The Oregonian's Handbook tells all about Portland, the entire Columbia River watershed and the 1905 World's Pair, commemorative of the Lewis and Clark expedition to Oregon. The book contains over 150 handsome flustrations, and it is printed on enameled book paper. It will be malled to any address in the United biates or Canada for V cents a copy.

INNOCERT OF STEALING OIL CANS. - Several men interested in the oil trade were DELAY IN MOVING INTO CUSTOM-HOUSE.-Collector of Customs Patterson, who is custodian of the new Custom-House, does anxious spectators yesterday in a case heard in the Municipal Court, where G. W. Bracy and Harold Bracy were charged not yet know when the building will be occupied. He is waiting for information occupied. He is waiting for information from Washington as to whether the Govwith the larceny of a five-gallon oil can, the property of W. E. Jacobs. The lat-ter's testimony was that one of his oilerament will permit furniture to be moved into the rooms and carpets laid before a Government inspector goes over the building. The building in all other respects is ready to receive the local Government officials. Yesterday workmen were engaged in making electrical concans, valued at \$1 50 when new, was taken by Haroid Bracy from the neighborhood of Seventh and Columbia streets April 25, and hidden in his barn, where it was sequently found, covered with a sack, obs asserted that he had missed oil were engaged in making electrical con-nections in the basement and in attach-ing wooden hand rails to the banisters. It cans for a long time, and had recovered several of them in second-hand dealers stores. Mrs. Woods, of 333 Clay street, has been the intention to begin moving into the structure by the middle part of this month. A quantity of furniture has stated that when she bought out the pre-vious tenant at the house she occupied she bought the oil can in dispute, "along with other rubbish," and offered the can for sale to a dealer in second-hand goods, been moved into the warehouses on the first floor. According to signs on the doors the second floor will be occupied by the Collector of Internal Revenue, the Inspector of Steam Vessels, the Weather Bureau and the Custom-House. On the third floor will be the Surveyor-General and the Lightness Internal Control of the Surveyor-General control of the Surveyor-Genera tho declined to buy it at any price. Sup posing the can to be worthless, she placed it on a dump pile. Harold Bracy admit-ted taking the can to his barn, and stated that he had intended returning it to Jaand the Lighthouse Inspector, and on the first floor the warehouses and the Examiner and Appraiser. Not many of the Government officials are in a hurry to get into the new building, on account cohs, but forgot to do so. The lawyer for the prosecution stated that Harold Bracy's purpose was to paint the can and use it in his business. Judge Cameron de-cided that no felonious intent had been shown, and discharged the defendants. up the new quarters.

WORK ON FOURTH-STREET PAVEMENT. The work of laying the new pavement on Fourth street is proceeding rapidly, and is now practically completed to the north line of Stark street. When the laying of blocks between Alder and Washington was blocked by the debris from a new building, the workmen moved on to the next block and started anew. Now, to one looking down the street from Morrison, a column of steam arising from the kneeling form of Howard Whiting, the boss block-tomer, is seen mingling with the solumn of sooty smoke arising from the furnace used in heating the carbottemer. furnace used in heating the carbolineum avenarius used in flooding the new pave-ment, and it looks as if a locomotive was dragging the improvement along at rail-road speed. The number of persons over-seeing the work grows smaller the further the pavement is extended, and by the time the work has gone around the curve into North Third street the new pavement will be an old story and the workmen will be able to work in peace and quiet.

HOUSES IN UNSANITARY CONDITION. Plumbing Inspector Hulme yesterday in-spected the premises at No. 315 North Efficiently street, where there are three cases of diphtheria. He found that the property was recently purchased by the present occupants, and that there are three disused cosspools on the lot, of which she knew nothing. They were not illed up when the house was connected. filled up when the house was connected with the sewer, but were merely covered with some planks with a slight covering of earth on them. Such things as this are what cause diphtheria, typhoid fever, and other filth diseases. Inspector Hulme also inspected a home to which his attention was called by the Civic Improvement As-sociation, where he found a man putting in a wooden sink contrary to law with a tin pipe to conduct the drain water out on the premises. The owner will be re-quired to provide a sanitary sink and

make proper connections with the sewer, and was unable to arise BENT PLATE GLASS.-Th bent plate of glass for the corner window of the Northern Pacific ticket office is standing on the sidewalk in front of the hole it is to fill, waiting for some one to tackle the job of putting it in. There seemed to be no one around yesterday brave enough to tackle this rather ticklish job, but the glass will have to be gotten out of the way soon, as workmen are now engaged in constructing a concrete side-walk along both fronts of the building. This property of the La Fleischner estate has a frontage of 100 feet on Morrison street by 150 on Third street. The wooden walk is being taken up and steel girders are being put in to sustain the weight of the concrete one. When all the improve-ments are completel on the corner it will be one of the finest in the city.

MR, HULME GETS TRAVELING SCHOLAR-SHIP.—E. M. Hulme, of this city, who, ship.—E. M. Hulme, of this city, who, after graduating in English at Stanford University, California, and attending Harvard University for a time, has been for the past year at Cornell University. New York, studying history, has been granted a traveling scholarship, and is going to travel and lecture during the coming Summer in London, Paris, Florence, Rome and Venice. He will also lecture on "Town Life" and on the middle ages at Nuremburg, Germany. This work will occupy him until about next September, after which he will study history at ber, after which he will study history at the Sarbonne, one of the great uni-versities of Paris. He is fitting himself

for the position of professor of history. Young Dwyer Safe on Steamer.—Mrs. Dwyer, who left Portland Thursday with her son, who had been paralyzed by a fall, on their way home to England, tele-graphed from New York to George Taylor as follows: "Will kept up fine; placed in hospital all right," Last evening Mr. Tay-lor received another disputed from Mr. lor received another dispatch from Mrs.

Dwyer, notifying him that they were safe on board the steamship and just starting on their voyage across the Atlantic, and extending her thanks to the numerous people who had shown her and her unfortunate boy so many kindnesses while here LOCKING FOR ROBBERS WITH NEW CLOTHES.—The police are still searching for robbers who entered Anderson & Johnson's saloon, Third street, near Yamhill, Sunday, and scooped up all the loose change in the cash registers and also carried away a new suit of clothes belonging to Mr. Anderson and newly arrived from the tailors. Last year thieves served Mr. Anderson in the same manner, and he dislikes the effrontery of these marauders who steel his new clothes without who steal his new clothes without giv-ing him an opportunity to wear them.

PHYSICIANS EXAMINE STRANGE CASES.— Upwards of @ physicians and a party of medical students attended the examina-tion of Eliza and Jacob Radmaker, who tion of Eliza and Jacob Radmaker, who came here from Chehalls, Wash., Tuesday night, on their way to Indianapolis, where they hoped to receive medical treatment. The medical experts did not by any means agree on a positive diagnosis. One group said that the patients might be suffering from one disease, and another group took an opposite theory. It was finally determined to await the results of a bacteriological, microscopic and chemical diagnosis, before a definite conclusion was reached. The general opinion seemed to be that the disease might be inpus vulgaris, a cutaneous trouble. It

"A King's Rival" is now the talk of the town in New York, being produced at Wallack's and the Criterion by Mr. Hack-

ryn Purnell, an actress endowed not only with great beauty, but a high order of

country for the subtlest and finest expo-sition of Batan the modern stage can show, will himself appear at the Mar-

quam Grand Theater tomorrow and Sat-urday nights, with a matinee Saturday, as Mephisto in "Faust," with a cast and scenery which aurpass those of all pre-vious productions of this play, under the

direction of Jules Murry. With Lewis Morrison himself as Mephisto a good production is guaranteed. With a new prologue employing 17 exquisitely painted scenes, an invialble choir and a display of electrical effects, centering into one pure white ray resting on the gates of heaven thronged by, the heavenly host, and a dozen other novel and startling effects, the production is bound scenically and in point of acting to be the finest ever

staged of this particular play "In Mizzoura" at the Baker. Few plays have been more successful than "In Missoura," which Augustus Thomas wrote for Nat Goodwin, and which Mr. Goodwin made famous. The Ralph Stuart Company is making every effort to produce the play next week as it should be produced, which is saying much, for it is by no means easy to reproduce on the stage the lackadaisical air of the state at the mention of whose name everybody smiles. The company has been ad mirably cast, and the scenery will be as true to life as art can make it. The sale

"The Banker's Daughter." "The Banker's Daughter," one of the dramas, has been secured by Ralph Stuart and will be produced by him before he closes his season at the Baker. NEXT SYMPHONY CONCERT

Moszkowski's Captivating Spanish Music With Other Favorites.

Among the favorlie selections of the past season that are to be given at the Symphony Orchestra concert at the Marsymptony orenestra concert at the sar-quam Monday night, May 12 will be Mozzkowski's Spanish number, "From Foreign Parts," which so delighted every-one at its initial production before a Port-land audience at the symphony concert given two weeks ago. It is without doubt one of the most captivating among the small numbers ever given on a Portland stage, and is rendered by the orchestra with such brilliancy and aplomb as to leave the audience fairly breathless with the witching grace of the dance, and the mad whirl of happy feet to the merry sound of castanets and laughter. Moszkowski has been peculiarly successful in catching the careless, buoyant, Southern spirit, and it would be hard to find a number that in its sportive abandonment to the gaiety of the moment, is better fitted to smooth out furrows from tired brows or drive away the black beast Care from troubled hearts. It is winsome, delicious music of the sort that everybody takes celight in. The sale of scats will open this morning to subscribers, Saturday norning to the general public
