AMUSEMENTS TONIGHT.

THE BAKER THEATER (corner Third and Yamihill streets)—Mr. Raiph Stuart and Com-pany, in Augustus Thomas' Magnificent Pro-duction of 'In Minsoura." Only theater in the city open tonight.

IF YOU HAVEN'T REGISTERED, REGISTER TODAY. IT'S THE LAST OPPORTUNITY.

GO EARLY AND STAY TILL YOUR NAME IS ON THE BOLL.

Good Advice to Contractors.—There have been some inquiries as to why the provisions of a city ordinance requiring fence four feet high and a temporary sidewalk to be constructed around excava-tions being made for building purposes are not enforced. It is replied that such structures hardly seem necessary where the street is paved with asphalt, brick or wood blocks. It would be very diffi-cult for contractors to handle the large amount of material they must use in the construction of basements, and at the me time maintain a walk and a fence in front of the property. The public need to exercise patience in regard to such things in a city where the streets are narrow and there are no alleys. Another law in regard to this matter reuires builders to keep open and covered walk in front of the building being cted, after the walls are up one story While the authorities do not wish to pamper contractors, the contractors are expected to do their utmost not to dis commode the public in the use of the streets and sidewalks. The carelessness of contractors in this matter is what causes the enactment of stringent laws in regard to it. Contractors now engaged in erecting buildings have been served with notices in regard to fences and temporary sidewalks, and until such time as they can comply with these notices it will, without much detriment to them-selves, be well to keep the streets clear for the convenience of passers, so as to give as little cause of complaint as pos-sible, and to comply with the law as soon us possible. It is the negligence and in difference of a few contractors in regard to the rights of the public that causes

STATE COURSE OF STUDY REVISED .- J. H. Ackerman, Superintendent of Public In-struction, has recently completed a re-vision of the State course of study to correspond with the new text books now in use. Soon after the adoption of the new text books by the Text Book Commission, Superintendent Ackerman issued a ynopsis of a course of study, outlining the work to be done throughout the State, and waited for the real school-room experience of the year before rewriting the course of study. The real work of the pupils and teachers suggested such changes as Mr. Ackerman has made. The revised course will point out how to shorten the work where it is too heavy, and supplement it where too light. A uni-form course of study for the State has resulted in raising the standard of the public schools. It unifies the work and affords an intelligent means of comparison between the schools of a county and between the counties in the State. Super-intendent Ackerman will deliver an ad-dress on "The Revised Course of Study" at the local Teachers' Institute, to be held at the South Mount Tabor school, on next Saturday.

DUMPED GARRAGE IN CITT LIMITS .- SIX scavengers were arrested yesterday by Sidewalk Inspector Lillis, of the City En-gineer's Department, charged with dumpgarbage in the guich on Overton street, between Twelfth and Thirteenth streets. All were let go with a reprimand, and promised they would not repeat the offense. Since Officer Lillis arrested a few persons for dumping garbage in the Alder-street bridge, they took to pew folds. The residents resistent to new fields. The residents registered their complaint with City Engineer Chase, and he detailed Lillis, who is a special policeman, to watch for the violaters. This has been a mecca for dumping for some time, and the stench from the gulch is very bad. The neighborhood was all highly pleased yesterday, and offered to assist the officer in any way. All of the loads the scavengers dumped included garbage, decayed fruits, vegetables and swill, tin cans, etc. A strict watch is being kept on all the guiches all over the city, and garbage notices have been placed on all of the bridges.

HAWTHORNS IN BLOOM.-Among the most beautiful of flowering trees at this season is the hawthorn, which, although a stranger here, is becoming quite com-mon, and loads the air with its fragrance. These trees are literally loaded with blos-soms in red, white and pink, and there is a tree at Third and College streets which has been budded and bears about an equal proportion of each color, and attracts much attention. The hawthorn is much used for hedges in Great Britain, and the beauty and fragrance of such hedges are frequently mentioned by Burns and other poets. A resident of this city, who has over a block in a beautiful flower garden, is planning to have it enclosed by a haw-thorn hedge next season. Such hedges, when properly pruned, are practically im-passable, except by birds, and last a gen-eration or longer.

DELAY IN BATES' BUILDING .- The work of construction on the brick building being erected by G. W. Bates, at the corner of Second and Columbia streets, for a laundry, has been at a standstill of late. The delay has been at a standshill of late. The delay has been caused by having to wait for some iron work needed in the structure. A lot of timbers have lately been delivered on the ground, and as the iron had arrived, work was to have been resumed on the building yesterday, when it was found that the irons were too small, or something of the sort, and further delay will be necessary, but it is hoped it will not be for long. The three-story wooden building on the same quarter block as the laundry, which is to be used for a stable, and for sleeping rooms for drivers, is rapidly approaching com-

Showers Open Rossesurs.—The nice showers of Tuesday night, following a warm, sunshiny day, caused many rose-buds to open, and yesterday morning a rose or two and many opening buds were to be seen in the majority of gardens about town. In one rather large garden, divided between flowers and veegtables, an old-time citizen was puttering about yesterday forenoon and growling discontentedly about the showery weather, and remarked to a friend who came along that it was a pity that there could not be more than one sunshiny day at a time. The friend cheeringly replied that it was a property of the could be more than one sunshing that it was a pity that there could not be more than one sunshing day at a time. not right to expect more than one day at a time, and called attention to the fact that the gentle showers were bringing that the gentic showers were bringing out the roses in great shape. The reply was that the showers brought out the cut worms in great shape, and that in such weather they just climbed up and cut off the tops of his cabbages, tomatoes, etc., in great shape. They do not moiest the flowers, he zaid, but slash down everything that is useful. "There is no end to them." he said. "I killed 400 yesterday morning, and I have killed 500 this morning; and this makes me tired." "Why ing; and this makes me tired." "Why don't you turn your chickens loose in the garden?" he was asked. "I did try that, and in hunting for the cut worms, they scratched up and tore down everything.

THE LAST DAY TO REG-ISTER.

This is the last day to register. The books in the office of the County Clerk close at 5 P. M. today. If you have neglected your duty as a citizen, and have so far falled to qualify to vote on June 2, you have just one more chance; and that chance you must seize before 5 P. M. today. If you are not registered, and if you still want to vote, you must go to great trouble in order to get the necessary six freeholders to sign an affidavit. Therefore, go to the County Clerk's office today. Take a little time and trouble today in order to avoid annoyance and delays hereafter.

The garden is an old one, and the ground is full of worms clear down to the bottom. The hot sunshine drives them back into the ground, and I want more sunshine, About 5 P. M. there came on a little show er which must have knocked the cut worms silly, and driven them deep into

the earth. FREE BATH DIRECTORS MEET TONIGHT. A meeting of directors of the Free Bath Association will be held at 8 o'clock this evening, at the office of the Equitable Life, in the Oregonian Building. A full attendance is requested, as business of importance is to come before the meeting. The election of a superintendent and assistant superintendent for the season of 1902 fwll take place, and rules for the baths will be adopted. Any competent persons may file application for the above offices with Edward Holman, Fourth and Yamhill streets, during the day, stating experience and salary expected from June 1 to September 15. References must ac-company all applications. Work on the structure is progressing most satisfactor-ily, and there is no longer a doubt but that everything will be in running order by June 1. The esuiking and painting of the hulls will be finished today, and on the nuis will be missive today and on Saturday the first public bath which Portland has ever owned will glide from the ways at Suffie's shippard. The office, emergency room and B dressing rooms are finished, and it is expected that by May H the painters will take charge of the house to give it its finishing touches. the house, to give it its finishing touches CORBETT AGAIN HURT.-While running a lifting machine in Forbes & Davis' wood yard, yesterday, Charles Corbett was seriously injured and is now confined in the Good Samaritan Hospital with a dislocated elbow joint and bad bruises. The located elbow joint and bad bruises. The machine he was operating was a friction gear machine, and is managed by a lever. gear machine, and is managed by a lever. The lever alipped from his hand, and he lost his balance. He was caught and carried with it up to the engine, where his arm was caught against the wheel, and his elbow thrown out of joint. Cor-

bett was badly bruised and his face some what disfigured. He was taken at once to Good Samaritan Hospital and cared for. His suffering was so intense that he had to be brought under the influence of an anesthetic before anything could be done toward setting the joint. He was resting well last night, and the joint will probably not be stiff. Corbett is 18 years of age, and in his 18 years has been the victim of some serious accidents. Two years ago a horse ran away with him, years ago a fitzer ran away ware brok-and both his legs and one arm were brok-en. Later he had an accident in which he lost an ear. He is plucky, however, and bears his misfortunes without complaint.

LITTLE GIRL RECOVERS FROM ACCIDENT. The little daughter of Charles J. Schna-bel, who, while playfully romping about the sitting room, nearly three weeks ago, ripped and fell, and nearly bit the end off her tongue, is rapidly recovering from the effects of the accident, and bids fair to suffer no permanent damage. Four of her teeth went through her tongue, leav-ing the end hanging by a very frail connection. The tongue was stitched to-gether, but was so swollen that for some time the little one was unable to take any nourishment in the usual manner and suffered greatly. The wound, however, healed rapidly, and now the little patient is able to take nourishment, and even to is able to take hourshinent, and even to play about; but she is very careful to avoid failing. The tongue shows but slight marks of the injury, and this will not interfere at all with the little one's power of speech.

Few Brick Are Available.—Work was resumed yesterday on the Lawrence Company's building at First and Oak streets, a lot of satisfactory brick having been delivered early in the morning. It is learned that brick are becoming scarce, as everybody is wanting more or less of them at present, and so far only two local klins have been burned this season. Two more klins are about burned, and will be ready for delivery very soon, and after that it is said that the supply will be equal to all demands. The brickmen did not have enough left over last Fall to meet the early demands of such a building season as the present, and unless they watch out, they are not likely to have any large amount left over this Fall. FEW BRICK ARE AVAILABLE.-Work was

STRAWBERRIES MORE PLENTIFUL.— Strawberries are quite plentiful in the markets. Hood River berries, which two markets. Hood River berries, which two days ago brought 40 cents per box, yesterday sold for 35 cents. Rather nice California berries were selling at two boxes for 25 cents yesterday, and unhulled berries of fair quality were selling for 16 cents per box. It will not be long till berries will be plentiful and cheap, and those who cannot afford to pay high prices must possess their souls and stomachs with patience a little longer.

The drawing for the fancy slik quilt

THE DRAWING for the fancy silk quilt that is being raffied by Prosperity Camp 256, W. O. W., for the benefit of a needy neighbor, will take place tonight at their entertainment and dance, in Forester Hall, on Sixth and Washington streets.* CHARGED WITH BREAKING WISHOW— Thomas McMann was arrested last night by Policeman J. Roberts, charged with breaking window glass in a pawnbroker's stort, at Third and Couch streets.

INDEADS GO TO PEDERAL PHISON,—United States Deputy Marshal Andrews and Policeman Bryan, of Pocatello, Idaho, ar-PRAISES FOR rived at the police station yesterday afternoon with three Bannock Indians, Richard Burns, Henry Fisher and Nephl Opet, whom they are taking to McNeill's Island, Wash, to serve terms of imprisonment. All the prisoners were tried and sentenced at Pocatello. Burns and Pisher THE WEBER

Dr. G. J. Edgecumbe, principal of the Senton Harbor College, has written the following letter, expressing his admiration for the Weber plano:

were charged with criminally assaulting a Lemhi Indian girl, and were each sen-tenced to 13 months' imprisonment. Opet

was charged with assault with a danger-ous weapon, and was sentenced to two and one-half years' imprisonment. The

officers and their prisoners left with the 11:39 o'clock train last night for Tacoma, en route for McNeill's Island.

FOUTHS CHARGED WITH LARCENT.-Two youths, Arthur Heintaman and E. D'Arcy,

the charge made against them, and that their arrest was a mistake.

LONG WORK ON MCKAY BUILDING .-- The

work of changing the front of the Mc-Kay Building, at Third and Stark streets,

and putting in an elevator on the Third-street end, has been rather a formidable job. Workmen have been engaged on the

job for over two months, and there is still a pile of mortar and other building

the ground floor, and making the changes in rooms rendered necessary by the im-provement, has been so great that it is

imost as much as to build a building of he size. When the job is completed, the

SOME REFUSE TO SUBSCRIBE TO THE

building will have been vastly improved.

FAIR.—C. H. McIsanc, who is soliciting subscriptions to the Lewis and Clafk fund, does not find it easy work. The spirit of

the Centennial does not reign in the breasts of some people, and not a few turn him down with "No." Others put him off and tell him to call again, and

sometimes say they want more time to make up their minds. Subscriptions have

been coming in very slowly of late. Next Saturday dealers in farm machinery will meet to discuss what sums they will sev-

Young THISP ON THE ROCK PILE.

Charles Burton, a boy, sentenced to one year in the County Jail, charged with

stealing nickels from telephone boxes, was sent to work on the rock pile yes-terday, much to his dismay. Tuesday night Burton and several other worthles

now undergoing imprisonment at the City Jail conspired to break out of that dilapidated place, but their bungling work

was detected in time, before any of them got away. For safety, Burton will be sent to the County Jali today.

-W. G. Brown to Build Ribbs Statis.

-W. G. Brown has secured the option of ground 100 by 150 feet, at the southwest corner of Eleventh and Columbia streets, where he will erect a three-story stable and riding barn, to be known as the Portland Riding Club. It will cost about \$1000, and will be ready for occurrence to shout three months.

OF INTEREST TO CAMPERS. OUT.

Many of our readers occasionally go into camp-on a hunting or fishing trip, or prospecting or ranching. On such a trip the question of what to eat is most important, for a turn of indigestion spoils all the pleasure, and sickness sway from home defeats the purpose of the trip. With a little attention to outfitting one thing may be made sure—that the food will be all right. Bread, biscuits and fiapjacks are the principal things-with fresh meat and fish when they can be obtained. How to handle these, and many other eatable things, in the best way at the camp fire, is the subject of a little book, entitled "Camp Cookery," published by the Royal Baking Powder Company, New York. Any of our readers will receive a copy of this book, free of charge, by writing to the Royal Baking Powder Company, New York. A postal card will do.
