AMUSEMENTS TONIGHT.

THE BAKER THEATRE (corner Third and Yamhill streets)—Ralph Stuart and Company in "The Silver King."

BUILDING OPERATIONS RESUMED.—Building operations were going ahead on a number of places yesterday, but generally under a slow bell. A full force of bricklayers was at work on the Lawrence Company's building, at First and Oak streets, and the walls of the first story are about up. Just whether the carpenters will put in the floor beams and joists for the second story, so that the bricklayers can continue their work, is not known. A gang of stonecutters were at work at Fourth and Alder, cutting stone for bases for H. Wehnard's building, under a temporary shed. They say the strike is off, as far as they are concerned. A few men were at work on the concrete foundation walls for the Falling estate building, at Third and Morrison, during the forenoon, and the east and south walls are about finished. Nothing was being done on the concrete foundations for the Richardson building, at Third and Taylor. Contractor Seed employed a cement-worker to put on one of the walls, and the laborers refused to supply him with material, because he had no union card. He explained that the bricklayers had no union here, but he did not satisfy the laborers, so Mr. Seed told them to quit, and work on the building has been stopped until such time as the men are ready to go to work. Many imagine that the strikers and employers will soon come to terms, now that the election is over.

ORDER IN CUSTOM-HOUSE.—Things are beginning to assume an orderly appearance in the various departments at the Custom-house. Nearly all the occupants have taken possession of their apartments, and have the furniture arranged in the various rooms. One end of the building and the Revenue engine over the other. The United States engineers will not move in until their quarters have been arranged to suit. The Weather Bureau intends to move to the old Custom-house building next Saturday night. It was feared that if it attempted to move in the night, the weather would not permit, as it does not permit anything of these days. Mr. Von Norte, Government Building Inspector, from the Supervising Architect's office, who has been here for several days, looking through the building, left for Salem last night. He will inspect the new Postoffice there, and then proceed to San Francisco. The Government Inspector of Furniture is expected here any day, now to look over the furniture, and by that time about everything in the building will have been inspected.

TO DISCUSS CLOSING OF BRIDGE DRAW.—All persons interested in the securing of regulations for the closing of drawbridges within the city limits, has been proposed, from 5:30 to 6:30 A. M., from 12 M. to 1 P. M., and from 5:30 to 6:30 P. M. will do well to attend the public meeting called by Captain Lewis at the Custom-house office and the bonded warehouse, in the new Custom-house, a standing joke with all who know the city. The Appraiser's employes, however, see no joke in this connection. Goods have to be hoisted up two feet from trucks to a platform, and then hoisted over four feet to the level of the floor, and the hoisting place on a crane overhead. It is understood that the Building Inspector will recommend that a car be furnished which can be dropped to the streets about the same time. Eyewitnesses say that both were driving faster than was proper under such circumstances. Whiteside's horses were just crossing the tracks when the car ran into them, fairly lifting them round and throwing them to one side, piled in a heap. Both of the horses were so badly injured that they were shot during the afternoon. Whiteside escaped serious injury.

DISAPPOINTED THIEF ESCAPED.—A disappointed thief threw a rock at one of the windows of H. Y. Zuff's jewelry store, 45 North Fourth street, about 10 o'clock last night, and made a bad case of some of the jewelry, but missed. A crowd made a rush toward him at the noise made by the glass being broken, and rather than run the risk of being held until the police came, the robber ran across the street and disappeared into the depths of a near-by lodging-house. None of the jewelry was missing.

MEMORIAL ASSOCIATION ADJOURNS.—The Portland Memorial Association held its last meeting of the summer season in the auditorium of the Y. M. C. A. yesterday morning. In place of the usual topics, addresses were made by the Rev. Mr. Armstrong, pastor of the First Baptist, and by Mr. W. A. Storey, pastor of the First Presbyterian. Both speakers gave interesting reports of the progress of Christianity in the distant country where they had spent several years. The association tendered a vote of thanks to General Secretary Stone, of the Y. M. C. A., for the use of the rooms, and then adjourned until the first Monday in September.

BASEBALL, BASEBALL TODAY, 2:30.
BASEBALL, BASEBALL TODAY, 2:30.
PROFESSIONAL GROUND, 2:15 & 7:45.
SPUDS FOR OLD CITY DREDGE.—The spuds for the old city dredge were completed yesterday, and all who saw them pronounced them as handsome pair of sticks as could be found anywhere. They are 80 feet in length and 2 1/2 inches in diameter, and almost entirely free from sap-wood. The iron posts fitted in the spuds are about 6 feet in length and weigh 900 pounds each.

G. A. R.—The Memorial day committee will meet on Sunday, June 8, at 2 P. M., in Room 715, Oregonian building, to pass bills for expenses of Memorial day. Persons having bills against the committee should present them before that time to H. Butcher, 27 Alder street.

BERRY-PICKERS WANTED.—Three hundred strawberry-pickers wanted at Hood River at once; pay cent and a half per pound. Good pickers make \$2.50 to \$4 per day. Apply White Collar Line, foot Alder street. Steamer leaves daily at 7 A. M. For these Dalles and all Upper Columbia River points, take steamer from foot of Alder street, daily, except Sunday, at 7 A. M. Dalles electric sign. Both phone Main 21.

WHERE THE CAR WENT.—A front-street commission man and the freight agent of a railroad company were endeavoring yesterday to locate the car which was lost, caused by a carload of potatoes having been 10 days behind time in reaching its destination, owing, as was alleged, to some mistake in sending the car over a route it had no business to travel. The correspondence in regard to the matter already amounts to volumes, each of the parties being desirous of fixing the responsibility on the other. The potatoes arrived so late at their destination that the market had dropped and they were rejected, and there is a shortage on the receipts to be made up. While discussing the matter, it was noted that a carload of Salmon shipped East by a front-street man was utterly lost. It simply vanished and could not be found, and the company which had undertaken to transport it has to pay for it. Four months after the car was found several hundred feet from the bank of a deep canyon in Colorado. The car had jumped the track and was lying without a wheel on one of the rails, showing it. The agent gave an instance where a carload of groceries had broken away from a train and disappeared in the same manner, and north of the Snake River valley, when a hunter discovered it at the bottom of a canyon.

SHADE TREES ON SEVENTH STREET CUT DOWN.—The old, overgrown and often discarded shade trees on the line between several cords of maple wood made from the city are gradually, but steadily, disappearing. On Seventh street, between Stark and Oak, four large elms and a fine locust, about two feet in diameter, were cut down in front of E. H. Wemmer's property, and five large maples on the same side of the street are to follow. It is understood that the trees on the same block on the west side of the street are to go also, as the work of widening and straightening Seventh street, at Ankeny, and improving the whole street, is to be commenced in a month or so. It is desirable that these trees be removed and the stumps dug out before the street is improved and new sidewalks laid. There are only two or three more trees along Seventh street, and they will probably be removed before the street is improved. In the street alongside the brick Italian church being built on Montgomery street is a pile of several cords of maple wood made from a lot of large shade trees just cut down.

PLENTY OF SHAD.—The water in the Lower Columbia has reached such a stage as practically to put a stop to salmon fishing, but more shad are being caught than ever. Over 100 tons of these fine fish came up from Pillar Rock yesterday, and there were more large ones than usual among them. The salmon are taking advantage of the high water to hasten up the river, in hope of reaching their spawning beds in the headwaters of various streams. Those which reach Oregon City do not get any further, and a ton of salmon arrived here from that vicinity yesterday morning, as well as a lot of blueback salmon used to be looked upon with contempt, but many farmers and cold-storage men secure all the big chinook salmon, people have taken to eating bluebacks, and are astonished to find that, fresh, they are a much more delicious food than the big chinook, and the sale of them has increased amazingly. They are equal to the best of trout, which is a good thing when trout are not to be had.

AWKWARD APPLICANTS.—The arrangements for receiving, delivering and handling goods at the Customs Appraiser's office and the bonded warehouse, in the new Custom-house, are a standing joke with all who know the city. The Appraiser's employes, however, see no joke in this connection. Goods have to be hoisted up two feet from trucks to a platform, and then hoisted over four feet to the level of the floor, and the hoisting place on a crane overhead. It is understood that the Building Inspector will recommend that a car be furnished which can be dropped to the streets about the same time. Eyewitnesses say that both were driving faster than was proper under such circumstances. Whiteside's horses were just crossing the tracks when the car ran into them, fairly lifting them round and throwing them to one side, piled in a heap. Both of the horses were so badly injured that they were shot during the afternoon. Whiteside escaped serious injury.

DISAPPOINTED THIEF ESCAPED.—A disappointed thief threw a rock at one of the windows of H. Y. Zuff's jewelry store, 45 North Fourth street, about 10 o'clock last night, and made a bad case of some of the jewelry, but missed. A crowd made a rush toward him at the noise made by the glass being broken, and rather than run the risk of being held until the police came, the robber ran across the street and disappeared into the depths of a near-by lodging-house. None of the jewelry was missing.

MEMORIAL ASSOCIATION ADJOURNS.—The Portland Memorial Association held its last meeting of the summer season in the auditorium of the Y. M. C. A. yesterday morning. In place of the usual topics, addresses were made by the Rev. Mr. Armstrong, pastor of the First Baptist, and by Mr. W. A. Storey, pastor of the First Presbyterian. Both speakers gave interesting reports of the progress of Christianity in the distant country where they had spent several years. The association tendered a vote of thanks to General Secretary Stone, of the Y. M. C. A., for the use of the rooms, and then adjourned until the first Monday in September.

WHERE THE CAR WENT.—A front-street commission man and the freight agent of a railroad company were endeavoring yesterday to locate the car which was lost, caused by a carload of potatoes having been 10 days behind time in reaching its destination, owing, as was alleged, to some mistake in sending the car over a route it had no business to travel. The correspondence in regard to the matter already amounts to volumes, each of the parties being desirous of fixing the responsibility on the other. The potatoes arrived so late at their destination that the market had dropped and they were rejected, and there is a shortage on the receipts to be made up. While discussing the matter, it was noted that a carload of Salmon shipped East by a front-street man was utterly lost. It simply vanished and could not be found, and the company which had undertaken to transport it has to pay for it. Four months after the car was found several hundred feet from the bank of a deep canyon in Colorado. The car had jumped the track and was lying without a wheel on one of the rails, showing it. The agent gave an instance where a carload of groceries had broken away from a train and disappeared in the same manner, and north of the Snake River valley, when a hunter discovered it at the bottom of a canyon.

FREE LIBRARY WELL PATRONIZED.—The free library is being liberally patronized by an orderly, well-behaved class. On Saturday last 100 books were taken out, the largest number ever issued in one day. The highest number ever before issued in one day was 82. When the library was a private one, the largest number of books issued in one day was 30. There is usually a number of people at the library, studying in different branches, and the number of young men who take out works on various sciences, and particularly books on electricity, is constantly increasing. Additions to the library are not so numerous as they used to be, but the patrons are looking forward to the day when the public will be taxed sufficiently to procure all the books needed.

T. B. WILCOX MAKES INSPECTION TOUR.—T. B. Wilcox has returned from his tour of inspection of his various planning mills in Eastern Oregon and Washington. During the trip he traveled over 1000 miles, passing through the Big Bend country, the Palouse country, and the region between the Snake River and Walla Walla. He says that in all these sections the crop conditions are fully equal to those of last year. South of the Snake River they are better, and north of the Snake in the Big Bend country, the acreage has been considerably increased. He saw by daylight the principal wheat-growing regions of the Northwest, and says the indications are favorable for a splendid crop.

SPECIAL ROUND TRIP RATE TO CASCADE LOCKS for \$1.50. Steamer leaves daily from foot of Alder street at 7 A. M. Steamboat ride both ways without transferring. From Rainier—Beautiful suburban resort; acres; cow, chickens, etc.; reasonable terms. Call 219 Abingdon Bldg., or Tel. Main 271.

ASTORIA BOAT LEAVES daily 7 A. M., except Sunday, foot Alder street for Astoria and all Lower Columbia River points. JOHN BURROUGHS SOCIETY.—A meeting of the John Burroughs Society will be held this evening in the City Hall.

REGULATOR LINE STEAMERS for The Dalles at 7 A. M. from Oak-street dock. See time card. COLUMBIA and Hartford bicycles. 125 First street, near Wash. F. P. Keenan.

WEATHER FOR MAY.

Monthly Table issued by the Weather Bureau.

Table with columns: DATE, Temperature (Maximum, Minimum, Mean), Precipitation in Inches and Tenths, Character of Sky. Rows for months May through April.

TO PORTLAND IN 1905.

Life Insurance Agents Will Hold Reunion Here.

NEW YORK, June 2.—C. W. Sherman, of Portland, called at the Eastern office of the Oregonian today. He is in the East to attend the 5th anniversary of the Pennsylvania Mutual Life Insurance Company's general agents. He has arranged for the agents' association to meet at the Lewis and Clark celebration at Portland. All of the general agents of the United States will be there.

No Longer a Delegation.

NEW YORK, June 2.—J. Guillemin, Michole and the Grave and Robert de Billy, of the Rochambeau mission, reached the city from Boston today. Mr. Guillemin said: "The Rochambeau delegation no longer exists. With the sailing of the Gaulois it ceased to be an official delegation. We are merely a party of private gentlemen visiting our personal friends in America. If St. Louis gives us the freedom of the city and welcomes us officially, we shall be grateful. But we are no longer a delegation. After we have visited St. Louis, Chicago, and perhaps Cincinnati, I may return by way of Montreal. We shall meet in New York and sail on the 12th."

Chicago Suicides in May.

CHICAGO, June 2.—Fifty persons committed suicide in Chicago during the month of May. This is the greatest number ever recorded, according to the Health Department. During the same period there were 24 deaths from Bright's disease, which is also unprecedented. The excessive and steadily increasing mortality is a matter of serious concern.

FOOD AND GIRLS.

Study Don't Hurt if They Are Fed Right.

Some time ago one of the ladies' papers published a long list of extracts from letters from mothers, speaking of broken-down schoolgirls. True, overwork and too much confinement is largely responsible, but on the other hand, if the girl is fed on the right kind of food to rebuild the daily waste she can stand more work and the matter of food is the real foundation of the subject.

A 17-year-old girl writes from Caro, Mich., about how a change in food helped her. "I am only a schoolgirl, I feel old, but I am old enough to appreciate what the wonderful brain food, Grape-Nuts, has done for me. About two years ago my health became very poor and I was unable to study, and finally obliged to leave school.

"I was put on Grape-Nuts Breakfast Food. In about three months I recovered my strength, my mind became much more clear and acute and I was able to resume school work.

"I continued to use Grape-Nuts until I discovered that I was getting too fat. I gained so much in weight that I had to discontinue it. It is the best food I ever heard of for building up a broken-down system.

"I have an aunt who went to India as a missionary, and while there she was ill four times with Indian fever, and became a mere skeleton. When she returned here her muscles were as flabby as could be. She was put on Grape-Nuts Breakfast Food and quickly recovered. Her muscles grew hard and firm and she entirely regained her health. Her weight increased in weight and never knows a sick day now. She is still eating Grape-Nuts and says she would not do without the food for anything.

"I can never say enough in praise of your wonderful food." Name given by Postum Company, Battle Creek, Mich. Ask the cook to show you the recipe book in the package of Grape-Nuts.

AT THE FREDERICKSBURG

Portland's popular music hall presents among its various attractions this week a laughable burlesque extravaganza (on the Mikado), written by Matt Travers, entitled "McNIE in Japan," with a fine cast. The emperor of refined Irish comedy, Gus Saville, in his Irish songs and dances, is a great favorite; the Vernon sisters, singing and dancing soubrettes, are very popular, and are deservedly so. Claude Ward in rag-time songs, Miss Nadia Webber, the petite artist, and Mae Treacott, and each good in their respective lines, and draw forth rounds of applause nightly. Travers and Colburn appear in a pleasing sketch, "Casey, the Coachman."

T. P. A. CHINESE CURIOS

Visitors are cordially invited to inspect our fine line of Oriental novelties, silk embroideries, cloisonne bronzes, decorated porcelains, etc. Andrew Kan & Co., corner Fourth and Morrison.

WHERE TO DINE.

We make a specialty of fine Summer lunches. Portland Restaurant, 266 Wash. Street. Beautiful suburban resort; acres; cow, chickens, etc.; reasonable terms. Call 219 Abingdon Bldg., or Tel. Main 271.

ASTORIA BOAT LEAVES daily 7 A. M., except Sunday, foot Alder street for Astoria and all Lower Columbia River points. JOHN BURROUGHS SOCIETY.—A meeting of the John Burroughs Society will be held this evening in the City Hall.
