Yamhill County Heartily Favors 1905 Exposition.

J. M. LONG AT MINNIVILLE

Mayor and Other Prominent Citizens Become Active Workers—Meeting Largely Attended and Very Enthusiastic.

MINNIVILLE, Or., May 29.—The Lewis and Clark Centennial rally in this city tonight was a decided success. The meeting was addressed by J. M. Long, of Portland, who explained the purpose of the fair and the work that is being done in Portland and throughout the state. He said the City of Portland has raised nearly \$200,000 and the limit had been raised to \$500,000. "The fair has ceased to be local," said Mr. Long. "The support at all the state is solicited, and will be secured. An effort will be made to double the population of Oregon before 1905, and now is the time for all sections of the state to make a strong pull all together."

Mr. Long canvassed Minnerville today and achieved a signal success in securing the support of the city's leading citizens. Among those who are most active in the work here are Mayor Wortman, J. J. Spencer, H. C. Burns, E. C. Apperson, Walter Link, Morgan Baker and McCre. It is assured that the City of Minnerville and Yamhill County will give the 1905 fair hearty support. The meeting was in the large carnival tent on the street, and was largely attended and very enthusiastic.

O. N. G. Flag Dedication.

The Army of Company A, Third Regiment Oregon National Guard, was crowded with invited guests last night to witness the flag dedications and exhibition drill. The Army was handsomely decorated under the supervision of Sergeant Miller. The company gave an exhibition drill on the floor of the Army, and the evolutions of the men met with enthusiastic applause from the audience, following the dramatic addresses made by State Senator Brownell, Dr. W. E. Carril and Rev. Father Hillebrand. Three hearty cheers for the company were given and the flag was lowered to the strains of "The Star Spangled Banner." The floor was then cleared and dancing was indulged in until a late hour.

On the wall of the Army was a battered and torn flag, the property of the object of much curiosity. It is the property of Private H. B. Watson, and was presented to him by his uncle, Captain Lehman, who, when the Civil War broke out, owned a sailing vessel named the Bella. Captain Lehman manned the vessel at his own expense and used her as a blockade-runner in the Union cause all through the war. She had many narrow escapes from capture at the hands of Confederate cruisers. This flag was carried on the Anna Belle during the entire war and its condition shows that it was the target of many rebel shells.

DEN MOINE, Ia., May 29.—In the Ballet case today Judge Munger ruled that it is not material whether Letson Ballet spent the proceeds from the White Swan gold mine stock sales to establish and maintain variety theaters, squandered it in a variety of other ways, or gave it in large measure as an endowment for churches. "Whether the money went for moral or immoral purposes does not enter into this case," announced the court.

Significance to the Country of the Oregon Election.

Tacoma Ledger.

The people of the country generally, and of the Northwest States in particular, will await with interest the result of the election in Oregon. The fact that it occurs on June 2 makes it seem of greater importance relatively than the elections held in November, since the sentiment of the state, as reflected in the election, may be interpreted as the sentiment of the Northwest, and in a measure of the whole country. In this respect a responsibility rests with the Republicans of Oregon. They should be determined to win with flying colors. To win by a small vote would be almost equivalent to moral defeat, since they have had through many campaigns a safe majority. If Oregon's example is to be worth anything, the majority should be larger this year than ever before. The issues at stake are not local. The Administration is anxiously waiting for assurance from the Northwest States that its policy in the Philippines is approved. Next to Washington and California, Oregon will receive more direct benefit than any other state from the expansion of Oriental trade. If her voice is weak in favor of what is obviously to her own interests, other states less directly concerned might be excused for indifference.

Under ordinary conditions there would be no doubt but that these four offices were the only ones to be filled this year, but owing to the fact that Governor McBride was elected Lieutenant-Governor in 1900, and succeeded to the Governorship by reason of the death of Governor Rogers, it is contended by some members of the bar that the office of Lieutenant-Governor should only serve as Governor until the next general election, which is this Fall.

The contention that three Judges of the Supreme Court should be elected instead of one is believed to have more support than the one raised in regard to the Governor's office. The last Legislature passed a law increasing the number of Justices of the Supreme Court from one to three, with the provision that the extra judge should be appointed by the Governor and serve only until October of this year, when the number should again be five. It is contended that the regularity-elected Judge, expires this year, and it is contended that not only his successor, but the successors of Judges Hadley and White, the appointed members of the court, should be elected also.

Concession of Brownell's Success.

OREGON CITY, May 29.—This morning Oregonian it was stated that George W. Grace, Citizens candidate for State Senator, was betting that Senator Brownell, his opponent, would have less than 200 plurality in the battle now being done by the Fairclough brothers, who are brothers-in-law of Mr. Grace.
