantry, has been granted a leave of absence for one month.

Northwest Presidential Nominations.

WASHINGTON, April 29.—The following nominations were sent to the Senate today: Receivers of Public Money; James F. Thompson, at Eureka, Cal.; George A. Robetson, Blackfoot, Idaho; Lyman B. Andrews, Seattle, Wash.; Miles Cannon, North Yakima, Wash.; Alex. Cook, Vancouver, Wash. Registers of Land Offices—Lorenzo R. Thomas, Blackfoot, Idaho; Fred W. Stocking, Olympia, Wash.; Matthew B. Ahern, Waterfalls, Wash.; K. H. Smith, Seattle, Wash.; William E. Chaplin, Cheyenne, Wyo.

Widow of the Late Lloyd Tevis.

SAN FRANCISCO, April 29.—Mrs. Susan Saunders Tevis, widow of the late Lloyd Tevis, died today at her home in this city, after a long and severe illness. Mrs. Tevis was one of the wealthiest and best-known women in this state.

Washington Pioneer of 1847.

TACOMA, April 29.—William Young, who came to Pierce County, with the Hudson Bay Company, in 1847, is dead, aged 72 years.

Strike Closes a Smelter.

HELENA, Mont., April 29.—The works of the American Smelting & Reduction Company were closed down this morning because of a strike ordered late last night by Mill and Smelters' Union No. 145, which affiliation with the Western Federation of Miners. The strike was called because the company will not recognize the union. There is no question of wages, hours or labor, or other grievance involved. About 400 men are thrown out of employment. Manager Charles W. Whitley, of the smelter, said today that the works would be closed down indefinitely. The company has only a small stock of ore on hand and is prepared for a long shutdown.

Distinguished Lot of Prisoners.

BAKER CITY, April 29.—Police Officer Kyle yesterday arrested F. M. Saxton, chairman of the Democratic County Committee, Sheriff Fred Huntington and County Recorder C. W. James on the charge of riding their bicycles on the sidewalk near the Courthouse. The offenders were fined \$1 each. A more distinguished lot of prisoners was never arraigned before the court. The arrest of the trio caused quite a ripple of laughter about police headquarters.

Victim of Peculiar Accident.

ELMA, Wash., April 29.—Jesse Platter, an employe at J. E. Murray's camp, eight miles east of here, suffered the fracture of his leg yesterday in a peculiar manner.

Declines Democratic Nomination.

ASTORIA, Or., April 29.—Mayor Isaac Bergman, who was nominated on the citizens' ticket as the candidate for County Judge, has declined the nomination, and Curtis J. Trenchard has been named to fill the vacancy.

Chabrown Reach Los Angeles.
