DEED OF DRUNKEN MAN

PRINCIPAL AND VICTIM IN FOURTH PLAIN SHOOTING DIE.

Husband Kept His Promise Not to Annoy Wife Until He Became Intoxicated.

VANCOUVER, Wash., June 18.—James Hickey and wife, the principals in the tragedy at Fourth Plain yesterday, both lie in the morgue today cold in death. Hickey and his wife had had trouble for some time, and last Saturday agreed to separate, Hickey agreeing not to go near the house again, which he did not do until yesterday, when he became intoxicated and at once proceeded to his home armed with a revolver and a bottle of strychnine. Entering the house, he opened fire on his wife without warning, and emptied the five chambers of his revolver, all the shots taking effect in her body, though they did not cause death until 4:30 this morning, when the end came at St. Joseph's Hospital in this city, where she had been removed. After shooting his wife Hickey locked himself in his bedroom, and an officer with a warrant for his arrest was obliged to break open the door to gain access to his room. It was then discovered that he had taken poison, and Dr. Wait, who had been called for Mrs. Hickey, administered an antidote. He was brought to town and locked in the county jail on a charge of murder. He died in the night.

Four sons are left, the oldest being 18 years of age.

Suit Over Defunct Bank Stock.

Augustus B. Eastham, receiver of the First National Bank of Vancouver, Wash., is plaintiff in an action filed in the Superior Court today against David Wall, Katie and Caron P. Wall, of this city, in which the plaintiff asks for a judgment against defendants in the sum of $1500, with interest from April 26, 1902, and costs of suit, and that property in Clark County be sold to satisfy said judgment. Said sum is alleged to be due for 60 per cent assessment levied by the Controller on the shareholders of said bank. The defendants in the action are the holders of 25 shares of said stock, 15 of which are in the name of Katie Wall and 10 in the name of Caron Wall, to whom the stock was transferred by their father, David Wall, in 1897. The court is also asked to grant a decree annulling and setting aside said assignments and transfers, plaintiff alleging that at the time of the transfers of stock the bank was insolvent and the beneficiaries were and are still financially irresponsible.

WORK ON CAPITOL TO BE RESUMED

Material Arrives From the East for Washington's Building.

OLYMPIA, Wash., June 18.—It is probable that work on the construction of the Capitol annex will be resumed tomorrow. Today a carload of steel floor beams for the first story arrived from the foundry in the East, and as the columns are already on hand there is nothing to delay the immediate resumption of work on the building. The contractor now has on hand enough cut stone and plenty of brick to complete the first story above the water table, and long before this is finished the two other carloads of steel are expected to arrive, which will contain all the steel beams necessary except those for the roof.

The contract calls for the completion of the building on October 1, and if work is pushed from now on it is said by the architect and some members of the commission that the building should certainly be partly under roof by that time, in which case there will remain sufficient time for the building to be finished prior to the time of the assembling of the Legislature.

Contractor Goss, who inspected the carload of steel beams at Tacoma, is expected to arrive at the Capitol tomorrow to start things going, as the preliminaries have all been arranged by the construction company's foreman, who has been here for several weeks, getting things in order for the resumption of work on the structur.

Big Sawmill for Springfield.

EUGENE, Or., June 18.—The Booth-Kelly Lumber Company has finished surveying the land for the location of a new sawmill at Springfield, which will be larger than any of the company's mills now in operation. It will have a cutting capacity of 200,000 feet per day. The site is south of the railroad depot, and steam will be used instead of water power.

Fire at Hoquiam.

HOQUIAM, Wash., June 18.—Fire last night destroyed the Popular Restaurant, loss $1000; no insurance. The top stories of Veysey Bros.' store and the eGorge Heuton shoe store were also burned. There was no insurance on Veysey's store, and but $300 on the shoe company's stock. The fire originated in the kitchen of the restaurant; cause, unknown.

RAILROAD NEWS.

Mayor Vetoes Ordinance.

ASTORIA, June 18.—Mayor Supreanat has vetoed the ordinance passed at the last session of the Council, limiting the speed of railway trains to four miles an hour inside the city limits. The Mayor, in his veto, says the measure is unreasonable and unjust, as if it was in force a train would require about one and one-half hours to pass through the city, which would be an unnecessary hindrance to the traveling public without corresponding benefit to anyone. While the ordinance received the unanimous vote of the Councilmen, the indications are that it will not be passed over the veto, at least not in its present form. Astoria has no law at present regulating the speed of trains, and the intention now is to amend this measure at the next meeting so as to limit the speed to six miles an hour between Fifth and Twenty-third streets, and to 15 miles an hour in other portions of the city.

Fast Denver-Memphis Service.

SOUTH M'ALESTER, I. T., June 18.—It is stated authoritatively that the Choctaw, Oklahoma & Gulf Railway will on June 29 inaugurate daily through train service from Memphis, Tenn., to Denver, a distance of 1236 miles. The new train will be known as the Denver Flyer, and will make the trip through in 48 hours. The flyer will leave Memphis about 8:30 P. M., and will connect with the Southern train for New York, the San Francisco train from Birmingham, with New York sleeper attached, the Nashville, Chattanooga & St. Louis from Chattanooga and the East; the Louisville & Nashville from Cincinnati, Louisville and New York, and the Illinois Central from New Orleans. The equipment will be the finest possessed by the Choctaw road.

Underground Railroad Station.

NEW YORK, June 18.—Plans for the tunnels to be built by the Pennsylvania Railroad, filed with the Rapid Transit Commission, show that a mammoth subordinate station will be constructed under Thirty-third street, and extending from Fifth avenue nearly to Lexington avenue. The main entrance will be at the Park-Avenue Hotel, and another entrance at Fifth avenue in the rear of the Waldorf-Astoria. The concentration of traffic at this point and the immense space the station will occupy will make it almost as important as the main station, which will occupy four blocks west of Seventh avenue.

Will Abandon Dangerous Line.

GUTHRIE, O. T., June 18.—Governor Ferguson has been notified by the general solicitor of the Rock Island that the company will abandon that part of the Choctaw Northern track through the hills between Geary and Salton, Okla., and build a line from Salton to Hitchcock, running both the Choctaw and Rock Island trains over the same line from Hitchcock through Watonga to Geary. This became necessary on account of dangerous trestles and a grade of 80 feet to the mile in the hills.

Opening the Seaside Season.

The O. R. & N. steamer Potter will make its first trip on the season's seaside schedule June 23, leaving at 12:20 P. M. After that it will make daily trips through July and August, the leaving time depending on the tides at Ilwaco. The steamer will stop at Astoria in passing both ways. The season will be opened with an excursion from McCammon and points north on the Oregon Short Line, which will arrive in Portland on the morning of the 28th, giving the excursionists several hours in Portland before leaving on the steamer for Long Beach. A special train will be run for the excursion.

To Increase Its Capital.

NEW YORK, June 18.—The board of directors of the Illinois Central Railroad Company today recommended that the capital of the company be increased from $79,200,000 to $94,640,000. The recommendation will be acted upon at a special meeting of the stockholders in Chicago, August 29. The funds are to be used in providing additional tracks and equipments.

Sale of Danish West Indies.

COPENHAGEN, June 18.—The opponents of the sale of the Danish West Indies to the United States are again active, but privately they admit that they are meeting with little success. The response to the appeal for funds to aid in the movement in opposition to the sale was decidedly weak. The Danish West Indies treaty will be a prominent issue of the campaign preceding the election to the Landsthing. The Premier, Dr. Deuntser, sails on a speechmaking tour next week.

GUARD E. M. CARSON, OF WALLA WALLA, AND HIS BLOODHOUNDS

Photo by J. A. Meiser, Vancouver, Wash.

PROMINENT IN SEARCH FOR CONVICTS TRACY AND MERRILL.

THE CHASE IS GIVEN UP

(Continued from First Page.)

bert Nunn, who was a member of the Fourteenth Regiment, United States Infantry, during the campaigns in Cuba and the Philippines, handled his little band with good judgment. Sergeant-Major Purcell and Sergeant Maxey have also seen service in the philippines.

Militia Espies Convicts.

Toward dusk Privates Porter and Lounsbury were returning from a farmhouse in the vicinity, when they observed the figures of two men on a small hill, watching them at a distance of 150 yards, and it was seen that the strangers carried rifles. Lieutenant Nunn was informed of the occurrence, and by this time the strangers, whom it was believed were Tracy and Merrill, drew back into the brush.

The militia boys were thrown out on skirmishing order to tempt the outlaws to fire and reveal their hiding place, but they did not show their hand. Word was sent to La Center to bring along the bloodhounds, and in the meantime the militia boys did not fire, as they were not at that time sure that the strangers were Tracy and Merrill. But when the hounds did arrive they failed to find any scent.

Militia Fires Into Brush.

One sharp-eyed militia boy, however, discovered a track on the trail leading to the hill, with the boot mark of the right outstep, corresponding to a boot worn either by Merrill or Tracy, it is not known which. Sure this time that it was really the outlaws on the hill, the militia boys sent a volley of lead through the brush, but there was no response. The hill was afterward gone over thoroughly, without result. The inference is that if Tracy and Merrill had been on the hill they scurried away to the place they tied their horses and swiftly rode away.

Convicts Keep Jogging Along.

Five hours later two horsemen were seen riding along a by-path in timberland, three-quarters of a mile west of La Center, and farmers' dogs in the vicinity began to howl. Two guards who were patrolling the crossroads came running in time to see the two horsemen disappear in the gloom of a hill. This was the last alarm of the chase.

"Won't the morning light ever come?" said one tired member of the little band. All through the night vigilant guard was kept, and while one hunter slept others took their turns at watching and vice versa. The bloodhounds bayed at the man in the moon. Bright and early this morning the chase was resumed, but all energy seemed gone. There was absolutely no clew, and one by one the manhunters came home. Detectives Day and Weiner struck for Portland. The militia boys came home on bicycles and in carriages.

Bridges Still Guarded.

Sheriff Marsh, after leaving deputies to remain guarding approaches to the Lewis River, to prevent the convicts from crossing the stream, left for Vancouver and arrived here at 8 o'clock.

"I am too tired to talk. I am going back if I get another clew," he said to an Oregonian man. It was observed, however, that the Sheriff was not too tired to answer a volley of questions as to the why and wherefore from a crowd of citizens in front of a cigar store.

Mrs. Minnie Tracy, of Chicago, who claims to be the wife of the escaped convict-murderer.

MAP OF CLARK COUNTY, SHOWING RECENT COURSE OF CONVICTS TRACY AND MERRILL.

MERRILL'S BROTHER TO HIS AID.

Says Officers Must Kill Him if They Capture Convict.

TACOMA, Wash., June 18.—Reinforcements are on the way to join the fugitive Oregon convicts, Merrill and Tracy, being hunted through the southern part of this state. This suporting force consists of Ben Merrill, a brother of David Merrill, one of the escaped murderers. Ben Merrill has for some time been employed in one of the lumber camps on Anderson Island. This morning Merrill left camp, saying he was going to the aid of his brother. "Blood is thicker than water, and if they take my brother, they have got to take me first," he said.

Mr. Bloom, the employer of Merrill, says that during the chase of his brother, Ben had evidenced great uneasiness. This morning he demanded his pay, stating that he was going to join his brother in his fight with the officers. Bloom argued with him in the matter, and told him that as he had never been in trouble, he had better keep out of it now. All of his arguments failed of effect, however, for Merrill started away, saying that if the officers killed or captured his brother, they would have to kill him, too. Upon leaving the Anderson Island camp he had about $35 or $40 in cash. It is not known whether he was armed. It is believed he took the boat from the island for Olympia, and will make his way south toward Vancouver, near where the murderers were last reported.

DETECTIVES BACK FROM SEARCH.

Day and Weiner Return From Hunt for Tracy and Merrill.

Detectives Day and Weiner, who went to Vancouver to assist in the search for Tracy and Merrill Tuesday morning, returned home yesterday, looking greatly fatigued after their hard night's work. In speaking of the trip Detective Weiner said that all the officers fared alike, and none of them was having any easy time of it. Tuesday, he said, he and Day, in their search for the convicts, tramped from Vancouver to La Center and thence to the forks of the Lewis River, where they kept a sharp watch until midnight. As the river is very shallow at this point, it was thought that Tracy and Merrill would attempt to wade across it, but neither of them appeared. About midnight the detectives walked back to La Center, five miles away, and arrived there tired and chilled. Asked if he had met many people who had seen the convicts, Weiner said a number of farmers had stated that they had met men answering the description of Tracy and Merrill, but they were not positive that they were the convicts, and took no chances of shooting innocent persons.

"In my opinion the ony way to catch the convicts," said the detective, "is to place men who know them both on their trail. Farmers and others who might meet them and not positively recognize them from the pictures and descriptions would hesitate to shoot at them for fear of killing innocent men, and a request that they identify themselves would simply bring a fusillade. Tracy and Merrill are not going to be taken without an exchange of shots, and a few men who know them well by sight and know when it is necessary to shoot can do more than a big party."

MORALITY IN SCHOOLS.

A Few Comments on the Recent Article by Dr. Chapman.

VANCOUVER, Wash., June 17.—(To the Editor.)—The Oregonian of June 5 contained an article on "Morality in Schools," by Dr. Chapman, upon which, with due respect to the writer, we wish to make a few comments.

First—"That we support the vast machinery of the church to teach morality, and not the school system." Much depends upon what is meant by morality. A man may be moral in every sense of the word and still not be a Christian. The church does not now, nor did it ever, teach that a moral man was a saved man. The Pharisee was an over-righteous moral man; the Publican a penitent transgressor; yet who was the more justified?

"Let a man hint that the church is a parasite upon civilization and will not a host of ministers shriek in reply that the church alone keeps the world from moral rottenness."

Yes, most assuredly they will, and so will all the thinking men and women of this age say the same thing, though hardly in such a demonstrative manner. Why have we our great Christian America? Where our great civilization? From Aristotle, Confucius or Mohammed? Or was it left us by the Indian tribes of America? Was it education alone that has made our school system the power it is? Rome had one of great learning, great philosophers, art, sculpture, everything that wealth and the mind of man could devise; but Rome and Greece were impure to their very cores, and with all their learning, art and wealth, fell.

They, too, possessed a great army of educated men who called themselves teachers or philosophers. But which one of them today lives in the hearts of men? How many today even know their names? Do we see the influence of their teaching today? Is there one of their writings and books exerting the influence for good over men, women—yes, and nations, that the teaching and example of the Greatest Teacher of mankind are doing? Did Dr. Johnson say "morality was stern and virtue surly"? Perhaps, but the life void of either is a menace to humanity from which we shudder and draw back. But which nothing but the power of him who is before the church or its teachers can save, who has a greater, a broader, a higher plan, which is neither "surly," "feminized," or given over to "delicate hysteria," and does not substitute "sociology" for "virtue," or with the cloak of "charity" cover an immoral life," nor does it pretend to throw its duty upon the "poor school." That school is poor indeed which has for its teacher a man or a woman who dares for a moment to infer that he or she does not find it necessary both by word and deed to teach the young minds the great necessity of morality, greater than that of mere book-learning. Is there a mother in the land who would send her young daughter to such a teacher?

Second—"It is true that the modern family, in which the women dominate, has ceased much of its moral function." Who can truthfully make such a statement as this against the womanhood of America? That home life, because of their influence, is decaying, or throwing their responsibility upon the schools. If the Almighty in his great wisdom could trust his children, the mighty men of the earth who have become powers for good here and for all time, to the care and keeping of womankind, and evidently facts demonstrate they have kept their trust faithfully, surely Dr. Chapman can find no fault. Our greatest and noblest men, both statesmen and writers, have spoken and written, with greatest respect, tenderness and admiration for womankind in general, and we respect them for it.

"Our modern immoral church and decaying families are the results of the dominance of woman, who is a hysterical creature."

Is she? Why, then, does our school system entrust to her care and teaching yearly thousands of children, with which the greatest gentleness and firmness is required?

Why are they employed in the hospitals as nurses, scores of lives depending upon their watchfulness and care, and are considered either as teachers or nurses equal to or better than men?

"When men reassume their rule they will attend to teaching righteousness without calling on the public schools."

How long since has man ceased to rule? We are daily reminded of his power to rule in the saloon, and its work throughout the land. And it is high time he bestirred himself to "the teaching of righteousness" in that direction. We have noticed the inmates of our penitentiaries, jails and reform schools are mostly men and boys. Was it their morality or teaching of righteousness that brought them there? Or is the absence of womankind at those places due to their supposed "attacks of hysteria"?

"The Baptist church has her Rockefeller." She has also many other eminent good men who are not mentioned.

"The Episcopal church its Pierpont Morgan." Yes, it also has its Bishop Whipple, a grand, glorious man; its Bishop Gilbert, and Maker, the two first named who have passed from the church militant to the church triumphant. She has also her Dr. Livingston, the great explorer, and her Gladstone.

He speaks of our "great degeneracy." Let us go back a little and see whether the world is growing better or worse. Who would not rather live at this present age of the world than under the reign of the Caesars, or Henry VIII, or any of his predecessors or successors; who would not live in Christian civilized America, than in China, Turkey or India? Who is not proud of our country, our nation, our flag, and our great liberty, which has been bought with a great price—for the price of liberty was death. The price of that glorious liberty wherein Christ has made us free has been paid, and in that great liberty there is neither bond nor free, Jew or Greek, male or female, and having knowledge of these things, we, too, are thankful.

FLORENCE A. DAVY.

Wounded by His Own Dragoons.

BERLIN, June 18.—General von Bockund Pollach, commanding a division of the German Army, has been seriously slashed by the lances of his own dragoons. The General's accident was a singular one. During the exercises the troops of General von Buckund Pollach's command were charging across the field at Tilsit, in Prussia, when the bugle suddenly sounded "about face." The General was immediately in the rear of the line of charging troopers, and after they turned he was caught among the lances and wounded. The men did not know the General was following them. He was seriously wounded in the head and neck, and was carried to a hospital.

Arguments in Sealing Case.

ST. PETERSBURG, June 18.—The Dutch Jurisconsul, Dr. Asser, a member of the permanent arbitration court at The Hague, who was appointed arbitrator in the matter of claims for damages made by the United States against Russia on account of the seizure of American sealing and whaling vessels off the Siberian coast, will begin to hear arguments in the case June 27.

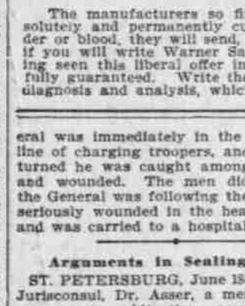
92 YEARS OLD, KIDNEYS HEALTHY

MRS. REBECCA SMITH, OF WESTFIELD, N. J., WHO IS 92 YEARS OLD, WAS CURED OF KIDNEY AND BLADDER DISEASE, AND IS KEPT PERFECTLY HEALTHY BY WARNER'S SAFE CURE. A TRIAL BOTTLE OF THIS GREAT CURE SENT ABSOLUTELY FREE TO ANY READER OF THE OREGONIAN.

Doctors say: "Almost Every One Has Kidney and Bladder Troubles Before Fifty Years of Age."

"SAFE CURE" A GODSEND TO SUFFERERS

On November 18, 1901, Mrs. Smith says: "I was 92 years old my last birthday. My husband was a veteran of the Civil War. I have a daughter and eight grandchildren living. Some years ago I had a great deal of sickness, and for a long time did not know that it was caused by the diseased condition of my kidneys and liver. As soon as my doctor found I had kidney trouble he prescribed Warner's Safe Cure. I had experimented with other remedies, which did me no good whatever, but as soon as I took a few doses of Warner's Safe Cure I felt better, and a few bottles completely cured me and made me feel like a woman thirty years younger. My kidneys, liver and bladder are in just as healthy condition since I have used Warner's Safe Cure as they were fifty years ago. It is a greater medicine than it is claimed to be. Notwithstanding I am 92 years old, I possess a good head of hair, my sight and hearing are good, and since I have used Warner's Safe Cure I have enjoyed the very best of health. I cannot speak too highly of this great medicine. No doubt it has saved the lives of thousands of people who would have gone to early graves had they neglected their kidneys and bladder and not taken Warner's Safe Cure. It is truly a Godsend to any one who is troubled with diseases of the kidneys, liver or blood.



MRS SMITH, 92 YRS. OLD.

Kidney disease, if neglected, quickly spreads and causes serious complications; such as Bright's disease, gravel, uric acid poison, rheumatism, rheumatic gout, dropsy, indigestion and liver trouble. Every one should make a test, and if the slightest trace of kidney disease is found to exist, no time should be lost in sending for a trial bottle of Warner's Safe Cure, which is guaranteed to cure any diseases of the kidneys, liver, bladder or blood.

THOUSANDS OF MEN AND WOMEN HAVE KIDNEY DISEASE AND DO NOT KNOW IT UNTIL IT IS TOO LATE.

TEST YOUR KIDNEYS. Put some morning urine in a glass or bottle; let it stand for twenty-four hours. If then it is murky or cloudy or contains a reddish, brick-dust sediment, or if particles or germs float about in it, your kidneys are diseased. This is the supreme moment, when you should begin to take Warner's Safe Cure to arrest all these unnatural conditions, for they are the unmistakable symptoms of kidney disease. If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send us a sample of your urine, and our doctors will analyze it and send you a report, with advice, free.

Warner's Safe Cure

Is purely vegetable and contains no narcotic or harmful drugs; it contains no sediment, and is pleasant to take; it does not constipate; it is now put up in two regular sizes, and is sold by all druggists, or direct, at

50 CENTS AND $1.00 A BOTTLE.
(Less than one cent a dose.)

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

Refuse substitutes. There is none "just as good as" Warner's. Insist on the genuine Warner's Safe Cure, which always cures. Substitutes contain harmful drugs, which injure the system.

TRIAL BOTTLE FREE

The manufacturers so firmly believe that WARNER'S SAFE CURE will absolutely and permanently cure any diseased condition of the kidneys, liver, bladder or blood, they will send, postpaid, without any cost to you, a large trial bottle, if you will write Warner Safe Cure Company, Rochester, N. Y., and mention having seen this liberal offer in The Oregonian. The genuineness of this offer is fully guaranteed. Write the medical department for advice, medical booklet, diagnosis and analysis, which will be sent you free of charge.

Hotel Brunswick, Seattle.
European plan. Popular rates. Modern improvements. Business center. Near depot.

Tacoma Hotel, Tacoma.
American plan. Rates, $3 and up.

Hotel Donnelly, Tacoma.
First-class restaurant in connection.

DON'T GET IN A SWEAT

Perspiration—"sweat" is what the Bible and we common people call it—is a way nature has of driving out of the body refuse that has no business there. We sweat more in summer, because, in the overheated bowels, undigested food ferments more quickly than in winter and produces irritating acids and gases. The bowels, overworked, try to relieve themselves by violent convulsions, causing terrible gripes and colics, and diarrhoeal discharges so acid as to make you sore, and leaving the intestines weak and worn out. Nature assists body-cleaning by sending the filth out through the pores of the skin. It is not safe to stop perspiring altogether but most of the impure matter should be sent out by the natural movements of the bowels, and the offensive, ill-smelling, linen-staining sweat done away with. Keep your bowels strong all summer with the pleasant, candy cathartic CASCARETS, that clean the system and don't allow the excrement to be sweated out through the pores. Take a tablet every night, before going to bed. They work while you sleep and make you feel fine and cool all day.

cascarets

Best for the Bowels. All druggists, 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C C C. Guaranteed to cure or your money back. Sample and booklet free. Address Sterling Remedy Co., Chicago or New York.
