Uniform and Fixed Ment Prices and Secret Rebates in Addition to C. O. D. List.

JEFFERSON CITY, Mo., May 7,-The JEFFERSON CITY, Mo., May 1.—Ineexistence in St. Louis of uniform and
fixed meat prices and secret rebates in
addition to the C. O. D. list was shown by
testimony taken at this morning's session
of the beef trust inquiry. Attorney-General Crow said today that the objection
maked by the packers' attorneys at Tuesraised by the packers' attorneys at Tues-day's session of the beef trust inquiry does not pertain to the validity of the anti-trust law, but only to the law authorizing the inquiry. The two statutes are separate. "The anti-trust law has been tested twice in the Supreme Court and is unassailable," said Attorney-General

Maurice Prendiville, a St. Louis Union Market meat dealer, was the first witness examined today. In answer to questions by the Attorney-General, Prendiville testified that Armour, Swift, Nelson, Morris and Cudahy had a fixed agreement regarding prices.

"The packers buy cattle on successive days," said Frendiville, "so that each can buy at his own price. There is very litthe independent buying in the East St. Louis stock yards. The big packers keep others out by telling the cattlemen that

if they sell any cattle to the independent buyers, they must sell all to them. "A better grade of cattle is sent East than that sold in St. Louis. The ordi-nary retail butchers cannot get high-class beef. The best beef is sold to butchers at il cents on the carcass."
"Did you ever get a rebate?" was asked

"Four or five months ago, I got rebates on pork from Nelson Morris. At one time the cooler managers told not that they had an agreement not to sell at less than \$6 a hundred. They would evade the agreement by selling some cents lower."

The there an arbitrator in St. Louis?"
asked Attorney-General Crow.
The cooler managers meet every Wednesday afternoon and form a C. O. D. list, and on Saturday they hold another meeting. I do not know who fixes prices for ing. I do not know who fixes prices for them, but they are fixed the last of each week for the week following.
"When a man does not sell his cattle in

East St. Louis," continued the witness, "and ships them elsewhere, the packers send a dispatch ahead of him instructing the buyers to offer only so much. Meat this year is much inferior to that sold last year. The number of cattle sold and killed in East St. Louis this season has been unusually large. Most of the meat has been placed in storage."

William Tamme, of St. Louis, formerly city salesmer for Swift, testified to the uniform prices at which salesmen of all companies were instructed to sell. Attorney Ernest C. Dodge has charge of the C. O. D. list, which is made up every week, C. O. D. list, which is made up every week, the witness declared. Tamme said that the increased price of meat was out of proportion to the increase in the price of cattle. He said 100 butchers in St. Louis had gone out of business and that the Mound City Packing Company and the North St. Louis Packing Company had also retired.

At the afternoon session there was additional testimony as to the combination of packers, the giving of rebates and the fixing of uniform prices in St. Louis, Several of the witnesses told of the sale

year ago was for several years manager of a branch house of the S. & S. people at Topeka. He told of the existence of a combine between the various companies to fix the prices of meats, and related incident in which he lust his posttion for seiling lard at half a cent less per pound than the combine price,

Nervous Prostration, Hysteria, and Sleeplessness.

Any intelligent man or woman can easlly detect victims of nervous troubles by taking a 10 minutes walk on any of the crowded streets of our cities or towns. The observer will note countenances full of feverish anxiety, harassed looks, unsteady hands, faltering steps, twitching muscles, pallid faces, and startled, anxous looks when unusual noises are made Such people are, without doubt, victims of nervous prostration, bysteria, or insomnia. The whole system suffers—the brain, the spinal cord, and the sympathetic system. It is unnecessary to dilate minutely on the causes of nervousness. Business cares and disappointments, haste after riches and honors, social and household worries, sexual and alcoholic excesses, watching and anxiety, and loss of near and dear ones, all contribute to the breaking down of the nervous organism of men and

He expresses the opinion that there are two difficulties to be overcome if British manufacture is to regain its lost footing. The other difficulty is the existence of trusts or syndicates in almost every prin-cipal branch of the iron trade in both these continental countries.

> The Copeland Medical Institute Does Not Confine Its Practice to Catarrhal Affections, but Treats All Chronic Diseases at a Uniform Rate of \$5 a Month, Medicines

The Copeland physicians are in daily receipt of letters from all points inquiring as to the application of their system of treatment to chronic maindles other than those of a catarrhal nature. For the information of those inquiring and the public generally, it is again stated that the provision made by the Copeland Medical Institute is for the treatment and cure of all persons suffering from any form of chronic disease or infirmity whatever at the uniform fee of 50-including all medicines and appliances-for one month's continuous and watchful treatment. The same measure of skill, the same degree of care, the same intelligent exercise of professional energy and effort, and the same certainty of cure, are afforded to sufferers from other chronic maladies as to those suffering from catarrhal troubles of any nature.

Great numbers of people suffer from the malign poisons of catarrh, as from other chronic maiadies, without any correct or definite idea of the nature of their affection. The following symptome have been carefully arranged to enable many sufferers to understand just what it is that alls them. Many diseases, known under various specific names, are really of a catarrhal origin and nature. Every part of the mucous membrane, the nose,
