BIG ROSE SHOW THIS WEEK

WORK OF PREPARING THE GREAT EXHIBIT NEAR AN END

Display of Fine Roses Under Brilliant Illumination Friday Evening -Gorgeous Parade Saturday.

Multnomah Field on Friday and Saturday next will be a bower of roses. The ladies in charge of this event are straining every effort to make the rose show par excellence of the year. Oregon as the home of the rose in its greatest perfection promises to outdo in its rose show this year the annual fiests of Southern Callfornia, the land of flowers-

With the perennial brightness of its bud ding flowers California possesses an attraction which the energy and progressive spirit of that state have used to excellent advantage for exploiting the merits of what has become the greatest resort for Winter travel on the continent, California with all its attractions, however, cannot produce the full-blown Ore-gon rose. No country in the world can ciaim the special adaption to successful

rose culture that Western Oregon does.
At the height of the rose season this year, some of the prominent ladies of Portland propose to show what can be done in the way of preparing a creditable rose exhibit. This effort backed by the support of practically the entire commu-nity, has crystallized into the project of holding the great Rose Show at Multno-mah Field on Friday and Saturday of this

This exhibit, so the ladies in charge ber leave to inform the people of Portland, will not be any set arrangement of blos soms, attractive in itself as such a dis-play of roses might be made to appear. It will be more, much more than a mere display of flowers. The show will be something of a social event, given under patronage of the leading families of the city in which the owners of fine carriages will vie with each other in the attractiveness of their equipages, decked as they will be with their profuse decora-tions of the finest of Oregon roses. The arade will be a most attractive one, and it will possess many features of unique interest to the Portland public. Hand-some prizes will be awarded for the best decorations, and the parade at Multno-mah Field on Saturday afternoon next one of the great events of the

Invitations to attend the Rose Show have been extended to Governor Geer, Governor-elect Chamberlain, Mayor Rowe and Mayor-elect Williams. Governor-elect Chamberlain has already accepted the in-vitation so cordially extended him, and favorable responses are expected from the

ther gentlemen today. The Rose Show will open tomorrow. To morrow afternoon and evening will per-haps be the best time to see the roses. The Portland General Electric Company have perfected plans for a brilliant illu mination of the grounds on Friday and Saturday nights. Hundreds of jamps will be used in the electrical display, and this feature will attract a large number of vis. The display of roses under the effects of the bright illumination on Fri-day night will be particularly impressive. Mr. Edward Shields, who during the past two years has attained some distinction throughout the East from his unique and interesting outdoor exhibitions, will give an entertainment at the Rose Show on Friday evening. At that time he will be able to exhibit some of his latest moving plotures of scenes that will prove of spe-cial interest to the Portland public.

All Portland will see the great parade of gaily decked carriages and smart traps at the Rose Show on Saturday afternoon. esthetic side to this question, continued the fair speaker, that will make a spon. taneous appeal to the interest of every one who loves the beautiful. The materi-alistic side, she added by way of conclu-

appeal to all the people of the community to lend their best support to the Rose Show this week. This may be considered in the light of an initial effort towards making a creditable exhibit of Oregon roses worthy of popular support that will culminate in the Big Rose Show of Portland in 1905. The great show in 1905 promises to be one of the most effective incident to holding the promised world's fair in this city. The event at Multnomah Field this week will call for Multnomah Field this week will call for Multnomah Field this week will call for creditable exhibit of large popular inter.

The Rose Show will close on Saturday night in a blaze of glory. On that even, ing there will be a full band concert and other attractions that will make a fitting climax to an exhibit of the finest flowers that will prove a revelation to the Port-land people in the possibilities presented of making this one of the most beautiful cities of the continent.

It will be pleasant news to the enor-

mous number of persons who will be at the rose show that invitations to attend have been accepted by Governor Geer and Mayor Rowe, Governor-elect Chamberiain and Mayor-elect Williams. They will all be there on Saturday afternoon,

MRS. COLE-BETHEL TO COME Distinguished Parliamentarian at Chautaugua, July 14-19.

With the increased demand for trained service has come the realization of how meager have been the opportunities for parliamentary study under competent teachers on this Coast, though some of the large towns of California did, in 1894, en joy the benefit of a course of instruction from Mrs. Lilian Cole-Bethel, the distinguished parliamentarian and author egon has never been so privileged until now, when the Chautauqua course will embrace g series of lessons by Mrs. Bethel, who needs no introduction to students of civil government or parliamtary law. Her question book on the lat-ter subject has reached a sale of over 40,000, and "Easy Lesson," on the former has attained almost the same high-water mark, being used as a text-book in many of the states. It will be interesting, how ever, to know that in Mrs. Bethel's 10 years' work she has taught in all save

six of the United States. Many of the Eastern Chautauqua as-semblies have been favored by her instructions. Her class at Lake Chautauqua, N. Y., numbered 1500 members, and for seven consecutive years she has been

employed by one Ohio college. One of Mrs. Bethel's triumphs was her drill at the woman's congress at the Atlanta Exposition. When Mrs. Bethel comes to Chaujauqua she will have finished 129 successive days' drills and in structions in Washington and Idaho, and will only tarry in Portland long enough to fill her Chautauqua engagement. She then goes to Alaska for a few weeks' rest to return to engagements running into months in Montana and Dakota.

To be able to receive instructions from

so accomplished a parliamentarian is an opportunity that may not again come this way, and it is a study absolutely neces-sary in conducting business justly, right-eously, and with expedition and fairness

Beginning July 14, Mrs. Bethel will give instructions and drills every day during the week at the Chautauqua Assembly, Gladstone Park. A large tent has been provided for the purpose.

On the afternoon of July 16, woman's day, Mrs. Bethel will give a short talk on "Madam President and Her Constit-

which makes a slight difference in the ac-curacy of the comparison under sub-stantially similar conditions as to the stantially similar conditions as to the scaeons. The loans at New York show the establishment of a resort. The farm-only about \$2,700,000 of increase as com-ers generally are disposed to make conpared with a year ago, notwithstanding that the loans for 1901 were \$57,000,000 nection with Portland, but there are man larger than a year earlier. BANKS OF GREAT CITIES.

Development of Loans and Deposits at Leading Points.

WASHINGTON, June 13.—According to the reports concerning the condition of the National banks of the leading cities of the country on April 30 hast there has not been a very large expansion in business as compared with the corresponding reports for last year. The date of the reports was only two days apart in 1960 and 1961, but there is a difference of six and 1961, but there is a difference of six days between the dates for 1901 and 1962, which makes a slight difference in the accuracy of the comparison.

cessions in order to get this railway section with Portland, but there are many

HOW NEWSPAPER ADVERTISING HAS GROWN.

The total amount expended annually in newspaper advertising 50 years ago was considerably under \$2,000,000, while last year no less than \$100,000,000 was so expended. In these 50 years the newspapers have proved their superiority over all other methods of advertising. They have increased vastly in numbers, in merit and in individual circulation. In the '50s the advertising agent was unknown and the ad-writer was undreamed of. The editor was, usually, his own proprietor, publisher and business manager. He accepted advertising, but he made no fuss about getting it. He charged what he could get, and had no regular scale of prices, or certainly none to which he had any thought of adhering. Then every paper was organ of some individual or party, and was ruled and governed from the editorial room. Now it is the business office that regulates and controls things. Of all the developments of the past 50 years none have been so marvelous as those which are associated with the evolution of the great 20th-century newspaper .- (National Advertiser.)

which itself represented an increase of acres and more are opposed and will not about 70 per cent within three years give anything. Those who do not give, of Cleveland has not done so well within course, will derive as much benefit as the past year, rising only from \$45,154,742 to \$45,655,364, which indicates a coesation of the great growth which took place between 1899 and 1901, when loans rose from \$22,674,913 to \$45,154,742. The growth at 16t. Louis, which was slow during the first two years after the panic, has of late should. When the road is built we will years been very marked, keeping pace in all have to pay fare and freight. years been very marked, keeping pace in nearly equal proportion with Pittsburg and Cleveland from 18% to 1858 and surpassing the former during the past year. Kansas City has advanced from small beginnings with loans of \$15,440,991 to \$34,185. 243 by the latest report. In the following table the volume of loans at the leading cities of the country at the date of the April report during the past three years have some land. It has been a little

In individual deposits the returns for New York show no important tendency to advance. Four years ago the National banks of New York carried individual de-posits of \$386,406,341. This amount rose on one who loves the beautiful. The materialistic side, she added by way of conclusion, means much in any future effort we may make to advertise Portland, and to advance what may be considered the best interests of the city.

The laddes of Portland make an urgent appeal to all the people of the community to land their head average of the community to land their head and the land their head average of the community of the community of the land their head and the land to the land their head to the community of the land the l 1901, and to \$46,788,813 in 1902. Milwaukee's the best paironage of the home people, deposits grew from \$33,840,000 in 1900 to who have never failed to patronize any \$36,647,339 in 1901 and to \$27,782,338 in 1902. But in Baltimore, Washington, Cincinnati, St. Paul, Detroit, Brooklyn and Albany the situation is either unchanged or else the returns for deposits show a distinct falling off. In many cases this decline must be explained simply as a reaction from what was a partly speculative in-crease during the two or three years which have just gone by. This is par-ticularly true in view of the fact that the National banking system is steadily growing, the annual number of organizations being very considerable. Just here, however, it should be remembered that a inrge part of the organizations are tak-ing place in the country and in the smaller cities, and that there seems to be a ten-dency to hold deposits more largely on the books of home banks in the smaller towns. The following table exhibits the individual deposits in the leading cities of the country by the Spring reports for the

FRUITGROWERS' ORGANIZATION. Foundation for Strong Association

Has Been Laid for Coming Year. Those fruitgrowers who have been working to form an organization in this county are pointing to the success that has attended the Hood River Association this year as further evidence of the advantage of such an association here. It is admitted that it is too late in the season to do more than make a start. Those who have been pushing the organization have determined not to let it drop, but will make use of what has been accomplished as the foundation of a strong fruitgrow-

ers' association, The corporation will be formed as con-templated, and membership will be steadily solicited until a large list is obtained. All this will be done with the view to effective work next season. This is the plan of C. H. Welch, president, and oth-ers in the movement. So far the grow-

ers have been receiving a good price for their berries, and the market has not been broken down. The canneries have

been paying \$ 1-3 cents for Wilsons, ac cording to agreement.

There has been no effort in the movement to organize, for there is now every reason to hope that it will result in the formation of an effective fruitgrowers' association which will enable the grow ers to reap the full advantage of their

work. A fruitgrower said yesterday that there was no sense in the fruitmen coming into Portland as early as they do at present. He said that he came in the other morning at 4 o'clock and found many wagons there ahead of him. "With an organization," he said, "there would be none of this. We can get in Portland by 5.20, and that is time enough. No hearthst that is time enough. No berries are sold before that hour, any way."

WATER FRONT PIRE PROTECTION. Specially Designed Hydrants Have

Been Cast for East First Street. The Phoenix Iron Works has just cast number of the big fire hydrants for the large water main, soon to be laid on East First street. These hydrants are provided with three 2½-inch hose connecprovided with three 2½-inch hose connections and one 4-inch connection for an engine, and the inside diameter is 5 inches. Any one of these hydrants will eat in Gresham. It will cost about 11600 when finished, which will be in about months.

With these hydrants placed at frequent points in that district ample protection will be afforded. The work of laying the 14-inch main for this district is going forward on East Market street. Most of the pipe has been distributed between East Twelfth street and the river, and a large force is employed in putting it under ground. The main will probably be laid on the entire route and hydrants placed by the

In a short time, however, Mrs. Humphrep heard a noise at the window as if an attempt was being made to open it. She arose and, looking out, saw the form of a man. She awoke Dr. Humphrey and he quickly got up. The would-be burglar ran around the house to the front gate and from thence down the street. Dr. Humphrey, in order to increase his speed, called out, "Shoot him," but the fellow was shooting along as fast as possible and was soon out of sight. The neighbors have reported petty thieving neighbors have reported petty thieving at their houses recently, but had missed Dr. Humphrey's house. The fellow is described by Dr. Humphrey as a rather heavy-set looking man, and a remark-ably fine sprinter.

Brooklyn School Closing. At the Brooklyn School, on Milwaukie street, closing and graduating exercises will be held Monday afternoon at 2:30, June 22. There are 10 students in the class. Richard Williams, of the Board of Education, will present the diplomas. Rev. Alexander Blackburn will deliver

the address to the class.
On Tuesday, June M. in the afternoon, the Brooklyn School will give a lawn fete for the benefit of the library fund. The programme will consist of vocal selections, callethenic exercises and other drills on the school ground. Lemonade and ice cream will be the refreshments.

Wood-Preserving Plant.

Fisher, Thorsen & Co., of Portland, will establish a tie-dipping plant for preserva-tion of ties at Troutdale. They have contracted with Stone & Rodland for some long ties to be delivered at Troutdale to be treated at this wood-preservative establishment. J. Stone, of this firm, was in the city yesterday, and said his firm had received a contract for delivering these ties at once, and from this he judged that the plant would soon be established.

Will Rebuild.

Groves & Yokers, whose sawmill near Cottrell was destroyed by fire Sunday Cottrell was destroyed by hre builds, will rebuild at once. They have been engaged in sawing out ties for a number of years, and think they will be justified in rebuilding as soon as they can get new machinery.

SCHOOL OFFICERS NAMED.

Districts in Eastern Multnomah Hold Elections.

GRESHAM, Or., June 18.-Election of school officers took place in the various school districts of Eastern Multnomah County on Monday afternoon, as follows: Gresham-D. M. Cathey, director; Lew-is Shattuck, clerk. Both were re-elected

Troutdale-Isanc N. Buxton, Director; F. E. Harlow, Clerk.
Fairview-George R. Shaw, Director; A.
L. Stone, Clerk.
W. Hale, Director

Powell Valley-George W. Hale, Direc-tor; F. O. Eckstrom, Clerk. Terry-John Bliss, Director; John Bramhall, Clerk. Rockwood-Len Lovelace, Director; 8.

J. Bliss, Clerk.
Orient-J. N. L. Shriner, Director; C.
M. Lake, Clerk. Sycamore Harvey Kesterson, Director; Gus Richey, Clerk. Lynch-George Cornellus, Director; Mar-

tin Kronenberg, Clerk.
Buckley-Fred Grotofhorst, Director;
John Buckley, Clerk.
Beaver-A. B. Conrad, Director; James
Mensles, Clerk.
District No. 1-J. S. Hall, Director; W.

D. Tegart, Clerk. Teachers were elected in several of the listricts on Monday evening by the new

boards, as follows: Orient-Leonard Merrill, principal; Miss S. Camille Milier, intermediate; Miss Lou-ise Maxwell, primary. Troutdale elected Mrs. Eva Endicott as principal, but deferred the election of the others teachers until another meeting of

the directors. Professor J. B. Lent was chosen prin-cipal at Sycamore, an assistant not being

Miss Myrtle Chamberlain was elected teacher of the Lynch School. She has taught there just one month, having suc-ceeded Miss Annie Shoemaker, who re-

Several of the districts voted on other matters, among them being a new schoolhouse for Rockwood, the contract for which was let to John Brown, builder of the Gresham Schoolhouse. It will cost about \$1000, and is to be finished by Sep-

In the Terry district the voters authorized a contract for repainting the build-ing and ordered 12 cords of wood for next Sycamore district voted to have the grounds, comprising about one acre, fenced and graded, and authorized other

minor improvements. Gresham district now enrolls 220 pupils, and four teachers will be elected at a meeting of the board next Thursday evening. All four rooms of the new build-ing will be occupied next term, and if the present growth continues the problem of

re room will have to be met in another In district No. 7 a resolution was adopted providing for a new schoolhouse, to be built and ready for use at the commencement of the Fall term.

Will Probably Rebuild.

Grove & Goger's tie mill, which burned near Kelso, Clackamas County, on Sun-day morning last, will probably be re-built soon. The boiler, engines and machinery were not very badly damaged, as the frame of the mill burned very rapidiy and the heat soon went down. This is the second time they have passed through a fire, and they are probably used to it by this time. The proprietors of the mill have ties at Troutdale worth about \$1500, and are located in a splendid growth of fir, having been cutting ties there but a few months. The origin of the fire is not known, but is supposed to have been incendiary. About 1000 ties were burned, also some lumber. There was no insurance.

chain were found, and in a strong box were deeds to property estimated to be worth \$50,000, but he lived like a man in dire poverty, and died uncared for and alone. A kitten, that was his only comcerning application for a patent that

Have found delight in the exquisite champagns of the Moet & Chandon Vintage. Today the sales of this famous brand throughout the world far exceeds those of any of its competitors. Importations during 1901 represent an increase equal to more than 100 per cent of the combined increase of all the other Champagne houses.—Adv.

If you are worn out from pressing business cares, Hood's Saraaparilla will give you renewed vigor.

WEATHER CONDITIONS. Spokane, Wash., and Havre, Mont. Elsewher. in the Rocky Mountain and Pacific Coast States fair and pleasant weather has provailed. It is warmer this evening in Oregon, Washington, Idaho, Northern California, Nevada and Utah. The temperatures reported this evening however, are but a triffe above the seasonable

average. The indications are for fair weather in this district during the next 24 to 38 hours. WEATHER FORECASTS. Forecasts made at Portland for the 28 hours

ending at midnight Thursday, June 18: Portland and vicinity-Fair; variable winds, mostly west to north. Oregon-Fair; warmer in east portion; variable winds, mostly northerly. Washington-Pair; warmer in east portion; ariable winds.

UP IN MINNESOTA The Women Know How.

Idaho-Fair and warmer.

Food, and good food, is the right kind of foundation to build good health on. A Minnesota woman writes, "I thought I would like to tell you of the good Grape. "Last Winter I got sick and kept get-

ting weaker and weaker. I could not eat anything but some crackers and a little cup of beef tea for every meal, and then I was put on Grape-Nuts and used it with some cream for breakfast. My stomach got strong gradually and before I had used three packages my digestion was so good that I could eat any kind of food, even cabbage, pastry, etc., and I notice that my memory is very much bet-

ter than it used to be.
"On the 5th of July I weighed 102 pounds, and two months later, after using Grape-Nuts, I weighed 122 pounds, and was able to do my house work.

"This is a good honest statement of facts about Grape-Nuts, and you can publish my name if you like." Mrs. E. Frederickson, Center City, Minn,
