AMUSEMENTS TONIGHT.

MARQUAM GRAND THEATER .- Tonight the Prawley Company present Augustin Thomas' beautiful play, "Alabama."

THE BAKER THEATER (corner Third and Yamhill streets)-Sinth week of the popular Mr. Ralph Stuart and Company. "Monte Cristo." Evening at \$:20.

CORDRAT'S THE TER-Lincoin J. Carter's latest production, "Two Little Walfs."

BUILDING WORK GOES AREAD .- Building operations were resumed on most of the large hulldings in course of construc-tion about town yesterday. At the Law-rence Company's building, First and Oak streets, brick are being delivered as fast as can be desired, and Contractor Frie-berg is happy. He was yesterday setting the large granite bases for the piers of the fronts, and today will begin laying the pressed brick fronts. The brick for these comes from Newberg, and there is smough on hand to run the walls up one story, and another carload will arrive to-day. The brick are of a duil red or choc-olate color. The foundations for the an olute color. The foundations for the annex to the First National Bank are completed, and the floor beams were being put in yesterday, and the erection of the cut-stone front will be commenced at once. The wall separating the annex from the building will not be cut through at once, for obvious reasons. The vitri-fied brick for the foundations of the Failing estate building, at Third and Mor-rison streets, were being delivered yesterday, and work will probably be resumed there today. The concrete foundations and cross walls on the basement of T. M. Richardson's building, at Third and Salmon streets, are being put in as rapidly

QUIT BUSINESS ON ACCOUNT OF HIGH RENT.-Messrs. Mctsch & Hussey, who undertook to carry on the market busi-ness at the corner of Fourth and Alder streets after John Vince so unceremoni-onale these on the second second second second ously threw up the sponge there, a short time ago, closed out their stock and re-tired from business yesterday. They had een paying \$150 per month rent for the building, which belongs to the Burke es-tate, and yesterday were notified that the rent would be raised to \$250 per month. This raised them out. Just what use the building can be put to outside of a mar-ket it is difficult to imagine, as Vince used the upper stories for a long time as chicken pens. It is probable that, as the property is valuable, the old buildings on R are going to be torn down and a building to correspond with the loca-tion and value of the property to be erected, which will be a good thing for the street and all concerned. The departing tenants have no idea that it was supposed they would stand the raise for a moment, but say that several par-ties have been trying to lease the prop-erty for saloon purposes, and there may be a saloon there.

NURSES TO GRADUATE,-The graduating class of nurses at the St. Vincent's Hospital has successfully passed its final examinations, and nine trained nurses will be added to the profession. The folowing are the members of the class; Sarah Lawler, Florine Shaw, Mabel Hen-dee, Marguerite Gleason, Caroline Morsan, Annie Reidy, Kathrine Kelley, Eleanor Donaldson and Theresa Cronen. The returns were received yesterday, and it was with much satisfaction that they learned that not one had failed to pass with a good mark. The course of train-ing at the St. Vincent's Hospital com-prises two and a half years of hard and faithful work, during which time the nurses must not only have the province nurses must not only have the practical experience of nursing, but must take up the study of various branches of med-icine and be able to pass examinations upon them. The examinations are rigid tests, and the high marks attained speak well for the class. The commencement well for the class. The commencement exercises will be held at the hospital on May 22, and a pleasing programme is being prepared.

TO BUILD AT BURNSIDE AND WASHING-TON .- One by one, but all too slowly, the in are disappearing before the march of improvement. The last riddance of this kind has just occurred at the junc-tion of Burnside street with Washington, in a fractional block, 100 feet long on Washington and 60 feet wide at one end and 20 feet at the other. The book store, plumbing shop and Chinese laundry which occupied the tract have been cleared away, and the work of excavating for the foundations of a new building there is begun. The Espey estate, which owns the property, is to erect thereon at once a two-story wooden building after plans prepared by R. Martin, architect, at a cost of about \$10,000. The lower story is to be divided into stores and the upper one into flats. It will be a rather handsome building, and will greatly improve the appearance of that neighbor-BEETLE FOUND THAT KILLS TREES. Professor A. B. Cordley, of the Oregon Agricultural College, called at the headquarters of the State Board of Horticulture yesterday and examined the limbs of several trees which had been destroyed by a little beetle. The limbs exhibited by Secretary Lamberson showed that the work of the beetle could hardly be noticed. The bore did not exceed the size of a pinhead, but it is very destructive to the tree. The beetle itself, of which Mr. Lamberson had a sample, did not exceed one-third the size of the common ant. The insect, however, has powerful jaws, and it is able to cut its way from the bark to the pith of the tree. Pro-fessor Cordley, as the entomologist of the college, will visit the Flanders or-chard, near Vancouver, which is infested with the beetle, and will also inspect the Steel orchard, and devise some means for the extermination of the insect. BRITISH RESIDENTS TO MEST .- The British Benevolent Society will hold an in-formal gathering on the evening of Saturday, May 24, at Trinity Parish House, on Fifth street, near Oak, in commemor-ation of the anniversary of the birthday of the late Queen Victoria. They cordial ly invite the members of the St. Andrew's and Hibernian societies, the Caledonian Club and Clan Maclay to join with them on this occasion. There will be an inter-esting programme of national songs and ballads. Interspersed with a few brief, but bright speeches. The ladies of the association have undertaken to provide the refreshments; so there need be no fear the refreshments, so there need be no fear of any one having to go empty away. British residents who are not members of any of the societies mentioned will be heartily welcomed, and no one will be turned away, so long as there is "room in the inn." In the inn." HERE'S A GOOD RIDDANCE.—The ruinous old mhack on Taylor street, opposite the M. E. church, has been torn down, and part of the debris is being removed, and the remainder is being destroyed by the purifying agency of fire. The attention of the Health Department is called to the fifthy and unsafe condition of the walls of the Chinese building a disjoint. of the Chinese building adjoining. A ver-itable gutter has been worn in the end of one of these buildings by the slops from a discharge pipe, which ran down the wall for years, and the side wall of the other building is so cracked and creviced that it would fail but for the sup-port of adjoining buildings. There should be an overhauling and general all-round cleaning up in that locality. IF YOU ARE THINKING OF making a trip East, now is the time to take advantage of the low excursion rates named by the Northern Pacific. Try the North Coast Limited, electric lighted, steam heated, wide-vestibuled; in fact, an up-to-date rain. It don't cost any more to travel an ihis train than it does on any other. For full information, call at the ticket whice, No. 256 Morrison street, corner Chird.

CIECULAR ON CRINESE EXCLUSION LAW YERKES' STORY DIDN'T GO .- C. R. CIECULAE ON CHINEME EXCLUSION LAW. -Collector of Customs Patterson has just received a circular from Acting Secretary O. L. Spaulding, in regard to the enforce-ment of the Chinese exclusion law, set-ting forth the conditions under which registered Chinese laborers, seeking ad-mission to the United States, after tem-porary absence, can be allowed to re-turn. It provides that such Chinese la-borers shall notify the Collector of the port from which they departed at least 80 days in advance of their intention to re-turn, giving name and address and ground on which they claim the right of TERES BYONY DIN'T GO.-C. N. Terkes, a deckhand on board the steamer Ruth, was before Municipal Judge Cam-eron yesterday, charged with assaulting Sam Wing, a Chinese cook on board the steamer. Sam Wing testified: "Last Synday a week age we tried to serve the crew with direct to constitute and Sunday a week age we tried to serve the crew with dinner at one sitting, and there was not room for all. Yerkes was one of the disappointed ones, and he broke a plate and threw one of the pleces at me, cutting my face." "I never threw a plate at you," spoke up Yerkes; "It was this way: I broke the plate, 'cause I was mad at getting no dinner I threw one of the places on the table. Now, this table is near the open window, leading to the kitchen and I surpose the ground on which they claim the right of admission. The Collector, upon receipt of such notice, will investigate the claim made therein, and if this fails to estableading to the kitchen, and I suppose the piece of plate may have gone through the lish the validity of such claim, the person making it should be notified that he will window. How was I to know that the not be permitted to re-enter the United States. Upon the arrival of any regis-tered Chinese laborer at any port of the Chinaman was passing at the time? I've got no fight with Sam Wing, but I had words with the other Chinese walter, United States, and his exhibition of his return certificate to the appropriate of-ficer, the Collector of Customs of such Wong Ging, because he got gay with me sometimes." The Judge decided that a case of assault had been made out, and he fined Yerkes \$5. The fine was paid. port should require such Chinese to es-tablish satisfactorily, as a condition pre-cedent to his admission to the United CONTRACTORS LET OFF EASILY .- Frank Woodman and L. L. Carter, contractors, States, that he has, at the time of such States, that he has, at the time of such arrival, a lawful wife, child, or parent in the United States, or property therein of the value of \$1000, or debts of like amount due him and pending settlement. If the evidence establishing the eligibility of the applicant to enter has previously been secured and is not controverted been secured, and is not controverted, then he shall be admitted without delay, but otherwise he shall be refused a land ing until he establishes his right thereto ONE OREGON INDUSTRY .- "The business in shaved hoops is about over for thi season," remarked a man who was de-livering a load of this merchandise on Front street yesterday. "The sap is pretty well up in the hazels now, and the bark peels off very easily, and, as the strength of a hoop depends considerably on the bark, the cutting of hazels must now stop till next Fall. Hoops made when the sap is up have also a tendency to mold, and are not saleable. Gutte a business is done in manufacturing hazel hoops in this region, and it gives employ-ment to a considerable number of men during the Fall and Winter. There are two firms here engaged in buying and shipping hazel hoops to California, and during the past year they have shipped about 300,000 hoops, for which they pay about \$5 per thousand. Some of the man employed in shaving hoops are graduates in the business from Hoophole Township, Posey County, Ind. There is to danger of the hazel brush used in making hoops being exhausted in this state for many a day. Where one stick is cut hulf a dozen spring up in its place, and it does not take them long to grow to a diameter of 1 to 115 inches, which is the size com-monly used. Some cut hazels ahead dur-ing the Winter and early Spring to work up after the sap starts, but it is much harder to split and shave these than green ones. REPAIRING BLOCK PAVEMENT .- The owners of property at Fourth and Yamhill streets, among them Tyler Wood-ward and Henry Monnastes, are setting a good example to other property owners in the neighborhood by having the wood block pavement repaired. In some places quite a number of blocks, and in others only two or three, which show signs of decay, are being removed and sound ones

Woodman and L. L. Carter, contractors, were before Municipal Judge Cameron yesterday, charged with proceeding with the erection of buildings without having first obtained a permit, as required by law, from the City Engineer, and were both fined &, but the fines were pemit-ted. Woodman pleaded guilty. When asked what he wanted to plead. Carter said: "Til leave it to Your Honor." "But," replied the Judge, "you make your plea, and then the court will decide according to the evidence." "Well," said Carter, "I suppose I am guilty, if you people say so. I did not take out a per-mit at the time, but I have taken out a permit since." "Then the court finds you guilty," decided the Judge. "However, your intentions seem to have been good. your intentions seem to have been good, and you did not willingly seek to evade the lass. You are fined \$5, and under the circumstances the fine is remitted. is no criterion, however, of what the court may do in the future. When you commence to work on a new building ou must apply for the proper permit." WAS THERE EMBEZLEMENT ?- E. Was intered was charged yesterday, in the Municipal Court, with embenzing and converting to his own use the sum of \$200 02, on the complaint of George Wood-worth, representing the Chicago Portrait Company. It was in evidence that More-field was employed by the company as agent, and that frames and pictures to the value of the sum mentioned were ine value of the sum mentioned were given him to sell, and that his profit was to be what he received for the frames, less the list price. Woodworth testified: "Morefield admitted the abortage to me, and asked time to have the matter fixed up. The goods were shipped from Chi-cago, to the order of the company." The lawyer for the defense asserted that no case of embezziement had been made out against Morefield, and Municipal Judge Cameron took the case under advisement to look up authorities on the point of law WHERE & LEAN CAME FROM .- Employes of the City Water Works were called out yesterday morning to repair another leaky pipe, which had started a "never-failing spring" on Front street. On dis-ging down to the leak, it was found that was from the old hydraulic main laid Front street years ago by P. F. Morey, put in their places, making the street appear as good as new. The pavement in that vicinity is becoming badly pitted with these defective blocks, and unless they are soon replaced, it will be in much the same condition by next Winter that Fourth street is where the new nexamer to furnish water for operating hydraulic elevators when they first came into use here. The pressure was supplied from the dydraulic pumping station established by Mr. Morey at the foot of Oak street, where was also installed the first electric Fourth street is where the new pavement has not been laid. A triffing expense in the way of repairs would keep the paveplant for city lighting, out of which grew the Portland General Electric Company. The pumps there also furnished water under pressure for the street hydrants for fire protection for a time before Hull Run water was brought in. The pumps ment in good condition for a vear or two No HOOD RIVER BERRIES YET .- Henry W. Fries, who took his family up to Hood are still kept running to furnish pressure for operating some 2 hydraulic elevators River last Saturday for the Summer, says that there have been no berries shipped from that place yet this season. He mays the strawberry vines are loaded with INVESTIGATING OLD RECORDS.-Says the Topeka Dally Capital of May 15: "Mrs. Eva Emery Dya, of Oregon, is in Topeka examining the Indian office manuscripts of General William Clark, Superintendent of Indian Affairs at St. Louis, in the li-brary of the State Historical Society. She is engaged in an investigation of ma-terial relating to the Lewis and Clark ex-medition which she proposes to embody INVESTIGATING OLD RECORDS .-- Says the blossoms and give promise of a fine crop, but that there will be no ripe berries there for a week or so. The berries seen in the markets here labeled Hood River berries are of the same round shape and deep red color as those raised at Hood River, but are probably grown in Cali-fornia, and are called Hood River berries because they are the kind raised at Hood

River. They bring about three times as much as the ordinary California, berries, which is very creditable to Hood River. "Stories of Oregon,' have run through several editions. Mrs. Dye has met two former friends in Topeka, W. H. Cowlea, who was a classmate at Oberlin, and Pro-WHO POISONED THESE Dogs .- Two val-uable retriever dogs were poisoned withfessor W. H. Harshbarger, of Washburn

unknown origin have been caused by crossed wires, for it is quite certain that the currents commonly employed for elec-tric lighting are quite capable of causing such accidents. During the recent bliz-zard in this city five men and scores upon accres of horses were killed by elec-tricity conveyed to their bodies by wires that bad failure in the strent Some of

in a few minutes of each other, on Eighteenth street, opposite the Couch school building, Sunday night. One of the dogs was a pet named "Dash," and was valed at \$75, and was the property of Dan-el Camion. "Dash" was tied up nearly iel Camion. all day Sunday, and was let loose about supper time for a run around the block. The dog came back dying after he had been absent only a few minutes, and the symptoms were that he had eaten polsoned meat, thrown by some one on the grass. The other dog was similarly af-fected. "Dash" was a quiet dog, and was two years old. The case has been handed to the police

or longer.

FOURTH OF JULY CELEBRATION .- A public meeting is hereby called, to be held at the Council Chamber in the City Hall, on Wednesday evening, May 21, at 8 o'clock, and all patriotic and public-spirited citizens are requested to be present for the purpose of making necessary preliminary arrangements for the cele-bration of the Fourth Day of July, 1902. in a becoming manuer in this city. H. S.

Rowe, Mayor PREPARING BLANKET BALLOT .-- County Clerk Swetland was engaged yesterday in preparing the ballot for the coming election. The names are arranged in alpha-betical order, as heretofore. There is a little more work required to arrange the ballots for outside precincts, because of the new law providing for the election of Road Supervisors. The ballot, when com-pleted will contain about 210 manual pieted, will contain about 210 names.

Philadelphia Ledger. Telephones ought to be protected by lightning arresters, which automatically break the line when a greater current than that for which the instrument is suited enters the line, but the only real safety to the community must come from the removal of overhead wires. They are a constant meanace to life and property. It is not improbable that some fires of

"NU FRILLS"

Just Sensible Food Cured Him. Sometimes a good, healthy commercial traveler suffers' from poorly selected food. and is lucky if he knows that Grape-Nuta Breakfast Food will put him right. A Cincinnati traveler, John N. Case,

Jr., mays: "About a year ago my stom-ach got in a bad way. I had a headache most of the time, and suffered misery for several months I ran down, until 1 bet about 70 pounds in weight and finally For had to give up a good position and go home. Any food that I might use seemed "My wife hardly knew what to do until one day she brought home a package of Grape-Nuts and coaxed me to try them, I Grape-Nuts and content into the finally, to told her it was no use, but finally, to humor her, I tried a little, and they just struck my taste. It was the first food that I had eaten in nearly a year that

did not cause any suffering. "Well, to make a long story short, I began to improve, and stuck to Grape-Nuts. I went up from 155 pounds on De-cember 24, 1900, to 194 pounds on October

1901 "My brain is clear, blood all right and "My brain is clear, blood all right and appetite too much for any man's pocket-book. In fact, I am thoroughly made over, and owe it all to Grape-Nuts. I talk so much about what Grape-Nuts will do that some of the men on the road have inchraned me 'Grape-Nuts,' but I stand today 's healthy, rosy-cheeked man, a pretty good example of what the right kind of food will do. "You can publish this if you want to. It is a true statement without any frills."
