SETTLE STATE LOSS

Insurance Companies Effect a Compromise.

FIRE WAS AT REFORM SCHOOL.

Oregon Will Receive $9000, or One-Half of Amount of Policies—Nine Suits It Brought to Recover Are Dismissed.

> The Industrial building at the State Reform School at Salem, which was destroyed by fire last November, will soon be replaced with $9032 50 insurance money secured by a compromise with the companies carrying the risk. Technically, there was a question as to the liability of the companies. The state brought suits against them. Terms of compromise were prepared, and upon deliberation the state board concluded to accept them.

SALEM, June 11.—The suits recently brought by the state against nine insurance companies to recover damages on policies covering the burned Reform School building, were compromised today. The cases were settled on a basis of 50 cents on the dollar. Having brought action for $18,065, the state will receive $9032 50.

The compromise was negotiated by the insurance companies through T. C. Van Ness, of the legal firm of Van Ness & Redman, counsel for the Board of Fire Underwriters, of San Francisco. Mr. Van Ness came to Salem this morning and held a consultation with Attorney-General D. R. N. Blackburn, District Attorney J. N. Hart and G. G. Bingham, who have been representing the state, with the result heretofore stated.

The state officials and their attorneys are greatly pleased over the settlement, which they assert will practically reimburse the state for the damages resulting from the fire at the Reform School building last November. The officials report that the representatives of the insurance companies at all times displayed a spirit of fairness and were not disposed to quibble over any technical point, but on the contrary were anxious to avoid the expensive litigation that a trial of the case in the courts would mean.

The terms of settlement were also satisfactory to the state board, since there existed grounds for the technical evasion by the insurance companies of all liability, since the policies did not expressly extend and apply to the industrial building, which was destroyed by fire, and for which action was begun to recover damages. The technical point involved was whether a detached building standing 16 feet clear of another structure could be legally considered "communicating or adjoining," when the only connection between the main Reform School building and the industrial building was the steam and water pipes. The original policies were written in 1890, before the industrial building was erected, and the instruments provided protection from fire for the main building, which was described, and all buildings "adjoining and communicating" therewith. Since that date the policies have been annually renewed and have never been modified so as to specifically apply to the industrial building.

The $9000 insurance money will be available within 20 days, and the Reform School Board expects to place the industrial building in immediate repair and equip the various departments in a first-class manner.

SAWMILL TO START UP AGAIN.

Plant Near Oregon City Completely Refitted With New Machinery.

OREGON CITY, June 11.—The Oregon City Lumber Company has just completed a 50-foot addition to the Moehnke sawmill, on the west side of the Willamette, between Oregon City and Willamette Falls. Machinery has been ordered, and will be here in about 20 days, and after its installation active operations will be commenced without delay. The Oregon City Lumber Company is of recent formation. Carl A. Patzlaff, a lumber man of Prairie du Chien, Wis., arrived here several weeks ago, and purchased of Charles Moehnke an interest in the old Moehnke mill, which has practically done no work for several years. The mill will be completely refitted with new machinery. It was Mr. Patzlaff's intention to turn out shingle and laths this year, but no logs can be obtained for that purpose. The local trade will be supplied and shipments will be made to southern points.

Trout for Washington.

Special Messenger H. Leighton Kelly, of the United States Fish Commission, left last night with 25,000 lake trout, which will be planted in Lake Sequalitchew, Pierce County, Wash. The shipment is consigned to Judge W. H. Snell, of Tacoma, and the trout have been propagated at the Clackamas hatchery. Twenty thousand Eastern brook trout will be shipped from the Clackamas station early next week, and will be planted in Washington streams.

MINE WILL START UP TODAY.

Eureka Is Now Equipped With a First-Class Plant.

GRANT'S PASS, June 11.—The Eureka mine, in the Soldier Creek district, which was recently purchased by the Oregon & California Gold Fields Company, will begin business tomorrow. Since purchasing the Eureka this company has equipped it with a first-class plant. A 10-stamp mill, concentrators, compressors, drills, hoists and an electric lighting plant have been installed. The Eureka will be listed among the leading quartz mines of Southern Oregon, and is a valuable and important addition to Josephine County's bullion-producers.

The Oregon & California Gold Fields Company has given the Eureka a thorough development. The mine has been opened up to a depth of 400 feet and a vast body of high-grade ore uncovered. The ledge lies in a true fissure and has a width of eight feet, carrying average values of $18 per ton.

New Machinery for Victor Junior.

C. W. Thompson, manager of the Victor Junior mine, of Grave Creek district, has returned from San Francisco, where he has been purchasing new machinery for their property. Twenty stamps, four concentrators, a number of diamond drills, a cyanide plant and larger and more powerful engines and boilers will be installed at the Victor Junior, making it the largest and best-producing mine in the state west of the Cascades.

COLEMAN IS INSTALLED

NEW PRESIDENT OF WILLAMETTE UNIVERSITY IN CHARGE.

Bishop Cranston Makes the Principal Address—Alumni Holds Reunion—Trustees in Session.

SALEM, Or., June 11.—Rev. J. H. Coleman received a hearty welcome this morning upon the occasion of his formal installation as president of Willamette University. The inaugural ceremonies were conducted in the university chapel. The principal address was delivered by Bishop Earl Cranston, of Portland. The bishop likened the exercises attending the induction of the new president unto a happy courtship, and supplemented the statement by saying the stern realities of "married life" would be encountered upon taking up the presidency. With the inauguration of President Coleman, the bishop said, a new responsibility devolved upon the people of Salem as to the future of the university, whether it should live and increase in usefulness or cease to exist. At the conclusion of his remarks Bishop Cranston formally installed Rev. Mr. Coleman as president of the university.

General W. H. Odell, on behalf of the Board of Trustees, extended to President Coleman a warm welcome, with assurances of hearty co-operation from that body. Professor W. C. Hawley extended a welcome on behalf of the faculty. John W. Reynolds, an alumnus of '95, was spokesman from the alumni association and student body, and gave assurance of a cordial welcome from the societies for which he was speaking. He said the nearness of the relationship between the students and members of the faculty that prevailed at Willamette did not exist in larger schools, and for that reason, if for none other, an alumnus of Willamette University always had a keen interest in the welfare of the school and a personal interest in those who might be responsible for the successful administration.

President Coleman responded and expressed his appreciation for the cordiality of the welcome he had received and for the very appropriate addresses that not always attend ceremonies of induction to office. The speaker said he had every reason to believe that Providence brought him to Oregon. He hoped he might make the success all predicted for him, and with the united and cordial support he was receiving at the hands of Salem people he predicted a successful future for the university.

The programme of exercises included some musical numbers. The chapel was very prettily decorated for the exercises.

DIPLOMAS FOR SIX STUDENTS.

Commencement Exercises Held at McMinnville College.

M'MINNVILLE, Or., June 11.—The commencement exercises proper of McMinnville College took place in the Baptist Church at 10 o'clock A. M. today. There was a large crowd in attendance.

President H. L. Boardman presided.

George H. Adams, president of the class of 1902, was the first speaker, and delivered an excellent oration on "Chinese Immigration a Menace to Society." He closed with a strong plea for their continued exclusion.

Jamie R. McKillop chose for his subject "Civic Righteousness." It was a plea for the extermination of the liquor traffic, gambling, etc., as a source of civic corruption.

Jesse Elias Rhodes spoke on "Our Dual Ethical Standard." It was a plea for the adoption of the same standard in business as in social life.

Clarence C. Stout's subject was "Opportunity." The failure of many people to make a success in life was ascribed to a failure in taking advantage of the opportunities offered.

Miss Ethel Taylor then delivered an excellent paper on "Blessed Difficulty." It was a careful resume of the lives of men whose greatest works were brought about by some seeming misfortune, or difficulty, and was well delivered. The oration impressed the idea that every cloud has a silver lining—that there is a purpose in everything.

W. Lair Thompson spoke on "E Pluribus Unum." It was an argument for the education and uniting the people against trust combinations, and involved the restriction of immigration in accordance with a merit system.

Musical numbers were rendered by Miss Bessie Briedwell, Miss Helen Calbreath, of Salem, and the Hobbs-Putty quartet.

President H. L. Boardman presented diplomas as follows: George H. Adams, Bachelor of Science; Jamie R. McKillop, Bachelor of Arts; Jesse E. Rhodes, Bachelor of Arts; Clarence C. Stout, Bachelor of Science; Ethel Taylor, Bachelor of Science; W. Lair Thompson, Bachelor of Arts.

Miss Maude Hobbs, late of the Chicago Conservatory of Music, then rendered a piano solo, and Rev. L. W. Riley pronounced the benediction.

Professor A. M. Brumback has been granted a leave of absence to pursue post-graduate work, and Professor W. F. Fargo was elected to supply his place in the scientific department.

Professor R. E. Storey, of the department of English, has also been granted a leave of absence for post-graduate work, and Mrs. Clara M. Brumback elected in his stead.

Professor Frank B. Rutherford, in the commercial department, and Miss Isabelle Grover, of the chair of Latin, were elected to permanent positions.

PRESIDING OFFICERS OF IMPERIAL COUNCIL OF MYSTIC SHRINERS

CHARLES L. FIELD, PAST IMPERIAL POTENTATE. PHILLIP C. SHAFFER, IMPERIAL POTENTATE.

SAN FRANCISCO, June 11.—The visiting Nobles of the Mystic Shrine devoted today chiefly to pleasure, though the Imperial Council held a secret session this morning. The only business transacted was the election of the following officers for the ensuing term: Imperial Potentate, Henry C. Aikin, of Omaha, Neb.; Imperial Deputy Potentate, George H. Greene, Dallas, Tex.; Imperial Chief Rabban, Henry A. Collins, of Toronto, Canada; Imperial High Priest and Prophet, Alva P. Clayton, of St. Joseph, Mo.; Imperial Oriental Guide, Frank Roundy, of Chicago; Imperial Recorder, Benjamin W. Rowell, of Lynn, Mass.; Imperial Treasurer, William S. Brown, of Pittsburg. The only contest was for the place of Imperial Oriental Guide, Mr. Roundy receiving a plurality of 28 on the second ballot. He is a Past Illustrious Potentate of Medina Temple, of Chicago, a thirty-third-degree Mason, and commander of the famous St. Bernard Drill Corps of the Knights Templar. After the installation of the new officers the Imperial Council adjourned, to meet in Saratoga, N. Y., next year.

At 9 o'clock a large number of Shriners crossed the bay to Berkeley, where they inspected the buildings and grounds of the University of California. Many more made the ascent of Mount Tamalpais, reaching its summit by means of the little railroad which winds about the peak in corkscrew fashion from Mill Valley. From this point there is a splendid view of the Pacific Ocean, San Francisco Bay, this city and its environs. The event of the afternoon was a reception by Al Malaikah Temple in the Maple Room of the Palace Hotel, the attendance being very large. Tonight there was a promenade concert at the Mechanics' Pavilion.

PRESS UNDERWOOD HARD

WASHINGTON OFFICERS EXPECT TO GET HIM AT ONCE.

Fugitive May Come In and Surrender—Almost Falls Into a Trap Set for Him.

SOUTH BEND, Wash., June 11.—Sheriffs Roney and Cudihee are now confident that in another day or two Underwood, accused of murdering his 5-weeks-old babe, will be captured, or that he will give himself up. They were on Underwood's trail at daybreak this morning, and saw the smoke rising from his campfire, but the brush is so thick in that country that by the time they had reached the fire Underwood had gone, and no trace of him could be found. About the fire were some freshly emptied cans of corned beef and sardines of the same brands as those which he purchased at Fisher's store at Tokeland. This time the fire was found back of the Indian settlement known as Georgetown, and but a short distance from the fire of the previous night. The shoe tracks show that his cloth shoes are about worn out, as the heel is loose and nearly torn off one shoe. An old boat was found overturned on the beach of the bay near Tokeland, with the remains of a fire beneath, where it is supposed he spent Monday night. His provisions cannot last much longer, and it is plain now that he dares not go back into the woods, which is such a wilderness that even a thoroughbred woodsman cannot move about without a compass. The provisions which he purchased at Fisher's store consisted of two cans of corned beef, two cans of dried beef, six cans of sardines, five pounds of crackers, four pounds of cookies, five packages of smoking tobacco and a box of matches. He has been living on this since Thursday night of last week.

UNDERWOOD NEARLY TRAPPED.

Food Placed at Watering Place—He Got It, but Guard Was Away.

ABERDEEN, Wash., June 11.—The United States mailcarrier on the route between Westport and Ocosta stated this morning when he reached the latter place that one of the Deputy Sheriffs, who had been searching for Underwood down in the Cedar River country, a few miles above Toke Point, came into Westport last night and reported that Underwood had narrowly escaped falling into a trap that had been set for him yesterday afternoon. The story, as it came to Westport, was that the searching party was certain that the fugitive was still in that part of the country, and an attempt was made to lure him to one of the water holes by placing food and a drinking cup near the spot. The watchers kept guard over the place until nearly sundown, when they left for Tokeland to get supper, and upon returning a few hours later found where Underwood or some unknown party had visited the spot, taken the food and cup, and gone into the brush. They were sure it could have been no one else than Underwood, and remained on watch until late in the night, when one of them came up to Westport with the news, the others going back to Tokeland to inform Sheriff Cudihee, who is still there.

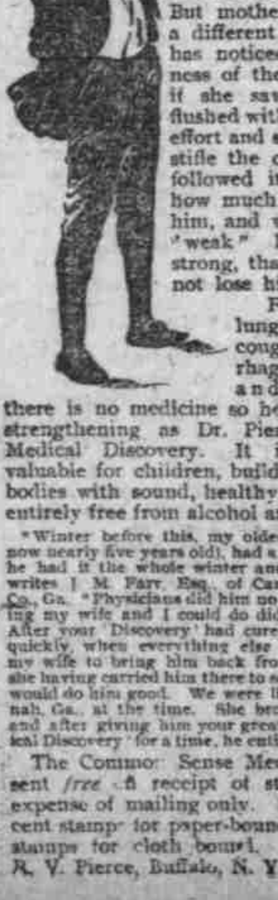
"DOES MOTHER WANT ME?"



The little fellow has blown with all his strength, and the downy tufts still cling to the dandelion stem. According to the oracle of childhood mother does not want him. But mother would tell a different story. She has noticed the weakness of the lungs, and if she saw him now, flushed with his unusual effort and struggling to stifle the cough which followed it, she'd feel how much she wanted him, and wanted those "weak" lungs made strong, that she might not lose him.

For "weak" lungs, obstinate cough, hemorrhage, weakness and emaciation there is no medicine so healing and so strengthening as Dr. Pierce's Golden Medical Discovery. It is especially valuable for children, building up weak bodies with sound, healthy flesh. It is entirely free from alcohol and narcotics.

"Winter before this, my oldest boy (who is now nearly five years old), had a terrible cough; he had it the whole winter and all summer," writes J. M. Farr, Esq., of Cameron, Screven Co., Ga. "Physicians did him no good and nothing my wife and I could do did him any good. After your 'Discovery' had cured my cough so quickly, when everything else failed, I wrote my wife to bring him back from the country, she having carried him there to see if the change would do him good. We were living in Savannah, Ga., at the time. She brought him back and after giving him your great 'Golden Medical Discovery' for a time, he entirely recovered."

J. HENRI KESSLER, M. D. Manager.

This is the oldest Private Medical Dispensary in the City of Portland, the first Medical Dispensary ever started in the city. Dr. Kessler, the old reliable specialist, has been manager of this institution for 20 years, during which time thousands of cases have been cured, and no person was ever refused treatment. The St. Louis Dispensary has thousands of dollars in money and property, and able financially to make its word good.

Since Dr. Kessler started the St. Louis Dispensary, over 20 years ago, hundreds of traveling doctors have come to Portland, advertised their sure-cure ability in the papers, got what money they could from confiding patients, then left town. Dr. Kessler is the only advertising specialist who can give references to all classes. You may ask bankers, merchants and all kinds of business men. They will tell you that Dr. Kessler is O. K. Lots of people coming from the country deposit their money with him. No other specialist on the Coast can give such reference as this old doctor.
