

NEW DATE TO MEET

Lewis and Clark Directors
Make a Change.

WHAT WILL MR. HARRIMAN DO?

Asked to Make Known What May Be
Expected of Railroads—Co-operation
with Great Falls
Centennial.

The time for the regular meetings of the Lewis and Clark board of directors was yesterday changed from the second Tuesday to the second Friday in each month. The next meeting will be a week from today at 4 P. M. The appointment of J. M. Long to have charge of the work of canvassing the state for subscriptions to stock, and of C. H. McIsaac to complete the canvass in the city, were approved. A telegram was sent to San Francisco declaring the importance of knowing at once what might be expected from the Harriman line in the way of aid for the Lewis and Clark celebration, and suggesting the propriety of Portland officials now there taking the matter up with Mr. Harriman. Great Falls, Mont., was assured of the good will of the Lewis and Clark Centennial for its own proposed celebration of the centennial of the discovery of the Great Falls of the Missouri by the same explorers whose expedition is to be commemorated here.

Upon calling the meeting to order, President Corbett announced that the special business to be transacted was to change the by-laws so as to provide for a convenient day for the regular meetings of the body. Director Scott moved that section 1 of article 4 of the by-laws be amended by substituting the word Friday for Tuesday, which was seconded. It was upon a report of Secretary Reed showing that Friday would suit more members than any other day.

On motion of Director Wheelwright, the design of Great Falls for the corporate seal was formally adopted and bids for making the seal were invited.

Mr. Wheelwright also moved that Directors Friede and Devers be constituted a special committee to confer with D. M. Dunne about a design for buttons to advertise the Lewis and Clark Centennial at the time of the T. P. A. and A. O. U. W. conventions to be held in Portland next month, and the motion was carried.

Secretary Reed reported some correspondence he had had with the Business Men's Association of Great Falls, Montana, pertaining to the proposed celebration of the 150th anniversary of the discovery of the Great Falls of the Missouri River by Lewis and Clark. The gist of the matter was that the celebration of Great Falls expect to have such a celebration, but that the details for it will not be arranged until the return of Senator Paris Gibson, founder of the town, after the close of the present session of Congress.

"As I understand it," said Mr. Scott, "that celebration will be a local affair, to continue not longer than a week, and it will be held early in the month of May, if the journals of the explorers are to be regarded in setting the date. That will in no way interfere with our proceeding; but we will naturally take an interest in that celebration and should take such action as shall seem fitting. It would probably be well to send a delegation over there and extend neighborly courtesies and get their favor in correspondence with them."

Director Mills suggested that the board should also enter into correspondence with Senator Gibson with reference to the Great Falls celebration, and incidentally enlist his interest in the Lewis and Clark Centennial.

President Corbett said it would be important to get the co-operation of Senator Gibson, both in the management of the Great Falls celebration and for his influence in Congress when the Lewis and Clark Centennial should come before that body for favor, and he thought it would be well to enter into correspondence with him, as well as with the Great Falls people direct. On motion of Director Wheelwright the president and secretary were directed to write letters in accordance with the suggestion on the chair.

The ways and means committee reported that it had appointed C. H. McIsaac to complete the canvass of the city for stock subscriptions, and J. M. Long to take entire charge of the canvass of the state outside of Multnomah County, and asked that this action be ratified. The board approved the appointments.

The question of urging upon the attention of E. H. Harriman the matter of aiding the Lewis and Clark celebration was brought up, and a considerable informal discussion ensued, the outcome of which was that the secretary's telegram was directed to be sent at once to Director Fenton, as chairman of the ways and means committee of the Lewis and Clark Centennial, who is now in San Francisco with a gathering of officials of the Harriman lines.

Would it not be practicable for you to have a conference with Mr. Harriman, first consulting Mr. Mohler and Mr. Koshier, as to subscription for Lewis and Clark Centennial? It is important that we should know at once what railroads are likely to do. H. W. SCOTT, Chairman Transportation Committee.

President Corbett said he would supplement this with a personal message direct to Mr. Harriman.

The matter of levying the first assessment on the stock was mentioned, but it was finally left for the meeting next week.

Sites for the Exposition.

To correct an impression that seems to have become quite general, Secretary Reed says the site for the Lewis and Clark Exposition will not be selected tomorrow. The proposals for sites are expected to be in the secretary's hands tomorrow, but they will not even be opened until the executive committee shall meet for that purpose, some time next week. And it is not supposed that any one site will be so clearly superior to all the others that the selection can be made in a minute. Careful consideration will be given the matter, and it cannot now be stated just when a conclusion will be reached.

At yesterday's meeting of the board some of the directors said they had received numerous letters relating to the selection of an exposition site, but all the letters were in favor of a single location.

PERSONAL MENTION.

L. A. Naers, an English capitalist, is registered at the Portland from Liverpool.
