PENDLETON TAKES INTEREST

Warm Expressions on All Sides for the Great Historical and Industrial Celebration-Will Lend With Subscriptions,

PENDLETON, Or., May 14 -- A large and enthusiastic meeting of the business man of Pendleton tonight met the Portland delegation who are here in the interest of the Lewis and Clark Fair. After the object of the visit had been explained, the meeting unanimously voted to help make the great fair a success. Mayor Halley was authorized to appoint a general committee of five to take charge of the canyoas for stock subscriptions for the fair, with authority for the general committee to appoint all subordinate committees. The citizens of Umatilla County are determined to be the bagner county in subecribing for stock. The delegation of Portland citizens were highly gratified by the warm expressions from everybody in favor of the fair and in showing such de termination to be the banner county in subscribbing for the stock.

FAVORS LEWIS AND CLARK.

Balter County Will Show Up to Great Advantage in 1905.

BARES CITY, Or., May 14.-The busi-ness men and capitalists of this city, together with the citizens generally, were very favorably impressed with the statements made in regard to the Lewis and Clark Centennial Exposition by the gentlemen who came from Portland to address the citizens' meeting Monday evening. There is a general inclination to favor the exposition in every way pos-

Both political conventions declared in favor of a liberal appropriation for the fuir, and the Legislative candidates of both parties are pledged to vote for an repriation in aid of the expesition by state. It would insure the defeat of a candidate for the Legislature in this county, were it known that he was op-pased to the Lewis and Clark celebration.

The mineral exhibit that will be placed on exhibition in the miles building at the 1905 fair from this county will be some-thing magnificent to behold. It is possible, and it is not improbable, that a ton of ore worth over \$100,000 will be among the exhibits from Baker County, while other pecimens can be shown that will carry ree gold that will outweigh the quarts mingled with it. Quantities of ore

worth Sids and Sid a pound, just as it comes from the mine, can easily be shown. However, the most wonderful of all the mineral exhibits shown from this section will be samples of the low-grade ores, together with carefully prepared es limates, showing the immense quantitie of this ore to be found in the Eastern Dregon mineral belt, acknowledged to be the largest gold mineralized territory i
