

STAR FOR HOME

Rochambeau Commission Leaves Washington.

TOOK RIDE WITH PRESIDENT

Attended Church Where Cardinal Gibbons Preached on Rochambeau's Service in Our Revolt.

WASHINGTON, May 25.—The members of the French mission, who came to Washington to attend the ceremonies incident to the unveiling of the Rochambeau statue, finished their visit here today, and tonight left the city for Niagara Falls, on the tour of the East before returning home.

Ambassador Cambon accompanied the members of the mission to St. Patrick's Church at 10 o'clock in the morning, where low mass was said by Rev. Dr. Mangen, of Baltimore, High Rev. Monsignor Hooker, of St. Ignace, and other priests, assisting. The visitors wore the full uniform of their rank.

Cardinal Gibbons preached a short sermon. Of Rochambeau he said in part: "Without detaching from the merits of his brothers in arms, I can affirm that Rochambeau was the flower of the French military art. Mature in years, experienced in military operations, he had seen seven years' war, calm, deliberate, self-possessed, he was a man, according to Washington's own heart, the General on whose counsel and prudence he could rely more than on that of any other commander."

"When the American troops under Washington and the French forces under Rochambeau were on the march to Yorktown, Washington, who was in command, gave the post of distinction to the French Army. Rochambeau gracefully declined the honor, and in doing so he followed the impulse of his own heart, as well as the general instructions he received from his government, that he should always subordinate himself to the American Commander-in-Chief."

"The army of Cornwallis was surrounded on land by the French and American troops, and was prevented from escaping to sea by the fleet of Admiral De Grasse, which was in command on the day, and thus defeat of the English commander was inevitable and he surrendered his sword to Washington. The capitulation of Cornwallis was the most decisive event of the American Revolution."

"May the friendship subsisting between France and America—a friendship coeval with our history as a Nation—a friendship to which we owe our independence, our freedom and our sovereignty—may this historic friendship be perpetuated. May it be strengthened and consolidated by the bonds of commerce and by the golden links of brotherly love, and may the Republics of the world go hand in hand in the march of liberty and progress and civilization. And may the monument erected to Rochambeau, a symbol of the Nation ever remind the American citizen who will contemplate it, of the everlasting debt of gratitude which the United States owes to France."

The weather was very warm during the afternoon, and some of the visitors preferred to rest while others made calls or took rides about the city and suburbs. Several of the party included the Count and Countess de Rochambeau and the Count de La Fayette, visited Arlington Cemetery and Fort Meyer. They were escorted through the grounds by Captain Lewis, of the Second Cavalry.

Took Ride With the President. An unexpected feature of the afternoon and one that pleased the visitors very much was the invitation from President Roosevelt to accompany him and several others on a horseback ride. The entire party assembled in front of the White House about 6 o'clock, the visitors in their uniforms making a very pretty picture. A photograph was taken of the group while there. The President guided the party through the northern section of the city until they reached the Zoological Park. While on the ride, the President gathered, and the party came home at a lively center. The rain overtook them, however, and before reaching their stopping place the entire party was drenched. This, on a horseback ride, President Roosevelt, his son Theodore and daughter Alice, Secretary Root and Senator Lodge and the following members of the Rochambeau mission, including the Count and Admiral Fourrier, General Chalandar and Captain Lasson.

During the recent visit of Prince Henry of Prussia to the President on a horseback ride. On that occasion also a heavy rain storm overtook them, and they got a severe wetting.

The party left Washington at 7:30 o'clock tonight for Niagara Falls, via the Pennsylvania road. Those going included all the members of the mission, Ambassador and Mrs. Cambon, and the members of the staff of the French Embassy and the President's commission.

SIX KILLED BY TORNADO.

Two Storms Joined Forces in South Carolina. UNION, S. C., May 25.—Six persons were killed and several injured by a tornado that swept over this section of the state this afternoon. The dead are: MISS SALLIE HAY, of Union; MISS ANNIE LAWSON, of Union; MRS. MAXEY SIMS, of Union; YERA SIMS.

MISS LAWSON, killed at Jonesboro. One person unknown at Pacolet. Among the injured are the following: Maxey Sims, broken fingers; Lisa Sims, internally injured; William Mabey, fractured shoulder and hand; Mrs. Mabey, bruised; two children of Mrs. Mabey, slightly injured.

Two storms, one from the north and another from the south, met near here with terrific force. The storm was preceded by a heavy rain. One wing of the tornado passed along Main street and blew in several store fronts, doing much damage to stocks. Kenneth, Miss Hill, south of town, caught the full force of the tornado, which blew down the schoolhouse and two residences there, converting them literally into kindling wood. The occasion from one of the houses before it went to pieces and took refuge in another way, but this house also was crushed to splinters. In this house Sally Hart and Annie Lawson were instantly killed. Mrs. Maxey Sims died in an hour, and her little daughter Vera died soon afterward. Maxey Sims escaped with broken fingers. Lisa Sims sustained several cuts on the head from falling timbers and was internally injured.

Mr. Mabey received a fractured shoulder, and his leg was badly burned by a stove falling on him. He also was internally injured, and may die. Mrs. Lisa Sims received a bad but not fatal cut on the head. Mabey and her two other children escaped with slight injuries.

It took some time to get the victims from the debris. Every physician in town was called, and they were assisted by their children, relieving the sufferers as much as possible.

Jonesville reports that the storm wrought much damage there, and that a party of the sufferers are being cared for at the Soldiers' Home. Pacolet also reports one killed and several injured. The property damage in Union is \$60,000.

PHILIPPINES AND CUBA.

These and the Canal to Have Much of Senate's Time.

WASHINGTON, May 25.—From present indications the Senate will devote attention to the Philippine bill, and consideration of the Philippine bill. The prediction is freely made that a vote will not be reached before the middle of the following week. There are still a number of amendments to the bill, and some other Senators have not yet indicated whether they will speak or not. Senator Burrows will be heard tomorrow, in advocacy of the bill, and among others who are expected to speak during the week are Senators Patterson, Pettus, Bailey and Bacon, in opposition to the bill, and Senator Spooner in its support. It is not expected that there will be an effort to secure two or three days' time for consideration of amendments, allowing speeches not exceeding 10 or 15 minutes on each of them.

It is not expected that there will be any session Friday, Memorial day. There may be an effort to keep the Senate in session, but this effort will be antagonistic.

The continued deferment of the time for taking a vote on the Philippine measure has caused considerable bitterness in the preparation of the discussion of the Nicaragua Canal bill and the Cuban reciprocity bill, which will be taken up next in succession or jointly. The best-sugar country in the world is the Philippines, and the Nicaragua bill, but this prediction is not in accord with the views of the advocates of the Nicaragua bill or its opponents.

IN HOUSE OF REPRESENTATIVES.

WASHINGTON, May 25.—Under the special order adopted last week, the bill to regulate immigration will have the right of way over all measures except appropriation bills, revenue bills and conference reports in the House. Debate on this bill probably will be resumed Tuesday, Monday being set aside for the consideration of the committee on the District of Columbia, but should it appear that the immigration bill will be taken up.

SAME OLD FUSION—NOTHING NEW.

Every two years there are held in the city and county Republican primaries. In the Democratic party, the fusion of the two parties is a constant feature. Let us put the brand of our disapproval on this course and settle it once for all. If we stand by and let this scheme succeed, it will be a disgrace to the name of a Democratic state. The primaries held April 15 were the only fair primaries ever held in the state. Two years from now, if the same scheme is adopted, there will be a fusion of the party then as now, and if the administration of affairs by the party during the coming two years does not please the voters and the public, next time the other faction will carry the primaries, and this is the balance wheel, the safeguard in the system.

The trust is now on against the prevailing high prices.

LOUBET IN COPENHAGEN.

FRENCH PRESIDENT VISITS KING OF THE DANES.

Rulers Exchange Cordial Greetings—People Show Attention to the National Visitors.

COPENHAGEN, May 25.—President Loubet, who left Cronstadt May 22 for France on the French cruiser Montcalm, landed here today, after a favorable and rapid voyage through the Baltic. As the Montcalm drew too much water to allow her to approach Copenhagen, President Loubet was transferred to the torpedo-boat destroyer Cassini, which accompanied the Montcalm. The Cassini was the recipient of thunderous salutes from the forts upon her arrival in the roostered harbor.

King Christian, the Danish Crown Prince and other members of the royal family embarked on a launch and were taken to the Cassini, where the King was greeted by the President of France, King Christian, in the form of the Commander-in-Chief of the Danish Army. The King and the President then came ashore in the royal launch, and were driven, amid cheers of the people, to the Amlebaerg Castle, where luncheon was served to them.

OUR TRADE WITH FRANCE.

INCREASE IN USE OF AMERICAN FARM IMPLEMENTS.

FRENCHMEN, HOWEVER, DO NOT HANDLE MACHINES WELL—MARRIAGES EVEN IMPORTA PACIFIC COAST FRUITS.

WASHINGTON, May 25.—In a report made public by Frederick Emory, Chief of the Bureau of Foreign Commerce, regarding trade relations with France, it is stated that nearly all the Consular officers in that country speak of the gratifying increase in the importation of agricultural machinery from the United States. Along the Loire River, our farm machines are in use everywhere, and agricultural implements are found in every county.

The importation of nearly all farm implements, Commercial Agents, Griffe, at Lyons, as to a growing trade. Other manufacturers, nevertheless, would meet with even greater success if they made an attempt to study the conditions of the French trade, or to adapt their machines to French requirements.

Consul Touze, of Bordeaux, notes that although there is in that region a steady enlargement in the number of implements

LOST HAIR

It's risky, this losing of the hair. You may not get it back again.

When the hair first begins to fall out use Ayer's Hair Vigor.

It will stop the falling and will make new hair come in. And it always restores color to gray hair.

"My hair came out badly and was fast turning gray. I tried Ayer's Hair Vigor. It stopped my hair from coming out and completely restored the color."

INVOKED LYNCH LAW.

Adapted for a line of railway.

Being that the value of the coal was small without such a railway, he wrote President Van Horn.

President Van Horn, of the Canadian Pacific Railway, calling his attention to the coal discovery, seems strange to day to have to report that the reply he received was that the Canadian Pacific had no interest in that part of the country. This began those weary days when Colonel Baker's was the voice of one speaking in the wilderness.

He preached the richness of the Crown's Nest and the need of a railway to transport the coal to the market. He worked also at exploring the route of the proposed line from the pass to Kootenay Lake, and found no difficulties to speak of. Then he tried the Canadian Pacific Railway, which was not then in existence. He was then given to give in to him. The railway man sent an expert, Mr. Reid, of Montreal, to make a rough survey of the route, which was not then in existence. He was then given to give in to him.
