TE WILHELMINA SHOULD DIE. Possibility of a Struggle for Possesgion of Holland.

LONDON, May 5.- The tardy official admission of the real nature of the illness of the Queen of Holland, which the Associated Press was able to announce April 17 from Amsterdam, may be regarded as an indication of a very grave crisis in Her Majesty's condition, and coming so suddenly upon the bulletins announcing her imminent recovery, it will cause a shock throughout Europe. Apart from the difficulties surrounding the question of the succession to the throne of Hol-land, the death of Queen Wilhelming, if this should, unhapply, occur, would tend to convulse the Continent politically. In for convuise the Continent politically. In Germany especially it is a matter of the deepest importance. The German press claims that Prince Albrecht, of Hohen-sollern, the acting regent of Brunswick, is among the nearest in the Dutch succession, and in all the European capitals regions apprehension exists that the abnervous apprehension exists that the ab-sence of a direct heir to the Dutch throne might precipitate a struggle for the pos-session of Holland, which in Bertin is regarded as Germany's natural right.

MEETS THE KING'S APPROVAL. Inspection of the Coronation Ar-

rangements at Westminster. LONDON, May 4.—King Edward last week paid a visit to Westminster Abbey, which is now almost hidden from sight by the hideous scaffolding of the encir-cing stands. The King minutely in-spected the arrangements, expressed satisfaction and congratulated the Duke of Norfolk, the hereditary Earl Marshal and Chief Butler of England, on the way in which the work had been execu-

Arrangements are pending by which those who are to be present at the coro-nation will have a short interval for re-freshments. This will be done by the establishment of a lunch room in one of the ancient cloisters. Even with the Abbey ceremony, the service will, be very long and it is considered essential very long and it is considered essential that the party and the guests should have some handy place where the pangs of hunger and exhaustion may be allayed. The Peeresses are n coinsternation. According to the present arrangements,

A SUCCESSFUL AIRSHIP.

Another Brazilian Aeronaut Navigates the Air. PARIS, May 4.—In spite of the threat-

milian aeronaut, made a successful first with his airship at Vaugirard Aerostatic Park today. Senor Zevero's sirship is called La Paix. The balloon, held by a rope, ascended 40 meters. The motors were then started. The balloon obeyed the impulse of its propellors, steering easily and maintaining perfect equilibri-um. After maneuvering for a short time, Senor Zevero returned the airship to its shed. The few persons who were present at the park enthusiastically applauded Senor Zevero and the two assistnts who accompanied him in the ascent. La Praix is not unlike Santos-Dumont's airships in its appearance, but it differs from them in many details. The gas ca-pacity of La Paix is nearly four times that of Sautos Dumont's airships. It has three main propellors and two smaller ones used for steering and in ascending and descending. The two petroleum motors of La Paix are of 24 and 26 horse-power, respectively. Benor Zevero said he would not make another trial until there was perfectly fair weather and that he would then attempt to extend his fight.

Syndicate. BERLIN, May 4.—John D. Rockefeller, it is understood, is behind the Virginia-North Carolina Chemical Company's de-signs on the German potash fields, While B. T. Morgan, C. D. Crenshaw and E. C. Sputsbury are the only Americans taking part in the conferences which are being held daily at the Hotel Bristol with the members of the German potash syndicate, and maintain that in consideration of the vast amount of benefit to be derived from the passage of the general law it should be adopted without delay and S. Gibbons, representing Mr. Bockefeller, are at the same hotel waiting for the outcome of the negotiations and prepared to finance the project. Mr. Bradley, in behalf of himself and Mr. Gibbons, firmly denies that they are here for any such purpose, but the potash syndicate people of Stassfurt have been so informed. The ownership of the syndicate properties is widely distributed, and buying control of the prop-

erties is likely to require months and capital exceeding \$50,000,000. The only thing which may cause the Americans withdrawal from the attempt is that some of the properties operated by the syndicate belong to the Prussian Treasury, which is also the owner of large unworked properties. The Americans must secure a lease of these for long terms if they wish to dominate the industry.

He was at one time the Earl of Beaponsfield's private secretary.

Captain of Detectives Bradish, City Detective Hawley, a Chicago officer, and a reporter went to Aldrich's offices to serve requisition papers which the Governor had granted on the requiest of the Governor of Illinois, for the return of Aldrich to Chicago, where he was wanted to answer to the charges of periury and bigamy. persons gathered in a Broome-street hall tonight to say farewell to Johann Most, the anarchist. Herr Most is booked to go to jail tomorrow under sentence for having printed in his paper an artist of the charges of perjury and bigamy. When the officers entered the room, Detective Hawley immediately began reading the document, Aldrich stood in the doorway of his private office. he turned and seized a pistol off his desk, but before he could level it at the offi-cers he was seized by Bradish and Hawley. In the scuffle Aldrich placed the re-volver to Hawley's back and fired. The bullet entered below the shoulder blade

and imbedded itself in the muscles.

Shaking off the officers, Aldrich rushed into his private office, locked the door, ceized a rifle and began firing through the glass door. One of the bullets bareased the reporter, and others imbe ded themselves in the door. Bradish fired through the door, the builet striking Aldrich two inches below the navel, perfordrich two inches below the navel, perfor-ating the bowels. Realizing that he was cornered. Aldrich placed the muzzle of the rifle to his nostril and pulled the trig-ger. The builet entered the brain. He died instantly. His self-inflicted wound left not a trace.

Not much is known of Aldrich in this city. He came here some time ago and opened sumptuously furnished offices in the Hotel Savoy, where he apparently had conducted a successful business.

"Last Summer, recognizing my responsibility to the people, there being no campaign in the state, I announced my intention of going before them for the purpose of discussing these National issues. I was immediately and violently assailed for advocating Republican doc-trines, and branded as a Republican in Democratic disguise. The State Demo-cratic Executive Committee met, and, under the dictation of my colleague in the Senate, formally declared that I was not a Democrat, which formed the basis for similar action on the part of the Demo-cratic caucus of the United States Sen-ate. Since that time the war against me has been persistently waged. The policy of my opponents has been to belittle the real issues into a personal quarrel be tween "Tilman and McLaurin." I am absolutely convinced and forewarned of this purpose to exclude me and my friends, because I have read the speech of Senator Tillman, the acknowledge dic-tator of the Democratic machine of South Carolina, delivered at Manning, in which he directs a revision of the rules and form of oath of the party, for the pur-

CONDITION GRAVE

ARCHBISHOP CORRIGAN TAKES A TURN FOR THE WORSE.

His Physician States That He Is By No Means Out of Danger.

NEW YORK, May 4.-Much concern is felt over the case of Archbishop Corrigan, as Dr. Keyes, the attending physician, announced tonight after his visit to the bedside of the prelate that his condition is still dangerous, and there is a possibil-

ity that it may become more critical.

"Archbishop Corrigan is by no means out of danger," said Dr. Keyes, "and his weakness continues. There are no favorable indications; he shows absolutely no interest in worldly affairs and evinces no liveliness whatever. If he did evinces no liveliness whatever. liveliness whatever. If he did evince a desire to know what was going on in the world, it would indicate that he was regaining his lost strength. There was hope that he would even express a desire to get up, as he is, but he has not shown the slightest inclination to get up, sleeping constantly.
"His condition is grave indeed, and

there is a possibility that he may get worse, and this will hold good for several days. He is so weak that if he were taken from his bed he could not stand." The news that Archbishop Corrigan was worse came as a surprise tonight, for the statement given out earlier in the day was of a favorable nature. It is now known that his weakness is such that he is unable to retain solid food. Absolute quiet is maintained in the sick chamber.

WHAT CONGRESS WILL DO. Statehood Bill the Principal Feature of the House Programme.

WASHINGTON, May 4.- The princips feature of the programme in the House this week will be the bill to place three new stars in the American flag. The omnibus bill for the admission of Oklahoma New Mexico and Arizona to statehood will be called Tuesday. The friends of the bill do not desire protracted debate on it and will try to secure a vote that day. There is much opposition to the bill or the Republican side of the House, on th ground that the territories are not yet fitted for statehood, but the friends of the bill entertain no doubt of its pas sage. The Democrats in caucus agreed to give it their united support, and a least 60 Republican votes are counted on.
Tomorrow is District of Columbia day.
After the statehood bill is disposed of war claims will be given attention, and then the naval appropriation bill will be taken up. Three important measures of general legislation—the Hill financial bill, terminating the coinage of silver dollars; the Ray anti-anarchy bill, and the Shattuc bill codifying and extending the im-migration laws- are to be taken up when ever oportunity occurs, the rules commit tee having decided Saturday that the measures should have early attention. No time is set for them, but the decision of the rules committee will bring them for-ward whenever appropriation bills and special orders are lacking.

The Senate Programme. Republicans this week will relieve Democrats of the necessity of supplying all the speakers in the Senate on the Philippines government bill. The events of last week caused them to decide to take part in the debate, and they will lead off when

the bill is laid before the Senate at 2 o'clock tomorrow. Senator Lodge, chairman of the committee on the Philippines, will open for them with a speech in support of the Admin'stration's Philippine policy, with incidental reference to Major Gardener's report and other special phases of the Philippine question. Other Republican Senators who have indicated a purpose to address the Senate on the pending question are; For-aker, Spooner, Burton, McComas and Platt of Connecticut. There probably also will be other Republican speakers. The Democratic members of the committee on the Philippines have no fixed plans, except to have the debate on the bill extended for the present. They decline to acknowledge

the bill.
Other measures which will receive attention during the week are the sundry civil appropriation bill and the bill pro-viding for the opening to settlement of the Rosebud Indian reservation in South Dakota. The reservation question has priority of claim to consideration in the morning hour of each day, and the ap-propriation bill will be used "to fill in" when no one is prepared to speak on either that bill or the Philippine bill.
